

AFTER THE BIG STORM

Seven Miles of the Colorado Gulf Railroad Destroyed.

MANY RAILROADS BLOCKED.

People of Central City Afraid of a Food Shortage—The Ohio River Said to Be Still Rising.

Denver, July 26.—A special to the News from Golden, Colo., says: A large gang of workmen began the repairing of the Gulf road to Clear Creek canyon today. Frank Trumbull, receiver and general manager, and other officials of the road, came up this morning. They said they could not give an approximate estimate of the damage, but that they probably will be able to get trains through to Georgetown in two weeks. One hundred and seventy-five men are now at work repairing. One hundred more will be put on very soon.

The road for several miles must be washed out or buried under great masses of rock and dirt. People at Central City and Blackhawk express their feeling of alarm because the road is repaired. Specials from Southern Colorado say that the Denver & Rio Grande will be running on its lines by Monday, and the Denver & North Platte by Tuesday. The Florence & Cripple Creek road will be open for traffic by the end of the week. At Catskill, Colo., the Gulf depot was washed away and the depot building is still being repaired.

Denver, July 26.—The terrible effects of the cloudburst in Clear Creek canyon and at Golden, Colo., last Friday are still coming to light. Tonight four more bodies were found among the debris several miles below Golden. They are of two old men and two young women, none of whom have been identified. There is also a report of eight men, employees of Denver breweries, who passed through the canyon hours before the storm, en route to Idaho Springs for an outing. They have not since been heard from, and parts of what is believed to be their wagon have been found.

Col. H. C. Merriam, commandant of the United States troops at Fort Logan, has detailed 100 of his men to assist in searching the wreckage for bodies.

THE OHIO STILL RISING. Depressions of Here Washouts and Disastrous Floods.

Cincinnati, July 26.—Though the sky is clear here tonight, a high temperature rushing the mercury high up in the eighties, causes apprehension of more rain and an accession to the flood in the Ohio. Reports from points above here in the Ohio river valley as far as Wheeling show that stream to be rising. At Cincinnati at 10 o'clock tonight the river stood 5 1/2 feet above low water, having risen 15 inches in four hours, or three-quarters of an inch per hour. The rate of rise is increasing hourly.

There seems to be no doubt that the Ohio River valley in the vicinity of Parkersburg and the Baltimore & Ohio road west of it, is being inundated. The water is rising rapidly and has been employed repairing washouts in Ohio, and it is fair to presume that all the roads embarrassed by the floods will resume tomorrow except those which had waste out in the Muskingum valley.

SEVERE WIND STORM. Roofs Lifted, Barns Tipped Over and Store Windows Smashed.

Detroit, July 26.—A special to the Tribune from Homer, Mich., says: A terrible wind storm struck this village this evening. Roofs were lifted, houses partially blown away, barns tipped over and half of the fine apple trees about the town blown over. The plate glass windows in Linn & Co.'s store were blown in. The worst part of the cyclone seemed to have passed a little to the northwest of the town, and many of the finest houses in this vicinity laid in its path. There were several narrow escapes of persons from being killed by the storm, but as yet no one is reported injured.

TRAFFIC RESUMED IN WEST VIRGINIA. Wheeling, W. Va., July 26.—Early this morning traffic for the division of the Baltimore & Ohio road was resumed. The train for the East at 10:30 a. m. was the first to go through. The damage inflicted to the tracks by the storm is very heavy. In the town of Mannington the damage is estimated at \$100,000. The South Pennsylvania Oil Company being the heaviest loser. The Ohio Valley railroad over the river will not be open for traffic for three weeks.

SOCIALISTS FOR PEACE. Claiming Wars Are Fostered by Capitalists and Landlords.

London, July 26.—Great preparations have been made for the demonstration in favor of international peace on Saturday, under the auspices of the organization committee of the international socialist and trades union congress, which held its first meeting at the Grosvenor hotel on the arrangement since as long ago as March, and had distributed 20,000 handbills and 1,000 copies of a manifesto to a band to lead the procession and had made elaborate arrangements with the commissioner of works and the police, but what they were met by was a heavy rain which practically made a fiasco of the demonstration.

For Rhodes' Reinstatement. London, July 26.—The correspondent of the Times at Cape Town says that a crowded, enthusiastic meeting has been held in favor of the reinstatement of Cecil Rhodes as managing director of the British Chartered South Africa Company, but that most of the leading and influential people of the colony were absent from the meeting.

Vanderbilt Taken to Newport. New York, July 26.—Cornelius Vanderbilt left this city for his summer residence, "The Breakers," at Newport, early today. The greatest secrecy was maintained at the Vanderbilt home concerning his removal from the city.

