McKINLEY WILL MEET REED TODAY.

Important Conference to Be Held at Jekyll Island.

GOOD RESULTS EXPECTED

Breach Between the President and the Speaker May Be Healed.

No Newspaper Men Will Be Permitted on the Island, and All the Members of the President's Party Strenuously Insist That There Are No Politics in the Matter, and That the Gathering of Political Leaders at This Point is Entirely Unpremeditated and a Mere Coincidence—Preparations Making.

JEKYLL ISLAND, Va., Brunswick, Ga., March 19.—On the surface this has been a dreamy, balmy southern coast Sunday in the social resort of millionaires. But there is an undercurrent of preparation for the ensuing week of political speculation...

Speaker Reed is taking life easy, and there appears no trace of anxiety on his countenance over the approaching visit of the chief executive. He knows that he was on Jekyll island first, and that the evidence is all in his favor as the administration coming to him.

Several other people were more or less seriously injured, but their names are not known. The path of the storm was about 20 yards wide and it traversed the country for twelve miles, beginning in the northern part of Cebu...

THOMASVILLE, Ga., March 19.—President McKinley attended service at the Methodist church. Mr. McKinley, Vice President Hobart and Mrs. Hobart were driven to and from the church in the president's carriage.

Preparations have been made to leave tomorrow for Jekyll island. Politics, it is repeated most positively, has nothing to do with the trip, and no present conference will be held there. The probability that Speaker Reed and the president will meet was decidedly doubtful...

ALGER GOES TO CUBA.

He Will Leave Quietly on One of the Regular Government Transports. WASHINGTON, March 19.—Secretary Alger returned to Washington tonight from his brief visit to Boston and Montreal. The secretary said he expected to leave Savannah, Ga., Thursday for a trip to Cuba on the regular trip on the transport Ingle.

The wounded men, except those only very slightly injured, are in the general hospital, receiving the best treatment it is possible to give them, and a very large proportion of them will rejoin their companies within a few days. JOE SMITH.

WHOLE FAMILY WIPED OUT.

THEIR HOUSE SCATTERED FOR A MILE BY THE TORNADO.

Bodies of Ten of the Victims Found Half a Mile From Where Their House Formerly Stood, One of Them Twisted Around a Stump.

BIRMINGHAM, Ala., March 19.—Additional details of last night's terrible storm were received here late today. The following is a list of the dead and wounded so far as known: Dead: Lewis Coffee, aged 55, tax assessor of Cleburne county, and the following members of his family: Mrs. Coffey, aged 46; Lella, aged 22; James, aged 20; Lulu, aged 18; Jacob, aged 13; Dollie, aged 10; Devere, aged 8; Grover, aged 6; John, aged 4; an unknown woman near Hefflin. Survivors: Bessie Coffey, aged 12, daughter of Lewis Coffee, will die; Mrs. Rannels, aged 75, will die; Myrtle Stanzell, aged 5, will probably die; Mrs. J. H. Cason, Tom Rannels, Wood Stanzell, Andrew Stewart, all seriously hurt; Mary Stepan, Lizzie Rannels, J. H. Cason, Georgia Stanzell, Gainesville Stanzell, Joseph Stanzell, Coleman Stanzell, all badly bruised.

Several other people were more or less seriously injured, but their names are not known. The path of the storm was about 20 yards wide and it traversed the country for twelve miles, beginning in the northern part of Cebu county, near Iron City, and moving southward. There was an immense funnel shaped cloud that bounded along like a rubber ball, rising and falling for several hundred yards without doing any damage. Then, when it descended, it would pick up houses and crush them to pieces, uproot trees or twist them off the ground and sweep them before it.

