Trees Across the Olympic Roads.

BRINNON, March 26.—A strong gale of wind, with rain and hail, from the southwest swept through the valley of the Dosewallips yesterday, commencing about 10 a. m. and increasing in violence until 11 o'clock, when from some cause the wind veered around to the east and passed over the valley, taking trees, fences and buildings of anything that offered resistance in its track. THE STORM IN THE SUBURBS.

Fremont and Ross Little Damaged—Small Houses Blown Over.

The wind storm Thursday afternoon did but little damage at Fremont and Ross, as both suburbs are protected on the south by Eldorado and Queen Anne hills.

At Edgewater one unoccupied house was blown down and another and a fence were tossed promiscuously about the hillside.

A large cedar tree, which for several winters has leaned the elements alone, the only obstruction to the view of Lake Union and the city, was felled to the ground.

Near Green lake two small houses were wrecked by falling timber, one man, named Olson, having a narrow escape from a falling tree. A house, three miles north of the lake, occupied by a family named Edmiston, was blown over, and all the six members of the family escaped unhurt except a little girl, 6 years old, Mina Edmiston, who was struck by a washboard and had her collar bone broken.

Trees are across the public and county roads north of Fremont, but no serious accident is reported.

Mathews is much the smaller of the two, and finding he was getting the worst of the fight drew his razor, slashing a gash six inches long in the back of Walker's neck. Prompt arrival of medical assistance prevented Walker's bleeding to death. Mathews fled after the cutting, and was arrested while trying to buy a ticket to Sandon, after a chase by the police. Walker has a bad record, and is just out of the county jail, where he served forty days for larceny.

There is the danger that in their eagerness to take a spring remedy a thoughtless person may carry home some bogus concoction prepared with such a smattering of medical knowledge as can be picked up behind a counter. Paine's celery compound is prepared in

WASHINGTON, March 26.—Another financial measure, which would insure a more plentiful and elastic supply of circulation for farming districts remote from cities, was the principal point they urged in support of their movement.

Mr. Reed told the committee that the passage of the tariff bill was the first and principal work cut out for this session of congress. Congress would be apt to respond with little delay. If the people demanded changes in the banking system and brought pressure to bear on congress, they would secure the change.

Parkhurst, the famous preacher and reformer, Mayor McShane of Montreal, Major General Birney, Judge Powers of Vermont, and a host more of prominent men and women, including no less than five U. S. congressmen, are among the thousands of grateful people who have recently sent to the proprietors of this wonderful remedy their expressions of its unequalled value—men and women who can well afford, and do command, the highest medical advice in the country.

And then also from the people in the ordinary walks of life there come thousands of honest, straightforward, heartfelt letters, telling how Paine's celery compound has made them well.

Their testimony simply goes to show what New England's most vigorous editor so aptly said in a letter telling of the benefit Paine's celery compound had been to a member of his family: "Paine's celery compound is not a patent medicine, it is not a sarsaparilla; it is not a mere tonic; it is not an ordinary nerve—it is as far beyond them all as the diamond is superior to cheap glass."

It makes people well. It is the one true specific recognized and prescribed today by eminent practitioners for diseases arising from a debilitated nervous system. Prof. Phelps gave to his profession a positive cure for sleeplessness, wasting strength,
