

THE MATTHEWS BOOM Governor of Indiana a Candidate for President.

HE WILL MAKE SPEECHES IN OHIO

What Gen. Harrison Said About Reed and McKinley—Leading Editors Want Short Campaign.

Indianapolis, Sept. 30.—Gov. Matthews will spend the last two weeks in October in Ohio making speeches for the Democratic ticket. It is thought here that about the time the governor makes his political friends will begin to do some work toward securing for him the nomination for president next year.

GEN. HARRISON NOT A CANDIDATE A Friend Denies That the ex-President Opposes Reed and McKinley.

Washington City, Sept. 30.—The recent interview with Gen. Harrison, stating that Gen. Harrison was not a candidate for the presidency and that the ex-president would not select Mr. McKinley or Mr. Reed, if his advice were followed, has attracted much attention in Washington City among those who have been closely and officially associated with Mr. Harrison.

The Texas court had convened at the foot of a telegraph pole and the thief was watching the proceedings. Presently the judge turned toward him.

"Well, go ahead; you've got a few minutes and the choice of subjects. Consider your duty. It is to please us, we won't be too particular."

"Can't you make it a few years?" smiled the prisoner.

"We'd like to, but the object of the meeting would be to get a fair shake. Besides, we've been to a good deal of trouble to get you here, and we ain't got time to waste that way."

"That's all right," he said, reassuringly to the prisoner; then he turned to the crowd.

HOT DEBATE IN THE DELEGATES

Lighting Companies in Vain Plead Inability to Pay the Cost—Kilbourne and James Have a Spat.

Some Good in Him. New York Sun.

The ordinance for the removal of telegraph and electric light poles from the streets and the placing of wires underground, was passed by the city council last night.

The ordinance providing for paving with cedar blocks a street to be named by the city engineer was passed by a unanimous vote.

A resolution was passed directing the board of public works to prevent the obstruction of street crossings as much as possible, to the end that the business houses be not interfered with.

L. A. Dyer and E. W. Johnston sent in a petition asking for a lease for a term of years for the premises at the foot of Jackson street for the purpose of constructing a slip and griddon, giving for their reason that they handle a great deal of material shipped by barge and scow, and say that they have been and are now seriously hampered in handling the same because the space in the vicinity of the present slip is constantly occupied by craft of all kinds.

The treasurer's bank statement for the week showed that there was in the hands of the different banks \$106,653.75.

Authorizing free water to Thomas Forster, passed.

Authorizing the moving of incandescent lights from Jones street and Remington avenue, to corner of Squire and Remington avenues; at Edes and Hyde streets to Squire and Yester avenues, and at Edes and Hyde streets to Willow and Windom streets; passed.

Establishing grade of Gaylor street from Temperance to Elliott; passed.

Authorizing special assessment to redeem the first annual installment and interest which mature for the improvement of Harrison street; passed.

THE HOUSE OF DELEGATES. Fruitless Effort to Reduce Force at Pumping Station.

In the house of delegates a resolution opposing the reduction of the force at the Washington pumping station was voted down.

Mr. James said that no one had proposed to reduce the force, but the intent of the resolution was to place those employees in a position where they could snap their fingers at the superintendent, and that to adopt it would place them beyond his control.

Mr. Kilbourne then began giving figures to prove the inability of the Union Electric Company to pay the cost of the wires.

Mr. Kilbourne said he would give the contract for \$1,000 a block, or for \$2,000, on a system to be selected by himself as outlined in Edison's Journal of Electricity, but the check not appearing and the system not being adopted, the best system was concluded.

At a Disadvantage. Chicago Tribune.

"I have come this evening, Miss Mildred," began the youth, fingering his hat nervously and clearing his throat, "to ask you—that is—"

"I came this evening to tell you, Miss Mildred, that I'm—that whether I'm—ever come again or not will depend on your reply to what—that I came to say this evening."

"I mean, Miss Billiwink—Miss Mildred—that the time has come when I can no longer—I'm—can no longer pretend to hide from myself the knowledge that I'm—have become too deeply interested in you to endure the thought that some other man—some other man may win the prize upon which I have set my heart."

"I feel that I am laboring under a disadvantage, Miss Mildred, and yet—I'm—if I knew the strength of the—I'm—the feeling that moves me—that compels me, I might say, to run the risk of—I'm—seemingly to be in too big a hurry, you would understand why I have come to say—I'm—to say what I have come to say this evening, 'H'm.'"

"Don't you think, Mr. Spoonamore—" "Miss Mildred, a man in my condition doesn't think! He can't think! He can only feel. That is—h'm—what tells me. If you would—would only—h'm—help me out—"

"Mr. Spoonamore," said the young woman, in whose eyes there shone the light of a sweet and tender pity, "if I had your voice I would go and get it sandpapered."

Not Worth Bothing About. Harper's Bazar.

"Owing to your not having screens in your car windows," said this traveler, "I got into a bad fix the other day, and you had cost me \$10 to get it out. I want to know what you propose to do about it."

"Nothing, my dear sir," said the railroad official. "We have no use for the cinder, and you are perfectly welcome to it. On a strict construction of facts you did go to a point where the cinder, of course, was not yours—but we do not care to make trouble for you in so small a matter. Pray do not give the incident a moment's thought."
