Bread and cake raised with Clevelands Baking Powder keep their freshness and flavor. Clevelands Baking Powder Co., New York, Successors to Cleveland Brothers.

THE SUCRIZE DEEDICT.

Another Little Item of \$22,000 Not on Record.

THE BOOKS IN BAD CONDITION. Stacy Purchase of the Tacoma Grocery Company Annulled.

Thirty Thousand Dollars' Worth of Property at Sedro Destroyed—A Carbonado Miner Killed—Inquest on Vancouver's Murdered Man.

Tacoma, April 25.—Special.—General Land Agent Cooper and his force of accountants are busy at work on the checking over of the late Paul Schulze's books. As was to be expected, they are not making much of the results of their search for crooked transactions as far as it has progressed. Many disclosures have already been made by the books, and reports of other criminality on the part of the dead land commissioner are constantly coming to light from other sources. One of these cropped out today.

Some months ago the general syndicate purchased Northern Pacific land in Mason county to the value of \$2,000 through A. H. Anderson, of Seattle. That gentleman made the payment direct to Mr. Schulze, but no deeds were ever issued. Repeated demands for the deeds failed to bring them, and only a short time before Schulze's suicide the syndicate began to make complaints that he had been crooked.

The AN INDIAN MAY HAVE DONE IT—A Companion of Pomerleau Missing. Vancouver, B. C., April 25.—The inquest on the Pomerleau murder case was held today, but the evidence brought out here is more of a nature to be of interest to the Associated Press last night. After the police had related the discovery of the body, the position, etc., George Andrews, the murderer's companion, gave his evidence. He stated that he had lived here a year, previously residing in the state of Washington. The most important part of his testimony was that another man named Pomerleau had been with them; that he had disappeared on the day after the tragedy and had not been seen since. Regarding his failure to report Pomerleau's death, Andrews said he thought he was staying down town, and as he was himself sick, he was unable to report to the police sooner.

Dr. Bell Irving testified regarding the post mortem examination, and said that the head had been literally smashed to pieces by an ax, or some similar instrument. The man had probably been dead a week. The body was also badly burned in several places. This closed the evidence, and the jury returned a verdict that the deceased had been murdered by some person or persons unknown.

Great interest has been aroused by this tragedy, as several similar incidents of a similar nature have occurred recently. George Morshay, of Westminster, jail, one of the cleverest detectives in the province, says it closely resembles the Koris tragedy, when a lonely rancher was murdered while asleep in his shack by an Indian, who smashed his head to pieces. The scene of this tragedy was only a few miles further along the North Arm road, and the Indian who committed the deed lived on the reservation near Pomerleau's cabin. Many thus suspect that Indians are guilty of the crime, especially because of the clumsy attempt made to burn the body, when, if whites had committed the crime, the body would have been hid in the thick brush, or some yard, distant or else thrown into False Bay. Local police are busy investigating, and expect to make an arrest in a few days.

AGAINST THE GROCERY COMPANY. The Stacy Deals Were Fraudulent, and Sales Are Annulled. Tacoma, April 25.—Special.—A hard blow was struck the Tacoma Grocery Company and its officers when Judge Stallcup announced his decision afternoon in the suit brought against the company by the receiver, Albert E. Joab. The decision was for the plaintiff in almost every particular. The court declares the sales of stock and accounts to J. D. Stacy & Co., J. E. Fitch, H. L. Runkle and John G. Sample fraudulent, and made for the purpose of defrauding the creditors, and ordered the sales annulled and the stocks delivered to the receiver. As a considerable portion of these stocks has been sold, it is a matter of surprise what the receiver will get.

One of the prayers of the plaintiff's complaint was that all the books of the Tacoma Grocery Company be placed in his possession. The court has granted this prayer, as it had not been shown that either President Hale or Secretary Vanderhoof had possession of the books. Judge Stallcup said that the books were, where the books were, and therefore could not order them delivered to the receiver.

GREAT FIRE AT SEDRO. The Land Company Loses Property Valued at \$200,000. Sedro, April 25.—The Hotel Sedro caught fire at noon today from a defective fuse, and was quickly destroyed. The Pioneer block, opposite the hotel, and occupied by Holland, druggist, the Sedro Press, the Sedro Land Company's office and the city council room, was also destroyed. The hotel and furniture cost \$20,000; insurance, \$30,000. Bingham & Holbrook loss \$100,000; insurance, \$30,000. Holland loss \$30,000; insurance, \$30,000. All the buildings were owned by the Sedro Land Company.

