

OLIVER IS ARRESTED

Charged With Embezzlement From Columbia National.

HE WAS THE BANK'S PRESIDENT

Puget Sound Loan, Trust and Banking Company, the Last Bank in Whatcom, Falls.

Tacoma, Nov. 22.—Special.—Maj. Henry Oliver, president of the broken Columbia National bank, was arrested at 2 o'clock this afternoon on a warrant in the hands of Deputy United States Marshal C. S. Bridges on the charge of embezzlement.

Charles Clary, examiner and receiver-in-charge of the bank, swore to the criminal complaint on which the arrest was made. The charge is the outgrowth of Maj. Oliver's connection with the bank. The defendant was taken before Justice J. J. McMurray, who issued the warrant.

The complaint specifies six different charges of embezzlement, the whole amount alleged to have been taken being \$5,365. The allegation is made that Maj. Oliver, being duly elected, qualified and acting president of the Columbia National bank, came into the custody of various sums of money, for and in behalf of the bank, and that he feloniously converted the same to his own use and purposes.

The dates given and the amounts alleged to have been embezzled are: January 21, 1894, \$4,500; February 27, 1894, \$200; March 19, 1894, \$1,375; May 18, 1894, \$1,000; August 5, 1894, \$11. On March 9, 1895, the sum of \$500 is alleged to have been given ex-City Treasurer George W. Hogg.

Behind the formal language of the complaint lies a story, which has a pathetic aspect. It appears that the amounts named were sent out here from the East by old friends and acquaintances of Maj. Oliver.

In one instance, an old tailor named D. Bottemus, of Cincinnati, O., sent \$4,000, and \$1,000 at a subsequent date, which represented the savings of a lifetime. Cincinnati's Mayor, J. C. Sawyer, the money was placed to the credit of Mr. Bottemus, and he was paid 3 per cent. interest on it. Subsequently the amounts were placed in Maj. Oliver's account, and the latter's checks made to various individuals show where the money went.

THE NEW CUP CHALLENGER

Sir George Newnes, Willing to Trust His Luck on a Possible Challenger for the America's Cup.

Paris, Nov. 22.—You may say I am a possible—in fact, a probable—challenger for the America's cup. So spoke Sir George Newnes to a correspondent who asked him to write a column for the London edition of the Rivera. "My position is just this: I am perfectly willing, in fact, very desirous, to challenge for the America's cup, and I am very much like to see brought back to this side of the Atlantic, but as I am not presumptuous enough to regard myself as a competitor for the cup, I am not prepared to express an opinion as to the merits of the difficulty between Lord Dunsany and the New York Yacht Club. I will say, however, that I certainly believe that the gentleman forming the New York Yacht Club would not stoop to anything dishonorable in all my dealings with Americans I have always found them perfectly honorable.

SULTAN WREWS A CRATIVE

That Is, He Issues Orders for Restoration of Order.

BUT THE TURKS GO ON KILLING

The Embassies Permitted to Have More Dispatch Boats—A Mass Meeting in Boston.

Constantinople, Nov. 22.—The sultan has offered rewards for the arrest of the persons who are the most active in the mosques and in many other public places, exciting the Armenians against the Muslims. A special committee has also been appointed to receive the reports until adequate results are obtained in the restoration of order among the Armenians.

The general situation in this country continues to excite the gravest fears. Telegrams received from Marash yesterday, apparently considerably delayed by Turkish officials, say that American and other missionaries are being driven from the city, and that reinforcements of Turkish troops arrive from the north and are being ordered to attack the Armenians. Officials of the diplomatic corps point to the fact that as the Armenians are not to be armed, the projected measures against the Armenians have created a danger which may have the gravest consequences.

BIG FIRE AT CHICAGO

A Building Occupied by Manufacturers Destroyed.

PANIC AMONG WOMEN EMPLOYEES

One Girl Jumps to Death, Another to a Fireman's Arms—Four of the Firemen Killed.

Chicago, Nov. 22.—The interior of the Exchange building, a seven-story structure at the corner of Van Buren and Franklin streets, was destroyed by fire today, entailing a loss of \$75,000 upon the owners and tenants of the building and causing the loss of five lives, the fatal injury of two others and the injury of six other people.

The dead are: Patrick J. O'Donnell, lieutenant of engine company No. 2; Martin Herick, John Downs, John Prendergast, policemen. All the firemen were crushed by falling debris. Kittle Landgraf, jumped from the fourth story window, burned internally; died at the county hospital.

The injured are: Nellie Turner, jumped from third story window, internally injured. She was picked up from the street by smoke, will recover; Olga Keller, overcome by smoke, will recover; Hattie Brennan, overcome by smoke, will recover; Edna Ritter, overcome by smoke, will recover; Mary Pinky, overcome by smoke, will recover; Daniel McNally, driver for engine company No. 2, buried beneath debris, will recover.

It was a few minutes before 9 o'clock this morning when Rose Mace, employed by Stern & Beirs, on the third floor, noticed an odor of smoke. She stepped out into the hallway and started the corridors were rapidly filling with smoke, and then gave the alarm. Thirty girls were at work in the room. Instantly there was confusion. Although every effort was made to check the frightened girls, several opened windows and climbed out on the ledges. One of the first to do this was Nellie Turner. She screamed for help and some one on the floor below had seen her jump. She went to another window, where a fire escape was, and climbed out. Those on the street watched her movements with great anxiety. She grasped the pipe and swung herself over the ledge and commenced to descend. Officer Faherty was also on the fire escape between the first and second stories, and when he saw the girl he started up to help her. She suddenly lost her balance and fell. Officer Faherty tried to catch her, but could not reach her. She was picked up unconscious.

Olga Keller, employed by Stern & Beirs, ran to a fourth story window overlooking VanBuren street, threw up the window sash and climbed on the ledge, clinging with one hand to a narrow strip of wood on the outside of the sash. She saw a few feet below her a ladder on which two firemen stood, and prepared to jump. "Wait! don't jump!" shouted Capt. Hermann, who had almost reached the window. Great volumes of smoke poured out of the window, and at times the girl's form was visible. She was clinging to the ledge, and was being held by the window sash. She had been overcome by smoke and fallen. Capt. Hermann braced himself, and as the girl's hand slipped, he seized her and held her with his right arm. The effort nearly cost him his own life, for he narrowly escaped falling. From hundreds of throats cheers of "Good!" and "Well done!" were heard. The girl was unconscious, but will recover.

By noon the firemen thought the worst of the fire was over. They were mistaken. Shortly before 1 o'clock the safe on the fifth floor fell to the fourth, carrying it and the third, second and first floors. Five men, members of engine company No. 2, were working on the second floor, and all were buried beneath the mass of brick, stone and timber. All were killed, but Daniel McNally, after nearly an hour's search, was rescued. He made a passageway through the debris and succeeded in getting close enough to where the firemen were buried to assure themselves that they were all dead. O'Donnell was alive. He was just able to talk, and it was with great difficulty that his words could be heard. Men who knew him well recognized his voice. "Is any one near you?" one of the rescuers shouted. "Yes," came back the answer faintly from O'Donnell. "How many?" "Two. Alive or dead?" "Gradually," O'Donnell said. "The last voice became weaker, and his reply to the last question was scarcely audible. The rescuers called to him and asked him how he was. He was injured, but he could not make reply. The fire soon broke out again, and the rescuers were compelled to abandon their work. O'Donnell's dead body was recovered at 7 o'clock tonight.
