FOR COOK'S INLET! Steamer Utopia sails about May 1. Capt. G. W. McGregor, Agent, Yeaser wharf.

GERMAN LAW SENSORS ARRIVE

To the Transvaal With Which to Fight the British.

THIS EXPLAINS A GOOD DEAL.

The London "Times" Has Reliable Information of It.

Passengers on a German Steamer Refuse to Have Their Baggage Examined on Arrival at Delagoa Bay.

A Cape Town dispatch to the Times says a German steamer, reports that the German steamer Bundesrath arrived at Delagoa bay on April 14 and St. Komati on April 15.

THE WAR OFFICE BUSY.

Getting Stores Ready and Calling in Officers on Furlough.

London, April 19.—The Daily News says that military authorities consider that the appointment of Gen. Carrington, British commander at Gibeon, who has been ordered to the Cape of Good Hope to take command of the British forces in Matabeleland, is a measure of precaution and that it will probably be followed by the dispatch of more troops.

"The war office is busy making arrangements," the Daily News continues, "and placing stores in readiness for being transported." Telegrams were received from every officer on furlough in Great Britain from the Cape to return to duty without delay.

The chronicler of the situation in South Africa, does not assume that it is Mr. Chamberlain's policy, "but," it says, "if the government deliberately declines to take any action, the Dutch race in South Africa is reeling from the defeat of Dr. Jameson, it is time that Englishmen were up and doing."

INCOMPLETE SURVEYS.

Fourteen Townships in the Waterville District Awaiting Action.

Washington City, April 19.—Special—No less than fourteen townships in the Waterville land district, which have been surveyed anywhere from one to five years, are now pending in the general land office in this city awaiting final action.

THE HAWAIIAN CABLE.

Disappointment in the Islands Because Congress Will Not Aid.

Honolulu, April 19.—Col. Spaulding's friends here are not pleased with the report of the senate committee on foreign relations in the cable bill. They take it for granted that the present congress is not disposed to aid the company of which Spaulding is the head.

The Hawaiian government is spending eight months in which to launch his scheme; the option will not expire for nearly one year and in the meantime the hands of the government are practically tied.

FEARS AT BULUWAYO.

Are the Matabeles Holding the Mangwe Pass, WHICH CUTS OFF ALL SUPPLIES?

No Available Force to Hold the Pass and Patrol the Road.

Natives Coming Into Buluwayo Who May Be Meditating a Treacherous Outbreak in Co-operation With an Attack From Outside—The Supply of Provisions Giving Out, and Much Anxiety Felt as to the Enemy's Movements.

Buluwayo, April 19.—So far as the situation is improved here over that of yesterday, it is due to the departure of the north of the town for several days and from which point an attack has almost hourly been expected.

This movement, however, brings little comfort to those in Buluwayo, the excited manner in which the natives quitted their positions indicated a confident purpose of mischief. There is no evidence that they were alarmed. Friday at the demonstration of the patrol of twenty-four men from Buluwayo upon their vanguard. Although this vanguard was driven back upon the main body, the patrol did not reach the Mangwe pass, within reach of the overwhelming numbers of the main body.

FOR WHITE DELEGATES.

Texas Efforts "to Rescue the Party From Negro Domination."

Houston, Tex., April 19.—The white Republicans of Texas meet here tomorrow in a convention to elect four delegates at large to the national convention at St. Louis and to arrange plans for the future, to rescue the party from negro domination. There will be about 300 delegates in attendance, among them half a dozen who are identified with the reform movement.

The delegates at large will be four of the two negroes, two of the white state and a hard contest will be made for seats at St. Louis for a full delegation of thirty votes from Texas. Two of the delegates will be Congressman Noonan, of San Antonio, and H. P. Nevins, of Houston. The executive committee held a meeting this afternoon and agreed on Lock McDaniel for temporary chairman and B. Norton and W. S. Nevins as temporary secretaries. This is the last convention of Lily Whites at which regular delegates have been chosen. The vote has been increased materially since the first nomination, and the odds are against a success of making a good showing. No instructions will be given delegates, and they will be left free to act as they see fit.

REBELLION IN SPAIN HAS SAID

In Reply to Conciliatory Overtures From the President.

WILL NOT SUSPEND HOSTILITIES

Nor Tolerate Such Humiliation as Treating With the Rebels.

Any Proposal for the Independence of Cuba She Cannot Entertain—Spanish Troops Report Several Engagements and a Severe Reverse for the Cubans.

London, April 19.—The Standard's correspondent, Madrid says: Despatching assistant official details both from Washington City and Madrid, it is now an open secret that both governments have freely discussed their attitude toward each other. In Cuba is prolonged the injury of American commerce. Spain, on the other hand, has informed President Cleveland that she is willing to conciliate the sympathies of sensible Americans, but that she cannot entertain a proposal for the independence of Cuba, or even for a suspension of hostilities to negotiate with the rebels, as public opinion would never tolerate such a humiliation. Spain has been silently preparing to execute a Cuban home rule bill directly, the colonial authorities regarding it advisable to do so. No state has yet been fixed for this, however.

