LOCAL RATES APPLY.

ON LUMBER AND SHINGLES TO
POINTS OF THE U. P.

The Letter Road's Withdrawal From
Tariff Agreement With Northern
Lines Made Effective on Legal
Notice—The Northern Pacific
Negotiating With Oregon Short Line
and Rio Grande Western—The Diffi-

Official notice from the Union Pacific to
the Northern Pacific and other lines
participating in the joint tariff on lumber
and shingles from the Pacific coast was
received yesterday by Assistant General
Freight Agent Fulton, of Portland, and
the withdrawal on the part of the Union
Pacific is to cut off a large market for
Washington lumber and shingles, as the
part of local rates for points on the
Northern Pacific would be out of the question.

Following the telegraphic information
received yesterday from Mr. Fulton,
General Agent A. A. Nadeau, of the Northern
Pacific, issued the following circular letter
to shingle and lumber manufacturers
and dealers:

"I am advised that effective on legal
notice our tariff No. 2365 and amend-
ments, which name rates on lumber and
shingles from the coast to various points
on the Union Pacific, will be canceled,
and that we will publish a new tariff as
soon as we receive information from the
Oregon Short Line and Rio Grande
Western, showing rates to points reached
by way of these lines, but all rates to
points on the Union Pacific will be canceled
and withdrawn at once."

Under the old agreement, which the
Union Pacific has declared "off," a rate
of 60 cents per hundred, car loads, on
lumber and shingles was made from the
Northwest to points on the Union Pacific
in Colorado, Utah, Wyoming
and Nebraska. In this territory the
Washington lumber and shingle trade has
been largely without competition, and
the volume of business sent via Gar-
rison on the Northern Pacific and hence
to the Union Pacific, has been large.

to officially announce that the governing

SAN FRANCISCO, June 17.—Steve
O'Donnell, the Australian heavyweight,
knocked out Alex Greggains, of San Fran-
cisco, in the eighth round of the pugilist
actor, knocked out Jim Ryan,
of Cincinnati, in the third, and Jimmy
Lawler, a clever local bantam, fought a
ten-round draw with Jimmy Anthony, the
Australian champion bantam weight.

These were the results of the Olympic
club's boxing carnival in Mechanics pa-
rk, in the eighth round, Billy Elmer,
including a score of women spectators.
O'Donnell won his fight by good general-
ship. In the first three rounds Greggains
did all the work and had all the better of
the contest. In the fourth O'Donnell im-
proved in his work and repeatedly jabbed
Greggains in the face with his left jab.

Greggains fought for the body entirely, punch-
ing the big Australian's ribs till they were
red. O'Donnell made no attempt to play
for a knockout with his right.

The chance came in the eighth. In the
two previous rounds O'Donnell punished
Greggains terribly with his left jab,
opening a wound under the right eye an
inch or more in length, from which the
blood flowed in a stream. Billy Elmer,
struck squarely on the jaw, Greggains
fell as if shot and never moved until his
seconds carried him to his corner.

The writer fought between Elmer
and Ryan attracted almost as much at-
tention as the contest between the big
fellows. The men had met before, and
Ryan got the decision, although Elmer
seemed to have the advantage. Elmer
did not leave tonight's fight in doubt. In
the third round he went at his man
violently, and with two well directed left
hooks on the jaw and a right swing in
the same spot, dropped Ryan flat on his
face. He remained down until assisted
to his feet.

Jimmy Lawler made his debut as a pro-
fessional against Jimmy Anthony, the lit-
tle Australian. Lawler displayed much
cleverness, and in the opinion of the ma-
jority of the crowd should have been
awarded the decision.

ONE OF THE ROBBERS WEAKENED
AND TOLD THE SHERIFF.

ST. LOUIS, June 17.—An attempt was
made late last night to hold up the Bal-
timore and Ohio Southwestern passenger train
near, and through the village of, near
through the weakening of one of the rob-
bers, who informed the sheriff of the
gang's plans. It is supposed the sheriff
went to the village to meet the train be-
fore it reached the station.

He found the track piled with
high timbers. At the appearance of the
train the robbers fled and one of them
escaped, though fired on by the sheriff
and his officers. One of the robbers was
shot and captured and is now dying in
St. Louis.

B. P. Carpenter, car accountant of the
Wabash railroad, brought to this city
today a report that the robbery was
planned by three men who were involved in
two other robberies. One of the robbers
was a resident of St. Louis and was
known about the village as having charac-
teristics of a desperado.

On cross-examination Craft broke down
and admitted killing his uncle, Wiley
Craft, and William Cook, fifteen years
ago. He was long suspected of
killing these men.

The Pressman's Union.
DETROIT, June 17.—The convention of
the International Pressman's Union got
into a single today over a question
of whether amendments to the constitution,
which had been adopted a year ago and
which were to be voted on today, were
actually a part of the constitution. The main
point at issue was whether members of the
executive and legislative bodies of the union
could be elected as vice-presidents. The
convention finally voted to work as under
the original constitution, except in cases
where the amendments were of a develop-
ment. This party is backed by an abun-
dant capital.

The Pingree Plan Spreading.
LANSING, Mich., June 17.—Gov. Pin-
gree's fame as the originator of the po-
pular plan for the poor has crossed the
ocean, and his plan is being adopted
in several European countries. Letters
have been received at the executive office
of the Pingree plan, from London, Eng-
land, requesting information
regarding the plan. Copies of the mes-
sage which the governor delivered to the
Detroit common council upon the subject
when he was mayor of that city were sent
to the inquirers.

igation Company. He has been in the

Toll Gate Raided.
MAYSVILLE, Ky., June 17.—Tollgate
raiders, thirty-eight in number, rode down
the gate beyond Blue, Ky., last night.
They captured the guards, James Sampson,
Harrison Green and Charles Dawson. The
raiders placed a road around Charles Dawson's
house, and released him on condition
that he would collect no more toll.

Three Bodies Found.
ALBANY, N. Y., June 17.—While clearing
away the ruins of the Deland house,
which was burned on December 21, 1893,
workmen today found the remains of three
bodies. The remains were identified as
those of Mary Carney, Bridget Fitzgibbons
and Thomas Conlon. They were hotel
servants.

Still Says It Was Collins.
ST. LOUIS, June 17.—Information was
furnished today by Martin Ensey with
a confession that he had been induced to
kill and rob him of \$3,000. Collins is
worse today. He reiterates his statement
that Ensey delivered the blows, and said
that the prisoner knew of his having \$3,000.

IS MANHOOD
EVER LOST?

It may sometimes fail, owing to nervous
or other disorders, but it is never lost, or
hardly ever, except in extreme old age.

What is generally called Lost Manhood
is merely weakened power. Successful
treatment will fan it into a
bright flame of life and energy.

A complete restoration of sturdy man-
hood is guaranteed by the great special-
ist, Doctor E. M. Ratcliffe, who knows
more about diseases of the sexual system

were necessarily dangerous, and in a few
minutes he was revived and taken to the
hospital. The old man is rapidly
losing his faculties and is tired of life,
so he says.

Dr. Sanden's Electric Belt.

It sends a soothing, warming, invigor-
ating current of electricity into the
back that goes right to the spot. More
penetrating than a liniment, more potent
than a plaster, it never fails to relieve
the pain and take the stiffness and
soreness, and unlike other remedies, it
cures permanently. It sends a vigorous
circulation of blood through the weak-
ened muscles and cords that builds up
the weak parts and makes the cure com-
plete. It is the one grand remedy for
weak back. Read all about it in the lit-
