

THE PRIZE OF PARIS. A Great Crowd, Including President Faure, Present.

THE FAVORITE BADLY BEATEN.

English Horses Were Nowhere—The English Press on the International College Races.

Paris, June 9.—The race for the Grand Prix of Paris today was won by M. Edmond Blain's Andre. Viscount d'Harcourt's Chebourg was second and Baron de Schickler's Le Sagittaire third. The race was witnessed by a large crowd of English and Americans, while political and social Paris did everything possible to make the event this year more magnificent than during past years. The entrance of the grand course formed a scene of rare beauty, costumes of brilliant colors and racing terrace-like on all sides. So dense was the crowd that at times motion was almost impossible in the vicinity of the place where warm and close, and several light showers during the day were welcomed by the thousands present. There was only enough rain, however, to cool the spectators and lay the dust.

President Faure, shortly before 4 o'clock, inspected the sixteen starters in the paddock, paying special attention to the general favorite, Omnimium. The trial took place at 4:30, Chebourg showing up in good form. The betting on Andre was 16 to 1, Chebourg 8 to 1, and Le Sagittaire 12 to 1. All of the sixteen horses in the race started well together. M. Albert Menier's Maugrion took the lead, followed by the favorite, Omnimium. It entered the stretch Barton de Schickler's Le Justicier led. Le Sagittaire, who had been gradually improving his position, then came to the front and appeared to have the race at his mercy, when Andre came on with a rush and won by two lengths. M. de Saint-Atry's Omnimium, the favorite, finished seventh. The English horses were among the last five. Then 2-3.

ZOE GAYTON'S WALK.

Begin Her Trip Around the World—Start Made Last Night.

Zoe Gayton, who is to walk around the world in eighteen months, exclusive of the time spent aboard steamers, left the Post-Intelligencer office at 11 o'clock last night, and started along the railway for Tacoma, whence she will turn east along the Northern Pacific. Miss Gayton is something over 40 years of age, about 5 feet 2 inches in height and probably weighs 150 pounds. This is her first walk, for she once won a wager on a walk from New York to San Francisco. In the walk she has just begun she will be accompanied by two beautiful dogs, one a cocker spaniel and the other a hunter, and two men, the representatives of the San Francisco end of a wager of \$20,000 that has been made on the walk.

THE OPALS GO DOWN.

They Are Defeated by the Everetts, 9 to 5.

The Everetts and the Opals played a red hot game of baseball at Everett yesterday and the home side won on top with a score of 9 to 5. In the seventh inning each team had four runs to its credit, and it looked as though a ten-run inning game was assured. Following is the score by innings:

Everetts 1 0 0 3 0 2 5 0-9
Opals 1 0 0 0 1 0 2 0-3

Summary of the game: Earned runs, Everetts 7, Opals 4. Bases on balls, off Thayer 2, off Huber 4, off Cummings 2. Hit by pitcher, by Cummings 2. Struck out, by Thayer 4, Huber 1, Cummings 2. Wild pitches, Thayer 1. Time of game, two hours. Umpire, Mr. McLaughlin.

KNOWS A THING OR TWO.

"Uncle" Tom Clancy Has Gone to California to See About Rosa C.'s Colt.

"Uncle" Tom Clancy has gone to Pleasanton, Alameda county, Cal., to look after his last mare, Rosa C., which has been bred by Duveton, near Ukiah. Rosa C. has a record of 2:14, made at Great Falls, Mont., but she is now about 10 years old and will be used for breeding purposes. Pleasanton is the place where Salisbury's famous stock farm is located, and there is also found Andy McDowell, the celebrated horse handler.

Reformers After the Bicycle Woman.

Boston, June 9.—The Woman's Rescue League has adopted resolutions of timely interest, that the bicycle woman and the coming "manish woman" are productive of "much harm and no real good to the industrial and self-supporting women who create 40 per cent of the wealth in all the high manufacturing industries of this country. The resolutions are entitled to public recognition by our lawmakers because they help create the wealth of the nation, while the "sporting woman" and the "manish woman" and the "bicycle woman" bring disgrace on the true woman.

Tommy Ryan the Champion.

Shirley Schwab's Tommy Ryan is the champion water-walking pugilist. He has beaten Danny No-Name, Billy Smith and all the other notable water-weights.

After Zimmerman and Johnson.

Stratton, N. Y., June 9.—The Kirkwood Driving Park Association has offered \$3,000 for the capture of Zimmerman and Johnson to race the race to take place there next week from the time of the signing of the articles of

agreement. No reply has been received from Zimmerman regarding the offer of the Grand Rapids, Mich., Trotting Association for a race between him and Johnson on July 5 for \$2,500.

The International College Sports.

