

AWAIT KRUG'S FATE.

Judge Humes' Decision on D.T. Denny's Appeal.

INDICTMENT NOT DISMISSED.

Total of All Krug Cases Delayed by Agreement—Here Goes Nothing? Campbell Sentenced.

Judge Humes yesterday decided that D. T. Denny must await the final outcome of the Krug case in the United States court before the indictment against him can be disposed of. The case is on a motion to dismiss for lack of prosecution, supported by affidavits of Mr. Denny and Allen Weir, and opposed by an affidavit of Prosecuting Attorney Campbell.

IT WAS A PARTY TO THE DECREE.

A decision involving a number of intricate points of law was yesterday given by Judge Langley in favor of the defendants in the case of W. M. Blakeley vs. J. M. Waters et al. In 1931 suit was commenced in the superior court by Blakeley, who set forth in his complaint that a promissory note for \$100 was executed by J. M. Waters, Nancy Waters and L. R. Foy and made payable to J. H. Bidwell Wright.

AYER CLAIMS A BALANCE DUE HIM.

Nathan P. Dyer yesterday filed his answer in the case of F. G. Von Rosen vs. F. P. Dyer, in the superior court. The complaint alleges a debt on the part of the defendant of \$245.50 to the plaintiff, which is a tax sale on the property for which Mr. Dyer was acting as agent for the plaintiff. Mr. Dyer's answer contains an amended accounting of the various amounts expended by him as agent for Mr. Von Rosen's property, showing a balance due him of \$60, which is secured by a note. He also makes a counter claim to Mr. Von Rosen's complaint, a judgment on the note, which is four years past due.

MERCHANTS NATIONAL IN DEFAULT.

In the case of the Merchants' National Bank of this city, against J. B. Ault & Company, of Snohomish, Judge Humes yesterday issued an order declaring the plaintiff to be wholly in default, and dismissing the action, the defendants to recover their costs from the plaintiff. The case came up on the defendant's motion for default and judgment against the bank, which was not represented.

CAMPBELL GIVEN SIX MONTHS.

G. W. Campbell, the prospector, who, while drunk, gave Arnold Zbinden a worthless check for \$10 to pay a debt of \$100, and received \$7.50 in change, and who then made a futile attempt to blow out his brains, yesterday was sentenced by Judge Humes to six months in the county jail.

NEW SUITS FILED.

The following new suits were yesterday commenced in the superior court: Margaret Loan and Trust Company vs. Mary E. Harding et al.—Note and mortgage, \$100.

COURT AND COUNTY NOTES.

C. M. Black was yesterday appointed a Justice of the Peace for the county of King. Albert S. Olson, a native of Norway, was yesterday admitted to citizenship in King County.

WORK FOR THE FIRE DEPARTMENT.

A fire in the two-and-a-half-story frame building at 1015 Washington street yesterday morning at 3:30 o'clock started on the second floor on the second floor by spontaneous combustion, there being a number of boxes of matches in the room. The building was owned by Arthur Lewis. The fire was caused by a match. Engine companies 1 and 2, truck 2 and chemical 2, were on hand and soon had the fire under control. Damage to the building was \$100. The fire caused by a match. Engine companies 1 and 2, truck 2 and chemical 2, were on hand and soon had the fire under control. Damage to the building was \$100.

CITY FATHERS TO VISIT VICTORIA.

The mayor, board of aldermen and members of the house of delegates last night fixed a date for their trip to Victoria to enjoy the hospitality to which they have been invited by the municipality of that city. The officials of the latter will in turn accept an invitation from the municipality of Seattle to spend a few days here, and in this hospitable way a closer feeling is hoped, will be created between the two cities generally. The party from here will leave on Friday night, and return Sunday night.

WEDNESDAY'S CHARITY MEETING.

The meeting Wednesday night at Plymouth Congregational church in the interests of organized charities ought to be a success.

breaking away of a board. He says he was earning \$125 a month, and has since been prevented from earning anything by the accident.

A petition was yesterday filed in probate by Caroline Grunkranz, praying for the administration in the estate of John Grunkranz, deceased. The will, which is also filed for probate, names Caroline Grunkranz as administratrix.

TUGBOAT OWNERS' DEFENSE.

THEY DENY ATTEMPTED EXTORTION AND BLAME CONNOR FOR VIOLATING LAW.

Statements regarding the difficulty between the mayor and the tugboat owners over the hauling of the school children to and from the flagship Philadelphia on Saturdays seem to vary greatly, the former claiming that a communication was formed against him, and the latter that such was not the case, and that they were not approached until 11 a. m. on Saturday, which was too short a time in which to make arrangements. The tugboat men do not blame the mayor in the least, but are especially severe on Capt. Connor for violating the navigation laws.

ONE LITTLE "WANT" DID IT.

Manager McCarthy, of Newhall's Beggone by Boys.

Yesterday morning the early pedestrians on Second street in front of G. A. Newhall's big dry goods establishment, there were boys of all sizes from diminutive 5-year-olds to more than 16-year-olds. When the store opened there were over seven-five boys waiting to get in, and all waiting more or less for the manager, and they gathered from the following small ad inserted in Sunday's issue of the Post-Intelligencer:

THE GOLD OF ALBERNI.

Rich Discoveries on West Coast of Vancouver Island.

PLENTY OF FREE MILLING ORE. Much Development in Progress Shows Better Ore—Copper There Also and Other Districts Remain.

Hon. D. W. Higgins, of Victoria, speaker of the provincial house of parliament of British Columbia and a prominent mining man, who has been at the Victoria hotel for the last few days, has announced facts about the gold discoveries at Alberni, on the west coast of Vancouver island, about 125 miles from Victoria, where he has spent some time this fall.

