SEATTLE, SUNDAY, FEB. 2.

A CANDIDATE FOR KEEHLAULING.

My noble lord has made a consummate ass of himself. The investigating committee of the New York Yacht Club do not announce it in so many words, but they furnish a statement of facts, and conclusions of common sense follow as naturally as melting of snow follows the rising of the sun. The conduct of Dunraven all through has been that of a sordid, suspicious, cross-grained boor. From the time the Defender showed in the first race that she was the faster craft, the owner of the Valkyrie has acted like a boy, and conducted himself in a way that ought to keep him out of any first-class yacht club. Not content with whining over trifles during the series of races, he went home sore and disgruntled, and in the solitude of his closet built up a series of senseless charges against American yachting honesty which an impartial investigation has shown to be the veriest trash. It is a cheap man who cannot take defeat with a good grace, and Lord Dunraven appears to be of that five-cent counter order.

GERMAN AGRARIANS.

A number of correspondents have asked what the Agrarian movement in Germany means, and what are the people making up that movement. It is asked as to whether they are Socialists or Liberals, or whether they are the farming class, which, while it is usually very sturdy in advocating sound principles, very often goes off and supports those policies which are not only bad for the farmers, but for everybody else as well. As a matter of fact, the Agrarian movement in Germany is not a movement started by the farmers as tillers of the soil, but by the land owners. Their income is derived from farming lands, and, naturally, the people who own the lands which have proved unprofitable trust to their landlords or lessors to say that there must be some reason why the lands do not produce enough to satisfy either the tenant or the landlord.

THE "ANTI-RING" NEWS \$4,702.50.

The Seattle Daily News (\$4,702.50) a few days ago was hollering "ring, corruption," and at the same time was planning to clean out the city treasury by one of the boldest and most daring attempts at legalized robbery ever concocted in this city. The Seattle Daily News (\$4,702.50) and the Seattle Times (\$3,383.50) knew, or thought they knew, that the city was absolutely compelled to publish the charter in one or other of them. Here was to use a phrase common to the lightfingered gentry—a soft snap, not to say a plum, and one might even go so far as to say a picnic.

There are two eclipses in February, one of the sun on the 13th, and one of the moon on the 20th. The solar eclipse is annular, the path of the annulus crossing the Antarctic ocean, and passing within only about seven degrees of the south pole. The failure of the moon to be seen in the United States is due to the fact that the path of the annulus crosses the Antarctic ocean, and passing within only about seven degrees of the south pole.

The Hon. Alec Kirk, who is now on duty at Osborne as groom-in-waiting to the queen, is a fat little gentleman who enjoys the distinction of being the only subject of Victoria who has ever dared to make fun of her august majesty in her very presence. On one memorable occasion in obedience to her command he "took off" the queen herself with such success that the little great lady, in spite of the severe lineaments of her face is endowed with a very keen sense of the ludicrous, and was almost ill with laughter. He is a younger brother of Lord Hardwicke, and owes his exceptional position at court to the fact that he is the most intimate friend of the queen's youngest son, the late Duke of Albany.