London, June 10.—The Post in an editorial this morning says the odds in favor of a team selected from all of the American universities would be very large. It would be very glorious for the English universities to beat their American competitors, while defeat in itself would not be dishonorable. Yale and Harvard vs. Oxford and Cambridge would be an even match—one that would be heartily welcomed by all interested.

Tacoma Welcomes Victorious Athletes.

Tacoma, June 9.—Special.—When the Tacoma Athletic Club athletes who competed in the Multnomah club games at Portland yesterday arrived home today, they were met at the wharf by an enthusiastic delegation of rooters from the club, a brass band and two carriages decked with crimson. As Manager Rowe and the men stepped off the train the club yell was given by the members in waiting. Then the athletes were escorted through the streets to the club.

Accident to a Parachute Jumper.

Tacoma, June 9.—Special.—In making a parachute drop from a balloon at Tacoma park today, Prof. Markberg nearly lost his life. The parachute failed to open until nearly down. Fortunately the drop was being made over the harbor, and Markberg was unharmed. The parachute opened about 150 feet before he struck. He swam to the coal bunkers and got out unaided.

Two Lively Ball Games.

The A. D. T. team defeated the Newcastle in an exciting game of ten innings yesterday. The score was 17 to 15. The Brooklyn team defeated the Fremont team by a score of 18 to 10 on the Brooklyn grounds yesterday afternoon. The feature of the game was the catching of Coats for the Brooklyn. Norman backed him up in excellent style.

Marine Parade for the Fourth.

The Northwestern Yachting Association is now busy preparing for a brilliant marine parade to be given Fourth of July night. Craft of all sorts are urged to participate, and every boat will sparkle with illumination from stem to stern and to the top of the rigging.

Arlington 15, Nonpareils 10.

Arlington, June 9.—Special.—The Arlington defeated the Nonpareils at baseball by a score of 15 to 10.

SPORTING NOTES.

The Cive Federation of Chicago has won, and the Hawthorne gambling race-track is closed.

PUGNACIOUS MESSENGER BOYS.

They Resist a Man Who They Thought Invaded Their Rights.

The Western Union messenger boys were greatly excited last night over the arrest of two of their number for engaging in a fight with a saloon man named Louis Madru in the entrance of Corday's theater about 8 o'clock. The boys engaged in the "scrap" were John O. Smith, known among the boys as "English," and H. P. Meyers. The story they tell is that they accidentally crowded into Madru in the entrance, and he turned around to them and asked, "What in h— are you up to?" "English" answered him rather sharply, whereupon Madru hit him on the hand with a cane. Smith ran behind Meyers, but Madru's fighting blood was up, and he is said to have rapped Meyers on the neck.

At this juncture Officer John Corbett arrived and arrested all concerned. When the boys reached the police station they were closely questioned by Capt. Hogle, and told their story in substance as above. They cried bitterly, and asked the captain what he was going to do with them. He asked Smith how old he was and was told 14. The captain then told Smith he would have to be sent to the reform school. This brought out an extra volume of tears and promises to do better in the future. To the same question Meyers said he was 11 years old, and was told that he would have to go to the penitentiary. He also dropped a bucket of tears.

CAPSIZE ON THE LAKE.

James Dezerman and Comrade Have a Narrow Escape.

The high wind on Lake Washington yesterday afternoon did not deter many pleasure seekers from venturing on its waters in sailboats and rowboats and the day being exceptional the lake was dotted with a small fleet of all kinds and sizes. Among these was a canoe in which James Dezerman and a companion, whose name could not be learned, were paddling, evidently secure in their ability to handle the small craft. At about 5 o'clock and when between Medina and Madrona Park an extra gust of wind from the north struck the canoe broadside and before its occupants could head her up she filled and capsized, leaving the two men floundering in the water. They clung to the upturned boat and fortunately for them attracted the attention of the steamer Quakerette, the men were nearly exhausted. They were brought to shore and were soon all right. No other mishaps happened to mar the pleasures of the day.

Franklin School Exercises.

The closing exercises of the Franklin public school were given on Saturday evening, June 1, in the schoolhouse, before a large and appreciative audience, composed of the parents of the children. Prof. J. M. Laybue paid the school a visit for the purpose of presenting the graduates with their diplomas. The program was rendered with such success as to reflect great credit upon the teachers for their work in the past term. It was participated in by John Boatman, William Richardson, Willie Comstock, Maggie Maxwell, Cecelia Richardson, Maxwell Powell, Jessie Street, H. Richardson, C. Williams, Willie Pugh, Lillie Bailey, Jimmie John, Lizzie Pugh, Willie T. McLean, Willie Jones, Griffith Llewellyn, Miss Clara Treat.