The Cholera Decreasing. Cairo, July 26.—Cholera is decreasing and there are only 120 new cases and 100 deaths throughout Egypt on Saturday. The deaths include those of Capt. Fenwick, at Irtak, and Surgeon Capt. Trask, at Koush, who were members of the Nile expedition.

A Collision in India. Bombay, India, July 26.—A railway collision has occurred in India by which fifty persons were killed and injured.

Hammond Makes No Sign. Washington, July 26.—No answer has as yet been received by the state department from Edward P. Hammond, United States consul at Sofia, which has been declining to discuss the published statements that charges have been filed against the consul, but merely say that his resignation has been asked for because "he was not acceptable to the Austrian government." Friends have intervened in Mr. Hammond's behalf, but the state department has insisted on the withdrawal of officials who may be obnoxious to them.

Monument to Jules Ferry. Paris, July 26.—M. Mellin, the premier, and nearly all of the ministers, today attended and delivered orations at the unveiling of a statue to the late Jules Ferry at Salnte Die, his birthplace. President Faure sent a telegram of regret at his inability to be present and expressed his appreciation of M. Ferry's patriotism.

Rain Storms in France. Paris, July 26.—Violent storms occurred in this region tonight, immense damage having been caused by wind and rain. The lower quarters of the city have been flooded and several casualties are reported.

First Regiment band and bicycle company of the 1st Missouri cavalry, evening. Admission, with car fare, 5 cents.

FOREVERETT HARBOR

Full Text of Capt. Taylor's Report on the Work.

THE ESTIMATES EXCEPTED.

These Cannot Be Given Until They Are Finally Approved by the Secretary of War.

The full text of Capt. Taylor's report upon the improvement of the harbor at Everett is given below, excepting alone the estimates of the money statement, which the department refused to give out until approved by the secretary of war.

Description of Original Condition. Everett is situated on a peninsula, one side and the end of which is bounded by the Snohomish river, and the other side by the waters of Puget sound. Of the water front of the harbor, a small part has deep water, the remainder fronts on the flats which have been formed by the Snohomish river.

Plan of the Improvement. The plan of improvement adopted for this work may be generally described as follows: First, to evacuate a harbor basin in the shallow and tide lands adjoining deep water near the river's mouth; second, to dredge a channel from this through the flats and the old river mouth to deep water in the Snohomish river; third, to construct a bulkhead across the peninsula on the east, and third, to protect and maintain this harbor and channel across the flats by a bulkhead extending from the bulkhead to the open waters of the Sound, the bulkhead to act as a retaining wall for the material dredged from the harbor.

According to the news received from Canada, in the island of Crete, two vessels have landed and are in the possession of the insurgents, showing that the rebellion is extending toward the eastern portion of the island, which hitherto remained tranquil. The Mussianin deputies have presented a note to the foreign consuls in the island, asking them to meet the demands made by the Christian deputies.

BRITISH TROOPS CHECKED. In an Attempt to Clear the Heights of Native Warriors.

London, July 26.—The following Bulwagor dispatch has been received by the Chronicle: "Nicholson's patrol, 200 strong, was checked yesterday in a narrow gorge at the north of Matoppo hills, leading to Laugus stronghold. The enemy's great strength occupied an impregnable position and they were fully equipped with rifles and ammunition. The straightness of their shooting was remarkable. The Cape boys (with Nicholson's patrol) cleared the neighboring heights of the enemy, killing twenty of the rebels, but a gallant attempt to force a passage through the gorge was frustrated by the cave studding the mountain, delivered at close range. Nicholson lost five troopers and two Cape boys in a few minutes, therefore withdrew his force and returned to the camp."

SPAIN PANIC-STRICKEN. The Enormous Prices Paid for Warships and Torpedo Boats.

London, July 27.—The Times has a dispatch from Madrid which is as follows: It is stated that the government has paid the enormous price of £200,000 each for the two warships recently bought at Genoa, while a contract has just been given for two torpedo boat-destroyers at £20,000 each. The tender of a third warship, the English firm, which that quicker delivery would be secured. Nothing short of a panic can explain such extravagance.

For Rhodes' Reinstatement. London, July 26.—The correspondent of the Times at Cape Town says that a crowded, enthusiastic meeting has been held in favor of the reinstatement of Cecil Rhodes as managing director of the British Chartered South Africa Company, but that most of the leading and influential people of the colony were absent from the meeting.

