We will place this stock on sale in a few days at prices which will speak for themselves.

GOLDEN RULE BAZAAR CO.

SPAIN AND JAPAN UNITE

Form an Offensive Alliance Against America.

TO WITHSTAND INTERFERENCE.

In Case of Aggressive Action Toward Either Cuba or Hawaii, Both the Allies Are to Attack the United States on the Atlantic and Pacific—Report Discredited at Washington—England Is Displeased at the Tone of Secretary Sherman's Note, but Will Consent to a Conference.

LONDON, July 15.—A dispatch from Paris to a newspaper here says: Inquiry at the American embassy here has elicited a confirmation of the rumor that the governments of Spain and Japan have arranged an offensive alliance against the United States.

The terms, which are for the mutual protection of Cuba and Hawaii, provide that in event of an active aggressive movement on the part of the United States toward interference in Cuban affairs or persistence in the annexation of Hawaii, both Spain and Japan shall declare war simultaneously against the United States and shall make hostile demonstrations along both the Atlantic and Pacific coast lines of that country.

The Standard's Madrid correspondent says: "Senor Canovas de Castillo, the premier, will go to San Sebastian tomorrow to confer with the queen in regard to the relations between Spain and the United States.

I understand that an interesting and delicate correspondence has lately passed between the Spanish and American governments regarding Cuba.

Report is Not Believed. WASHINGTON, July 15.—Little credence is placed in the circles in the statement that the Spanish and the Japanese governments have entered into an alliance against the United States for the mutual protection of Cuba and Hawaii.

Indeed, so far as could be learned tonight, the intimation of such an agreement has never reached the state department.

Both the Spanish and Japanese ministers are away from the city.

SHERMAN RAISES A STORM.

Torrent of Abuse From the British Press on Account of Berating Sea Letter.

LONDON, July 15.—While among the general public here the tone of Secretary Sherman's letter to Ambassador Hay regarding the Berlin sea sealing regulations is greatly resented, the correspondent of the Associated Press is in a position to state that whatever criticism the British government may have to make on the phraseology of the communication, the letter has not in any way affected unfavorably the negotiations which Col. Hay has been conducting.

Mr. Davies, Canadian minister in London, in an interview with the correspondent of the Associated Press today said: "We regard the latest proposals of the United States as entirely reasonable. There is the frankest feeling with regard to the negotiations, between the two governments, and in view of this, the two parties should not make any further of the matter."

"I have talked with Mr. John Foster as to the reports that the correspondence might provoke some unpleasantness," continued Mr. Davies, "and he agrees with me that there is no reason for resentment. However, I do not consider it fair that only one side of the correspondence should be published. The Canadians have never believed that the seals were in any real danger of extinction. On the contrary, it is proved by statistics that they steadily are increasing."

The Pall Mall Gazette says: "Mr. Sherman's tone is not what it might be, but the nasty feature of the affair is the publication of the dispatch at all."

"The Westminster Gazette refers to Mr. Sherman's 'somewhat ugly dispatch,' and says: 'Seals, like silver, get into American party politics. It is an ugly symptom that seals should be used to provide the means of government with means for demonstration against England. I think it is a reasonable view to take of the matter.'"

The Times, in an editorial article, says: "It is impossible to doubt the authenticity of the document. It is a manifest attempt to offend the British government by England a charge of bad faith which was not Secretary Sherman's intention. He has shown himself singularly unfitted for the delicate and responsible duties of his office. If it were not for the fact that he has made repudiating the charge of bad faith was deliberately misleading. When he was appointed to his office, doubts were expressed as to the wisdom of the choice."

The Daily Chronicle thinks Lord Salisbury would be justified in returning Secretary Sherman's dispatch to the ground that the British government does not receive communications couched in such terms and says: "It is a fact that some nations, like ours, are fortunate in being governed with the presence of a diplomat who is no less a gentleman in public than in private life is not sufficient to remove this stain."

