The Hosts of the Cuban Patriots Investing Santa Clara.

NO MORE HIDING IN THE WOODS

Republic's Conquering Regiments Overrun Whole Provinces.

Gomez, the Great Strategist, Levies Tribute on the Rich Planters, While Thousands of Recruits Flock to the Standard of Cuba Libre—America Sends Arms in Spite of Spanish Protests.

Havana, Nov. 9.—It is now admitted, even in official circles, that the insurgents have recently made such progress in the different provinces they are operating in and that they have received such a quantity of arms, ammunition and dynamite that affairs may be said to be reaching a crisis.

Will not the government need more revenues? "Yes, sir, and will have to get those revenues through protective duties. If there was any probability," continued the congressman, "that we could get the country service which business men will appreciate."

MAXIMO GOMEZ

As called to the Associated Press a few days ago, Gen. Maximo Gomez, the insurgent commander in chief, has crossed the borders with a large body of men and is now encamped near Siguaná, south of Santa Spiritus, which is occupied by a considerable body of Spanish troops, and which is one of the points where the insurgent general recently established a heliograph station to try to keep up communication between the cities of Santa Clara and Puerto Principe.

In addition, the Roloff and Cespedes expeditions, well armed and equipped, have joined forces and are preparing to enter into active co-operation with Maximo Gomez in Santa Clara. Then, again, the insurgent commander, Serafin Sanchez, in a strong force, has been at Abasco, near Cienfuegos, the most important town of the province of Santa Clara and one of the most important cities of Cuba.

Roloff and Cespedes are making things very lively for the captain general in the province of Santa Clara, where most of the insurgent activity is being displayed. They are driving the Spaniards out of the towns under penalty of being shot, and the latter cannot be induced to return, even on the promise of lands and protection held out by the Spaniards.

The Spanish government is well aware of this fact, and has done everything possible to prevent the insurgents from raising funds, as well as trying to capture the messengers which they send to the United States and elsewhere.

TO MEET THE DEFICIT.

There Must Be a Bond Issue or a Republican Revenue Law.

Chicago, Nov. 9.—Congressman Joseph G. Cannon, of the Danville district, who has been spending several days in Chicago, left for Washington City today. Before leaving the congressman made a statement of the prospective work of congress. "I do not think," he said, "that there will be any general revision of the tariff. In fact, I do not see how it can be expected with the house Republican, the senate having neither party in the majority, and the executive Democratic. I think if we can get through our work and have congress adjourn by June 1 it will be going the country service which business men will appreciate."

"Edison on Inventions" is the title of an interesting article by Rufus E. Wilson, which appears in the Monthly Illustrator and Home and Country for November. The article is based on an interview with Mr. Edison. Mr. Edison is very severe in his opinion of the patent laws and the present practice in our courts, which works so seriously against inventors and in favor of patent thieves, whom he designates as pirates.

The North American Review for November opens with a unique article on "Quick Transit Between New York and London," by Austin Corbin. An amusing essay on "The Plague of Secularism," by the late Prof. H. H. NO PARADE THIS YEAR

Restrictions Placed on the Anarchists of Chicago.

POLICE MUZZLE HERR MOST.

The Bodies of the Martyrs May Be Removed From Waldheim Cemetery, Whose Directors Are Unfriendly.

Chicago, Nov. 9.—The bones of the anarchists hanged for the Haymarket massacre are not to rest in peace. The bodies of August Spies, Albert Parsons, Louis Lingg, Adolph Fischer and George Engel, now lying in Waldheim cemetery, will be exhumed and cremated. The ashes will be scattered in the city. It is not known where, but in a spot which those who hold the memory of these men dear may visit when they wish. "This was the suggestion made at a meeting of socialist societies and trades unions of Chicago tonight. There was not a dissenting voice. The idea of such action was the outcome of the officers of the Waldheim cemetery refusing to permit the annual demonstrations this year at the graves of the dead anarchists on the anniversary of their execution.

At an attempt to hold a parade in honor of the memory of the executed anarchists were abandoned this afternoon, when the police permit to hold the parade was given up. Herr Most has been informed that no criticisms on the national or municipal government are wanted from him, and that if he makes any speech tomorrow it will be to his interest to make it polite.