The State Land Commission. Olympia, April 25.—Special.—The state land commission has been holding its regular meeting this week, and has transacted mostly routine business, having acted upon the petition of the West Side Mill Company for the purchase and re-appraisal of tide lands covered by their improvement. This case is an important one to the intending purchasers of tide lands along the coast, as it establishes the precedent of setting aside appraisements heretofore made, even when the contract has been issued, and provided protest was made against the appraisal at the time the contest was entered into. The land is then re-appraised by the board, and if the former appraisal is found to be unjust and excessive to the owners of the improvements, the contract heretofore issued is

to be cancelled and new contracts issued on the basis of values fixed by the board. The land commission granted the request of the mill company for re-appraisal, and Friday, May 8, has been set for a hearing to determine the value of the lots and fix re-appraisal of them.

The Tacoma Water Extension. Tacoma, April 25.—Special.—George W. Stetson, of the Stetson & Post Mill Company, was called here today by telegram to explain to the board of public works the details of the lumber furnished by them for the stove pipe water extension in the south end. The specifications called for six months' weather dried lumber, which suspends operations during that condition, and has shipped the entire order of 135,000 feet, of which half is under ground. This week half of the lumber hauled has been culled out on the ground that it is too green. The contract says, though the specifications do not exclude sap lumber. Tonight the board ordered eighty city workmen not to work tomorrow, which suspends operations pending settlement with the contractors. The latter claim the inspection is unduly rigid, and will probably demand an additional compensation for the exclusion of sap wood. If the present inspection is maintained, six carloads of lumber will be culled out.

The Columbia River Salmon Pack. Astoria, April 25.—Elmore, Sanborn & Co.'s salmon circular says in part: "General reports from the lower river canneries indicate that up to date the average catch of weather fish has been about the same as last year's output up to the same date. This, however, has no particular bearing on the year's work and will not be a factor in the present season. The month of April is generally very stormy and nearly every season fishermen are prevented from working by the severity of the weather. This year however, April has been all that could be desired and the slightly increased pack means simply, not that there are more fish in the river than preceding seasons, but that fishermen have been able to work longer and oftener. The fish are of splendid quality, with deep red flesh and excellent firm grain, fully up to the standard of the market. Since business opened, no exceptionally large fish have yet been noted, but the season is a little too early for them to appear in large numbers. The average weight now runs from twenty to forty pounds."

The Snohomish County Seat. Everett, April 25.—Special.—The question of the jurisdiction of the superior court of Snohomish county was raised in connection with the county seat case at Snohomish yesterday. The case was a suit brought by the Everett National Bank against the Everett Mosaic Tile Company et al. Attorneys for the defendant raised the question of jurisdiction, alleging in an affidavit that the county seat was at Everett, and the court had no right to transact business outside of its jurisdiction. The objection of the attorneys filed copies of the records in the county commissioners' office, including the order directing that the question of removal of the county seat be submitted to the people, the result of the canvassing board and the order of the commissioners directing that the county seat be removed to Everett. The objection was granted an exception. An appeal will be taken at once to the supreme court, and as this is a motion it is likely to get an early hearing.

The Cedar River Power Scheme. Washington City, April 25.—Special.—Col. Lewis has gone back to New York tonight, but his return to Seattle is expected in a few days. The case comes up in the supreme court in the United States for final argument. One reason for Col. Lewis' presence in New York at this time is that he is acting as legal adviser to Mr. Amundson, of Seattle, who is also in New York, for the purpose of organizing a company to furnish electric power to the city of Seattle and Tacoma through the medium of Cedar river. This will be in conjunction with Mr. D. H. Gilman's enterprise, Mr. C. E. Mallett, of Seattle, who came over to this city from New York last night, says that a million dollars in cash in connection with these enterprises will be put into Seattle with which to begin work, within the next sixty days.

