

DEVELOPING AGRICULTURE... Tent Life and Hard Work in Carving Farms Out of Primeval Lands.

GOOD TRAINING IN TRIP... Long Run Across Continent Put All of Party in Best Condition.

WELCOME IS CORDIAL... Curavon Pioneers Face New Life With Every Probability of Success.

Special Despatch to THE NEW YORK HERALD... 22 the Brooklyn caravan finished its long pilgrimage started July 28 in New York and continued across the continent to Buhl, Idaho.

The people who made up this troop of immigrants are genuine 100 per cent Americans. They have endured innumerable hardships and have come through apparently as contented as at the beginning of their trip.

In all the caravan covered 3,400 miles, developed a little over 100,000 acres. As a mode of travel the automobile train was decided a great success. It was found to be much cheaper than the railroad, with the added excitement of the adventure.

The efficiency of the pioneers was a matter of interest to all who visited them. Apparently without any effort they were able to do a great deal of work. There was no confusion and no undue noise.

One of their favorite songs was: "With flying pans and coffee pots, the big old fashioned wagon..."

There is every reason to expect that this venture will be successful. The land these families are entering is in the heart of the celebrated Twin Falls district.

After being the centre of attraction for many curious eyes and after listening to numerous addresses of welcome, the emigrants are anxious to get to work.

Special Despatch to THE NEW YORK HERALD... CAMBRIDGE, Mass., Oct. 1.—The new Harvard College rank list, showing the academic standing of every upper class man in college on the basis of last year's work.

The list arranges the members of the classes of 1922, 1923 and 1924 in six groups. The first group (Highest Distinction) and the second group (High Distinction) corresponds to the first and second groups of scholars as formerly published.

The purpose of the student council and faculty in making the complete rank list public is to give some recognition to men in the third and fourth groups whose college work is above the average.

When the subject was first called to the notice of the people of southern Idaho they were a sceptical. They knew just how many days of hard labor it had taken them to gain a foothold and it was only natural for them to suppose that people from the East, inexperienced in the art of irrigating farming, would not be able to come with the forces they were to meet.

There is every reason to expect that this venture will be successful. The land these families are entering is in the heart of the celebrated Twin Falls district.

FOR ZIONIST PEACE... Defends His Own Record as a Jew and Supporter of Movement.

Samuel Untermyer, counsel for the Lockwood Committee, stood forth at the Jewish publishers' banquet in the Hotel Brevoort last night as the peace-maker of the Zionist movement, the diplomat who is depended upon by all factions to bring together the discordant elements in the movement.

Mr. Untermyer was the guest of honor and principal speaker at the dinner given by the Jewish Telegraphic Agency to the publishers, editors and city editors of the Jewish newspapers of the country and to prominent Jewish writers and journalists.

Mr. Untermyer began his address by answering critics who have said that his life has been a waste, a faded Jew from the religious point of view.

Mr. Untermyer turned to a discussion of the quarrels among Zionists and devoted some time to the Zionist secretary, Irving Morgenthau for the latter's attitude.

Mr. Morgenthau is and has been for many years reputed to be a man of great wealth who devoted any part of his great wealth toward promoting any Jewish cause whatever I have never heard of.