THE SHOOTING OF RUDOLPH SCHNAUBELT.

Honduras, June 9.—News was received here last Saturday that an American had arrived at Pine Kaio villa, in the province of Santa Barbara, having been brought there from Chameleón river, where he had been found in a dangerously wounded condition. His head was battered in and he had received three knife thrusts, none of which are fatal. The patrol which found him says he was entirely naked, having been robbed of all his clothes. The correspondent made the trip on horseback and found the man in a very serious condition. A close examination showed that he was the man that passed as Rinskof a few weeks ago, and admitted that he was the Chicago anarchist, Schnaubelt.

WITH HER CALLOPE WHISTLE.

Steamship Queen Arrives in Port With Music on Board—Her Alaska Run.

The steamship Queen, which goes on the Alaska run day after tomorrow, arrived in port yesterday morning and caused a general stir along the water front with her callope whistle. In the calm still air

A Needless Burden.

If all the troubles of life were divided into two bundles—one bundle containing the necessary evils which there is no help for, and the other bundle made up of the unnecessary miseries which we might easily get rid of—the second bundle would be much the larger. It would contain many headaches, backaches and other distressing symptoms, beside a constant sense of weariness, worry and despondency, as if life was hardly worth the effort of living. All this is not due to any mental malady or organic disease, but nine times in ten, though the truth seems hard to believe, the whole trouble comes from some form of that subtle, peace-destroying malady known as indigestion, and if you had faith to believe in the mild, unfailing power of Ripans Tabules as a certain cure for these unnecessary evils, the whole unbearable load of suffering and discouragement might be thrown off in a day and sent tumbling back among forgotten troubles.

Ripans Tabules begin the good work almost as soon as they are swallowed. A sense of relief is felt in the stomach; the head becomes clearer; the spirits brighten up. This is simply nature's magic. The nutritive powers are coming into regular action again, and throwing off every symptom of indigestion, biliousness, constipation and all that train of evils and irregularities.

Every woman should keep a box of Ripans Tabules in the house; they are worth their weight in gold to her. Every man employed in a sedentary occupation should carry a vial of them in his pocket. They are the prescription of an experienced physician, compounded from the purest quality of medicines and put up in the most convenient shape.

Among the symptoms for which Ripans Tabules are an almost infallible relief and cure are acidity or flatulence in the stomach, nausea, offensive breath, dyspepsia, rush of blood to the head, dizziness, fluttering of the heart, sluggishness, poor sleep, loss of appetite, depression, heartburn, bad taste in the mouth, pain in the stomach or abdomen, catarrh, sallow skin, and skin eruptions.

A box of Ripans Tabules (price 50 cents) contains six small vest-pocket vials; each vial holds six tabules (36 in all), and each tabule is an exact dose. Sold by druggists, or sent by mail on receipt of price by

THE RIPANS CHEMICAL COMPANY, 10 SPRUCE STREET, NEW YORK.

FROM MISS LUCY W. LEWIS, RANDOLPH, MASS. "I can speak only in praise of 'Ripans Tabules.' I am troubled by what my physician has called Nervous Dyspepsia. My work, that of a school teacher, often brings on a state of intense nervousness, which prevents digestion and results in severe headaches. I have found that by watching my feelings, and taking a tabule with meals—as I feel myself becoming tired and nervous—I get relief at the time and prevent further trouble. I have derived much benefit during the time I have used them, and do not intend to be without them. Lucy W. Lewis

LEFT ON A CORAL REEF

Three Sailors Abandoned on Clipperton Island.

A GUANO ROCK OFF NICARAGUA.

They Must Remain Until a Schooner Can Reach Them—Birds and Sharks Their Companions.

"When we left Clipperton island two months ago we had to abandon three men there. There was no help for it. Our line parted, and the only thing for us to do was to put out to sea." So spoke Capt. Jasper Hansen of the schooner Ellen Johnson, in the custom house yesterday. Hansen had just explained that Clipperton island, which is an "atoll" or barren coral reef with a lagoon in the center, in latitude 33 north and longitude 113 west, or off the coast of Nicaragua, has no harbor, and the only way to land is by running close in shore, dropping a water tight barrel with line attached overboard, and allowing it to drift to the bank. There it is secured, and the other end made fast to a buoy, and the schooner may be loaded with guano by means of a lighter.

