**MAY ARREST ACTOR IN TAYLOR MURDER**

Will Be Seventh Taken in Connection With Slaying of Movie Director.

LOS ANGELES, March 1.—Arrest of a seventh man, which, if made, officials said, would bring into custody a motion picture actor of some prominence, was predicted to-night in connection with the murder of William Desmond Taylor, motion picture director.

Officials said the man was believed to have been in the confidence of peddlers of drugs and liquor. They declined to make his name public prior to the arrest. Six men already are under arrest as a result of disclosures made yesterday by Mrs. John Rupp, which, it was indicated, also form the basis of the prospective arrest.

Mrs. Rupp to-day made a sworn statement to the police of her story of the murder. She asserted that Rodney Calvert, one of the six in custody, said in her presence that he would shoot Taylor if the latter carried out a purported threat to report the sale to him of synthetic liquor under the guise of bonded goods.

It was stated at police headquarters that the woman's story had stood preliminary investigation. In her statement, as made public by the police, Mrs. Rupp said the first intimation she received of the alleged plot against Taylor came when she heard two of the six men talking in her home, one remarking:

"What do you think of that guy, Taylor?"  
 Then, she continued, she learned of an attempt to sell bootleg liquor as bonded goods to Taylor and a threat by Taylor to inform Federal agents. "If he squeals I'll kill him," is the remark Mrs. Rupp said she heard one man make.

Mrs. Rupp stated that after the murder, when she accused one of the men, he beat her severely and warned her not to mention the matter again.

**LOCOMOTIVES FOR RUSSIA.**  
 Sixty-nine Received From Sweden and Germany During 1921.  
 Moscow, March 1.—Replacement of the worn-out or demolished equipment of the Russian railways is taking place slowly. Sixty-nine locomotives in all were received from Germany and Sweden in 1921. Five hundred and twenty more locomotives are expected during the winter.

**STOCKHOLM, March 1.**—The Swedish locomotive industry continues to profit from the Russian demand for transport material. Fifty large locomotives were delivered to Russia last year. Contracts have been made for the delivery of 500 during this year and 250 per year during 1923, 1924 and 1925.

**RUSSIA STICKS TO SCYTHES.**  
 Moscow, Feb. 28.—Soviet Russia manufactured 1,307,000 scythes and imported 4,300,000 last year. Grain raising is carried on in such a primitive way by the majority of peasants that the scythe is in general use for harvesting, especially since the shortage of labor-saving machinery began.

**Stew and Buttermilk Make Fighting Irish**

BOSTON, March 1.—Too much Irish stew and buttermilk is responsible for the fighting Irish nature, according to Dr. Martin Edwards, who spoke before the Boston University School of Theology to-day on "Diets."

Dr. Edwards said that for many years the people of Ireland had lived largely on vegetables, potatoes and buttermilk, while most of the meat and eggs produced were sent to England.

He declared that the British diet, heavy with proteins, was responsible for the English characteristics.

**MARCH SWEEPS IN WITH SNOWSTORM**

Sleet and Rain to Follow To-day—4,000 Snow Shovelers Are Called.

The blustery month of March came in yesterday like the traditional lion, much to the delight of the weather sharps, to whom a mild March the first is as unthinkable as a rainless St. Swain's day. The high winds began during the day, and at 8:30 o'clock last night snow began to fall.

By midnight more than an inch had fallen and the storm was continuing steadily. The temperature hovered around 28 degrees. The Weather Bureau announced that the snow, mingled with sleet or rain, would continue until late to-day.

At 10 o'clock last night Alfred A. Taylor, Street Cleaning Commissioner, sent out an emergency call for more than 4,000 men registered by the department to aid in snow removal. He said he expected prompt response from the emergency force, who joined the 700 regular employees of the department in clearing the streets.

**4 N. Y. BANDITS GET LONG TERMS IN JERSEY**

12 to 24 Years for Attack on Elizabeth Policemen.  
 Four Manhattan bandits found guilty of attempting to kill Patrolmen John Cochran and Louis Hildenbrand at Police Headquarters, Elizabeth, N. J., on February 8 were sentenced yesterday to long terms by Judge Carlton B. Pierce. The men were suspected of a holdup. When arrested they tried to escape, shooting and wounding the policemen.