Lewis Coffee's residence, a strong double log house situated on a little hill, was swept away and the timbers scattered for a mile. Ten of its eleven occupants were instantly killed. Except the body of the baby, which was found in the ruins of the chimney, the corpses of the victims were carried half a mile and nine of them were found heaped together. Every body had been stripped of its clothing. One man was found with a stump and two others were headless. Beside the body of the father lay Bessie Coffee, the only member of the family not instantly killed. She was unconscious and her arms were around her dead father's neck. She is unable to talk and will die.

In the same neighborhood the residences of J. W. Wilder, J. H. Carson, Andrew Stepan and Ben Stanzell were wrecked and all their occupants injured. Near Hefflin, a white woman whose name cannot be learned, was killed and five persons in the same family hurt. It is estimated that about fifty buildings were destroyed between twenty and twenty-five persons were injured and over a score of farms devastated. The storm lost its force just south of Hefflin, near which place a dozen buildings were wrecked. The path of the cyclone presents a terrible scene of havoc. Timbers of wrecked houses are scattered in every direction. Some were carried high into the air and others were driven deep into the ground or through trees. Many heads of cattle were killed. One dead cow was found with a shingle driven through her back. But for the fact that the country over which the storm passed is sparsely settled, the loss of life would have been much greater. There were many marvelous escapes. J. H. Cason and his wife were blown through a window as their house was falling, and for the storm found themselves in a field a hundred yards away, both badly hurt. There were eleven houses blown down on Walker McCalther's farm, six miles from Waynesboro. One house came down and was completely demolished, while it was occupied by eight negroes, but they all escaped unharmed. Three Persons Killed. PINE BLUFF, Ark., March 19.—Further details of the fearful storm which swept down shortly after 1 o'clock this afternoon. The explosion wrecked a number of plate glass windows and doors in nearby residences. A large force of men were at work during the afternoon on what was the main entrance to the hotel. It was expected that bodies would first be found there. A large amount of small articles, principally the personal property of guests was found.

LONG LIST OF MISSING.

A FEW SUPPOSED VICTIMS OF WINDSOR HOTEL FIRE SHOW UP.

The Dangerous Operation of Taking Down the Standing Walls Going On With Some Narrow Escapes—Dynamite Used Causes Damage.

NEW YORK, March 19.—Little progress was made today in removing the debris of the Windsor hotel fire in the effort to discover the bodies supposed to be buried there. All day long over 200 men labored as much as the misty, muddy, steaming mass of broken stones, twisted iron and crushed brick would admit. A heavy stifling vapor arose continually, retarding progress and keeping the workers for the most part away from the center of the ruins. From Fifth avenue much of the debris that had fallen into the street has been cleared away and the men were able to reach a portion of the first floor. What small portions of wall could be blasted down were leveled, but the great pillar of brick at the Forty-seventh street end of the block was unyielding.

Up to midnight no bodies had been discovered and no more deaths from injuries received at the fire were reported from the hospitals, but a number of the injured were still in a serious condition. The debris list remains the same as yesterday—sixteen—and the list of missing has been reduced to forty-four, as a number of those previously unaccounted for reported in person, or have been located by friends.

The only things found during the early part of the night were a set of artificial teeth on a gold plate and some articles of clothing. By midnight the laborers had excavated back from the front building line and to the sub-basement for a distance of fifteen feet. The great value of jewels and jewelry in the wreck made the men work carefully. Each handful of the refuse was fully examined before being placed in the carts.

Work was begun this morning to demolish the fragmentary portions of walls on the east and north sides of the burned building, and later the number of workers was reinforced and the work of removing the rubbish pushed as vigorously as was practicable. The chimney, eighty-five feet high, standing on the Forty-sixth street side of the ruins, near Fifth avenue, was blown up today. Thirty pounds of dynamite were placed under the base of this chimney and electricity was used to explode it. Smoke and steam still rise from the debris, and now and then tongues of flames shoot up, even at this late hour after the fire. The workmen have been able to do only a little superficial work. When they dig down a little way the debris is so hot that they are obliged to move to another locality. During the day workmen were engaged in picking to pieces the axillary wall that is standing on the Fifty-seventh street side of the hotel site in order to make the search in the ruins safe. The second eight-foot chimney was dynamited shortly after 1 o'clock this afternoon. The explosion wrecked a number of plate glass windows and doors in nearby residences. A large force of men were at work during the afternoon on what was the main entrance to the hotel. It was expected that bodies would first be found there. A large amount of small articles, principally the personal property of guests was found.