The Post says: "Every intelligent person is certain that Great Britain will be compelled to fight for her existence with the United States as soon as an American government believes that war can be safely undertaken. Our duty is to make sure that it comes by no fault of ours, and that it finds us prepared."

MAY AGREE ON THE TARIFF.

Adjustment of Differences Thought to Be Near.

WASHINGTON, July 15.—The tariff conference was in a more hopeful mood today and one leading senator expressed the opinion that the Republicans would be able to conclude their labors tomorrow and to submit the Democratic members by Saturday. The day was spent in considering the minor details of the bill, which have been passed over with an occasional reference to differences in the sugar schedule. It is believed that the remaining factions are very near an adjustment, which will compromise the differences in the sugar schedule.

At the house side on the other hand, among those in close touch with the conference it is asserted with positiveness that the house conferees have no intention of yielding anything to the senate, and the question is freely expressed that the deadlock will continue indefinitely. The house conferees, they say, know that they have practically the support of the house Republicans back them.

The Democratic side of the chamber is somewhat disturbed over the vacancy caused by the death of Senator Harris. "I fear," said Senator Jones of Arkansas, "that the vacancy may, if not filled before that time, occasion no little embarrassment when we reach the vote on the conference report."

ARRANGEMENT OF THE SUGAR TRUST.

WASHINGTON, July 15.—Gen. George A. Bristow, U. S. A., retired, is the author of a remarkable petition, which was presented to the house yesterday by Belknap of Illinois. The petition prays the house to pass a bill which would abolish the tariff bill. The most startling arrangement of the sugar trust thus far made before congress is conveyed in the statements set forth by Gen. Forsythe in support of his prayer.

In the Senate. WASHINGTON, July 15.—Pacific railroads occupied the attention of the senate throughout, and the Harris resolution, relating to the pending proceedings against the Union Pacific, finally passed over. Early in the day Stewart and White introduced a sharp personalities in connection with the contest over the San Pedro deep water-harbor. The joint resolution was passed, accepting the invitation of France to participate in the Paris exposition of 1900.

In the House. WASHINGTON, July 15.—No business was transacted by the house today. Immediately after the journal was approved a recess was taken on Cannon's motion until tomorrow. Cannon having given assurances to Bailey that in his opinion a partial complete conference report on the deficiency bill would be ready by that time.

Favorable Report on Humboldt Bay. WASHINGTON, July 15.—The secretary of war today transmitted to the house a favorable report on the examination of Humboldt, Cal. harbor, which the report of the engineers considered worthy of improvement by the United States.

Webster is Confirmed. WASHINGTON, July 15.—The senate has confirmed C. Webster to be collector of internal revenue for the district of Montana.

Presidential Nominations. WASHINGTON, July 15.—The president today sent to the senate the following nominations: Roland T. Rombauer, of Montana, and E. M. Hathaway, and William V. Tompkins, of Arkansas, to be commissioners to examine and classify lands within the land grant and indemnity land grant limits of the Northern Pacific Railroad Company in Missoula land district, Montana.

Joseph Auld, of Montana; A. R. Johnson, of Montana; and Watson Boyle, of the District of Columbia, to be commissioners to examine and classify lands within the land grant and indemnity land grant limits of the Northern Pacific Railroad Company in the Bozeman land district, Montana.

Cyrus Leland, Jr., to be pension agent at Topeka, Kan. William H. Ranft, to be receiver of public moneys at Missoula, Mont. Lieut. Daniel Benham, Seventh infantry, to be colonel.

MANY RESOLUTIONS ADOPTED.

Second Day's Session of the Trans-Mississippi Congress. SALT LAKE, July 15.—The Trans-Mississippi congress was called to order promptly at 9 o'clock this morning, with a large audience in the galleries and the delegates seats were filled. The order of attendance was due to the fact that Hon. W. J. Bryan, president of the congress, was to be present. At the afternoon session the report of the resolutions committee was read and the following resolutions were adopted: "Resolved, That we commend the action of President McKinley in appointing a committee to investigate the alleged failure of the gold standard to advance the interests of the people, and the fact that the restoration of the gold standard is universally demanded by them."

