Attention! The Universe: By Kingdoms Right Wheel!

Like most other scientific discoveries these successes were the result of months of painstaking research.

Research at New York University is still hampered, as in the days of Draper and Morse, by inadequate equipment.

I have watched with keen interest the construction and equipment of this building, and I can now visualize some of the contributions it will make to human health, and comforts, and efficiency; economies in the production and measurement of heat and in the use of heat consuming devices; the greater development of the internal combustion motor; and specific improvements in the field of electrical engineering.

Two hundred and twenty of the country's leading manufacturers have helped to equip this new research building.

Let me take this occasion to assure them that we shall try to justify their faith.

MORSE SAILS TODAY, FEARING COLLAPSE

Would Be Unfortunate, He Says, Should Anything Prevent Departure.

ASSERTS HE IS 'GOAT' Police Will Guard Docks Lest Financier Attempt to Slip Ashore.

Special Cable to THE NEW YORK HERALD. Copyright, 1921, by THE NEW YORK HERALD. HAVRE, Dec. 4.—Only one thing will enable Charles W. Morse to avoid sailing to-morrow on the steamship Paris for the United States—a certificate from a physician showing his health is in too precarious a state to permit an immediate return voyage, and Morse knows this is practically impossible to obtain.

M. Fabiani agreed and will remain with Morse until 9:30, when the latter will board the Paris unaccompanied, although a squad of Havre police will watch the docks until the ship leaves the harbor to prevent Morse from landing secretly. This precaution is taken for the reason that should Morse land the United States Government would be compelled to begin extradition proceedings.

BRIDE'S SKIRT MUST HIDE CALF OF LEG, RECTOR RULES

And Also Wide Enough to Permit Kneeling Without Further Exposure—Other Rules of Church Attire Promulgated by Chattanooga Clergyman.

CHATTANOOGA, Dec. 4.—The Rev. W. C. Robertson of Christ Episcopal Church of this city, to-day issued rules governing the attire of brides and wedding attendants, which, among other things, says "skirts must not be higher than where the spring of the calf of the leg begins and be wide enough to allow of genuflecting before the Blessed Sacrament without exposing the calf, much less the knee."

BRITAIN GOING DRY? BALFOUR CHUCKLES

'We Think More of Personal Liberty Than Americans Do,' He Says.

Special Despatch to THE NEW YORK HERALD. BALTIMORE, Dec. 4.—Arthur J. Balfour, head of the British delegation to the arms conference, chatting of Christmas as he sat before a blazing log fire to-day in the country home of John W. Garrett, general secretary of the conference, said:

DR. REILAND URGES MORE AID TO RUSSIA

He Would Use Food Stores in Our Warehouses.

Dr. Karl F. Reiland, rector of St. George's Church, appealed yesterday for a more generous response to the call for relief in Russia, calling to mind Russia bore the first great impact of the war, saved France and Europe and lost more men than any other nation.

SOVIETS EXTENDING GRIP TO FAR EAST

Treaty With Mongolia Viewed in Moscow as Establishing This Fact.

Special Cable to THE NEW YORK HERALD. Copyright, 1921, by THE NEW YORK HERALD. Moscow, via London, Dec. 4.—The treaty between the Mongolian and Soviet Governments is held in Bolshevik circles here as indicating the definite expansion of the Soviet zone of influence in the Far East. The treaty recognizes the existence of a new Mongolian periphery state and provides for Soviet military intervention should counter-revolutionary bands gather against Russia on Mongolian territory.

WIRTH ASKS WHO'LL PUT UP FOR BERLIN

Says Real Problem of Reparations Is Financial Aid for Bottomless Pot.

BRUNNEN, Dec. 4 (Associated Press).—Chancellor Wirth in a statement to the newspapers to-day reiterated Germany's willingness to fulfill her obligations, and added: "Is there anybody in the world who thinks it possible to squeeze dry like a lemon a people like the Germans? I know not how our late adversaries contemplate continuing their policy in the coming year. We will in the next few days carry out our sincere intentions by supplying materials, so far as credit on the basis of such materials is possible and their delivery economically possible. But the decision whether there are in the world financiers who are ready to put their money into the reparations pot—a pot without a bottom—rests not with the German Government, not even purely with German industry and finance, but with financiers not resident in Germany."

The Coward Shoe AT LOWER PRICES New Low Prices Effective Now WE are happy to announce to our many friends and patrons, and to the general public that, beginning today, the prices on Coward Shoes are at new low levels. In the 50 years that we have been making shoes for the people of America our prices have been based upon cost plus a nominal profit. Cost is determined by the use of honest leathers and materials, and honest shoe workmanship; no cheap labor or material is ever employed in the manufacture of Coward Shoes. Our patrons all over America have faith in the price of COWARD Shoes because in the wearing of them they find the justification for the price. James S. Coward 260-274 Greenwich St., N. Y., Near Warren St. (Sold Nowhere Else)
