

IT REACHES BERLIN.

INTEREST IN THE PACIFIC NORTH-WEST IS FELT THERE.

Germany Thinks of Investing in This Part of the Country—R. Haber, an Assessor in the Prussian Ministry of Commerce, Arrives in Seattle to Make Investigations—Has Been Given Two Years' Leave of Absence for This Purpose—Comes as the Guest of the Great Northern—Has Already Begun His Work by Visiting the Miller River and Index Districts.

The fame of the mineral wealth of the Pacific northwest has reached the financial centers of Germany and has aroused much interest there that Mr. R. Haber, an assessor in the Prussian ministry of commerce has been sent here to study the mineral resources of this as well as other sections of western America both in the northern and southern continents.

He has been given two years' leave of absence for this purpose and came over the Great Northern, accompanied by his wife, as a guest of the road. He made a beginning of his studies by visiting the Miller River and Index districts, but in the former district the labor of climbing caused such inflammation of the eyes that he was obliged to return to his room at the Butler hotel.

When called upon by a Post-Intelligencer representative yesterday he was found with the injured eyes resting on a chair. Greeting his visitor courteously, he said in the course of an interview: "I have come simply to study the mineral resources of western America and not to do any business. I have some friends in Germany who have money to invest and some business may result from my report on what I have seen when I return. But my instructions are only to study the country and its possibilities. I have come to this section first because Mr. Hill provided me with many facilities and the mountains are accessible only during summer. I shall then likely go south, through Utah, Mexico, Central America and British Guiana. In this section I shall not only go through the Cascade range but to Butte and Anacosta. Mr. Adams, of the Northern Pacific, will give me some assistance in the territory along his road and further south they are making arrangements to give me facilities.

"I have not completed my examination of the Miller river 17 miles from here, but I have got some samples and I shall go again as soon as I am able. I saw some big veins in a strong formation, which can be traced from one mountain through the next one."

It is understood that the moneyed men to whom Mr. Haber refers are some of the holders of bonds and stock in the Great Northern railroad, who wish, by developing the mineral resources of this section, both to make a good investment for themselves and to increase the traffic of their road.

MINERAL IN THE OLYMPICS.

Flot That Gives Good Evidence of Its Presence There.

A prominent mineralogist, W. A. Hall, recently returned from a trip to the Olympic mountains, going from Seattle to Port Angeles, and thence on horseback up the valley of Elwhah river 17 miles to the south side of Hurricane hill, which is the second range south from the straits of Juan de Fuca, at an elevation of from 800 to 1,000 feet. In an examination made of various mines and some little preliminary prospecting done, an showing of copper was seen, especially on Hurricane hill, which would strongly suggest that somewhere in the Olympic range there is an immense deposit of copper ore—native in its character. This inference is enlarged on from the fact that on one stream in particular native ore is panned.

Geographically the Olympics, of the ground gone over, shows indications of having been formed under the sea, and the sedimentary deposit comprising the range are of such extent and depth that it will be necessary to drive tunnels at length and shafts to depths in order to reach the igneous and metamorphic formations which are the direct source of mineral. The rivers and tributaries of the Olympics carry float that imply favorable rock contact for gold, silver, iron and copper. In panning the Elwhah river, near Morse creek, a no placer gold of any consequence was found. The Olympics, in mineral character, afford a valuable and extensive field for the prospector. It is as yet practically an unexplored and unsuspected country.—Seattle Mining Herald.

ORE EXHIBIT COMING IN.

Specimens on Their Way and More Are Being Prepared.

The mineral exhibit is gradually accumulating at the Chamber of Commerce rooms, and it is probable that next week quite a number will come in. Secretary Linn has received information blanks filled in regarding specimens which are on the way from Culver, Bismuth, French and Exchequer in the Peshastin district, owned by the Blewett Gold Mining Company, and from the Consolidated Buckhorn in the Swakw district. Ten specimens have been shipped to Everett for exhibition there during one day of the Christian Endeavorers' visit, after which they will be sent to the chamber.

If any specimens have been sent to the Seattle representatives of any of the min-

KNOW A GOOD THING.

And Wasn't All Day About Getting It.