The committee announced that a minority report would be submitted. Papers on irrigation were read by H. Nyquist, by drographer of the United States geographical survey, L. H. Taylor, of Nevada; W. H. Moore, of St. Louis, and C. L. Stevens, of Salt Lake.

The following resolution was adopted: "Resolved, That we are in favor of such legislation by congress as will insure the Hawaiian republic to the United States as an American enterprise, to remain forever under American control, and to be memorialized congress to this effect."

The following is the memorial in part on this subject, which was adopted: "The Honorable Senate and House of the United States: We, the undersigned, respectfully urge upon you your heroic struggle for civil liberty, and we request congress and the president to recognize Cuba as a nation, and to recognize our substantial assistance in securing and maintaining its independence."

The resolution was adopted by a rising vote. The secretary of the congress was instructed to transmit the resolution by telegraph to both houses of congress.

Adjustment was then taken until 9 o'clock tomorrow. The minority report of the resolutions committee, which will be submitted tomorrow, is a lengthy document and takes the ground that the adoption of the majority report at this time would be unwise and not in harmony with the purpose for which this body has met. The report is signed by T. L. Ford, L. H. Taylor and A. J. Seavay.

Nothing Equal to Chamberlain's Pain Balm. Richard Payne, of Tehachapi, Cal., says: "I have used Chamberlain's Pain Balm for the past five years and for sprains, bruises and rheumatism there is nothing equal to it. I think no family should keep house without this liniment. I by doing so, can save many a man an ache and pain." For sale by Druggists.

WONDERS OF THE KLONDIKE ARE NOT HALF TOLD.

LARGEST PLACERS EVER SEEN. Miners From Seattle Secure Thousands in a Single Season—T. S. Lippy Comes Out With \$65,000, and Leaves Half a Million Behind—William Stanley Has \$12,000—Miners Reach St. Michaels, and Not One Has Less Than \$5,000—Party's Dust Aggregates a Million—Two Hundred Claims on Bonanza Creek All Prove Fabulously Rich—J. Clements Finds a \$257 Nugget, and Takes Out \$2,000 in Four Days.

SAN FRANCISCO, July 15.—The Associated Press has received a letter from H. A. Stinson, president of the Binghamton, N. Y., Evening Herald, containing the following wonderful gold discoveries of Alaska. Mr. Stanley wrote from St. Michael's, where he stopped on his way to the Yukon mining region. Writing under date of June 30, he says: "The steamer Excelsior, from San Francisco, was the first vessel to pass her way through the ice to the island. The Portland from Seattle arrived four days later. From these vessels we learned for the first time the wonderful gold discoveries of Alaska. The Corbett-Petersons' light and other news of the fall and winter. The ice went out of the Yukon region in June and the river steamer P. B. Wear, which wintered at Dawson's, 25 miles up, reached St. Michael's June 25. The Wear brought authentic news of some wonderful gold strikes and brought also some 40 miners. Every mile between in city, out to the coast, just, an aggregate of more than \$1,000,000.

The steamer Alice arrived at St. Michael's on June 25, bringing twenty-five miners and half a million in gold for them. The richest gold strike the world has ever known was made in the Klondike region last August and September, but the news did not get even to Circle City until December 15, when there was a great stampede of miners to the Klondike region between there and the new fields.

"On August 12 George Cromack made the first great strike on Bonanza creek, and on August 13 seven claims were filed in that region. Word was brought to the Klondike City on June 15, that the richest stampede ever known in this part of the world commenced.

"Of the 200 claims staked out on Bonanza creek, not one has proved a blank. Equally rich finds were made on the 6th to the 10th of Bonanza creek. Not less than 300 claims have been staked out on Indian creek, and the surface indications are that there are as rich as any of the Klondike. The largest nugget yet found was worth \$25. The next in size was one found by J. Clements, worth \$21. In mines they know the two nuggets took out were worth \$2,000, and one worth \$75. Bigger pockets have been struck in other regions, but no one has yet found so rich a general find has been made as in this section.

