HOMES COME FIRST IN HARD COAL PLAN

Hoover Admits, However, Some Householders Will Have to Use Bituminous.

LITTLE ANTHRACITE LEFT Strike Deficiency Can't Be Made Up and Shortage in Winter Is Certain.

Special Dispatch to THE NEW YORK HERALD. New York Herald Bureau, Washington, D. C., Aug. 17.

To assure equitable anthracite distribution for home use Secretary Hoover said that many industries and some householders probably will have to substitute bituminous coal for anthracite.

Government reports to-day indicated that there probably will not be enough anthracite coal to go around during the winter months. The long drawn out strike in the anthracite fields has caused reserve stocks of this class of fuel to dwindle almost to the vanishing point.

It is now figured by experts that even when the anthracite regions resume production the output cannot keep pace with the demand.

Reserves Vanishing. Reliable figures reported to the Geological Survey show that practically all of the stocks of anthracite above ground have been exhausted.

Government officials to-day recognized that a shortage of both anthracite and bituminous coal will approach during the winter season cannot now be prevented.

Secretary Hoover to-day said he is not prepared to say how the shortage of coal will affect the country, though he ventured the opinion that if the mines speed up to normal production within a few days the vital needs of the public and industry can be supplied through the operations of the machinery set up under the Federal Fuel Distributor.

State Aid Needed. Mr. Hoover said that it is not the intention of the Federal officials to take authority to purely intrastate coal business. He said the best legal opinion shows that the States have ample constitutional power to control their own borders, and to deal with matters relating to speculation in coal and the maintenance of excessive margins of profit on sales by retailers and wholesalers.

Coal price control legislation now being drafted by Administration leaders is not expected to arouse very strong opposition in Congress. Leaders of the House and Senate already have given assurance that as soon as the President's recommendation is made steps will be taken to expedite the passage of the measure.

City Will Buy Coal Now in the Open Market. Aldermen Authorize Purchase Without Letting.

Borough and city departments were authorized to buy \$1,250,000 worth of coal at a special meeting of the Board of Aldermen yesterday. This fuel may be bought in the open market without public letting up to the last day of the year whenever the coal shortage makes it necessary, according to the emergency resolution.

Gov. Miller was called upon to recommend to the special session of the legislature that the city charter be amended so the city can issue \$5,000,000 in special revenue bonds instead of \$2,000,000 as at present.

Householders will be able to get enough anthracite from week to week to get through if hard coal production is resumed in the next 10 days, according to Givran N. Snyder, transportation adviser in the War Fuel Administration for two months ago.

Grand Jury Ordered in HERRIN MASSACRE. Illinois Attorney-General to Present Evidence.

Marion, Ill., Aug. 17.—Circuit Judge Harwell to-day issued a summons for a special grand jury to investigate the HERRIN mine massacre.

RIOT BILL AIMS TO DEPORT ALIEN SHOPMEN

Pennsylvania Representative Proposes Investigation of All Disorders That Involve Industrial Strife to Get Rid of Foreign Offenders.

Special Dispatch to THE NEW YORK HERALD. New York Herald Bureau, Washington, D. C., Aug. 17.

Deportation of all aliens who take part in riotous gatherings in this country is authorized in a bill introduced in the House to-day by Representative Edmonds (Rep., Pa.).

The proposed law is aimed especially at those aliens who participate in or foment industrial strife. The Attorney-General would be directed to investigate all riotous gatherings and meetings at which the destruction of the United States Government is agitated.

Whenever an alien is found at such riotous meetings he shall be arrested by Federal agents under the provisions of the bill and, together with his wife and minor children, summarily deported and forever barred from the United States.

Persons to be deported if subject to imprisonment for crime, shall be deported after serving their prison terms, but their families, if they have any, shall be deported immediately.

An appropriation of \$500,000 is provided to make the suggested law effective. There is a strong feeling in Congress that much of the industrial unrest in this country is fostered and developed by alien agitators who have no sympathy with American Government.

Prisoner Surrenders and Then Escapes Again

L APORTE, Ind., Aug. 17.—Thomas Cooper of Williamsport, W. Va., can't make up his mind whether he wants to stay in jail.

He escaped from the Kentucky penitentiary a short time ago and began to travel. Upon his arrival in Laporle he became conversant with the Sheriff of German county that he wanted to go back and finish his sentence.

The Sheriff deposited him in the county jail pending the arrival of police from Kentucky.

Cooper changed his mind once more and last night escaped by cutting a hole through the jail wall. Police are searching for him.

HUGHES DEFENDS U. S. CABLE POLICIES

Negotiations Said to Promise Assurance Against Monopolistic Control.

Special Dispatch to THE NEW YORK HERALD. New York Herald Bureau, Washington, D. C., Aug. 17.

American policies regarding cables and the negotiations in progress with a view to giving the business of this country assurance against monopolistic control of communication facilities are working out to the entire satisfaction of the State Department.

This declaration was forthcoming from the State Department to-day in connection with a statement attributed to the president of the Western Union Telegraph Company, Newcomb Carlton, criticizing the department's method of handling negotiations.

Mr. Carlton stated that the department is doing everything possible to aid the Western Union and that delays occurred only when action by the Japanese government led to the perpetuation of monopolies.

