

of the department none of these notes had been redeemed. Since the beginning of this administration nearly \$10,000,000 in gold has been procured in exchange for other forms of currency. Of this amount \$5,500,000 has been procured in exchange for silver coin, and \$4,500,000 in exchange for silver certificates. The department has never refused to exchange silver for gold, and it is not to be supposed that it could be considered a discrimination against silver. It is refused to pay out in exchange for silver a discrimination against gold. If not, it is of course follows that a refusal to pay out silver for gold is not a discrimination against silver.

NEW FISH COMMISSIONER.

The President appoints John J. Brice, of California. Washington City, March 15.—The president today sent to the senate the nomination of John J. Brice, of California, to be commissioner of fish and fisheries, vice Marshall McDonald, deceased.

Capt. John J. Brice, of San Francisco, is a retired naval officer, and is spoken of very highly by Senator White, of California. He has given a great deal of attention to the subject of fish and fisheries, and was recommended by men in California interested in the subject. He is said to be a man of good executive ability. The place pays \$5,000 a year. It is a practical life office, and is one of the most desirable of the government scientific billets.

U. S. Supreme Court Decisions.

Washington City, March 15.—Chief Justice Fuller, in the United States supreme court today handed down a decision in the case of the people of California against the Central Pacific and Southern Pacific railroad companies, involving the right of the state to tax the franchise of those companies. The railroad companies had sought taxation on the ground that their franchises were derived from the national government, as well as from the state authorities, and were therefore exempt from state taxation. The chief justice decided against this view, holding that the railroad companies owe their existence as corporations to the state, and are subject to state laws, in respect to taxation. The chief justice held that the franchises had never been merged in Federal franchises, and that they were as legitimately subject to taxation as the roads of the companies. He said the position taken in the majority opinion was absurd and untenable.

Justice Harlan dissented from the opinion of the court. The dissenters held the franchises to be derived from the United States and that the mortgages upon the roads held by the state were the property of the national government, and therefore not subject to state taxation. The court reversed the decision of Judge Mackay, of the Texas federal court, in the case of Com. v. McKimley, and granted writs of habeas corpus for certain men claimed to have been engaged in the Garza insurrection in 1861 and 1862. The supreme court decision has the effect of holding them subject to extradition. Chief Justice Fuller read the opinion.

The case of the United States against the state of Texas, involving the ownership of land in Grant county, was decided in favor of the United States. Justice Harlan handed down the opinion. The case involves 1,500,000 acres.

A McKinley Concession to Manderson.

Omaha, March 15.—An open letter was made public today by Senator Thurston for the alleged purpose of settling the differences between the McKinley and Manderson forces in Nebraska. As the senator is the spokesman of the Nebraska McKinley forces, it is supposed to be satisfactory to them. The plan is that the state convention shall be held at Omaha, and it is the hope of Nebraska Republicans to see McKinley elected, but if the occasion arises in the national convention when they can not vote for McKinley, they will do so, and concluding: "Resolved, That the delegates to the national convention should vote for Hon. Charles F. Manderson, and all other delegates when in their judgment such vote is not in any way tend to defeat the nomination of William McKinley or lessen his chances for nomination."

Hulbert, against the Northern Pacific railroad, all the parties to which are claimants to the southeast quarter of section 21, township 15 north, range 41 east, has been disposed of, so far as the railroad company is concerned, its selection of the land having been cancelled. The original claimant was Hulbert, but whatever rights he had were transferred to Manderson, who purchased his improvements. The contest between Clarke and Manderson had the latest as not yet been decided by the department.

On Saturday morning he found the fence torn down, and he went to the place and found by Stringham during the night. Coultas, assisted by a young son, commenced to build the fence again, when Stringham shot at him with a rifle. MILITIA AT THE STATEHOUSE.

Result Precisely the Same as on Days When the Public Were Admitted to the Building During Balloting.

Frankfort, Ky., March 15.—The senatorial fight was begun today with a proclamation from Gov. Bradley, calling out the state troops. The proclamation declares: "That for several days past an armed body of desperate men have by their threats and demonstrations intimidated and overawed members of the general assembly; that a party of said persons in like manner took possession of the floor of the house while the joint assembly was in session and assumed to decide upon when said session was being held, and that on the 14th day of March persons were admitted to the senate and the house of representatives while the general assembly was in joint session and prevented their discharging the duty of their office and allowed persons to enter who were not entitled to a place on the floor; that the presence of those men prevented members from voting in joint session; that the civil authorities have at no time arrested any of these rioters or armed persons but have permitted them to continue their work of intimidation."

The Kentucky Guards were reinforced early this morning by the Brown Light Infantry from Lexington, and the Louisville Legion, 250 men, under command of Col. Cameron. These two companies were placed on duty at the state house grounds, and military regulations were enforced. Adj. Gen. Collier, in order to the officers in charge of the entrance to the state house expressly stated that no one except the members of the two houses, the sergeant-at-arms, the doorkeeper, the clock-keeper, the newspaper reporters and telegraph operators, were entitled to admission. The guards carried out the orders to the letter.

Howes, bankers, bailed out the brothers today.

The Silver Question in Europe.

