

48th Semi-Annual Sale of Sample Hose

A SIX-DAY EVENT

WE have purchased 166,020 pairs of hose especially for this sale, of which 119,820 are "Run of the Mill." These are called "Run of the Mill" because of almost imperceptible thick or thin spots in the weave. We endorse their wearing qualities, *because we know they are good.*

One of the largest manufacturers' agents in domestic hosiery has turned over to us a large part of his sample stock amounting to 46,200 pairs. This includes salesmen's samples, factory samples, surplus stock—every style, color and weight included.
