

post a trail has been blazed up the bank of Swamp creek to where it heads in a glacier, a distance said to be five miles, but estimated by every man who has traveled it to be fully ten miles. At all events, it is a full and hard day's journey for a man with a pack to cover this portion of the trail.

From Union City a dry canyon, filled with loose rock and boulders and lying at an angle which will average 45 degrees, affords an arduous trail to the Twin lakes, a most beautiful and picturesque camping spot, worthy of a more extended description, which will be given later.

As a final word of warning, it must be remembered that the snow will commence to fall in the mountains within a very brief period, and that any persons who attempt to go in to the new district must take chances on being caught there by the snow, and will only get out by a most desperate struggle. The trail is had enough now, but with a few feet of snow it would be a man of extraordinary strength and endurance who could make his way out.

A Good Field for Prospecting.

These are the facts about the new gold discoveries as they exist. There is this, however, to be remembered—that there is an extraordinary expanse of mountainous country to be prospected in that neighborhood, and certainly the opportunity for rich finds to be made there is as good, or even better, than in any other mineral district of the state.

HE WORKED TACOMA.

SWINDLER WITH MANY NAMES WAS SUCCESSFUL.

His Smooth Tongue Worked on the Masons Until One Investigated—Body of Supposed Suicide Found in the Brush on the Reservation.

Special Dispatch to the Post-Intelligencer. TACOMA, Sept. 28.—Robert Fleming, or Charles Floyd, or Charles Brown, or Martin Malloy, or any old name, but any name taken from Seattle by a shrewdly disguised Van der Vanter yesterday, is well known among members of the Masonic fraternity.

Special Dispatch to the Post-Intelligencer. TACOMA, Sept. 28.—The tea inspector has not yet completed his examination of the tea brought by the steamer Tacoma on her last trip, but has progressed far enough to demonstrate that a large portion of the cargo is not fit for importation, and has already rejected 1,700 chests.

Special Dispatch to the Post-Intelligencer. TACOMA, Sept. 28.—The tea inspector has not yet completed his examination of the tea brought by the steamer Tacoma on her last trip, but has progressed far enough to demonstrate that a large portion of the cargo is not fit for importation, and has already rejected 1,700 chests.

THE CZAR'S ESCAPE

SOCIALISTS PLOTTED AN EXPLOSION AT WARSAW. Tanned Under the Street Was to Have Been Blown Up, but the Plot Was Betrayed—Pitiful Appeal for Help From Cretan Mohammedans.

WARSAW, Sept. 28.—Though an official denial will be forthcoming, it has leaked out from official circles that the czar has escaped from Warsaw. It is said that he was seen leaving the city in a motor car, and that he was accompanied by a number of persons supposed to belong to the German Socialist party.

Several weeks before the arrival of the imperial party, a number of persons supposed to belong to the German Socialist party undermined Norway Street, the principal street in Warsaw, between the governor-general's palace and the royal castle. As the tunnel, which had been undertaken from the cellar of a beer house, approached completion, the conspirators became apprehensive of a collapse of the roadway and called on several Polish masons to build supports. The masons, whose suspicions were aroused, notified the police and the arrest followed.

Among those in custody are four disguised German officers, either on leave or belonging to the Landwehr, and an entire company of soldiers. The number of merchants and manufacturers from the town of Lodz, Poland, are also implicated.

PITIFUL PLEA FROM CRETE. Mussulmans See a Winter of Hunger and Cold Ahead.

CANEA, Crete, Sept. 28.—The Mussulman notables have sent the following telegram to the ambassadors of the powers at Constantinople and to the sultan: "Our position is most unbearable. Winter is approaching and we are without shelter, almost naked and living on a diet of bread and water."

"Our Christian compatriots have burned our olive trees and the island will soon be denuded of its food. We do not know how we can live next season."

"Public charity has already expended \$500,000 in the island, but this is not enough to support us another month. We, too, are God's creatures. In the name of humanity, put an end to our present position."

CANEA, Sept. 28.—Seven Turkish sailing vessels have attempted to land troops on the Cretan coast, but the undertaking was blocked by the admirals of the foreign warships.

Peace Returns in Salvador. NEW YORK, Sept. 28.—A dispatch to the Herald from La Libertad, Salvador, says: "News has reached here that some prisoners in San Miguel mutilated, killed several guards. Many of the prisoners escaped and were pursued. This gave rise to the rumor that a revolution had broken out in Salvador. The affair has no political significance whatever. Peace reigns throughout the republic."

Barriles Fighting for Existence. WASHINGTON, Sept. 28.—The legation of Guatemala has received the following telegram: "GUATEMALA, Sept. 27.—A revolution broke out on the 7th in San Marcos and in Quetzaltenango and other towns. The port of Ocaja was recaptured by government forces. The rebels attacked Totopan and were repulsed. They are now concentrated in Quetzaltenango."

TO WATER THE DE-ERT. Irrigation Congress Meets at Lincoln With Thirteen States Represented.

LINCOLN, Neb., Sept. 28.—Delegates to the national irrigation congress, which began its sixth annual session today, made a record for industry in disposing of work on hand and setting a pace for more elaborate sessions to follow.