"I gave \$45 for just such a piano," exclaimed a lady to her friend who was examining one of those large size, strictly high-grade, fancy walnut-cased upright pianos at our closing-out sale yesterday. She was sincere. Probably she did pay \$45 for just such an instrument, although this style of piano for \$45 during the past six months, but now is \$35. You may be sure that this lady's friend did not leave the store without having seen an instrument like this.

In high-grade pianos we can offer you everything that is most desirable and up-to-date in modern piano building. It is sufficient to say that we have still a most complete assortment. You will find here upright pianos from \$37 down to \$100, all for sale on terms of \$3 down and \$3 a month.

We really have no competition during this sale. Imitation is not competition, you know, and as the sale includes every brand of stock, everybody who wants a piano comes to 33 Second avenue and gets it. WINTER & HARTER.

Reduced Rates to the East.

From July 12 to 17, inclusive, and every Monday and Thursday thereafter up to and including Monday, August 5, the Northern Pacific will make the following low rates to the East: To St. Louis, Omaha and Kansas City, \$28.50; St. Louis, St. Paul and Chicago, \$1. Call at the Northern Pacific office, Seattle, for all particulars. L. A. Nadeau, General Agent.

Direct to Klondike.

Steamship Portland will sail direct for Klondike on July 25th. For passage apply North American Transportation and Trading Company, 615 First Avenue, Portland connects at St. Michael's with Yukon river steamers.

Pipe Sale.

All plain and gold and silver-mounted pipe, best quality, trade mark of "P" in a circle, actual manufacturers, call M. Levy & Co., 111 First Avenue south.

Hot for Klondike.

Schubert's Monday evening for St. Michael's July 27, Fare, \$40. Apply Oceanic Packing Co., 214 Bailey building.

Mrs. Jennie Houghton-Edmunds will sing at Madison park today.

Langer & Loeb's band at Leitch park this afternoon.

Mrs. Jennie Houghton-Edmunds will sing at Madison park today.

Wagner's band, Madison park today.

Only \$11 to Chicago via Great Northern.

TO CLEAR THE SITE.

BIDS FOR THE WORK AT MAGNOLIA BLUFF OPENED YESTERDAY.

M. Dow & Co. of Seattle, the Lowest Bidders—Their Estimates Lower Than Those of the Quartermaster—Capt. Robinson Recommends the Acceptance of the Bid, and on Approval of the Department at Washington, the Contract Will Be Let.

Bids for clearing ninety-seven acres of Magnolia Bluff, for the military post, were opened yesterday in the office of Capt. W. W. Robinson, of the quartermaster general's office, in the Haller building. M. Dow & Co. of Seattle, were found to be the lowest bidder for the contract and Capt. Robinson telegraphed to the department at Washington recommending that the bid, which was for \$3,400, be accepted.

Following are the bids: M. Dow & Co. of Seattle, \$3,400; Brinkham, Kessal & Co. of Tacoma, \$3,000; Peter Hennings, \$2,148; W. W. Robinson, \$2,148; D. McL. Brown, \$1,492; James R. Taylor, \$1,333; W. E. Boone, \$1,333.

Dow's bid is actually the price of \$3 per acre. Hennings' bid was for \$25 per acre, which was the highest of all. To a Post-Intelligencer representative yesterday, Capt. Robinson said that Dow's bid was good and sufficient and was \$2 per acre less than the estimates made by himself.

The specifications for the construction of two bridges and the building of a road from the east landing on Salmon bay to the west line of the site will be ready Monday for prospective bidders. The road will be getting out timber for a distance of 100 feet in width. Capt. Robinson has advertised for bids for the construction of this road and they will be opened July 13 at 10 o'clock.

The roadway is to include space on one side for a bicycle path, and the other side will be planned for a footway. Plans are being drawn by a strong company of Queen City Good Roads Club of bicycle path from Interbay station to the government road from the landing on Salmon bay. As soon as this is finished, Capt. Robinson said, the army post will be in readiness for riders.

Eventually, the roadway from Interbay station to the army post buildings will be a perfect driveway and bicycle path and will form an invaluable addition to the suburban roads from the city.