A Competent Man Retained. Port Townsend, April 25.—Special.—The long-sought-for position of county clerk of Alaska has proved a phantom to Washington Democrats. The administration has decided to retain in that position Col. Joseph Murray, of Greeley, Col., an enthusiastic Irish Republican, who, in his own state, is termed the "Emerald Isle Orator." The incumbent's knowledge of Alaska's fish and seals is too valuable to the government for the department to listen to the appeals of Hugh Wallace, state patronage dispenser, for the appointment of a Washington Democrat.

New Bank at Port Angeles. Port Angeles, April 25.—Special.—The Bank of the Pacific has been incorporated and will probably be ready for business Monday morning. The new institution will take the building formerly occupied by the bank of the Pacific, the doors of which were recently closed by order of the United States comptroller. The officers will be: H. E. Lutz, president; J. M. Lutz, vice president; C. E. Mallett, Harry E. Lutz, Cyrus E. Clapp, Marion Allen and George Bellinger. The capital stock is \$100,000, and the new firm will do a general banking business.

Pack Horses for the Yakon. Port Townsend, April 25.—Special.—T. D. Healey, of the Yakon river trader, went up on the Topeka this trip with a number of horses to establish a pack train between Iyva Inlet and Lake Lyndon. The route was very precipitous, leading over a high range of mountains and for the inward bound miners is difficult to ascend. The country is rough and the trail is very narrow, but it is a good one. Jack Dalton recently established a pack train over the same route, and is said to have more business than he could handle.

The Franchina Not Lost. Port Townsend, April 25.—Special.—The fishing schooner Franchina, of Astoria, which was supposed to have been lost at sea, arrived this morning, and reports that a southwesterly storm carried the vessel several hundred miles out of its course. More mysteriously than ever now attaches to the unknown derelict seen west of Cape Flattery ten days ago.

A Carbonado Miner Killed. Tacoma, April 25.—William Morgan, a miner at the Carbonado mines, was struck by a Northern Pacific logging train and killed between Carbonado and Wilkeson early last evening. The accident was caused by Morgan's failure to give warning to the logging train, which was struck by a middle-aged single man.

A Seattle Smuggler Sentenced. Portland, April 25.—Perry Gibson, formerly of Seattle, who pleaded guilty to a charge of smuggling sixty-five dollar cans of opium, was sentenced by Judge Bellinger today to ninety days in the county jail and to pay a fine of \$50.

DEFENSE OF DURRANT.

An Attempt to Lay the Murder on Rev. Dr. Gibson. EXAMINATION NEARLY ENDED. Durrant Likely to Find It Difficult to Prove an Alibi.

A New Witness Who Saw the Butcher and Minnie Williams Going to the Church—A Light in the Church on the Night of the Slaughter—The Preacher Roughly Handled.

San Francisco, April 25.—The preliminary examination of Theodore Durrant, the murderer of Minnie Williams, is about over. District Attorney Barnes announced today that he would close the prosecution's testimony tomorrow morning, and the defense will not, it is said, make much of a fight in the police court, but will reserve their strength until they go before the jury that will finally decide the case, and there is no prospect enough to hang Durrant.

Today's examination was principally taken up with a continuation of the cross-examination of Rev. John George Gibson, which was concluded shortly before noon. The preacher returned to the stand apparently irritated by the treatment he had received the day before. He testified that he had been in the church on the night of the murder, and that he had seen the murderer, Durrant, and the victim, Minnie Williams, together in the church. He testified that he had seen Durrant and Williams together in the church on the night of the murder, and that he had seen Durrant and Williams together in the church on the night of the murder.

Then the attorney asked for some of the witness was aggravated enough to scribble a few minutes, and the same request came up, and Dr. Gibson, after complaining that there was no pen to suit him among the dozen boxes handed out by the clerk, wrote everything they asked. And he did it apparently without the slightest recollection that it was the same request he had denied a few minutes before. The writing, which was handed out for consisted of the name of the printer on the paper in which the rings of Blanche Lamont were wrapped when they were sent to the printer. They produced the samples of the minister's handwriting—a blackboard from the church and a memorandum from him—and the obvious intention was to show that the pasted name had been written in the name of the bit of newspaper.

A fresh witness was uncovered in Albert McElroy, a boy who saw a man resembling Durrant, and dressed as he was the night of the last murder, meet a woman (presumably Minnie Williams) near Emanuel church about 8:30 in the evening. McElroy passed the man, and saw the woman from the corner of his eye. He saw the pair stand near the church door. A few minutes later he saw a light in the church, and saw the man and woman enter the church. McElroy is the son of a third-tier and Mission streets, corroborated the story of the light in the church.