Vanderbilt Taken to Newport. New York, July 26.—Cornelius Vanderbilt left this city for his summer residence, "The Breakers," at Newport, early today. The greatest secrecy was maintained at the Vanderbilt home concerning his removal from the city.

The Cholera Decreasing. Cairo, July 26.—Cholera is decreasing and there are only 120 new cases and 100 deaths throughout Egypt on Saturday. The deaths include those of Capt. Fenwick, at Irtak, and Surgeon Capt. Trask, at Koush, who were members of the Nile expedition.

A Collision in India. Bombay, India, July 26.—A railway collision has occurred in India by which fifty persons were killed and injured.

Hammond Makes No Sign. Washington, July 26.—No answer has as yet been received by the state department from Edward P. Hammond, United States consul at Sofia, which has been declining to discuss the published statements that charges have been filed against the consul, but merely say that his resignation has been asked for because "he was not acceptable to the Austrian government." County Conventions To Be Held August 6—A Scheme To Shut the Democrats Out.

Chairman Bulger, of the state committee of the People's party, in a letter to the Tacoma Ledger, denies positively that he has issued a call for a state convention to be held at Ellensburg on August 12. He says there has been no meeting of the executive committee since May 12, and that he was at that time authorized to call a convention at some date between September 1 and 15, and that he has not yet determined upon the date. He is understood to have denied Mr. Bulger, there are strong grounds for believing that the convention will be called considerably prior to the first date mentioned, if not on August 12 as stated.

Color is lent to this belief by the fact that instructions have been sent to the various counties to have the Populist primaries held on August 12, and the county conventions August 6. The call for the King county convention has already been issued. It is certainly unusual for the call for the county convention to be issued before the date is fixed for the state convention. The time set for the county convention will readily permit of time during the month of August, and August 12, the date alleged to have been selected.

Populists Opposed to Fusion. The Populist leaders have chosen to throw an air of mystery around this matter, as though there were some things which they desired to keep dark. The probable secret of the whole matter may be found in the fact that Chairman Bulger is decidedly opposed to any fusion with the Democrats, and would like very much to have the state convention held at a date which would place the field before the Democrats ready to make any propositions. The entire move is apparently designed to forestall the fusionists in the temporary panic which has opened in fact it might as well be in name, is the argument of those who favor an early convention.

Senator Squire Expected Home. Senator Watson C. Squire is expected to arrive in this city from the East some time during the next week. His return is anxiously awaited for a good many reasons, chief of which is the public desire to know how the senior senator from this state stands on the leading issue of the campaign—the money question. Since the Republican convention adopted its platform no utterance from the senator, public or private, on the subject of the campaign has found its way into print. The general impression is that Senator Squire will be loyal to the party and the platform. Many of the silver men, however, are confident that he will cast his political future with them and announce himself for free silver.

Shortly after the return of Senator Squire arrangements will be made for a grand Republican meeting, at which all the prominent leaders will be present. W. H. White, "war horse Bull," was interviewed by the Tacoma Spokesman in his return from the East. He is reported to have said that he is in favor of a union of forces in Washington, and would like to see practically all the silver men, being practically a combination ticket for governor. He said James Hamilton Lewis would not be nominated, and he was outspoken in his criticism of the actions in seeking the election of national committee for Washington. He said, however, that Wallace will be harmed entirely out of accord with the committee, who are for free silver. Mr. White said he was anxious to meet with the committee, and he introduced a resolution in the Seattle convention seeking to make him (White) pledge himself to support the nomination of the Chicago convention. At that time it was believed by some that the gold men would control the convention. Mr. White is of the opinion that Thompson is the man upon whom the fifters must now be placed.

Notice to Democrats. The members of the Democratic executive committee of King county are called to meet at the office of Falcon Jedin in the New York block at 10 a. m., July 27, to take action on calling a county convention to select delegates to the state convention.

FALCON JOEGLYN, Chairman. H. T. STOEL, JR., Secretary. Sound Money in California. Thomas Sanders, of Verd and Sanders, of Bryant, arrived on the Northern Pacific last night and is at the Duiker. He has just been on an extended trip to California, where he says there is a strongly dominant sentiment in favor of sound money.

POLITICAL POINTS. Prospects of a Demo-Pop fusion do not seem to be very bright. The number of aspirants for nomination at the hands of the Republican county convention is not very large.

Edward A. Eckert Dead. New York, July 26.—Edward A. Eckert, superintendent of exchanges of the Metropolitan Telegraph and Telephone Company, died at Asbury Park, N. J., aged 54 years. He was a brother of Thomas T. Eckert, president of the Western Union Telegraph Company.
