

STILL THE DEFICIT

The Receipts Do Not Bear Out Mr. Carlisle's Predictions.

APRIL TO BE A BAD MONTH.

Income Tax the Government's Hope—If Tax is Unconstitutional, Congress Must Meet.

Washington City, March 30.—Contrary to the expectations of the officials of the treasury, the receipts for the month of March will again fall below the expenditures. The amount, however, is only about \$24,000. The excess of expenditures for the nine months of the present fiscal year are \$3,500,000, and the amount will almost certainly be increased by \$5,000,000 or more during April, which will leave a deficit of about \$2,000,000 on May 1. During May and June, however, great things are expected from the income tax, but the most conservative estimates now place the deficit for the fiscal year at \$2,000,000. The outlook for heavy receipts from the two great sources of income, customs and internal revenue, are not encouraging, particularly from the latter. During the month of August, 1894, the internal revenue receipts in anticipation of the increased rate of duty, ran up to \$27,562,000, but not since that time have they reached much more than \$20,000,000. The amount in September they scarcely exceeded \$17,000,000, and since then they have been slowly increasing until the present month, when they amount to over \$20,000,000. This, however, is far below the expectations of the officials.

The receipts from customs during the past twelve months have shown an uneven but on the whole a fair increase. During July, 1894, they reached the low figure of \$4,477,000, but during August they increased to nearly \$12,000,000, and in September to about \$15,564,000. The three succeeding months showed a falling off from \$9,000,000 to over \$5,000,000. In 1895, however, they recovered to over \$10,000,000, and then an increase during the present month to nearly \$15,000,000. Only twice, however, since May, 1894, have the receipts from all sources equaled the expenditures. In June, 1894, there was a slight excess, and during August the excess reached \$3,000,000. The receipts during that month were his record to date, but it is stated to the increased tax on spirits.

All things considered, much depends upon the decision of the supreme court on the question of validity of the income tax. Should the law be upheld, as seems altogether probable, the treasury officials look for fair sailing from this time on, but should the law be declared unconstitutional, an effort will be made by congress to be called to provide for revenues sufficient to meet the needs of the government.

THE CERTIFICATE FORGERS.

All of the Gang Still in Jail—Tracing the Conspiracy.

San Francisco, March 30.—Very little was done in the prosecution of the quintette of alleged forgers by the United States officials today. All the men are still in jail, as none of them can secure bail. Greenwald's friends seem to be working harder for him than do the relatives of the others. In consequence, it is expected that he will secure his release tomorrow. The case will be called Monday, and Attorney T. D. Rioridan, who represents the prisoners, will make a strong plea to have the bail reduced one-half.

ELLENBURG NEWS.

Ellensburg, March 30.—Special.—A barn owned by Jacob Cleman, three miles from here, was burned last night, together with three wagons, two harnesses, a two-year-old coach stallion, two car loads of haled hay and a dray load of seed wheat. The fire was caused by a lantern upsetting, and there was no insurance. The Northern Pacific Express Company today moved its office, which has been maintained up town for the past five years, to the new building. Reports are reported working in this valley. Several engineers have been here the past few days, but refused to give out any information. Prevailing opinion is that they are Great Northern men.

TACOMA MARINE NEWS.

Tacoma, March 30.—Special.—The last of the cargo of the China steamship Tacoma was taken out tonight. The ship was unloaded in remarkably quick time, the job being finished in twenty-six hours, while it has always taken from thirty-six to forty-eight hours heretofore. The Tacoma's cargo of 1,800 tons was one of the most valuable she has ever brought to this port. Today the first lot of the cargo of flour for Hongkong was put aboard.

A TAMMANY JUDGE DEAD.

New York, March 30.—Judge Randolph H. Bates, of the court of general sessions, died today.

Banker Hattabough Arrested.

Moscow, Idaho, March 30.—C. Hattabough, the banker, and an ex-convict forger, has been arrested at the instance of the county commissioners on the charge of embezzlement.