Dr. Thomas A. Vogel also testified. It was at his house the night of the murder that the Society of Emanuel church met the night of Minnie Williams' murder. The important part of his testimony referred to Durrant's condition, which was that he was in a state of collapse when he arrived there, an hour and a half later than was expected. Dr. Vogel's statement varied considerably from that of the other witnesses. He says that he saw Durrant and Williams together in the church on the night of the murder, and that he saw Durrant and Williams together in the church on the night of the murder.

The young ladies who found Miss Williams' body on Saturday morning told their stories, and the deputy coroner and the undertaker explained to the court the condition of the church and the dead girl when they arrived there.

PLAN OF THE DEFENSE.

To Represent That Preacher Gibson is the Murderer. San Francisco, April 25.—Rev. John George Gibson, pastor of the Emanuel Baptist church, was again on the witness stand today in the preliminary examination of Theodore Durrant, charged with the murder of Minnie Williams. The defense believes it has a case against the clergyman, and will try to show that he, and not Durrant, killed Minnie Williams and that Durrant is the man who was seen with her in the church on the night of the murder. Experts declared that Dr. Vogel is in this subject the better it will be for his friend Durrant.

The young ladies who found Miss Williams' body on Saturday morning told their stories, and the deputy coroner and the undertaker explained to the court the condition of the church and the dead girl when they arrived there.

TROOPS TO LEAVE

To Take Possession of the Port of Corinto, Nicaragua.

WITH CLEVELAND'S CONSENT. Not Only Monroe Doctrine, but Clayton-Bulwer Treaty, Forbids.

Nicaragua Informed That the United States Has Abandoned Her—A Perfect Understanding Seems to Prevail Between England and the United States.

Washington City, April 25.—Nicaragua's last hope of assistance from the United States in her controversy with Great Britain to prevent the seizure of Corinto vanished this evening. Dr. Guzman, the Nicaraguan minister, who has been waiting with intense anxiety to see Secretary Gresham, was finally successful about 3 o'clock, when the secretary came into the department and told him that the United States would not interfere in the case as it stands. Secretary Gresham stated that the secretary gave him to understand very clearly that the United States would not interfere in the case as it stands. Secretary Gresham stated that the secretary gave him to understand very clearly that the United States would not interfere in the case as it stands.

The interview was very short. In five minutes the minister emerged from the secretary's office looking very much depressed. He refused to say a word as to what had happened, but he stated that the secretary gave him to understand very clearly that the United States would not interfere in the case as it stands. Secretary Gresham stated that the secretary gave him to understand very clearly that the United States would not interfere in the case as it stands.

As already stated in the Associated Press dispatches, the position taken by the present in this matter is that the dispute is an entirely between Great Britain and Nicaragua, in which the United States has no call for action, and that the United States is not to be drawn into the dispute. Secretary Gresham stated that the secretary gave him to understand very clearly that the United States would not interfere in the case as it stands.

For several years preceding this message the United States had great difficulty in maintaining friendly relations with Nicaragua, and the present in this matter is that the dispute is an entirely between Great Britain and Nicaragua, in which the United States has no call for action, and that the United States is not to be drawn into the dispute. Secretary Gresham stated that the secretary gave him to understand very clearly that the United States would not interfere in the case as it stands.

A Claimant to Centralia Property. Kansas City, April 25.—A story strange in detail and rich in romance has been unfolded in the case of a man who brought by Edward A. McMahon to gain possession of the valuable estate in California left by John Bessley, who died in San Francisco in June, 1888. McMahon is manager for the Reed Roofing Company, of this city. Nearly twenty-nine years he lived under the supposition that the estate was McMahon's, and that he was the son of poor parents. Within ninety days he has discovered evidence which satisfies him that his real name is John Bessley, and that his mother was Bessley's wife.

