160 Students Sail for Italy to Aid in Honoring Dante

Columbia, Vassar and Other Colleges Send Representatives to Celebration.

A party of 140 students from many of the leading colleges and universities of this country sailed yesterday for Italy on the French liner Leopoldina to take part in Italy's commemoration of the 600th anniversary of the death of Dante.

The largest representation was from Vassar, more than fifty girls from that college being on board, followed by Princeton, Wellesley, Columbia, Brown, Smith, Bryn Mawr, Radcliffe, and Pennsylvania are also represented.

Courtesies have been extended by the Italian Government to the students and their instructors which give the party a semi-official status. It was arranged by the Italy America Society with the idea of strengthening friendly relations between the two countries.

The part played by the students in the Dante exercises will be the placing of a bronze memorial tablet on Dante's tomb at Ravenna. This bears the inscription, written by Charles W. Eliot, president emeritus of Harvard: "From the American students of the Twentieth Century to Dante Alighieri, 1265-1321."

The leaders of the party, which will visit Paris, Rome, Florence, Pisa, and Genoa, are Prof. Bruno Roselli of Vassar, and Miss Irene L. Carter and Irwin Smith of the Italy America Society.

Also on board the liner was Mrs. Maud Swartz, secretary of the New York State Women's Trade Union League, who is the first delegate to leave for the second meeting of the International Congress of Working Women at Geneva, October 14.

To Sail on the Zealand. The Zealand of the Red Star Line will sail tomorrow with a full list of first cabin passengers, many of whom will land at Cherbourg. Mr. Charles Symon, Counselor of the Belgian Embassy at Washington, will be one of the exceptions.

Michigan Confers Honorary Degree on Ambassador Geddes

Also Honors Vilhjalmur Stefansson and Admirals Stitt and Fiske.

ANN ARBOR, Mich., June 30.—Twelve honorary degrees were conferred at the University of Michigan commencement here today. The degree of doctor of laws was conferred, among others, upon Sir Auckland Geddes, British Ambassador to the United States; Vilhjalmur Stefansson, explorer, and Dr. Harry Burns Hutchins, president emeritus of the university.

Even the most prosaic of thinkers today "dreams of an age in which there shall be no more," Sir Auckland Geddes said in his address to the graduating class. "But only the most optimistic," he added, "dream that age is at its dawn."

The "young recruits of the army of universality men and women" such as those he addressed, Sir Auckland said, shall be the great responsibility of aiding the less educated to grasp the great conception of peace "as the spiritual thing which it is."