PEARLY'S BIG METEORITE. No Derrick in Navy Yard Large Enough to Handle It.

NEW YORK, Sept. 28.—The whaling ship Hope, Lieut. R. Peary's vessel, is expected at the Brooklyn navy yard on Thursday for the purpose of having the meteorite which she brought back from her Arctic expedition removed from the ship and placed on the deck of the vessel.

BLACKMAILERS IN A TRAP. Three New York Lawyers Captured in the Act of Receiving Money.

NEW YORK, Sept. 28.—By means of a trap set in advance, Col. A. Ammonds, William Sweetser and William Woods, lawyers, have been arrested on a charge of blackmailing Samuel Keller, former manager of the E. S. Dean Company, which failed last March.

WOODMEN'S

filter the Uric Acid and poisons out of the system through the urine. If they are acting right. If not, the results are Backache, Bright's Disease, Rheumatism, Neuralgia, Bladder Trouble, Dropsy, Diabetes, Nervousness, Blood Disorders, etc. All these diseases can be cured.

I have heretofore thought that no matter how much I was helped by any medicine, I would not make known the results any but my closest friends. But the good I have derived from using your Sparagus Kidney Pills is so great that I feel it my duty to let you and the public know of it.

I was afflicted with kidney trouble, accompanied by severe pain in the small of my back, and during the day I was frequently and scanty and at other times too full and dark colored. My sleep was disturbed, and during the day I was bilious and drowsy, with occasional headache and dizzy spells. The slightest exertion would increase my difficulty.

I heard of your pills from a friend, who informed me that he had cured himself. I was encouraged to try your effect on myself, although I had tried many remedies and followed a course of treatment. After the first few doses my backache was less severe, and by the time I had used one box, my sleep was completely undisturbed, and I was able to do my usual work.

My good great remedy has done for me. S. C. MILLIGAN, (Former City Attorney, San Francisco, Cal.) 75 Montgomery Block, San Francisco, Cal.

HOBBS Sparagus Kidney Pills.

WOODS REMEDY CO., PROPRIETORS, CHICAGO

a source of gratification to the officers of the congress. A meeting of the executive board was held at 11 o'clock, largely attended, and the business of the three days' convention. C. B. Booth, of California, elected at the last congress, will act as president until a successor is elected.

It was 2 p. m. when President Booth called the congress to order in the assembly hall of the University of Nebraska. The delegates in attendance were from 12 states and the District of Columbia.

On behalf of the congress Judge J. S. Emery, of Lawrence, Kan., responded to the address of welcome. So deep and abiding was his faith in irrigation for soil culture, said Judge Emery, that he, with other Kansans had come to regard this as the only method of soil culture.

Mayor MacVicar, of Des Moines, read a paper on "Municipal Control of Municipal Ownership—Which?" After referring to the prevalent ignorance of the municipal control in Des Moines in the face of opposition from the private company, he concluded:

"While we now generally concede the justice of municipal ownership of water works and are all ready to endorse municipal street lighting, we hesitate at going further and declaring our support of such a national monopoly as gas and street railways. However, we are rapidly coming to realize that municipal ownership is the only method of securing a public utility which will be to the benefit of the whole people, although it be at the expense of private gain."

The question of the possibility of locating and tracing underground streams of water was the subject of a paper by Dr. J. G. Sisson, of Rushsylvania, O. Dr. Sisson advised that he had discovered a method of locating water by water watches, or those claiming to be endowed with "divine power, aided by scientific instruments, and instruments in supplying the deficient moisture, it would mean regeneration not only of the West, but of the entire country."

Secretary Heintz, of the Federal government, took the place of Commissioner Hermann as representative of the Federal government, and was followed briefly by Elmer D. Meade, state engineer of Wyoming.

President Booth, after announcing various resolutions, addressed himself to the convention proper in a carefully prepared paper.

E. B. Emery, of Great Bend, Kan., chairman of the national executive committee, gave a resume of the irrigation work for the year.

MAYORS IN SESSION

DISCUSSING THE BEST METHODS OF CITY GOVERNMENT. The Lighting Question Which Troubles Seattle Comes Up for Consideration—Two Factions on the Question of Credentials.

COLUMBUS, O., Sept. 28.—The first annual conference of the mayors and councilmen of the United States, Canada and Mexico was called to order this morning by Mayor Bannock of this city, about 120 regularly accredited delegates being present.

Gov. Bushnell delivered the address of welcome. He said the congress would inaugurate another epoch. While municipal officers for centuries had dealt with "municipal problems," even in long settled cities, the modern methods and careful husbandry can be made to produce bountiful harvests, and he knew that this assemblage of municipal officers could effect a permanent organization on the closing day.

Two Factions Develop. A resolution on the appointment of a committee of five to report a plan of organization and names of officers for the first year disclosed the existence of two factions, one favoring a plan of favor of proceeding to business without any report from any committee on credentials.

Mayor Black was chairman of the convention and Editor Gordon, of City Government, secretary. These officers were elected by a vote of 100 to 10.

On the question of the appointment of a committee of five to report a plan of organization and names of officers for the first year disclosed the existence of two factions, one favoring a plan of favor of proceeding to business without any report from any committee on credentials.
