STEVENSON IN TACOMA

Very Enthusiastic Over His Voyage to Alaska.

WILL START EASTWARD TODAY.

Charles McGonigle Held at Yakima for Killing His Father.

Receiver of Boggs' Bank Enjoined on the City's Suit—Three Vancouver Boys Probably Drowned—Attempt to Wreck a Northern Pacific Train.

Tacoma, Aug. 23.—Special.—Vice President Adlai E. Stevenson arrived here at 7 o'clock this morning from Alaska on the steamship Queen. With him are Mrs. Stevenson and the Misses Letitia and Julia Stevenson and Messrs. J. C. and W. W. Stevenson, brothers of the vice president and prominent coal merchants of Bloomington, Ill. It was the original intention of the vice president to leave here this morning for Seattle on his way east, but, as that arrangement was made with the expectation that the Queen would arrive last night, it was changed. Mr. and Mrs. John A. Parker, accompanied by Mrs. Parker's father, Judge Burnett, of St. Louis, were at the wharf to meet the members of the party, and escorted them to the Parker home, at 1022 North I street, where they are being entertained. Tomorrow morning at 7 the party will leave the city on the way east over the Canadian Pacific. They will travel in the Canadian Pacific private car belonging to General Manager Sir William Hankey. It is noted that the vice president has an important engagement in the South, and that there have already been delays in the programme, only a short stop will be made at Seattle, the car leaving at 11, but an hour after arrival, for Mission, there to be attached to the east-bound overland train on the Canadian Pacific. A stop of several days will be made in Prince of Wales, as at first intended. The vice president's trip to the West and Alaska was undertaken to benefit the failing health of Miss Stevenson, who has become much stronger, and is greatly improved in health. The vice president and all the members of the party are pleased and surprised and enthusiastic over the wonders of Alaska. Said Mr. Stevenson, in conversation this morning with the Post-Intelligencer, "I have never seen a more glorious tract for us all, the trip, the scenery along the line of the Canadian Pacific is so varied and so magnificent that it is sublime. But Alaska is a few words. It is the most magnificent and beautiful of the world. Nowhere can its equal be found in richness of mountain scenery. The voyage has been a most delightful one. We had pleasant weather the entire trip, and were fortunate in having the most agreeable people for fellow passengers. When the correspondent wanted the vice president to talk about politics, the conversation drifted. Passengers on the boat speak in the highest terms of the vice president's social qualities. He was prominent in all the shipboard festivities, and was a tireless sightseer. At the reception was tendered him by the officers of the United States ship Pinto and the government officials. It was attended by practically the whole city. Wednesday night at a gathering of the passengers in the saloon the vice president was called on for a speech. He made a singularly happy address, complimenting the officers of the ship and complimenting eloquently on the beauties of Alaska. When the ship was landing at the wharf at 7 o'clock this morning the vice president was prominent in the crowd. He was the landing made, when, leaning over the rail, he yelled "Hi" at an enterprising newsboy and purchased a copy of the Post-Intelligencer, then retired to his cabin to read. It was there that the Post-Intelligencer correspondent found him on boarding the ship. There was the customary delay of five to ten minutes before the passengers could land, owing to the fact that the ship had to be entered and the baggage of passengers inspected, the vessel having by shooting at the Rock Island railway. Judge Jenkins, of Milwaukee; Receiver H. C. Payne, of the Northern Pacific, and Congressman George W. Smith, of Illinois, and D. H. Mercer, of Omaha. Among the Alaska tourists who returned with the vice president were W. G. Purdy, of Chicago, vice president of the Rock Island railway; Judge Jenkins, of Milwaukee; Receiver H. C. Payne, of the Northern Pacific, and Congressman George W. Smith, of Illinois, and D. H. Mercer, of Omaha. A positive guarantee against failure in cooking. Dr. Price's Baking Powder.

The Man Who Shot at the Moon. Tacoma, Aug. 23.—Special.—John Shaw, 60 years old, who has twice been tried for insanity, who is ten times quicker witted than many sane men, has been at last sent to the Stollacomb insane asylum. He is the man who terrified the West End some years ago by shooting at the moon and stumps and who paraded about wearing a washboard as a shield and daring imaginary enemies to come out and fight him. His family testified today in the superior court as to his hallucinations.