AMUSEMENTS.

"A Night in Bohemia."

Tuesday morning, July 20, the Seattle theater box office will be open to those who, having purchased tickets for the Queen City Good Roads Club's production of "A Night in Bohemia," according to promise, are entitled to reserved seats on the balcony, one in advance of regular sale, which commences Wednesday, July 21, at 8:45 a. m. "A Night in Bohemia," with Hoyt Bean, Charlie Lamb and Mamie Holden, supported by a strong company of local amateurs, is sure to be one of the best and liveliest amateur shows the city has ever seen. The dates are next Friday and Saturday, July 22 and 24, and a special matinee on Sunday, July 23, at 2 o'clock. The scene is set as a summer day, and gradually works up to a song and dance, a funny tramp specialty, then the great solo, "The Cry," and it finally ends in one grand burst of songs, music, dancing and laughter. In the second act the beautiful lines of Edmund Keane, the old Bohemian, teach us a good lesson, and the sublime character of the old man of letters is a fitting background for the fun that follows.

Of the specialties much has been said, and as the number about fifteen, there will be something for everybody. The night little Margie Newman rehearsed her new specialty, "La Danse De Clochette," with the electric light effects, and it is believed that there is a frequent recurrency of the number. Among the many songs "introduced in 'A Night in Bohemia' may be mentioned: "The Bells of St. Martin," "The Girl of All Girls to Me," "Only Me," "The Daughter of Officer Porter," "The Bully," "Black America," and others. The committee are hard at work, and as the sale of tickets will be beyond all expectations, when the box office opens Tuesday morning there will be a great scramble for the choice of seats. On Wednesday morning the program will be \$5, 25, 50, 75 and \$1 will commence, and the first man in line will get first choice.

"Rip Van Winkle" at Third Avenue.

Case of characters: Rip Van Winkle, Edwin R. Lang; Derick von Bekman, Henry Morris; Nick Vedder, Richard O'Connor; Henry Vadder, Richard O'Connor; Jacob Stein, Fred E. Jones; Seth Slough, Thomas H. Jefferson; Little Heinrich Vedder, William Skelton; Szwagzyclo, Miss Minnie V. Cross; Heinrich Hudson, Harry Conners; Meenie Van Winkle, Jessie French; William Green, Little Margie Newman; Schneller, the natural acting dog, Schneider; Gretchen, Viola Rosa; Edwin R. Lang, supported by a good company, opened at the Third Avenue theater last night for a week's engagement in Washington, Irving's masterpiece, "Rip Van Winkle." Mr. Lang is an actor of considerable ability. His interpretation of the character was entirely satisfactory to the good-sized audience which gathered to witness the production. In his last act as the tottering old man, who had awakened after a sleep of twenty years, he was especially strong. Mr. Lang is one of those comedians who do not have to stoop to vulgarity in order to raise a laugh. His efforts were ably seconded by his dog Schneider, who was one of the best ranged members of the company, and received considerable applause.

Viola Rosa, as Gretchen, the shrew, did good work and was a prime favorite with the audience. Dutton Wagner is a favorite with the patrons of the Third Avenue theater. Mrs. Jessie French works well and has some good work. Mrs. Webster recently made quite a success in Honolulu in connection with Daley's comedians. She is a sister of Richard E. French, who is so well and favorably known in this section.

The balance of the company did the work assigned to them satisfactorily. Rip Van Winkle will hold the boards for the remainder of the week. There has already been a large advance sale for tonight.

Rev. Rudolph Farber's Lecture.

Rev. Dr. Rudolph Farber rabbi of the Temple Emanuel, of Spokane, is in the city and tonight will address the reformed Jews of Seattle at the Elks' hall on the subject of "The Immigrant, Gentile and the Jew." The lecture is free to all who are interested in a dissertation upon a problem that has troubled the world. There will appeal alike to all classes and sects from an educational standpoint. Dr. Farber has been invited to meet the Jews of Se-

LAST NIGHT'S CONCERT.

Everything Favors the "P-I-L's" Enterprise and the Good Work of Wagner's Band.

