

WAS SPLIT THE UNION

Far-Reaching Effect of the Manitoba School Fight.

PROVINCES JEALOUS OF RIGHTS

Likely to Result Enactment of a Coercive Federal Act—Conservative Victory May Shatter Dominion.

Ottawa, Ont., March 29.—Although full particulars of the action taken by the Dominion government regarding the Manitoba school question have been before the public for some days, it is only now learned that this action is not being fully understood.

The provinces have always been jealous of their rights of self government, and an attempt to encroach on these rights by the passage of a federal law to accomplish a provincial object will evoke a vigorous protest from every member of the confederation outside of Quebec.

It is probable that the re-establishment of separate schools will be done by a federal enactment following Roman Catholic taxpayers in Manitoba from local taxation for public schools, and giving Roman Catholic school boards power to levy rates on their own people for the maintenance of their own schools.

What the Republicans Will Do. Bridgeport, Conn., March 29.—At a Republican banquet last night Senator Frye said: "Give us Republican rule for a single decade, and we will show the people the beneficence of Republican legislation."

Senator Ekins in California. Los Angeles, March 29.—Senator Stephen B. Ekins, accompanied by his family, arrived here from Mexico today. He says he has become convinced during his stay in Mexico that the United States suffers through lack of business relations between this country and Mexico.

Abandonment of Fort Townsend. Tacoma, March 29.—Special—Lieut. Mitchell, with four soldiers, the hospital corps of five men, a number of army mechanics and a number of civilian property, passed through the city today, going from Fort Townsend to Fort Vancouver.

The Boat Race Today. Star and Garter, Putney, March 29.—The fifty-seventh boat race between crews representing the universities of Oxford and Cambridge will be decided tomorrow. The hum of oarsmen and rowers there is continuous.

AMUSEMENTS. Last Performance of "Falke". The Fyke Opera Company more than redeemed itself in its second presentation of that delightful comic opera of "Falke," and gave a very even and satisfactory performance.

CONDENSED DISPATCHES. The Minnesota legislature is taking action on the application of Superior, Wis., to the former state. Wickoff, Minn., was almost completely wrecked by fire Thursday.

NOTABLE DEATHS. State Senator Robert Turner, of Idaho Springs, Col., died Friday of consumption. He was elected to the legislature as a Democrat in 1928.

BARNYARD MANURE. Speaking of barnyard manure, Prof. Bailey says there are some scientific reasons for the high esteem in which this manure is held.

Cut Worms. St. Louis Globe-Democrat. Cut worms can stand any degree of cold, but cold and moisture destroy them.

Law and Order in Georgia. Atlanta Constitution. "Do you belong to the Law and Order Society, mother?"

Miss Helen Sells. Mrs. C. F. Moore & Co., Newberg, Ore., says "My wife is not a certain Oreg. Remedy than all other put together, and it always gives good satisfaction."

Highest of all in Leavening Power—Latest U. S. Gov't Report

THE ARMENIAN ATROCITIES.

Turks Were So Cruel That Even the Kurds Were Shocked.

London, March 29.—The Earl of Kimberley, secretary of state for foreign affairs, in receiving a deputation of the Armenian Association expressed warm sympathy with the objects of the association, and said that the government was doing its best to make the inquiry into the outrages in Armenia as thorough and searching as possible.

London, March 29.—The Times publishes a long report on the Armenian atrocities, written by a competent and trustworthy man who made a personal investigation on the spot. This report was written in January, but arrived in London only yesterday.

The account proceeds to confirm the pit incidents and the report of the governor of Bitlis reading the sultan's decree ordering the Kurds to destroy the districts, sparing nothing, for their sultan and prophet. This occurred about the middle of August, and the massacre which followed beggars all description.

A correspondent who has recently made a special investigation of the atrocities attached great importance to the statement of a Kurd who killed many innocent women and children in Sassoon. The correspondent took this man's deposition about the middle of August, and the massacre which followed beggars all description.

C. H. Yatman at the High School. Rev. C. H. Yatman gave an interesting address to an audience of 40 students at the high school yesterday afternoon. Mr. Yatman talked about sunshine and success, showing the necessary relation of one to the other.

