Mark Ten Suis Bazaar! Second St. Cor Marion Japanese and Chinese Fancy Goods. Just received thirty different patterns of Matting, thirty-five Curios, silk, and 200,000 Paper Napkins, from Kobe, Japan. Very cheap. Come and inspect.

Exciting Struggle in Portland Over Consolidation. ON THE LOOKOUT FOR FRAUD. Particulars of the Recent Train Wreck Near Revelstoke, B. C. Only Two Men Killed—A Millhand Drowned in the Willamette—A Corps in Victoria Harbor—Walla Walla Lynchers Said to Have Confessed.

PORTLAND, May 29.—[Special].—The one topic of general interest here at present is the question of consolidation. The election takes place Monday, and it will be decided whether or not Portland will jump from a city of 45,000 to a city of 80,000. If consolidation carries the Portland boundaries will include the cities of East Portland and Albina and the towns of St. Johns, Sunnyside, Portsmouth, Piedmont, South Portland, Woodlawn and Fulton Park. For the past three weeks mass-meetings have been held in different parts of the city every night, and the greatest possible enthusiasm has been aroused.

For a while it was thought that the only way consolidation could be defeated was by ballot-box stuffing and repeating, but today an entirely new stratagem was unearthed in the camp of the enemy. It has been figured out that only 5,400 votes can be cast if the voters deposit their ballots all day at the rate of three votes to the minute.

There are only three polling places in Portland proper by the provisions of the consolidation bill. Heretofore there have been from five to seven. The existing population of the city is between 3,000 to 10,000, so it is seen that not much more than half a vote can be cast, even if the ballots are deposited at the rate of three a minute for ten hours without interruption. The use of the anti-consolidationists is to get 300 or 400 of their men in line at each polling place early in the morning, and after all their men are voted obstruct consolidation by challenging voters. This is perfectly legal, and in the greater fear of those favoring consolidation, the consolidation forces are so well organized that it will be difficult to defeat consolidation by any other trickery or fraud.

THE CANADIAN PACIFIC WRECK. Only Two Men Killed at Revelstoke—Property Loss Small. VANCOUVER, B. C., May 29.—[Special].—An accident occurred on the Canadian Pacific Railroad near Revelstoke yesterday, in which a freight train and engine were derailed. The train was carrying a large quantity of lumber, and the engine was carrying a large quantity of coal. The accident was caused by a small wooden bridge, which was more than a culvert, was burned down, and coming over the road on a down grade, a freight train and engine were derailed. TO STOP THE POACHERS

Parliament Asked for an Order in Council. THE CLOSE SEASON INDEFINITE. Lord Salisbury Approves Plan to Restore Palestine to Jews. Rothschilds and Others Favor the Proposition—Gladstone Fears to Offend Russia—Dynamite Having Been Removed, the Car Vizits Moscow.

LONDON, May 29.—[Associated Press, Copyrighted, 1891].—A measure of the importance of the Bering sea bill is rarely read the first time in the commons without the ministers affirming the house fully particulars than they vouchsafed today regarding its provisions. The members listened with strained attention to Smith, expecting to learn the terms of the agreement with the Washington City government, and great was their disappointment when he stopped short after uttering a formal request for permission to bring in a bill to enable the queen by an order in council to make a special provision to prohibit the catching of seals in Bering sea by her majesty's subjects during the period named in the order. Questions put to the ministers in the lobby elicited nothing but a statement that they are awaiting a final response from Washington City. Smith reiterated an assurance that the arrangement already secured harmonizes the action of the British government with that of the American government. Other ministers express themselves as certain that the measure will meet with approval of parliament in the house and country, and will lead to a permanent settlement of the dispute.

THE CZAR AT MOSCOW. Lord Berkeley's Perfidious Treatment of a Servant Girl He Married. LONDON, May 29.—The committee of privileges of the house of lords has held evidence in the morning on the case of the Countess of Berkeley, commonly known as Viscountess Dursley, the earl of Berkeley, in opposition to Baron Fitz-Hardinge Berkeley. Counsel in behalf of Baron Fitz-Hardinge Berkeley, in opposition to the countess, is the name of the servant girl Mary Cole, and falling in the attempt, secretly married the countess, and then conspired with the chaplain who performed the ceremony to destroy the proof of marriage. The claim depends upon whether the fifth earl of Berkeley died or not before the countess's marriage with the oldest son. Much interest is taken in the case.

THE GAMBLER'S LOSSES

How Treasurer Bardsley, of Philadelphia, Was Ruined. MORE CROOKED BANKS FOUND. They Paid Interest on City and State Money, Violating Law. Directors of Spring Garden National to be Prosecuted—A Clue to Fugitive President Marsh—Business Failures—A Blow at Trusts.