CUBANS FIGHT THE POLICE.

PITCHED BATTLE OCCURS AT A DISREPUTABLE BALL.

Revolvers Used Freely and Quite a Number Are Wounded, Including Several Women—Officers of the Cuban Army Mixed Up in Affray.

HAVANA, March 19.—A serious conflict between the police and people of Havana last night resulted in more shooting and clubbing. From thirty to fifty people were wounded, some seriously. Among the injured is Police Captain Estampes, formerly a colonel in the Cuban army. Ever since the police interference about a week ago at the demonstration in honor of Gen. Meximo Gomez, the police have been unpopular with the populace, who fear them and declare them inefficient. Cuban critics of the force denouncing the arrests as unfair, and charging the police with "trampling upon the rights of a free people." The police are virtually in the position of men who have to make the people fear them in order to secure obedience, as they have no record to fall back upon for example.

Last night's trouble occurred at a public milambo ball in San Jose street, an unsavory quarter. Many Cuban officers, colonels and captains among them, attended in the effort to prevent a crowd collecting in front of the building where the ball was in progress, asked a group of men to go in or disperse. His request was unheeded, and after repeating it he was attacked by the group, whereupon many men issued from the building and set upon him, taking away his club and revolver and handling him roughly.

The policeman immediately notified headquarters, who ordered twenty reserved to the scene. The crowd has been prepared for their arrival. It is said they opened with revolvers upon the police, which was low and fired upon the police from that point. They were apparently well armed, and this fact, together with the resolution with which they fought, seems to confirm the belief that the attacking party was mostly made up of Cuban officers, as ordinary civilians would have fled from the revolvers of the police. Many women were wounded. A report is in circulation this evening that two of the injured civilians have succumbed to their wounds, but this is not confirmed. Among those seriously hurt are Policemen Donato Aroza, Enrique Munoz and Benigno Vasquez and Civilians Jose Dominguez, Enoos Galliano, Alberto Aleja and Irene Roque.

It is reported on good authority that many were wounded who withdrew hastily because unwilling to have it known that they were present. American troops were called to the scene when the trouble was over and numerous arrests followed. Police Capt. Estampes, who is well known in Cuban military circles, is so badly injured that fears are entertained that he will not recover. Numerous permits have been issued for similar balls this evening, and it is feared that there may be further trouble. Shortly before 5 o'clock it was reported that another conflict between the people and the police had taken place this evening on the outskirts of Havana, and that two policemen and several civilians, all wounded, were conveyed to police headquarters. Maj. Gen. Ludlow, military governor of the department of Havana, desires to be relieved of his duties and to go to the Philippines. It is understood that he has applied to the war department for a transfer and has strenuously urged that it be made. He is weary of the details of city administration. The workmen's demonstration in favor of Gen. Gomez this afternoon was a successful affair, some 500 men and women forming on the Prado and marching with music and banners to the residence of Gen. Gomez, where they were joined by a similar procession from Guanabacoa.

WASHINGTON BOYS HAVING HOT WORK.

Another Day of Fighting With the Filipinos.

CHASE THEM 15 MILES.

Troops of Wheaton's Column Almost Used Up by Heat.

Two of the American Soldiers Killed and About Twenty Wounded, Including in the Latter Corporal Bucklin, of Walsburg—The Insurgents Lost About 200 Killed, and During the Week's Fighting With the Flying Column Have Lost 2,000 Men—They Are Becoming Discouraged With Results.