Everything favored the Post-Intelligencer's second open-air concert of the season last night by the First Regiment band. The evening was cool, but not chill, and the clear sky gave promise of a beautiful Sunday to follow. The programme was one of the finest ever arranged by the First Regiment band, and the selections rendered were received with marked evidence of appreciation.

The gathering at the opening of the evening gave promise of a light crowd, but before the dusk dispersed into night every foot of space within a radius of a half block from the band stand was occupied by a pair of feet, above which each succeeding number the crowd grew and grew.

Some excitement but no damage was caused by the breaking of a pane of glass in the window of the Chicago Board of Trade in the Bailey building. There was a cracking sound and the pane crashed to the pavement below, scattering men and women. Another happening which caused more than passing comment was the action of a hackman who drove through the thick of the crowd, knocking people right and left. This caused sufficient annoyance, but the hackman, before drawing out, he finally struck Lawyer John H. Allen, of Allen & Powell, over the head with the butt end of his whip. Before the indignant spectators could interfere the hackman had driven away.

To speak of the features of a programme so full of gems is difficult. All the renditions were excellent. It was to be regretted that a frequent recurrency did not greet the first selection, Sousa's new march, "Stars and Stripes Forever." Those who came later missed a treat. This march has a new ring to it. The touch of Sousa is recognized, but in a mood not manifest in the older and more familiar compositions. "Stars and Stripes Forever" is ranked among the very best productions of the march king.

The second number, Boeldieu's overture, "La Dame Blanche," opened with a swelling chord, and throughout it was full of pleasing combinations. With the airy clarinet, "Everlasting Life," was never more beautifully played by the First Regiment band. It is a composition which grows upon one with each repetition. Withal there is a frequent recurrence of cadence, it is a delicious monotony which one could wish to repeat itself ad infinitum. The baritone chorus, with the airy clarinet, "Everlasting Life," was never more beautifully played by the First Regiment band. It is a composition which grows upon one with each repetition. Withal there is a frequent recurrence of cadence, it is a delicious monotony which one could wish to repeat itself ad infinitum.

The largest and most select stock of cigars, tobaccos and pipes will find at M. Levy & Co., 111 First Avenue south.

Wagner's band, Madison park today.

Pastoral Officers Chosen.

SANTA CRUZ, Cal., July 17.—The following officers were elected today at the session of the Pastoral Association of the Christian churches at Garfield park: President, L. F. McCray; vice president, George Greenwell; A. B. Markle and H. E. White; secretary, C. P. Park; treasurer, J. Durham.

The Biggest Klondike Strike.

Yesterday no rumor was too enthusiastic to be doubted. The people talked of gold dust by the hundred pounds, and the entire city was wild with excitement. The individual amounts brought down by the miners were variously quoted from \$500 to \$200,000. One of the fortunate miners says, however, the biggest strike on the Yukon has not yet been reported, or, at least, has not yet been in the papers. It seems a man named Smith made a location on Bonanza creek among the first that was made. He left Circle City with only a few days' supplies, having a new stock sent in later on. On receiving this he went to his claim and commenced work. The first thing he struck was a case of the justly celebrated Rainier Beer, which proved refreshing and invigorating, thus proving that Rainier Beer keeps perfectly in all climates.

After the grand finale a rush was made for cars or places of refreshment, and it was an hour after the concert before the streets lost the animation consequent upon the heavy attendance at the concert. The Post-Intelligencer will give no concert next Saturday night.

The warm weather comes too late for us to realize anything like what our summer goods are worth, consequently we are compelled to sacrifice prices in order to unload our stock. Below we give a few of our SPECIAL BARGAINS:

Men's Suits. Youths' Suits. For \$8.00 \$6.00

We show many styles to select from. New fabrics, well tailored, no sweat shop work—this week \$5 takes choice.

We have many broken lines to fit boys from 14 to 18 years; former price not considered, choose this week \$6.

Boys' Knee Pants Suits. \$12.50 \$3.00

This small figure will carry away the cream of the market, former price \$15 to \$18, now \$12.50.

This price must close them out quickly. Are you an expert or novice, you must recognize this as a bargain.

Come early—come before our stock is broken up in sizes.

No Goods Charged During Our Unloading Sale.