The Boggs' Bank Scandal. Tacoma, Aug. 23.—Special.—Judge Stailep today issued a special injunction restraining E. S. Alexander, assignee of the Bank of Tacoma, from selling or disposing of any of the assets in his possession until the city's petition for a receiver has been granted. Isaac Olsen, one of the depositors, who has also petitioned for a receiver, asked to have the injunction issued.

It will be gratifying to consumers to note that the quality of the baking powder most generally in use in their kitchens, the Royal, is confirmed by the highest official authorities as altogether the best of any in the market.

Tacoma Divorce Suits. Tacoma, Aug. 23.—Special.—Elmer H. Smith was before the superior court today claiming that his wife, Lucy M. Smith, deserted him in November, 1883, without any cause and refused to longer live with him. He got his divorce.

Amy Green obtained a decree of divorce against her husband, F. E. Green. Judge Stailep granted it on the ground of the husband's failure to support, and restore her maiden name to Amy Taylor. There were no children or property to divide.

Another Successful Black Sand Machine. Albany, Or., Aug. 23.—Isaac Banta, formerly a gunsmith of this city, recently discovered a chemical process for separating gold from black sand which is

proving a success. He claims to have sold a half interest in the process to San Francisco parties for \$20,000, having proved its efficiency by the recovery of \$10,000. Now he is said to have an offer of \$20,000 from the Nicaragua Mining Company to put the machines in there. In company with a mining expert from San Francisco Banta will leave in a few weeks for Bluefields to accept the offer.

FOR MURDERING HIS FATHER.

Charles McGonigle Held for Trial at North Yakima.

North Yakima, Aug. 23.—Special.—Charles McGonigle was given a preliminary examination before Justice Rodman this afternoon on a charge of murder, the victim being his aged father. The court found in his favor. The defense brought in no evidence, and the prosecution introduced but three of their ten witnesses. The judge held McGonigle without bonds to await the action of the superior court in October. When the prisoner was taken back to jail he surprised the guards by dancing a jig on the floor and shouting for help. The result of the preliminary examination. He is evidently trying the insanity dodge.

A WOMAN CATCHES A BURGLAR.

When She Heard Him in the House.

Everett, Aug. 23.—Special.—Harry Williams, a burglar, who was caught in Henry Raborn's house yesterday, waived examination and was held to the superior court in \$10,000 bail. Williams, who lives on 3rd street, saw the man's figure reflected in the mirror. She went down stairs and got a gun, and when she saw the burglar she fired. He was taken completely by surprise, as he saw the plucky woman, and he jumped into a closet. There she kept him while she opened a window and shouted for help, which soon came. Three pals of Williams have been working the town, selling hanging baskets, apparently to get acquainted with the places. They were sent up for vagrancy.

The Warrimoo's Big Cargo.

Vancouver, B. C., Aug. 23.—The steamship Warrimoo, which sailed for Seattle, Australia and New Zealand last morning, has a cargo which is the largest ever taken since the ship was established, every inch of the hold being utilized. Her cargo was also put in several staterooms. Among her passengers, of whom there were forty-seven, was a woman, who was Mrs. D. A. of this city, who goes to Honolulu to be reunited with her husband. She was accompanied by her mother, Mrs. D. A. of this city, who was also on the ship. The ship was also carrying a large quantity of goods, including a large quantity of sugar, which was being shipped to Seattle.

Portland and Honolulu Steamers.

Portland, Aug. 23.—The Oregon Railway & Navigation Company's steamer Alamo arrived today from Hongkong and Yokohama. Her cargo, which includes the O. R. & N. Co. will touch at Honolulu and compete with the Occidental & Oriental steamship line for the Japanese trade with the Hawaiian Islands.

The Boys Probably Drowned.

Vancouver, B. C., Aug. 23.—A steamer was sent out today to search for the three boys who were reported to have been drowned in the straits of Juan de Fuca. No trace was found, and it is feared that they have been drowned.

RETURN OF CARDINAL GIBBONS.

He Says the Pope Looks Stronger Than He Did Eight Years Ago.