"All about seventy-five lucky miners have reached St. Michaels. Some brought but a portion of their clean-up, and others have not yet started. The party who has cleaned up about \$75,000, and has brought out \$50,000, and invested the rest.

"Prof. T. S. Lippy, of Seattle, brought out about \$20,000, and has \$10,000 in sight, and claims his mine is worth \$50,000 more. William Stanley, of Seattle, brought out \$12,000. Clarence Perry, \$10,000; Henry Anderson, \$5,000; Frank Keller, \$5,000; T. S. Lippy, \$5,000; William Sloan, of Astoria, \$5,000.

There are some thirty more who will not talk, but stand guard over the treasure in their storehouses. There are at least thirty more men bringing from \$5,000 to \$20,000.

"All this gold, and more to come, is the clean-up of last winter's work. It must all come out via St. Michaels, and the bulk of it must go to the Klondike. The two great transportation companies pushing in supplies are the North American Trading & Transportation company and the Alaska Commercial company.

Further particulars will follow in about forty days, on the arrival of the next steamer. It is generally expected that Alaska and gather all the information they can.

The following is an extract from a letter sent from a wealthy young business man of San Francisco to his brother in this city: "The excitement on the river is indescribable, and the output of the new Klondike placer discovery made in the world for the first time. One man has worked forty square feet of his claim and is getting out \$10,000. One-quarter of claims are now selling at from \$1,000 to \$5,000. The estimate of the amount of dust are from \$10,000 to \$100,000. Some of the stories are so fabulous that I am afraid to believe them. I am afraid of being suspected of the infection."

"Labor is \$15 a day and board, with 100 days guaranteed, so you can imagine how difficult it is to hold employees.

"If reports are true, it is the biggest placer discovery made in the world for the first time. One man has worked forty square feet of his claim and is getting out \$10,000. One-quarter of claims are now selling at from \$1,000 to \$5,000. The estimate of the amount of dust are from \$10,000 to \$100,000. FISHING RATE IS TOO HIGH.

McGowan, the Cannor, Says the Price Must Come Down—Strike May Result. Special Dispatch to the Post-Intelligencer. SOUTH BEND, Wash., July 14.—P. J. McGowan, the veteran canneryman, is in the city. He says that his North river cannery will not run this fall unless the price of fish is less than last year. Last season 25 cents was paid for big fish and 12 1/2 cents for silversides. He says that he has some of last season's pack on his hands yet; furthermore he expects a full pack of spring salmon from his Chinook cannery.

Local fishermen say that a strike will certainly ensue if any cut is made in the price of fish, and that they may refuse to fish unless the prices are increased over last year.

Mark Peterson, Gus Sundby and Christ Simonson, Oregon gill netters, were arrested yesterday for fishing on the Washington side of the Columbia, and will be tried today at Ilwaco.

GUNS READY IN ONE YEAR.

Work on Marrowstone Fortification to Begin—Employment for 300 Men. PORT TOWNSEND, Wash., July 15.—The Pacific Bridge Company, to which was awarded the contract for constructing the fortification on Marrowstone point, has let sub-contracts to local parties for all the lumber to be used also for piles for the wharf and for the construction of the wharf. Active work will begin next week.

A letter received here today from the navy department says it is the intention of the government to have guns mounted ready for use in one year from the date of the commencement of the work. It is expected that 300 men will be employed on the work by the middle of August.

AN INSANE MAN WITH A GUN.

Mike O'Donnell, of Oakville, Declares He Cannot Be Taken Alive. Special Dispatch to the Post-Intelligencer. OAKVILLE, Wash., July 15.—A man of the name of Mike O'Donnell seems to bear an imaginary grievance against Mr. Kelly, a rancher on Clarendon creek, and threatens to kill him. For some time past he has been stopping on Pat Fitzgerald's ranch. Last Monday he became hostile and threatened death to Kelly, and is hiding near the house with a Winchester which he borrowed from a neighbor. He has had no food since Tuesday morning. Mr. Kelly is now in town procuring a warrant for his arrest.