MANILA, March 19.—The Twentieth and Twenty-second regular infantry, two battalions of the First Washington infantry, seven companies of the Second Oregon infantry, Troops K, I and K, Fourth cavalry, and Scott's battery, Sixth artillery, comprising the flying column under command of Gen. Wheaton, which began operations against the rebels last Saturday, have capped their first week's operations with a splendid achievement, by which the country between Manila Bay and Laguna de Bay, as far south as a line drawn from Cavite to Laguna de Bay, was cleared of the rebels.

The enemy is estimated to have numbered 1,500. The advance was made from Taguig, one of the villages on Laguna de Bay captured by Gen. Wheaton's troops a few days ago, and the country to the south and southwest of that place was thoroughly scoured for a distance of fifteen miles, or to the town of San Pedro de Tamasan. Ten villages were burned and heavy losses inflicted on the Filipinos.

Rebels Lose 2,000 Men. Gen. Wheaton estimates that in the several engagements that have occurred during the week the rebels lost 2,000 men in killed, wounded and captured. Attached the Washington Boys. Last evening a number of insurgents, who had sneaked north to a west shore of Laguna de Bay, attacked a detachment of the Washington regiment at Taguig. Companies M, B and E of the Twenty-second regulars were ordered to the assistance of the volunteers, and they attacked the enemy from the south side of Pasig river. The fighting lasted until darkness set in, when the Filipinos retired. Our losses were twenty killed and wounded.

Last night Gen. Wheaton decided to drive the enemy southward and at daylight this morning the brigade, with the exception of a small garrison, which were left to guard Taguig and Pasig, was ordered to advance. A Lively Skirmish. The Twenty-second regulars, with 120 guns of Scott's battery, had the right of the line. The Oregon regiment was in the center, while the Washington regiment had the left of the line. At first the advance was stubbornly contested by the Filipinos, but they were ultimately driven out of their positions. Then the American left wing pursued them along the shore of the lake, while the right wing swung in towards the center, the movement resulting in a complete rout of the enemy.

Chased Them Fifteen Miles. Our troops followed them for fifteen miles, burning every village along the route. Late today the brigade returned to its former position. Filipinos Threaten a Prisoner. Private B. Young, of the Twenty second infantry, was wounded during the fighting yesterday evening and fell into the hands of Filipinos, who threatened to roast him alive. It is likely they would have carried the threat into execution had they not been too busy this morning in attempting fruitlessly to check the advance of the Americans. When they were driven from their positions, they were in such a hurry to leave they forgot Young, who subsequently was found and cared for by his fellow soldiers.

List of the Killed and Wounded. In fighting today our losses were supposed to be about seven killed and thirty wounded. The large extent of the territory over which operations were conducted makes it difficult, however, to give a full and accurate list of the killed. Killed—Privates J. Smith, Company E, and Johnston, Company K, Twenty-second infantry and James Page, Company D, Second Oregon regiment. Wounded—Privates W. Young, Clark Young, and Fred Bowne, all of the Second Oregon; Corporal R. Bucklin, of Washington regiment.

Capt. Jones and Privates August Schmidt, Robert Rice, Charles Parmer, James Combs, Ed. Rajala, Wm. A. Nixon, Arvidson, William Ellis, Fred Hunt, Leander Mingo, Edward Wilson, George Schneider, Earl Edwards, Frank Huse, Carl Crumphoix and Merritt Porter of the Twenty-second infantry. The insurgent loss was about 200 killed and 800 wounded in today's fight.

Otis' Official Report. WASHINGTON, March 19.—The war department today received the following dispatch from Maj. Gen. Otis regarding operations against the insurgents: "Manila, March 19.—To Adjutant General, Washington: Our improved gunboats, under Capt. Grant, Utah artillery, have had possession of Laguna de Bay; the troops, inhabitants and property of the shore of the lake are at our mercy. Wheaton's brigade, on the Pasig river line, drove the enemy northeast into the province of Mooring. Last evening the enemy attacked a portion of his force