Vienna, March 15.—In the reichsrath today a resolution was adopted providing that the government should give its support to efforts which may be initiated by other governments with the object of fixing the value of gold and silver by international agreement. In the chamber of deputies Deputy Borchgraeve made a minute and searching statement of the evils of the depreciation of silver. Mr. de Nayer, minister of finance in reply, recognized the gravity of the evils, though he thought it was not incumbent on Belgium to call a monetary conference. But the government would do its best to meet the measures in this direction of fixing a ratio between gold and silver.

London, March 15.—The Times says this morning that the British government has declined to accept the offer of the exchequer, which explained that it did not pledge the government when he pledged himself to do so.

FOR ITALY'S RELIEF.

Cause Assigned for the British Advance From Egypt.

SIGNS POINT THE OTHER WAY.

Railroad to Be Built Up the Nile and Radicals Do Not Believe the Government's Statement.

London, March 15.—The greatest possible interest was manifested in the house of commons today when the Liberal leader, Sir William Vernon Harcourt, put a question to the government regarding the proposed advance of British Egyptian troops up the Nile from Wady Halfa. The reply of the under secretary of state for foreign affairs, George N. Curzon, was a long and carefully prepared statement, in which he pointed out the threatening Dervish advance, and the danger to Egypt, and intimated that the movement of Egyptian troops was partly from a desire to aid Italy in the struggle with the Abyssinians.

STEAMERS BOUND FOR CUBA.

Spain Will Try to Intercept Them Off the Florida Coast.

Key West, March 15.—Before the steamships Bermuda, Three Friends and Commodore, each supposed to be carrying a filibustering expedition to Cuba, reach the island, they will be met by the squadron of a number of Spanish warships now cruising off the east coast of Florida. Three days ago three Spanish war vessels anchored off the south beach of the island of Key West. For days the vessel hovered about, ten or twelve miles out, apparently watching for filibusters. Yesterday afternoon the Spanish vessels went out to one of the Spanish vessels a steam launch, and it is supposed gave the commander some information relative to the movements of the filibusters. Immediately after the vice consul left the vessel, the three cruisers sailed away toward the north. The position is that they will patrol the east coast of Florida, watching for the Bermuda, Three Friends and the Commodore. There is said to be a large number of men camped on one of the Florida keys north of here, who are waiting for the arrival of the United States officials have received no orders to watch for the suspected vessels.

The British Isles Storm-Swept.

London, March 15.—Terrible gales have occurred today in the west of England and in Ireland. The force of the wind and the waves was such that the piers at Liverpool have been washed over and flooded. The ship canal has been made un navigable by the storm, and the walls of the canal were severely tried by the wash of the waves. The flying squadron had to make for Queenstown for a harbor of distress, the vessels having shipped large quantities of water. No serious damage resulted, however.

ALARM IN VENEZUELA.

It Is Feared England Means to Repeat the Crime of 1858.

New York, March 15.—A dispatch to the World from Caracas says: Despite the denials from London, it is reported here on what is considered good authority that England intends to duplicate the crime of 1858, by sending a fleet of British warships to the Venezuelan coast, as the United States has refused to interfere in the question of collection of indemnity for the arrest of the British officials in Trinidad territory. It is rumored that an account of four from Curacao and Guyana Tuesday.

Status of the Venezuelan Negotiations.

London, March 15.—The under secretary of state for foreign affairs, Lord Wodehouse, in the house of commons today admitted that the government had received official proposals from the United States relative to the Venezuelan dispute. He added that it was not the practice to state the nature of proposals while they were under negotiation, but it was not correct to describe them, as stated in the question put to the government, as an expression on the part of the United States of a willingness to accept the terms of a treaty of amity and commerce to report on the Venezuelan boundary dispute.

FAILURE OF WEYLER

Spain Disappointed by the War News From Cuba.

CONTINUED PATRIOT SUCCESS.

Pinar del Rio Invaded Again—Three Cuban Steamers Bearing Munitions to Gomez.

London, March 15.—A Madrid dispatch to the Standard says: "The press and public here express disappointment and impatience at Gen. Weyler's failure to suppress the Cuban insurgents." The Berlin Correspondence of the Times says that the Hamburger Correspondence, which is often used as an official mouth-piece, believes that the powers would refuse to intervene in support of Spain in the Cuban affair against the United States.

Madrid, March 15.—General dissatisfaction is expressed here in political and ministerial circles regarding the unsatisfactory news from Havana to the effect that the insurgents have re-entered the province of Pinar del Rio. The success of the insurgents is considered a severe blow at the military tactics of the Spanish army. At a meeting in Barcelona yesterday 400 members of the military club passed a vote of confidence in Gen. Canalejas and offered to return to active service en masse, without expectation of pay or promotion.

Members of the Cuban autonomist party resident in Madrid state that their followers have come to no understanding with the Cuban constitutional union party regarding the elections. On the contrary, they assert that they have not said the least word. They proceed to announce as probable that the directive junta of their party has adopted a decisive attitude upon the arrangements for the elections in the island have not been satisfactory. The belief prevails that the present government will encounter difficulties in solving the problem.

Another of Weyler's Victories.

Havana, March 15.—Dr. Jose Manuel Delgado, the American citizen who is reported to have been shot and nearly killed by Spanish troops under the command of Gen. Melqui, arrived here yesterday. The captain general promised a prompt inquiry into the circumstances of the case, and has given assurance that the guilty persons will be most severely punished. Dr. Delgado is said to have been bound and shot without trial and without any justification. The doctor was left for dead, and eight of his father's employes were killed. The United States consul general, Ramon O. Williams, has taken the matter in hand.
