DEBATE GROWS WARM

Dolliver's Lively Speech Makes a Great Hit.

CLAIMS FOR SILVER RENEWED.

Newlands Favors Combined Silver and Tariff Legislation as a Remedy for All National Ills—Southern Members Demand Tariff on Cotton—Democrats Continue to Roast Cleveland and Carlisle—Yale Wants Books Put on the Free List.

WASHINGTON, March 23.—Although several sharp passes at arms enlivened the tariff debate in the house today, the brilliant speech of Dolliver of Iowa was distinctly the overshadowing feature of the day. It shone out through the weary, monotonous gloom which has so far pervaded the debate, like a locomotive headlight.

There were less than 50 members on the floor when the house began debate at 10 o'clock. As the day advanced members poured in and the galleries became crowded.

Gibson, Republican, of Tennessee, the first speaker, delivered a general argument in favor of protection. Do-ker, Democrat, of Missouri, who followed, said it was not a surprise to him that discussion thus far had been tame and uninteresting.

"Although," he continued, "it is sometimes difficult to determine the exact issue settled by the competition, there is no question as to the tariff. The popular verdict of the election was in favor of protection. The Republican party would not have been elected had not the Democratic party presented unnecessary issues which were not in the candidate's mind."

As it was, however, he said, the people had declared in favor of protection, and the Republican party should, in his judgment, act upon the instruction with expedition. He argued at length, however, that the silver question most vitally affected the country, and stated his belief that the true policy of this country is combined tariff and free silver.

In conclusion he said that the area of distress, for years past, which was the belt, the wheat belt and the cotton belt, had now extended to the middle and Eastern states, which were suffering from the loss of the consuming capacity of the Western and Southern states.

Handy, Dem., Delaware—Is it not pretty hard for the Republican party to turn on the gold Democrats who helped it, with such a tariff bill as this? Lacey—The gold Democrats have no match here, and a Republican tariff as they had in 1892.

The attacks on President Cleveland were really made, Lacey insisted, on account of his action during the Chicago strike in keeping the peace. "All honor to him for his noble stand on that occasion," he added. The Republicans had not attacked the Cleveland administration for issuing bonds, but for the policy that made them necessary.

LEVEES GROW WEAKER

Mississippi Floods Breaking Through the Barriers.

WATERS SPREAD EVERYWHERE.

Guard Shoots Down a Man Discovered Cutting a Levee, and Discovers the Corps Into the River—Farther Loss of Life, and Vast Damage to Property—Refugees Crowd the Churches—Steamers Inadequate to the Work of Relief—Farther Rise Means Fearful Loss of Life.

ST. LOUIS, March 23.—A special to the Republic from Caruthersville, Mo., says: The river here has risen one inch and a quarter during the last twenty-four hours, and continues to weaken the levees. The situation is serious. A terrible windstorm and a three-sixteenth-inch rainstorm occurred between 7:30 and 10 o'clock last night, and the wind blew a gale today.

The situation just across the river grows more alarming every day. The loss of life and property and of live stock is frightful. Even the few boats that have many have lost all their earthly possessions, and barely have escaped with their lives and families.

The steamer Vernon is now near Tyler and is expected here with a large number of people and stock. No lives are reported lost. Three families are occupying two levee last night in the act of cutting the levee. The guard threw the carcass into the river. No one knew his name, and no one cared.

If the river rises six inches more it will sweep over the top of three miles of levee north of here like a cataract, unless the people are able to keep ahead of the rise, which they hope to do. The water is now reaching six inches above the crown of the old levee.

Every square inch of available room is occupied by refugees from the flooded districts. Three families are occupying two deserted school houses, and one family is in the new jail. The Methodist church is full, and refugees are now occupying the two gin and grist mills.

Condition of the Captive District. ST. LOUIS, March 23.—Capt. W. R. McCoy, of the Anchor steamship Bluff City, returned today from a trip through the entire overflowed valley south of Cairo. When asked concerning the damage and loss of life, Capt. McCoy said:

"So far the damage in the flooded district around Memphis has not been as serious as we had feared. The loss of life is not heavy, but as a general rule there has been a loss of property. There are many cases where the water is forty miles wide, having broken through the levees and spread out. The water is now reaching six inches above the crown of the old levee. The town of Marion, Ark., is under water, and the only railroads that are running is the Iron Mountain. The overflowed district extends from eight miles above Memphis to eight miles below it. The water is from three to seven feet. There will be no early crop from that region this year. It will continue to be a part of the flooded area."

Another American Released. HAVANA, March 23.—Francisco J. Casanas, a naturalized American citizen, who has been confined in the prison of Sagua for thirty-nine days, has been released from custody.

ENGLAND STANDS OUT.

Will Not Take Part in the Blockade of Crete.

CONCERT BADLY OUT OF TUNE.

Admirals Inform Their Governments That They Must Have Definite Instructions or Be Recalled—War Preparations in Greece Actively Continue—Soldiers Eager to Fight, While the Unpaid Turks Are Without Enthusiasm—Cretnans May Yet Be Allowed to Settle the Question of Annexation.

LONDON, March 23.—The Daily Chronicle's special correspondent at Athens says the Greek government has learned from its own official sources that Great Britain refused to take part in the blockade of Greece, though she has no objection to such measures taken by the other powers. The government also learns from similar sources that the admirals of the international fleets in Cretan waters have informed their respective governments that their position is no longer tenable, and they must receive definite instructions or be recalled.