New York, Aug. 23.—The absence of fifteen weeks Cardinal Gibbons returned from Europe today on the Campania. When the boarding officers reached the Campania cardinal Gibbons was seen on the upper deck, talking to Archbishop Riordan, of San Francisco, and several other clerical gentlemen who were in the party. When seen by a reporter of the Associated Press Cardinal Gibbons said: "My visit to Rome has no special significance, as it is customary for us to visit the Holy Father every eight or ten years, or perhaps oftener. I had several audiences with Pope Leo, the last one being on June 3. The Holy Father, although advanced in years, is still a very vigorous and stronger than when I saw him last, eight years ago. He is a most remarkable man for his age, which is 86 years. He is a very bright, intelligent and wonderful bright. He takes a deep interest in America and Americans, and frequently expressed his admiration for our political institutions. He gave me a beautiful letter recommending summer schools and commending the Catholic universities of America, and referred to the opening of the chairs in the university next October." The cardinal said that he enjoyed his trip very much, and that he felt that his health had been greatly benefited by it.

To Rescue Swindler Taylor.

Omaha, Aug. 23.—A kidnaped preacher, Rev. O. D. Taylor, was due in Omaha today. He was kidnaped by a gang of thieves who have been anxiously scanning every incoming train in the hope of locating the reverend gentleman and extending to him the aid of the law. Taylor was kidnaped by a gang of thieves who have been anxiously scanning every incoming train in the hope of locating the reverend gentleman and extending to him the aid of the law. Taylor was kidnaped by a gang of thieves who have been anxiously scanning every incoming train in the hope of locating the reverend gentleman and extending to him the aid of the law.

Suicide of Prominent Business Man.

Kansas City, Aug. 23.—J. W. Walker, aged 33, of the firm of Steele & Walker, the largest general merchants in St. Joseph, Mo., committed suicide by shooting himself here today. Domestic troubles are ascribed as the cause.

Alexandria, Va., Aug. 23.—Frank A. Reed, an ex-convict, was arrested here today. He is known. He was president of the Alexandria Publishing Company, and grand senior warden of the Masons.

Women for the Utah Legislature.

Salt Lake, Aug. 23.—The Salt Lake county Republican convention today nominated five candidates for the state senate and ten candidates for the house of representatives. Among the nominees are Mrs. Lillie R. Pardee for the senate and Mrs. E. R. Wells for the house of representatives.

There is certainly no baking powder so well known and generally used as the Royal. Its purity, as well as its superiority in leavening power, are matters of fact no longer disputed by honest dealers or makers of other brands. Its purity is so well known to every housekeeper that the slanders of the dishonest makers of the cheaper goods fall to touch it.

Cleveland Will Press the Button.

Atlanta, Ga., Aug. 23.—It has been arranged that President Cleveland will touch the button on September 1 and set in motion the machinery of an unfair trade flag on the Cotton States' International exposition buildings.

Ex-Millionaire McGowan Co-respondent.

Trenton, N. J., Aug. 23.—John Albert Barnes today instituted proceedings for divorce against his wife, Helen Edith Barnes, naming ex-Senator Frank A. McGowan as co-respondent. Barnes asks for the custody of his daughter Beryl, who is now with her mother in New York.

FRANCE IN TROUBLE.

The United States Means Business in Waller Case.

EUSTIS ORDERED TO HURRY UP.

The Tamatave Salute Has Nothing to Do With the Case.

This Government Will Not Discuss the Madagascar Protectorate or the Castine's Failure to Fire Guns, But If Waller Is Innocent France Must Release Him and Pay Damages.

Washington City, Aug. 23.—The officials of the state department were gratified today to learn that Ambassador Eustis had made a move in the matter of Waller and had carried out a portion of the instructions which have been given him. The department has felt that its efforts in this case have not been as ably seconded at Paris as they might have been, and Ambassador Eustis explains the delay as being due to the absence of the minister of foreign affairs. The department believes that within a few days the French government will make some response to the request made for the papers in the Waller case. It is recognized at the department that the French government is not only slow, but that the French people are inclined to be nettled at the course pursued by the Americans, as shown in the resentment felt because the commander of the Castine failed to salute the French at Tamatave.

It is thought much may be made of this incident by the French, in order to still further delay the settlement of the Waller case. The French government is inclined to be nettled at the course pursued by the Americans, as shown in the resentment felt because the commander of the Castine failed to salute the French at Tamatave.

