CRATER LAKE ON DYEA TRAIL. The View is From the Summit, Looking North. Supplies Are Being Hauled Over the Snow. A Ferry Delivers Miners and Supplies From the Foot of the Trail to the Head of the Farthest Inlet Shown in the Picture.

FROM RIOT TO ARSON. MOB SETS FIRE TO PROPOSED HOSPITAL AT NEW ORLEANS.

When the Firemen Attempted to Put the Fire Out the Mob Cut the Hose, and the Police Had Difficulty in Dispersing the Rioters.

NEW ORLEANS, Sept. 24.—Opposition to the conversion of the Beaugrand schoolhouse into a yellow fever hospital and open threats that it would be burned if its use as a hospital was persisted in, developed into riot and arson last night.

Effective work by the fire department in the face of a mob enabled the department to save the main portion of the building. Only the annexes of the structure were reduced to ashes.

At night a riotous crowd gathered around the building and openly threatened that at the first opportunity they would fire it throughout the city.

The burning of the school created intense indignation here and the outrage was bitterly resented by the colored people in the city, in ringing edicts, pledges itself to support the mayor in whatever action he may take to punish the culprits.

The mayor sent a force of policemen to guard the building today, and a part of the structure is still in use as a hospital.

Engineers believe that the work of the boiler of the school is producing good results, and that the fever is being spread, but, on the contrary, is being confined to localities.

There were nine new cases today and three deaths. Of the ninety odd cases in New Orleans, but four have been among the negro population.

The situation here is practically unchanged. Freight is moving slowly, and the theaters are still open and amusements are not restrained.

MOBILE, Ala., Sept. 24.—There have been three deaths since the report handed out yesterday at 2 o'clock.

A HITCH ON SEAL CONFERENCE. Canadians Object to Japanese and Russian Experts Attending.

OTTAWA, Sept. 24.—It is said here that the United States intends to insist upon the presence of Russian and Japanese experts at the conference at Washington.

WILL MARRY THE PRINCE. Mrs. Langtry to Become Princess Esterhazy in California.

THE SAME... Old Sarsaparilla.

That's Ayer's. The same old sarsaparilla as it was made and sold by Dr. J. C. Ayer 50 years ago. In the laboratory it is different. There modern appliances lend speed to skill and experience.

But the sarsaparilla is the same old sarsaparilla that made the record—50 years of cures. Why don't we better it? Well, we're much in the condition of the Bishop and the raspberry: "Doubtless," he said, "God might have made a better berry. But doubtless, also, He never did."

Why don't we better the sarsaparilla? We can't. We are using the same old plant that cured the Indians and the Spaniards. It has not been bettered. And since we make sarsaparilla compound out of sarsaparilla plant, we see no way of improvement.

Of course, if we were making some secret chemical compound we might, but we're not. We're making the same old sarsaparilla to cure the same old diseases. You can tell it's the same old sarsaparilla because it works the same old cures. It's the sovereign blood purifier, and—it's Ayer's.

Effective work by the fire department in the face of a mob enabled the department to save the main portion of the building. Only the annexes of the structure were reduced to ashes.

At night a riotous crowd gathered around the building and openly threatened that at the first opportunity they would fire it throughout the city.
