

MARTIN ATTACKS COTTON.

WANTS TO HAVE COMMITTEE APPOINTED TO INVESTIGATE.

Majority—Martin Spends Over Two Hours Fiercely Assaulting the Finance Minister's Character.

Special Dispatch to the Post-Intelligencer. VICTORIA, B. C., Feb. 15.—The session of the legislature this afternoon was devoted to suffocation upon the occasion of the motion of Joe Martin for a committee to investigate charges against the personal character of the finance minister. The charges were briefly that Cotton, acting as secretary of the council, had falsified the record; that he had been guilty of a breach of trust in the estate of Mr. Gordon and had been sent to jail for refusal to say what he had done with the proceeds, and that he had left Colorado clandestinely to evade his creditors. Mr. Cotton denied in toto the first charge and was corroborated by his colleagues in the cabinet. The Gordon episode he explained by saying he was unable to pay Gordon owing to the hard times. Gordon used on the note and got judgment, the court refusing on the name of those who had bought Gordon's interest in the News-Advertiser, which Cotton was in honor bound to refuse, and consequently went to jail. The Colorado incident he explained by borrowing money to leave the state for several land, cattle and water companies in Colorado, which began to lose money by litigation and by the slump in the price of stock. To save the companies he put in his own means. This proved unavailing and the companies went into insolvency. Having lost all his means, he had to borrow money to leave the state, and came to British Columbia. In 1894 he had been blackmailed by a man who wanted him to assist him in starting a paper. The story referred to by Martin had then been published in the Denver News. This explanation was accepted by Mr. Turner and Col. Baker for the opposition.

Martin spoke for two hours and a half, fiercely assaulting Cotton, but the motion appoint a committee of investigation was voted down, only seven members voting in the affirmative. These were Higginson, South, Clifford, Robertson, Hyden, Martin and Helmecken.

The opposition attacked the government for indifference in pressing their offer of troops on the Dominion government for West Africa.

Completed and this fall the managers of the line will be able to handle all the freight and passenger traffic. One boat has already been purchased by the new road, and three more will later be added. In addition to a large number of barges, which will be used to handle the river transportation above and below the portage. Mr. Strack also states that as soon as the road is opened and running this fall steps will be taken which will connect Spokane with the coast by way of the new road. This will effect a great saving in freight rates, and Mr. Strack asserts that the merchants of this city could well afford to combine and build the road from this city to the Snake river.

Mining Trouble Settled. Special Dispatch to the Post-Intelligencer. SPOKANE, Feb. 15.—The wage differences existing between the miners and the owners of the Shoshone mining district for the past year have just been adjusted as the result of a seven-day conference held at Sandon. The miners contended for \$5.50 per eight hours, the same wages they had been getting for ten hours, while a majority of the mine owners would only give \$4.50 for eight hours. For a time it looked as if trouble would result, but in serious talk by the terms of settlement the miners agreed to accept \$3.25.

GORDON MET GOLD.

NONE OF THE BIDDERS SEEMS PROPOSED TO TAKE HER.

Officials Are Disgusted, and a Bid Which Has Come in From Eastern Parties Is Likely to Be Accepted, Although Not Filled in Time.

Special Dispatch to the Post-Intelligencer. PORT TOWNSEND, Feb. 15.—The complications following the failure of the highest bidder for the purchase of the cutter Corwin to make good his offer have been the occasion of no end of trouble and inconvenience for the interested parties, particularly Capt. S. Hooper, who took charge of the cutter when Capt. Tozier was ordered East recently. It will be remembered that of the fourteen bids submitted that of J. E. Ryus, of Whatcom, who offered \$17,025, was the largest, and he was awarded the vessel. Ryus for some reason flunked, and the next highest bidder, C. I. Curtis, of Astoria, who offered \$16,000, was notified.

The sale took place Saturday last, and Curtis was immediately notified, but up to date has not responded. As a consequence of this tiresome delay, Capt. Hooper today wired Curtis that if he was not on hand with the purchase price of the vessel tomorrow morning the bid would be thrown out.

Capt. Hooper is eager to have the matter settled up, and is not particular whether Curtis makes good his bid or not, for he today received a telegram from a steamship firm at Martha's Vineyard, offering to make good the bid of regular bid, and if necessary increase it up to a limit of \$20,000. It is not at all unlikely that Curtis will accept the offer, for people in a position to express opinion say that the whole matter as far as it has progressed is slightly irregular, and the call for bids as printed by the treasury department having omitted to require that every bid be accompanied by a certified check for 10 per cent. of the offer made, as is the usual custom when the government offers any of its property for sale.

The flag of the Corwin has been hauled down, and she is out of commission, so Curtis is ambitious to have the vessel closed up to the next little packet may be turned over to her private owners. Capt. Stamm and the officers and crew of the vessel are temporarily sojourning here, pending the receipt of orders establishing them on other vessels of the service.

WRANGLE IN COURT.

Judge Kean Fines an Attorney \$15 for Talking Too Much.

Special Dispatch to the Post-Intelligencer. TACOMA, Feb. 15.—Judge Kean was today the scene of another of the series of incidents which has passed into prominence during the last six months. Col. H. F. Garretson appeared in behalf of Terry Carbone, arrested on a criminal charge, and stated that he was not ready to try as he had arrested Carbone with his partner, E. L. Garretson, that the case was set for tomorrow. This statement the county attorney charged as a smooth trick to gain time, and the colonel made an indignant reply to the charge and was told by Judge Kean to sit down. Not immediately obeying the command from the bench, Judge Kean fined him \$15. This the colonel denounced as an outrage which the court would be sorry for, and the judge added \$5 more to the fine. The incident created much comment.

