

NEW AGREEMENT MADE TO PREVENT STRIKES ON PENNA. Railroad and Labor's Representatives Settle on Far Reaching Plan.

DECISIONS ARE BINDING Grievances Put Before Committees Composed of Men From Each Side. REGULAR MEETINGS HELD Engineers, Conductors, Firemen, Hostlers, Trainmen and Switch Tenders Affected.

Special Dispatch to THE NEW YORK HERALD. PHILADELPHIA, Dec. 31.—The management of the Pennsylvania Railroad system announced to-day that it had reached with the representatives of its engine and train service employees a mutual working agreement through a joint reviewing committee regarding the settlement of future labor differences, which, if lived up to by both sides, should eliminate any question of strike as far as train operating is concerned.

This was the outcome of the series of meetings of representatives of the management and of the engine and train service employees, which began here on Tuesday of last week. The closing meeting was held in Pittsburgh on Wednesday, at which final details were worked out. Both sides are ready immediately to apply the new principles of relationship between management and men, which have been mutually agreed upon, to become effective to-morrow.

The classes of employees who through their accredited representatives have joined with the management in this agreement are the conductors, firemen, hostlers, trainmen and switch tenders, constituting the most numerous groups of employees directly engaged in the movement of freight and passenger traffic.

Details of the plan were given in the announcement as follows: "In all matters except individual discipline cases, the full committee will vote, and its decisions will constitute precedents which will be binding equally with respect to similar existing or future cases upon the management and the employees in all four regions of the system uniformly.