John Winkulat, 23, of 425 East Forty-fifth street, who led the attack, was sentenced to sixteen to twenty-four years and Frank Amerlano, 26, 452 West Thirty-seventh street, James Prunty, 27, 284 West Forty-eighth street, and Frank Rutigliano, 29, 432 West Forty-fifth street, to twelve to twenty-four years each.

**N. J. HOUSE PASSES FIVE DRY BILLS**

Senate Sure to Favor Measures That Deal Drastically With Liquor.

Special Dispatch to This New York Herald-Tribune, March 1.—With almost unanimous support from the Republican majority and corresponding opposition from the Democratic minority the House this afternoon passed in quick succession the five prohibition enforcement measures drafted by Assemblyman George S. Hobart of Essex, in cooperation with the Anti-Saloon League of New Jersey, after they had been slightly amended.

The vote on the principal bill was 33 to 18. Five Republicans voted with the Democrats against the bill. They were Blair and Corio of Atlantic, Little of Sussex, Moore of Mercer and Roegner of Passaic. Welsh, Democrat, of Hunterdon voted with the Republicans. Mrs. Laird, Republican, of Essex voted for the bill and Mrs. Brown, Democrat, of Hudson against it.

Mr. Gaede, Democratic minority leader of Hudson, led the opposition and attacked the Anti-Saloon League vigorously. Mr. George of Hudson argued that men, women and the youth of the country who never drunk whisky before are using it habitually. Mr. Roegner of Passaic favored a referendum on the question. It was also charged that the league is supported by bootleggers.

Mr. Hobart, replying, charged the Democratic minority with betraying its party platform, pointing out that the Democrats had pledged a proper enforcement law. The main bill follows closely the Volstead law with modifications necessary to meet State conditions and a modification of the search and seizure provisions, which the Republicans had regarded as too drastic in the national measure.

The second bill regulates the manufacture, sale or transportation of alcoholic products for non-beverage purposes. Other bills provide for abatement of buildings in which the law is habitually violated; authorize recovery of damages resulting from the illegal sale of liquor and permit prosecutors to use county funds for prosecutions in abatement under the Volstead law.

The prohibition measures will go directly to the Senate, where their passage is assured. Jersey City's threat to block work on the proposed Hudson Tunnel if the Legislature passes the Ripper billousting the present Democratic commission and substituting a new bridge and tunnel board has caused the Republican majority to change its plans. As a consequence it is proposed to report two bridge and tunnel bills instead of one. The second measure would divert Jersey City of the power to refuse to vacate streets needed for the enterprise and would vest that power in the commission.

**SINN FEIN GUN RUNNER GOT U. S. OFFICER'S AID**

But Nature of Ship Was Not Known to Him at Time.  
 Special Dispatch to This New York Herald-Tribune, March 1.—The session of the Grand Jury was brought to a close to-day by the examination of three witnesses in the case involving the shipment of machine guns to the Sinn Fein forces during the uprising in Ireland.

These witnesses were Adolph Carsten, Recorder of Hoboken, before whom complaints were made when the guns were seized aboard the steamer East Side at that port; Capt. William Eason, skipper of a tugboat in New York harbor, and William F. Gleason, formerly an internal revenue officer at the Barge Office, New York.

Mr. Gleason, it appears, innocently had given directions that helped the alleged conspirators to place about 500 machine guns aboard the East Side. Consideration of the case was deferred to allow the Government to get material

**SPORTS CLOTHING FOR YOUNG LADIES**

At select finishing schools, colleges, in town, at country houses and country clubs it is essential that the wardrobe of every young lady from 14 to 19 years shall be amply provided with tailored clothes for general, outdoor and sports wear.

Every young English woman has been expected for generations to be proficient at golf, tennis, trap-shooting, riding or some other out-door sport, and to provide the proper outfits there are in London a number of breeches makers and tailors who specialize in the creation of sports apparel for young ladies from 14 to 19 years.

From the leading tailors of this group we have secured their most approved models, which we have reproduced in the identical fabrics used abroad.