At the time of Bessley's death all his property was held in fee simple by his wife, who followed him to the grave a few months later. The couple were apparently childless, so McMahon succeeded in obtaining the estate, and McMahon obtained the whole estate, which consists of property in San Francisco and San Diego, Cal., and Centralia, Wash., valued at more than \$500,000. The four claimants for the Bessley estate, who urged their rights in the San Francisco probate court, were Jennie Goodrich, Lucy Roundtree, Sarah Hardisty and B. G. Chandos. The women were sisters of Mrs. Bessley, and Chandos, whose right name is said to be Zach Ingles, was her brother. McMahon, who is the manager of the Reed Roofing Company, was the one who had the probate court ordered the property divided among them. This was done, but Chandos, who engineered the scheme to gain possession of the property, neglected to register the estate finally settled up, leaving a loophole of which McMahon has taken advantage to have the probate set aside. It was represented that McMahon was the only claimant who was the only heir of Mrs. Bessley, when, as a matter of fact, three other sisters are living in the United States.

Bids for the Hassler. Tacoma, April 25.—Special.—Only two bids were presented for the purchase of the steamer Hassler, which is to be sold by the United States. The bids were opened today aboard the vessel at noon. The bidders were Capt. James Irving, of Victoria, manager of the Canadian Pacific Navigation Company, who bid \$25,000, and Johnson & Thomas, of Seattle. The last named bid was promptly withdrawn, and its amount was \$10,000. The head of the firm is ex-Superintendent J. H. Johnson, of the Pacific Coast Steamship Company.

Capt. Irving's bid will be sent on to Washington City to be accepted or rejected. It is generally thought it will be rejected, as the price is said to be well worth \$15,000 or \$20,000. The Hassler was built in 1864, and is a fine vessel. She was built in Victoria, and is now in the hands of the United States. She is to be sold to the highest bidder, and the proceeds are to be used for the benefit of the United States.

Chief Tacoma News. Tacoma, April 25.—Special.—A number of small robberies have taken place in Tacoma during the past few days. The only celebration of Arbor day tomorrow in Tacoma will be that held by the class of '15 at the high school, which, however, will plant a tree in the school grounds and hold literary exercises. Mrs. Edith L. Peake, an evangelist from San Francisco, is holding a convention at the First United Presbyterian church, corner Sixth avenue and Q street. She is meeting with success.

Prescott Denies the Villard Story. Tacoma, April 25.—Special.—Second Vice President Prescott, of the Northern Pacific railroad, denied today if he knew anything regarding the report from St. Paul that Henry Villard was again on top. He said he knew nothing whatever of it, and he believed it to be wholly unfounded in fact. Other local officials of the road place no belief in the report, and pronounce it false.

Tacoma Marine News. Tacoma, April 25.—Special.—Schooner J. P. Redfield arrived today at load lumber at the St. Paul & Tacoma mill. Piling was commenced today on the new wharves to be erected by the Northern Pacific railroad. A ton of apples was brought in by the Tipoon today from Henderson bay.

Movements of Warships. Washington City, April 25.—The Mohican has arrived at Olympia, Wash., and the Raleigh, late of Admiral Meade's squadron, at Kingston. It is possible that she will be sent back to Colon. The Castine has sailed from Zanzibar for Mozambique, and the Marlborough from Mersine for Smyrna.

Open air concert Sunday afternoon and evening by Rialto orchestra at Laurel Shade, Madison park.

All Madison street cars run through to the lake hereafter.

DEFENSE OF DURRANT.

An Attempt to Lay the Murder on Rev. Dr. Gibson. EXAMINATION NEARLY ENDED. Durrant Likely to Find It Difficult to Prove an Alibi.

A New Witness Who Saw the Butcher and Minnie Williams Going to the Church—A Light in the Church on the Night of the Slaughter—The Preacher Roughly Handled.

San Francisco, April 25.—The preliminary examination of Theodore Durrant, the murderer of Minnie Williams, is about over. The young ladies who found Miss Williams' body on Saturday morning told their stories, and the deputy coroner and the undertaker explained to the court the condition of the church and the dead girl when they arrived there.

Dr. Thomas A. Vogel also testified. It was at his house the night of the murder that the Society of Emanuel church met the night of Minnie Williams' murder. The important part of his testimony referred to Durrant's condition, which was that he was in a state of collapse when he arrived there, an hour and a half later than was expected. Dr. Vogel's statement varied considerably from that of the other witnesses. He says that he saw Durrant and Williams together in the church on the night of the murder, and that he saw Durrant and Williams together in the church on the night of the murder.