RAILROAD NOT LIABLE.

Judge Decides Against a Widow Suing for Damages.

Special Dispatch to the Post-Intelligencer. TACOMA, Feb. 15.—No more cases on the criminal docket of the federal court were transferred to Seattle for trial today, which practically cleans up the list with the exception of two or three cases. A nonsuit was granted in the case of Mrs. Jane Beaumont against the Northern Pacific Railway Company for damages brought by the widow for the death of her husband, a locomotive engineer, killed in a collision near Orting. Beaumont was given orders by the dispatcher to run on the same track with another train coming from the same direction, but the testimony showed that she might have stopped his engine before the collision if he had tried, and therefore negligent in contributing to the disaster.

BURGlar IS SENTENCED.

Joe Dunlap Gets Seven Years in the Penitentiary.

Special Dispatch to the Post-Intelligencer. TACOMA, Feb. 15.—Joe Dunlap, the burglar who has been so much in the news in connection with the late grand jury and Judge Kean's department of the superior court, was sentenced to seven years in the penitentiary this afternoon. The sentence came as a great surprise to him, as he had frequently stated that he had an agreement with the grand jury and the county attorney's office that he was not to get over eighteen months in jail, according to a promise made him by the grand jury at the time he was giving the surprising testimony which resulted in the indictment of a number of well known men on the charge of being implicated with Dunlap in various burglaries. Dunlap has since admitted that his testimony implicating Carbone was false.

Chinamen Are Indicted.

Special Dispatch to the Post-Intelligencer. TACOMA, Feb. 15.—The jury returned indictments against several Chinese now in jail at Seattle who were charged with having forged certificates in their possession. In this connection the federal officers state that they are trying to break up the practice whereby Chinamen have secured their own deportation and free transportation to China by simply having these certificates in their possession. Under the new order of things Chinese arrested for this offense are being first sent to the penitentiary to work for the government and thus given an opportunity to earn their passage across the Pacific.

Bonds Still Unsettled.

Special Dispatch to the Post-Intelligencer. TACOMA, Feb. 15.—No progress was made in the city bond negotiations today. Edmund Seymour, representing an Eastern bond house, wanted an advance passed pledging the receipts from the city light and water plant to pay the interest on the bonds, but the proposition

was unanimously rejected. The matter was adjourned to tomorrow, and the agents of the bond syndicates tried to communicate with Mr. A. R. Nicol, a large holder of the city warrants, which bonds are to be issued to take up Mr. Nicol may come to Tacoma before the matter is finally settled.

Spencer Sentenced.

Special Dispatch to the Post-Intelligencer. TACOMA, Feb. 15.—Spencer Smith, a colored barber charged with criminally assaulting two girls of tender years, pleaded guilty this afternoon and was sentenced to six months in the county jail. Smith's friends here raised quite a sum to pay for his defense, and it was expected that he would fight, but he has since been taken in charge by the Crittenden home in Seattle and their mother has moved out of the city.

OPINIONS ON SCHOOL MATTERS.

Superintendent Browne Decides the Vaccination Question.

Special Dispatch to the Post-Intelligencer. OLYMPIA, Feb. 15.—In response to inquiries arising out of the relations of the public schools to the recent cases of contagious diseases, the superintendent of public instruction has issued the following opinions: In cases of suspension of school on account of contagious diseases on the county, it is the opinion of this office that the teacher is still in the pay of the school unless otherwise expressed in the contract.

Relating to an inquiry concerning a rule of the school board, which requires successful vaccination as one of the conditions of membership in the public schools, it is the opinion of this office that there is no doubt about the validity of a rule statute requiring vaccination, and in the absence of specific statutes conferring authority on school boards, there appears to exist no power to keep a child out of the public schools because he has not been vaccinated in accordance with a rule prescribed by a board of directors. The child might be excluded if he comes from a family in which a contagious or epidemic disease is known to exist, but not for the violation of a rule requiring vaccination.

IMPORTANT DECISION RENDERED.

Spokane Court Ruling Upheld by the Supreme Court.

OLYMPIA, Feb. 15.—The supreme court has affirmed the ruling of the superior court of Spokane county in the case of the City of Spokane and others, appellants, vs. the Ameterdamsch Trustee Company and others, respondents. The suit was brought in equity by the stockholders of the Spokane Falls Water Supply Company, and was based on the use of all the property of that company to the Northwest Milling and Power Company. The court has also affirmed a similar case under the general title of the Edison Electric Illuminating Company, appellant, vs. Spokane County and George Mackay, treasurer, respondent. Each case presenting the same general questions, all were consolidated by stipulation.

The purpose of the several actions is to restrain the Spokane county authorities from collecting taxes levied against the persons and franchises of the plaintiffs, based upon the assessment for 1897, on the ground that these assessments are in excess of that in proportion with the values of other properties, and that the county treasurer maliciously over-assessed the property of the appellants.

The trial is set for February 20 before Judge Neal, and the outcome of the case will be watched with interest for the reason that if Waisman should be convicted it will have the effect of breaking up the practice at present existing of sending and bringing prisoners across the international boundary line without legal process.

Special Dispatch to the Post-Intelligencer. OLYMPIA, Feb. 15.—Inspector Salt Howard, inspector of rural mail routes, was in the city this week and inspected the routes in the valley from the place of his headquarters at the office of the post office. Old tin cans, coverless board boxes, or merely the whole front yard in some cases, are the receptacles for the mail. The regulations provided. He publishes a statement this week in which he says that unless the people bring the routes up to the standard of regulations he will recommend that the routes be discontinued.