THE AFRICAN GOLD FIELDS.

Product Steadily Increasing—\$1,935,000,000 May Be Expected.

A report by Mr. Hamilton Smith upon Witwatersrand gold fields was published in the London Times two years ago, based upon an examination of the Rand in 1912. His estimate of the Rand's potential, remaining there from August to December, 1914. In the former report his belief was stated that in a few years the gold production of the Rand would increase to a value of over \$20,000,000 per annum, and that a total yield of \$23,000,000 in gold could be reasonably expected from this source.

The Times adds: "Since 1912 work has been carried on more vigorously than ever before in about sixty mines owning claims at and near the surface outcrop of the main reef series. Many vertical boreholes have been put down by diamond drills, one having reached the great depth of nearly 2,000 feet. Mr. Smith believes that at a horizontal distance of three miles from their outcrop the reefs of the main series are probably 3,000 feet, or about two miles, beneath the surface. At a distance of two miles depth as a rule, will be quite one and a half miles.

Mr. Smith goes on to say: "In 1914 the value of the Rand gold bullion was \$7,000,000, and this without any increase from the new deep level mines; these latter will become fairly productive in 1917, and will probably add fully \$20,000,000 to the first appearance, the maximum product of the Rand will be reached about the end of 1920, when it will probably exceed \$2,500,000,000."

The Rand gold bullion was \$7,000,000, and this without any increase from the new deep level mines; these latter will become fairly productive in 1917, and will probably add fully \$20,000,000 to the first appearance, the maximum product of the Rand will be reached about the end of 1920, when it will probably exceed \$2,500,000,000."

The Sweet Potato for Profit.

Alabama Gov. Orange Judd Farmer. Alabama Gov. Orange Judd Farmer has made a study of the sweet potato crop that he raised. They will make from 20 to 60 bushels per acre; 1,000 bushels have been made, but under extraordinary circumstances, such as a yield of 30 bushels, and at only 25 cents a bushel, they have 5-cent cotton a long way.

RIOTING IN THE COUNCIL

Chicago's Boodle Aldermen Give Away Streets.

TO A RAILROAD COMPANY.

Against the Protest of the People, Who Call Them Judases, Thieves and Hoodlums.

Chicago, March 29.—For a short time this afternoon the city council was the scene of a riot in the committee room of the city council. It resulted from the discussion of an ordinance granting the Calumet & Blue Island steam rights along the lake shore in the suburbs of Chicago.

Allderman Coughlin tried to stop this kind of talk, but he was balked by Taylor, who turned in again and said: "Why don't you fellows come to us when you want money? We have lots of money."

Allderman Kniz tried to make himself heard, but he was shut off with a charge that he was wearing the railroad's colors. And this was succeeded by another chorus, alleging that divers and sundry aldermen who were members of the committee had taken money to vote for the ordinance.

JOHNNY CONSIDNE BEATEN.

The Spokane Council Passes an Ordinance to Close His Dive.

Spokane Chronicle.

At 5:30 o'clock Tuesday afternoon, after three hours of heated discussion, the ordinance which forbids the selling or giving away of spirituous or malt liquor in variety theaters passed the council by a vote of 9 to 6.

The arguments both pro and con were eloquent and forcible, but so well balanced that not a vote was changed after two hours and a half of debate. Dr. F. B. Chertington was the first speaker. He explained the position of the Ministerial Union in this matter and made an attack on the present system of funding variety theaters.

The Rev. W. A. Spalding, of the United Presbyterian church, followed in a forcible address in which he urged the council to protect the young men of the city, to protect the strangers who were coming here and above all protect his children and other children who are growing up in the city.

W. S. Norman said that he had thought there was a certain amount of protection for the young men of the city, but he was disappointed to find that the council was not doing enough to protect the strangers who were coming here and above all protect his children and other children who are growing up in the city.

Dr. D. N. McInturff replied to the attorney and said that he had few objections to the ordinance, but he thought there were more voters on their list than on the other.

THE MAGAZINES. In addition to the Napoleon History of the April Century contains several unique articles. The most notable is undoubtedly the account of the "oscillator" and other inventions of Nikola Tesla.