The Waller case must be considered solely on its merits, and not as a crime. The French government is inclined to be nettled at the course pursued by the Americans, as shown in the resentment felt because the commander of the Castine failed to salute the French at Tamatave.

THE KNIGHTS' TEMPLAR.

Boston Making Ready to Receive Them—Elaborate Police Precautions.

Boston, Aug. 23.—Every possible precaution to protect visitors and citizens for the coming conclusion of the Knights Templars are being taken by the authorities. The detective and police forces have been greatly augmented, and there are detectives on duty from the principal cities of the United States. Every inch of ingress is being carefully watched, and orders have been given that all suspicious characters shall be arrested. On Monday every policeman must report for duty. Throughout the week the entire police force will be detailed to different places at the gatherings and parades.

Several stands erected for the parade will have to be pulled down and rebuilt. Chief of Police Edridge has arranged to have the members of the Red Cross ambulance corps stationed near the line of march next Tuesday for an emergency. If it should rain heavily on Tuesday the parade will not take place. The banners and expensive regalia of the Knights Templars are being taken to the city, and to postpone the parade until Wednesday would also be impossible, as the laws of the order prevent any parading on the streets in session, excepting in case of escort duty.

The decorating of the city is proceeding with unabated zeal. The advance guards are beginning to arrive. The first detachment of 100 delegates from Nebraska arrived at noon and were escorted to headquarters.

Populists Boom Caldwell for President. Topeka, Kan., Aug. 23.—The movement in favor of Judge Henry C. Caldwell, of the United States circuit court, for president of the Republic, has been revived today. Judge Caldwell will visit Topeka next Tuesday on business connected with the Santa Fe railroad re-shipment. His visit is likely to be made the occasion for a demonstration by the people of this country permitted Wall street to fasten upon this nation the gold standard. Judge Caldwell's position on labor matters is commended and his firmness in the United States has never applied for or received any exequatur for him. In advising the commander of the Castine not to recognize or salute the French, the department assumes that Mr. Waller has taken the right course and knows what he is about, and will act on that assumption until something is said to the contrary. The effect of this position of the consul and the commander of the Castine may have on the Waller claim is altogether speculative. If the French government is inclined to be nettled at the course pursued by the Americans, as shown in the resentment felt because the commander of the Castine failed to salute the French at Tamatave, it would be difficult to see how the United States could be expected to do otherwise.

CARLISE'S JUNKET.

A Government Steamer Being Used as a Private Pleasure Yacht.

Alexandria, Egypt, Aug. 23.—The government steamer Amaranth has arrived here with Secretary Carlisle, Mrs. Carlisle and William K. Carlisle and family. The party is on a pleasure trip and will remain here a day or two. The Amaranth carries a crew of twenty-one, and is in charge of Capt. M. Ridley, of the United States engineer corps.

Soldiers to Get Their Pay by Express. Washington City, Aug. 23.—The new army regulations will make some important changes in the method of paying the troops, and probably will be found objectionable to all officers who command posts or companies. Instead of sending paymasters to the various posts throughout the country, the rolls will be made up at the headquarters of the army department or at places where there are local department headquarters. The rolls will be accompanied by envelopes containing the money due each officer and soldier, and will be sent to the commandant of each post by express. The commandant will be selected by the army department, and they will pay the troops and make the return. The object is to save the expense of mileage of paymasters to the various posts throughout the country, and to save the expense of the troops from post to post to pay the men. Hereafter the paymasters will remain at the headquarters, and perhaps in some instances pay headquarters in the different departments will be abandoned and consolidated at the department headquarters.

The Labor Boycott of Bank Notes. Minneapolis, Aug. 23.—H. R. Martin, of the executive board of the Knights of Labor, who has just returned from the East, declares that the Knights of Labor are in debt earnest as to the boycott of national bank notes urged by Master Workman Sovereign, and the boycott will be put into effect on Monday day, September 1. After that date he says "all Knights, their friends, Populists and money reformers generally are requested to refuse to take bank notes for any obligation due them. We expect active support from the silver men, who recognize in the banks the bitterest enemies to silver. Many labor organizations have already given notice to their employers that they desire to be paid in legal tender money and not in bank notes."

Prof. Haines, chemist at the Chicago board of health, says he has found the Royal Baking Powder the purest and strongest, and superior to all others in every respect.