TWO INQUESTS YESTERDAY.

The Colored Suicide and the Drowned Northern Pacific Brakeman.

Coroner Askam held two inquests yesterday morning at "Butterworth's" undertaking establishment, the first one at 10:30 on the body of George L. Johnson, the colored chef that committed suicide last Friday, and the second at 11:30 on William Bruce, the Northern Pacific brakeman who fell into the tide flats some time Thursday night.

The facts in both cases were substantially the same as have been published in the Post-Intelligencer. In the Johnson case, the principal feature was the testimony of the widow, a comely looking white woman. There was a slight waver in her tones as she talked, and when she came to the portion of the story which told of her husband's attempt to cut his throat she sobbed bitterly. The jury retired for a few minutes and brought in a verdict of death by his own hands with suicidal intent.

A CASE OF GOV. M'GRAW.

His Well-Known Features in Plaster Attract Great Attention.

The attention of hundreds of passers-by was yesterday directed to a window in the Korn-Kumsey drug store, where there appeared a plaster cast of Gov. J. H. McGraw. The features were extremely natural, the mustache and hair being especially well done. The view is about three-quarters, and is taken from a photograph. The cast had been made when he paused before the window yesterday, and is in a neat antique frame, with a double border of silver.

MAKING READY FOR GUESTS.

Philadelphia's Men Trim Ship for the Reception Today.

The flagship Philadelphia will present a gay appearance this afternoon, as the progress of the reception will be tendered by the ship's officers to the society people of the city. No one was allowed aboard yesterday, so as to give the tars an opportunity to get into the ship and decorate the ship with flags and flowers. The invitations were sent out yesterday and with pleasant weather nearly all the favored ones will grace the handsome vessel with their presence. The invited guests will be taken off in the ship's boats beginning at 1 o'clock and returned at the end of the afternoon.

HOME FROM NEW YORK.

Among the arrivals in this city yesterday was L. B. Stewart, manager of the Everett Pulp and Paper Company, who has returned after a month's visit to New York. Mr. Stewart reports that, while prices for paper are now at a low level, they are expected to advance in the next few months, as water and ground wood is becoming scarce, and mills all over the country are storing pulp. The Everett mill has been running at full blast, and will continue to do so. In the East, Mr. Stewart says, business men seem to be encouraged at the prospect of better trade conditions.

PROGRESS OF WORK FOR ADULT BLIND.

Capt. Daniel Beck writes from Spokane that he is receiving great encouragement in his work to establish an asylum for the adult blind in this city. He has received a number of subscriptions and has been assured by several members of the state legislature of their support when he appeals to the state for assistance in carrying out the work. He mentions that he has 10,000 signatures before the next meeting of the legislature, and feel quite confident of having this asylum for the blind in our beautiful city of Seattle before two years have expired.

TELEPHONE MAIN 382.

P.-I. Local Number Changed—Editorial Rooms Enlarged.

The telephone for the Post-Intelligencer editorial offices is now Main 382, the change having been made yesterday by the removal of the local rooms into commodious quarters on the third floor of the Washington Territory Investment building in the local force, and is most advantageous. Persons desiring to telephone to the local rooms should remember the number, Main 382.

ANOTHER BOAT FOR CENTRAL AMERICA.

Owing to the uncertainty as to the date of the return of the Transit and her time of sailing to Central America, freighters from other points intended for her have been held back. But she will find more cargo awaiting her than she can carry. There is talk now of putting on a passenger boat about March, and this will only be the beginning of the Sound's fight for a share of the great trade of Central America. There are eight steamships from San Francisco in the business on the Pacific side, and twelve on the Atlantic side from New Orleans.

HIGHEST AWARDS AT WORLD'S FAIR.

"Along Alberni canal, which breaks in from the straits, nine miles, the country on either side being rugged, and the hills precipitous, vigorous prospecting has been carried on and important discoveries made. An American miner, Mr. Tinsell, has discovered a large vein of silver on the east side of the Alberni canal, a small stream emptying into the canal about twenty-five miles from the sea, which is composed of the light gray, siliceous shale, interspersed or threaded by small veins of quartz. The rock is easily pulverized, and every piece that has been crushed and washed out shows free gold. Three hundred pounds was sent to Mr. Pellev Harvay, of Vancouver, who subjected it to a mill test, and reported a result of \$12 to the ton, the ore not being at all refractory. This is a most excellent result, and it is believed that the hills in the same locality are equally rich. The rock is such poor stuff that one would hardly pick it up if it were not for the fact that the South Africa conglomerate."

FREE TURKEY FOR LITTLE FOLKS.

Great Thanksgiving Dinner for Poor Children at Banker's Hall.

The Salvation Army hopes the children who have no Thanksgiving at home will not forget the piles of roast turkey to be prepared for them at Banker's Hall. It is hoped the children will overlook it or forget it for some time after. They are requested to meet at the Army hall, corner of Yesler avenue and South Third street, at 10 o'clock, and to bring with them from their homes a turkey to be cooked at the Army hall and served to the children at 1 o'clock. The public is invited to see the list of names and to see the turkey that it takes a number of turkeys to feed 600 to 700 hungry children. Donations of any kind, especially of turkeys, will be most gladly received. The services will be conducted by Maj. P. Norton, of this city, assisted by Capt. R. Milne.

German Reformed Churches of Seattle and Ballard Become Congregational.

The German Reformed church in this city and the one in Ballard have been taken into the Congregational fold at their own request. The change was effected at the association meeting in Everett on November 11 and 12, on the application to be taken into the Seattle association of Congregational ministers and churches. The application met with no opposition, as the members of the Reformed church are practically Congregationalists in their beliefs and forms of service. It is thought