WAR MAY BE AVERTED BY WITHDRAWAL OF TURKISH TROOPS. CONSTANTINOPLE, March 23.—The ambassadors have formally notified the Greek government of the intention of the powers to land troops on the island of Crete to relieve the detachments of foreign marines now on duty ashore. The port has raised no objections up to the present time, believing that the next move of the powers will be to carry out the threat of the powers to blockade the principal ports and coast of Greece.

UNION IN SOUTH AFRICA. RECIPROCAL FRANCHISE RIGHTS GRANTED BY THE TRANSVAAL AND THE ORANGE FREE STATE. FRITZTHIA, South Africa, March 23.—A draft of a treaty between the Transvaal Republic and the Orange Free State have been concluded at Bloemfontein, the capital of the latter republic. They give the burghers of each state the franchise in either republic or not the island is to be annexed to Greece.

THE MADAGASCAR LOAN. FRENCH DEPUTIES AGREE ON AN ISSUE OF 20,000,000 FRANCES. PARIS, March 23.—The chamber of deputies today adopted a motion for the conversion of the Madagascar loan of 1886, and then discussed the issue of 20,000,000 franc at 3 per cent, redeemable in sixty years. M. Doumer moved that the loan be limited to the 20,000,000 franc necessary for the redemption of the existing loan, and pointed out that the financial resources of the island could not be relied upon, as Madagascar is a French colony, and the selection of a minister of colonies, protested against this assertion, and M. Doumer, continuing, approved of the banishment of the queen of Madagascar to the island of Reunion, but urged that this step proved that Madagascar was in a state of rebellion. Finally, M. Doumer demanded that the bill be returned to the committee.

ARBITRATION TREATY DESTROYED. SO SAYS THE LONDON TIMES OF THE SENATE AMENDMENTS. LONDON, March 23.—The Times in an editorial this morning gives an explanation to anything but a satisfied feeling as to the senatorial amendments to the treaty of arbitration. It says: "The United States senate has done a great deal to help the cause of arbitration, and what the cooler observers thought extremely improbable. It has destroyed the arbitration treaty. It has struck a blow at the principle of arbitration itself, and at the confidence of the world in the American people's action. It strikes a note of levity, wastefulness and irresponsible caprice such as is happily rarely struck by any legislative assembly."

CHASING AROUND AFTER HER HUSBAND AND THE PRINCESS. PARIS, March 23.—The wife of Janos Rigo, the Hungarian gypsy musician who coupled with the Princess de Chimay, went to the Hotel Terminus today, where she is staying, accompanied by a commissary of police, in order to establish their adultery. A violent scene followed. Rigo insulted his wife, who in turn retorted with insults directed at the princess.

CLOSE OF THE BERLIN FETE. BERLIN, March 23.—The last day of the celebration of the centennial of the birth of Emperor William I. was marked by a procession through the city, in which 40,000 persons took part. It was an immense success.

DR. LUIS PIT ON TRIAL. CHARGED WITH FIBBERING—Gen. Roloff Keeps Out of Sight. BALTIMORE, March 23.—Dr. Jose R. Luis, of New York, a member of the Cuban Junta, was put on trial in the Baltimore district court today on a charge of organizing the Woodall filibustering expedition of 1865.

Several Branches New York. NEW YORK, March 23.—Sylvester Scolev, the newspaper correspondent who was imprisoned for thirty-one days in Cuba, arrived today on board the Segurana, from Havana. Mr. Scolev was in the best of health and stated that a great deal of sympathy had been wasted on him, as he had been treated with great consideration and kindness.

Business Troubles. PARIS, Tex., March 23.—The Farmers' and Merchants' bank closed its doors at 10 o'clock this morning. It was one of the oldest financial institutions in the state, and had a paid-up capital of \$200,000. The failure of Martin, Wise & Fitzgugh yesterday caused a run on the bank which forced it to the wall. John Martin was president until yesterday, when it was assumed. There is a decidedly panicky feeling. It is feared that runs will be made on all the banks here.

Steamer George W. Elder to Lay Up. SAN FRANCISCO, March 23.—The steamer George W. Elder will return to Portland in ballast and will lay up for some time.

Albia Has a Rough Voyage. QUEENSTOWN, March 23.—The British bark Albia, Capt. Williams, arrived here from San Francisco, from which port she sailed November 13. Off Cape Horn the vessel was swept by heavy seas, which flooded the cabin, smashed the wheel and caused other damage about the decks.

China at the Postal Congress. WASHINGTON, March 23.—The Chinese empire has sent notice to the government that it will be represented at the universal postal congress to be held in this city next May. This notice is the first time China has been represented at such a gathering.

Massachusetts Gets the Log. LONDON, March 23.—Upon the recommendation of the archbishop of Canterbury, the original log of the Mayflower, now in the library of Lambeth palace, will be presented to the state of Massachusetts.

Durrant's Last Petition. SAN FRANCISCO, March 23.—The attorneys for Theodore Durrant today filed their petition in the supreme court for a rehearing of the application previously denied for a new trial.

Canadian Whisky Contingent In. TORONTO, March 23.—In anticipation of an increase in the American tariff, Canadian distillers are shipping large quantities of whisky to the United States.