O'Donnell declares no one can take him or get his gun without killing him.

BATTLESHIP OREGON SAILS.

She Leaves Port Angeles for San Francisco—Kept Busy at Target Practice. Special Dispatch to the Post-Intelligencer. PORT ANGELES, Wash., July 15.—The battleship Oregon is expected to leave here tonight at 11 o'clock for San Francisco. Her last shipment of coal arrived this morning from Comox, and the transfer from the coal barge to the battleship has been made with all possible speed.

The Concord and Oregon have both been engaged at target practice for several days past. The sand spit where their targets have been placed is deeply furrowed by the explosion of big shells.

The Stern-Wheeler Grady Sails. PORTLAND, Or., July 15.—After several weeks' delay in the adjustment of legal difficulties, the stern-wheeler river steamer H. C. Grady started tonight on her perilous voyage to San Francisco. If the weather is propitious she will cross out from Astoria tomorrow morning with Capt. Wren, an experienced navigator, at the helm. The opinion is that if the Grady meets no heavy seas she will reach port without mishap, but in the event of a storm, the odds are heavily against her arrival in San Francisco.

Exports Largely Increased. VANCOUVER, B. C., July 15.—Exports from the Vancouver consular district to the United States for the fiscal year ending June 30 amounted to \$2,501,438, the largest on record, being over \$500,000 more than any previous year. The principal items were: Ore, 4,624,000 lbs.; malleable iron, 1,728,281 lbs.; fish, \$1,184,420; hides and skins, \$44,462.

Sidney's Murder Trial. Special Dispatch to the Post-Intelligencer. SIDNEY, July 15.—2:30 p. m.—Nothing new developed in the Berg murder trial today. It is possible that the evidence may be all in this afternoon, and if so a session will undoubtedly be held this evening in order that a verdict may be reached not later than tomorrow.

Andre's Start for the Pole. STOCKHOLM, July 15.—In a private letter just received from Andre, aeronaut and explorer, written July 10, he says: "I shall take the first opportunity to make the balloon start northward, after July 18, even though the winds should be less favorable than I might desire."

Back to the Scene of Crime. PORTLAND, July 15.—Detective E. J. Wren, of San Francisco, arrived here today to take charge of Lilly McGregor's case. Lilly Baldwin, who is wanted in San Francisco to answer to the charge of larceny.

HIS AIM WAS BAD. William Mehl Tries to Kill His Brother, Then Shoots Himself. MARYSVILLE, Cal., July 15.—Disagreements of partnership caused an attempted fratricide this evening, followed immediately by a suicide. As a result William Mehl is dead, but the pistol which killed him inflicted only a superficial wound in the neck of his brother Charles. A few minutes prior to the tragedy, William had drunk and asked Charles to show him over his premises. Charles complied, and during the inspection, William suddenly drew his revolver, and holding it close to his brother's neck, fired. His nerve was unsteady, and only a surface wound and powder burns on Charles' neck resulted. The shock of the concussion caused Charles to fall. William, thinking the wound had been fatal, held the pistol to his own ear and fired. Both brothers were prominent in Marysville. Holding high offices in local fraternal orders. Each was a man of family.

Searcher Causes a Fatal Runaway. CHICAGO, July 15.—A searcher is responsible for the death of Mrs. M. Morton yesterday. While bowling along at a rapid rate he collided with the horse driven by Mrs. Morton. The horse dashed down the street, colliding with a lamp post, and throwing the unfortunate woman from the vehicle. She was instantly killed. She had been an invalid for years. The searcher was thrown from his wheel, but remounted and rode away before he could be apprehended. The horse died in a few minutes.

The bleaching of the hair, and its tendency to fall out can be prevented and the natural color restored by Hall's Vegetable Sillian Hair Renewer.

Direct to Klondyke. Steamship Portland will sail direct for Klondyke on July 26th. For passage apply North American Transportation and Trading Company, 418 First Avenue, Portland. While bowling along at a rapid rate he collided with the horse driven by Mrs. Morton.