BOSTON, May 29.—Leonard A. Whitney, broker, has failed. Liabilities \$38,000, of which half is secured by stocks. NEWTON, Mass., May 29.—J. N. Leonard & Co., silk manufacturers, have failed. Liabilities \$135,000. PHILADELPHIA, May 29.—A sub-committee of the finance committee of the city council, which has been investigating Treasurer Bardsley's accounts and financial dealings, resumed work today. George Hunn, of the stock brokerage firm of Glendennin & Co., produced the books of the firm and memoranda showing that in 1880 Bardsley purchased stocks aggregating in cost \$450,000. From April 8, 1890, to February 23, 1891, the firm borrowed from Bardsley the enormous sum of \$921,000. All of this money, according to the books of the firm, had been paid. During the financial stringency Glendennin & Co. advanced Bardsley \$250,000, the loan being secured by various stocks. Bardsley wanted half a million, but they did not have it. He then began selling his stocks, and the market being weak, the sale aggregated \$200,000. It was ascertained that at least \$35,000 of stock put up as collateral by Bardsley was not bought through Glendennin's house, thus showing that Bardsley had heavy dealings elsewhere. A city contractor testified that the same stock was sold to the city from a quarry owned by Bardsley.

Late tonight the prison physician was summoned to Bardsley's cell, and finding him very ill, recommended that he be at once placed in the hospital, which was done. The Evening Telegraph says: Suits will be begun in a few days against Nelson F. Evans, the director of the Spring Garden National bank, who was so strongly urged for the government's appointment as receiver of the Keystone bank by William Young, also a director of the Spring Garden bank, and against H. Albrecht, an ex-director, now president of the American Machine Company, which was seized by the government in the days ago. It is known that nearly \$200,000 of Evan's indebtedness to the bank is in his own and other persons' name and on practically worthless collateral, and he has also overdrawn his account. The exact relations of Young and ex-Director Albrecht to the bank as debtors has not been fully ascertained, although it is known they are connected with fraudulent over-issues of the stock of the bank.

John Bardsley, city treasurer of Philadelphia, was arrested on city today to answer the triple charge of misappropriating \$39,000 of the city's money, embezzlement of \$400,000 and upwards of state funds and perjury by violating the oath of office by loaning to the city money out at interest. The district attorney said the books in the treasurer's office showed a balance in the Keystone bank of \$900,000, while in fact there was only \$400,000 there. In the cash drawers of the treasurer's desk were checks on the Keystone for \$200,000. These Bardsley took to Bank Examiner Drew, and asked to have placed in his credit in the Keystone. A similar state of affairs was shown in regard to the money belonging to the city. District Attorney Graham asked that Bardsley be held on a charge of misappropriating city funds, and the magistrate agreed. The state funds matter was then taken up, and it was shown that Bardsley had drawn on the funds at interest to a number of bankers. Bardsley himself took the stand and said: "I did put money in the Keystone bank, and will have to take what the law may give me. I got as high as 10 per cent. interest for my money. I deposited money and took due bills for it, as is done every day, and when the bank failed I lost money." After it had been testified that Bardsley kept a private account in the Keystone bank, the district attorney's bank, Chestnut Street National, People's National and Farmers' and Mechanics' National, Alexander held a consultation with his client and decided that he should tell the names of the banks that were used, and that he should be paid by the above-named banks except the Farmers' and Mechanics'. The district attorney rested his case, and said that as he was unable to prove today the charge of perjury, he asked that Bardsley be continued to June. Bail was fixed at \$100,000 on the charge of misappropriation of city funds, \$35,000 on the charge of embezzlement of state funds, and \$50,000 on the charge of perjury. It is not expected that Bardsley will be able to obtain his bail.

Bardsley, talking with detectives, said: "I tell you, gentlemen, I have been in hell for the past six months. I thought things would come out all right, but they did not, and I am now in a bad way. My friends' action has been a great disappointment to me. He should have been more courageous and remained in town, but he has proven himself a coward by running away. I had thought that he would go on, but he will remain where I am and accept whatever punishment the law places upon me." LYNN, Mass., May 29.—N. J. Mooney & Co., manufacturers of ladies' and children's shoes, have assigned. The failure is said to be heavy. WILMINGTON, Del., May 29.—President Marsh, of the defunct Keystone bank, of Philadelphia, was in the town of Smyrna, a mile below this city, yesterday. He left on the train for Eastern Maryland, where he is now.

A Blow at the Celluloid Goggles. ALBANY, N. Y., May 29.—Attorney General Feltner has decided to begin action against the Celluloid Novelty Company and Celluloid Celluloid Company for violation of the copyright laws. The action is the only one now pending on exactly the same lines as the sugar trust.