Clipperton island is now in possession of the Oceanic Phosphate Company, of San Francisco, but is so small that it is not shown on a chart. It is only three miles in diameter, and is in reality only a narrow shell, as the interior lagoon takes up a considerable area. The company had sent out twenty-five men to work in the guano fields. The lighter used would carry twenty tons, but the break-

ers rolled so heavy, the captain says, that sometimes the waves would rush four feet deep over it. After the schooner had been tied up thirteen days she had a load of thirty tons, and the last time the lighter came out the line parted. There were twenty-two men on the lighter, and three on shore. The schooner was obliged to leave, and the three men will have to stay until taken off by another boat. They have plenty of food, but will have to depend on rain for water. The narrow reef is only about two feet above the water at high tide, and the prospect is melancholy in the extreme. At the north rim there is a rock standing about 150 feet high and completely honeycombed. It is full of chambers, and on all sides fit hundreds of thousands of web-footed birds, which the captain calls gulls, much like a large duck. They are so tame that they will not fly away when men approach, but will permit anyone to handle them as he pleases.

The men on the schooner also had great sport fishing. There is a deep sea fish, says the captain, called the grouper, which takes the hook with great voracity, but it is next to impossible to drag them aboard. As soon as they are once fairly hooked, they are snapped up by sharks, which fairly swarm in the tropical waters. The sharks are known as "shovel-noses," and are ugly-looking fellows, with great beak-like eyes at the points of hickous heads. The only fish the men were successful in getting aboard the boat were yellow-tails, which are caught near the surface and which are drawn up before the sharks can turn over to take them in.

Steamship Queen Arrives in Port With Music on Board—Her Alaska Run. The steamship Queen, which goes on the Alaska run day after tomorrow, arrived in port yesterday morning and caused a general stir along the water front with her callope whistle. In the calm still air

TO WEAK MEN

Do you wish to recover that which you have lost by sins of the past? Early excesses, exposure and bad habits have robbed the vital powers of millions. Not more than one man in fifty is what nature intended him to be. The swift pace of this generation is weakening our manhood. Do your part and recover your lost powers. Give your future generations a strong, vigorous constitution, healthy in mind and body. A weak parent begets a weaker child. Replace the vigor in your system and make your manhood perfect by building up the vital forces with Dr. Sanden's Electric Belt and Suspensory. Electricity is life. Send for the pocket edition of Dr. Sanden's celebrated work, "Three Classes of Men," by mail, sealed, free.

PROF. JORDAN'S LECTURE.

He Will Speak at Rank's Hall Tuesday Evening on "Agassiz."

The first of the series of Young Naturalists' popular science lectures will be given in Rank's hall on Tuesday evening at 8 p. m. by Prof. Jordan, president of the Leland Stanford university. His subject will be "Agassiz." The Young Naturalists' Society is making arrangements to give such lectures from time to time as lecturers become available, the object of the society being as much the dissemination of scientific knowledge as original research, in which the society is doing good work and taking rank among the leading academies of science. Series of lectures of this kind have proved very successful in arousing a popular interest in science. The amount of appreciation shown by the public in this lecture will to some extent determine the future action of the society, and a large attendance is desirable.

DR. DARRIN ARRIVED.

One of the Well Known Drs. Darrin Is Stopping at Hotel Stevens in this vicinity, one of the celebrated Drs. Darrin, of Tacoma, has been prevailed upon to visit Seattle, and has taken of from at the Hotel Stevens for a short time only, from June 7 to 17, to accommodate the afflicted. Those wishing to consult the doctor will find it to their advantage to call on him while here. Mrs. Darrin make a specialty of all diseases of the eye, ear, nose, throat, catarrh, deafness, bronchitis, jaundice, consumption, dyspepsia, constipation, heart, liver and kidney disease. They permanently cure all diseases of the genito-urinary organs in either sex, such as syphilis, blood taints, scrofula, gonorrhoea, gleet, stricture, seminal weakness, spermatorrhoea, loss of manhood and loss of desire of sexual power in man or woman.

A peculiar female trouble, irregular menstruation, leucorrhoea, displacements, etc., are confidently treated, as well as acute, chronic, private and nervous diseases of whatever nature, if curable. No cases taken if not. Office hours, 10 a. m. to 5 p. m.; evenings, 7 to 8; Sunday, 10 a. m. to 3 p. m. Charges low and reasonable, according to circumstances and ability to pay. Patients can be cured by home treatment after one visit to the doctor's office. Inquiries by mail answered, and circulars and question blanks sent free. All strictness relations with Drs. Darrin confidential. N. B.—Dr. Darrin will visit Everett June 28 to 30, at the Grand Central hotel; Snohomish, June 26 to July 2, at Hotel Penobscot.

Lost Manhood and vigor quickly restored by Dr. Sanden's Electric Belt and Suspensory. Send for the pocket edition of Dr. Sanden's celebrated work, "Three Classes of Men," by mail, sealed, free. SANDEN ELECTRIC CO., Cor. 31 and Washington Sts., Portland, Or.

Children Cry for Pitcher's Castoria.