British Columbia's New Loan.

Victoria, March 30.—Special.—Premier Turner left today for England to float the new provincial loan of \$2,000,000.

Will Soon Begin Work.

At a meeting of the board of directors of the North-Coastive Coal Company, held yesterday, it was decided to hold a special meeting of the board on Saturday, April 13, for the purpose of taking into consideration the commencing work on the mines of the company, which are located near Renton. This company is of a purely co-operative nature. It has acquired a title to a group of mines near Renton and intends to open an office there and to market the coal in this city and elsewhere. The digging of the Lake Washington canal will give this company a splendid opportunity to market its product. The inauguration of work by this company will add another important industry to the list in this country.

None but Ayer's at the World's Fair.

Ayer's Sarsaparilla having been awarded a special distinction of having the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rules forbidding the entry of patent medicines and nostrums. The doctors of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

CUT RATES TO PORTLAND.

The O. R. & N. Co.'s Action May Draw in the Southern Pacific.

San Francisco, March 30.—As the result of the war between the West Coast Steam Navigation Company and the Pacific Coast Steamship Company on rates to Puget sound and Alaska points, the Oregon Railway & Navigation Company today reduced its first class fare to Portland from \$16 to \$12. This rate will apply to all their steamers during the continuance of the war between the two companies, which started the war of rates. The O. R. & N. Co. was forced to this action to protect its traffic to Portland, as passengers could reach Portland via Seattle or Tacoma. This reduction will also effect rates from this city to all points on the 1,000 miles of railroad in Washington and Oregon operated by the O. R. & N. Co. It is believed that the railroad will be drawn into the fight to protect its Portland business, the rate by steamer to that city being now virtually only half of what it costs to go by rail.

Pure Blood

It is absolutely necessary in order to have good health. The greatest affliction of the human race is impure blood. There are about 2,000 disorders incident to the human frame, the large majority arising from the impure or poisonous condition of the blood for all blood diseases is found in Hood's Sarsaparilla.

The best remedy for all blood diseases is found in Hood's Sarsaparilla. Its remarkable cures are its loudest praise. It is not what we say but what Hood's Sarsaparilla does that tells the story.

No remedy has ever had so marked success, or won such enormous sales. Scrofula in its severest forms yields to its potent powers, blood poisoning and salt rheum and many other diseases are permanently cured by it. For a general spring medicine to remove those impurities which have accumulated during the winter, or to overcome that Tired Feeling, nothing equals

"I wish to say that three years ago we had a beautiful boy born to us. At the age of 11 months he breathed his last, a victim to impure blood. On August 4, 1884, another boy was born, who at the age of two months became afflicted with the same disease. We believed the trouble was constitutional, and not common scrofula. I procured a bottle of Hood's Sarsaparilla and commenced to give it regularly to both mother and baby. Improvement began at once. We have succeeded in eradicating the scrofulous blood from the system, and today we are blessed with a nice fat baby boy, 18 months old—the very

TEATER'S HORSE FOUND.

Strange Actions of a Woman Who Took a Child Out Riding. Sheriff Van de Vanter received information last evening from Sumner that the horse and buggy hired by a woman Friday morning from M. Teater's stable in this city for an hour and a half, had been found and that the supposed horse thieves were under arrest.

The sheriff will go to Sumner today to investigate the matter, for at present it is in a rather mixed up condition. The woman got the team on the statement that she wanted to take a little girl out riding for a brief time, but according to developments she also took a man with her and kept on driving until Sumner was reached.

The sheriff learned that some household goods had been shipped by the railroad to Sumner care of Geo. Sozer and it looked as if it was a connecting link in the case. The constable at that place was notified to look the matter up and his message last evening was the result. Sheriff Van de Vanter said that the names of the people under arrest were Charles Wilmont and Mrs. Ziegland. Who they are he does not know.