THE SPANISH PRETEND THEY HOPE TO SUCCEED THIS TIME.

Havana, April 19.—The Spanish troops have had an engagement with the numerous forces of the insurgents which have been advancing forward to attempt the relief of Maceo and the official reports show a severe reverse for the Cubans.

Lieut. Col. Llorens, with the battalion of Lucon, engaged the insurgents near Ciego de Avila, Santa Clara province, and hot fighting ensued. The reports show that the Spanish took the insurgent position by a brilliant bayonet charge. The enemy left on the field of battle eight hundred and more than 200 wounded. The amount of the Spanish loss is not stated in detail, but it is reported that Capt. Lazo, of course, one lieutenant and eight of the guerrillas were wounded. The news from Pinar del Rio is awaited with eagerness both by the Spaniards and sympathizers of the rebels.

IN SPITE OF THE NUMEROUS INSTANCES IN WHICH THEY HAVE BEEN DISAPPOINTED THE GOVERNMENT EXPRESSES ITS COMPLETE CONFIDENCE THAT NOW ITS OPERATIONS AGAINST MACEO ARE TO BE CROWNED WITH SUCCESS.

The columns within, and west of the military line south from Mariel have been relieved, and the military authorities announce that Maceo to fight or to come toward the line. This line they consider impregnable, and they believe that they will thus entrap Maceo.

Col. Aldea and the battalion of Valencia have fought the insurgents under Llorens and Collazo at the great Soapas swamp, the insurgents having twelve killed and carrying away numerous wounded. The insurgent leader, Juan Suarez, and an aide de camp of Llorens, were among the killed.

In both of the engagements above reported several prisoners were taken, as well as arms and ammunition and important documents. The insurgents have concentrated large forces in the district of Sancti Spiritus.

MORE PROMISES FOR CUBA. Madrid, April 19.—It is announced that the royal speech to be delivered at the opening of the new cortes will promise political and administrative reforms for Cuba and Porto Rico.

GOMEZ AND MACEO.

Anecdotes About the Two Men Who Are Leading the Cuban Patriots.

A letter received in this city from one of the secretaries of Gen. Maximo Gomez, relates the following two stories illustrative of the methods of Gens. Gomez and Maceo.

In the latter part of March Gomez and his army entered the coffee plantation of Mons. Debeche, a rich Frenchman, whose house is in Havana. Mons. Debeche, upon his plantation when Gomez arrived, and gave the patriot general a cordial reception. Gomez asked the planter's permission to write a few lines in his office, and he gave him a safe key to take to one of his officers to seize fifty boxes belonging to Mons. Debeche. The Frenchman protested hotly.

"I am a foreigner, general," said he, "and you ought to respect my property. My government will protect me."

"I am not a general for the foreigners, sir," Gomez answered, coolly, "as the Cubans are not yet recognized, the Spanish government says that I am a bandit. Therefore, your government will have to claim damages from Spain, as Spain is unable to prevent a bandit overrunning the whole island of Cuba."

After saying this the general went to the office of Mons. Debeche, who, with characteristic French courtesy, left him alone. An hour later he was summoned by the general.

"I have withdrawn the order to seize your horses, and I wish you to tell me whether I or my troops have done you any harm," answered Mons. Debeche.

"Now," continued Gen. Gomez, "when a Spanish colon passes this way, please note the difference between Spanish behavior and Cuban bandits, and let your government know it."

At Hato, Colorado, in the province of Pinar del Rio, a French woman, Mme. Bernard, complained to Gen. Maceo that a Cuban soldier had stolen pieces of gold and some jewels belonging to her. Maceo asked Mme. Bernard to what corps the soldier belonged, and upon receiving her answer made all the men of that corps stand in line before her. Mme. Bernard picked out the thief, and the fifteen gold pieces and the jewels were found in his pocket. Maceo returned them to Mme. Bernard and ordered the culprit hanged. The sentence was executed forthwith.

Condition in Review of Cuba. Cuba is the island we want for her inherent wealth, for the fact that her tropical productions would invigorate, augment and give symmetrical completeness to our commerce, and she assures us supreme control of those seas, as American as our great lakes. Americans of the United States should no longer involve themselves in the contest that they alone are capable of self-government. The Cubans have had the teachings of many troubles and "struggled with a sad severity" and if they look to come it will be proven that they have built wiser than we know. We have no place for Cuba save as a state, and she is worthy to be a member of our Union. That is the fate and fortune that await her, and it is the only way of salvation. Sooner or later, maybe very soon, perhaps after some time has passed, the grasp of Spain will relax, and Cuba free, will substitute her government, by consolidation in one imperishable system.