Duke of Marlborough in New York.

New York, Aug. 23.—The Duke of Marlborough, who is 24 years of age, a son of the late duke, who married Mrs. Hammerley, of this city, arrived on the Campania today. He will stay in New York until after the yacht races, and will then make a tour of the country.

It is understood that the young duke, like his father and his uncle, the late Lord Randolph Churchill, has come over to marry a rich girl. He is in dire need of money.

The Bannocks to Be Protected.

Washington, Aug. 23.—Attorney General Harmon today instructed United States District Attorney Clarke, of Wyoming, to sue out writs of habeas corpus for the Bannocks, who are being held at Evanston, Wyo., for violation of the state game laws. Attorney General Harmon holds that the hunting rights of the Indians, obtained by treaty with the United States, cannot be abrogated by the passage of state game laws. It was for violation of the state laws that they were arrested.

At every fashionable club, what? Why, Dr. Price's Baking Powder.

Recruiting for Cuba in Kansas City. Kansas City, Aug. 23.—Nearly 100 men, most of whom are laborers, today enrolled themselves at the headquarters of the Cuban revolutionaries recruiting station organized here yesterday. The leaders of the movement still show considerable enthusiasm over the project. It was given a setback tonight, however, by Gen. Shelby, United States marshal for this district, made the declaration that he would arrest any and every man connected with the scheme. Gen. Shelby's son, Orville, himself a deputy, who is at the head of the movement.

Millionaires' Children to Wed.

New York, Aug. 23.—The world tomorrow will say: Miss Emma Rockefeller, eldest of the four children of William G. Rockefeller, of the Standard Oil Company, is engaged to marry David Hunter Madison, Jr., of this city, son of the millionaire tobacco manufacturer. The wedding will in all probability take place in the fall.

You cannot say that you have tried everything for your rheumatism, until you have taken Ayer's Pills. Hundreds have been cured of this complaint by the use of these Pills alone. They were admitted on exhibition at the World's Fair as a standard cathartic.

"Mikado" tonight. Madison Park.

THE FOCHOW OUTRAGE

Many Native Converts of American Mission Butchered.

CHINESE OFFICIALS JUBILANT

Because the Government is Virtually Protecting the Murderers.

The Authorities at Washington City Do Not Think Anything Serious Has Taken Place, and in Any Event Prefer to Have England Act First.

London, Aug. 23.—A special received here from Shanghai says that many Chinese converts were butchered when the American mission outside of Fochow was attacked, and the chapel and school were wrecked by, and infuriated mobs. The dispatch adds that the Chinese officials are jubilant at the defeat of the efforts of the American and British consuls to obtain an inquiry into the massacre.

It is also said that the delay is giving the Chinese time to prepare a defense for the prisoners. Shanghai, Aug. 23.—The members of the commission which recently left Fochow for Chengtu to investigate the recent massacre of missionaries there are virtual prisoners. Commander Newell, of the United States circuit court, has gone to Chengtu to consult with J. C. Hixon, United States consul at Fochow, a leading member of the commission, about landing marines for his protection and the protection of other commissioners.

The utmost indignation and indignation among the members of the foreign colony here at the appointment of the formerly degraded Viceroy Liu, regarded as the originator of the recent outrages, to investigate the recent outrages and the cause thereof.

Washington City, Aug. 23.—It is said at the state department that if the report is true that Viceroy Liu has been appointed to investigate the Chengtu riots, then the foreigners have good cause for complaint. If the report be true, it is probably that both the British and American governments will protest. Viceroy Liu was governor of the province in which Chengtu is situated, and he was said to have been guilty of gross negligence, which by some persons was regarded as amounting to complicity in the Chinese riots of last June. There are a great many men in China named Liu, and it is possible that there has been a confusion of names. It is said here that Kuehng is meant wherever Chengtu is used in the Shanghai dispatch, as Chengtu is the scene of the June riots and 140 miles from Fochow. The naval officials, though without information themselves, are inclined to discredit the information in the dispatch. Acting Secretary McAdoo said it was observed that dispatches of this character came by way of London, while another high naval officer said that there was an evident intention on the part of Great Britain to do nothing to get the United States government to pull the chestnuts out of the fire, and pointed to the fact that