Monopolies, so far as South America is concerned, are about to be eliminated, but the situation in the Pacific, particularly as regards China, is precisely the same as existed in South America prior to the recent negotiations whereby the Department is securing a waiver which will enable it to grant the Western Union permission to use up the British owned Western Telegraph Company.

The Western Union, it was learned, has applied for license to connect with the United States at Hankow, China. The application was not accompanied by any definite plan and stated neither where the landing was to take place nor with what company the Western Union wanted to make a junction.

Inasmuch as British and Danish companies claim a strong hold on Chinese cable rights, the State Department will not act until a waiver similar to that recently secured in the case of South America has been secured.

The application of the Western Union for a license to construct a cable from the United States to Germany by way of the Portuguese Government proposed landing of the German cable at the Azores. The license for operating the Miami-Barbados cable to South America will be granted as soon as the Portuguese Government has signified its acceptance of the "waiver" proposed by this Government.

ELECTION FUND BILL DRAFT AGREED UPON. Pomerene Expects Favorable Action on Measure.

Special Dispatch to THE NEW YORK HERALD. New York Herald Bureau, Washington, D. C., Aug. 17.

Senators Pomerene (Cal.), Walsh (Mont.) and Borah (Cal.), forming a subcommittee of the Committee on Privileges and Elections, agreed upon a tentative draft of a measure to limit campaign funds in the election of Senators this autumn.

MILLER SETS AUG. 28 FOR SESSION ON COAL

Will Call Legislature for Fuel Control Even if Strikes Are Settled.

HAS MEASURE PREPARED Says Public Need Not Fear Shortage, but Profiteering Must Be Checked.

Special Dispatch to THE NEW YORK HERALD. New York Herald Bureau, Albany, Aug. 17.

Gov. Miller will call the Legislature in extra session to act on the coal shortage emergency Monday, August 28. He definitely announced that date to-day, when he returned to Albany to confer with some of his advisers on the situation.

He has determined on an extra session, even though the coal and railroad strikes are settled in the next few days.

He believes that the loss of five months production of coal presents an emergency that will require greater power in "the administration of the distribution and price of anthracite coal this winter."

The Governor said he will present a definite program to the Legislature, including a bill carrying out his recommendations, which is now in course of preparation. It is expected that provision will be made for price regulation and that drastic penalties will be provided for profiteering.

Gov. Miller was asked if a maximum price would be fixed but said that he was not ready to discuss that question yet. His attention was called to the prediction of the Coal Dealers Association that price fixing would have a tendency to cut shipments of coal out of the State.

The Utmost Economy. "I am sure that the State of New York will receive its pro rata supply of the coal that is mined, based on the consumption of past years, and I am proceeding on that assumption," he replied.

"I would that be taken care of by the Federal Congress."

"Jurisdiction of the State of New York does not extend into the anthracite coal fields. The best we can do is to try to get our share and hope that it is so proportioned that everybody in the State gets his share."

The Governor said he did not believe that it would be necessary at any time for public schools or public utilities or industries to suspend because of the coal shortage, but that the utmost economy would have to be resorted to.

"I would not believe that if the coal and railroad strikes were ended in a few days by the conference now going on?"

The resumption of mining to-morrow would not remove the emergency. There is bound to be such a shortage of anthracite fuel this winter as to suspend the operation of the ordinary law of supply and demand."

The Governor said that while he had decided to call the Legislature in extra session on August 28 he is waiting developments both in respect to the strike situation and the plans of the Federal Government before issuing the formal call.

To Fit U. S. Plan. He said coal cannot be distributed until it is mined. "I have delayed somewhat in calling the Legislature in session," he added, "so that when I do call them I can have all the knowledge it is possible to have and know precisely what we wish to do, so as to fit our work in with whatever plan is decided upon by the Federal Government, as the two must match. The emergency committee that was appointed to formulate a plan for the coal shortage and the care of the situation. There is no anthracite coal to distribute at the moment, only in very limited quantities."

BIELASKI AND WIFE ON WAY TO NEW YORK. Principal in Mexican Kidnaping Departs for Home.

Special Dispatch to THE NEW YORK HERALD. MEXICO CITY, Aug. 17.—A Bruno Bielski of New York city, who was kidnaped recently by Mexican bandits near Orenovaca and escaped, departed to-night by way of Brownsville for Washington and New York. He was accompanied by Mrs. Bielski.

On the kidnapping Mr. Bielski was completely exonerated by Judge Roberto Quiroz of the charge of seduction. Bielski's attorney the ex-man of the kidnaping had testified.

GABRIELE D'ANNUNZIO'S EYESIGHT SAVED. Skull Fractured on Rig's Side but Left Eye Affected.

GARDONE RIVIERA, Italy, Aug. 17.—All of Gabriele D'Annunzio's admirers were greatly relieved to-day when Prof. Clinecione announced that his eyesight was safe. After immediate danger was passed fear was entertained that even if he recovered he might lose the use of his left eye.

Although the skull was fractured on the right side when D'Annunzio fell from a balcony at his villa the left eye shows diffuse ecchymosis, proving extravasation of blood into the tissue.

TWO DIVERS BADLY HURT. NEW HAVEN, Conn., Aug. 17.—William O'Donnell, aged 27, of the New Haven Hospital with a fracture of the neck as the result of a dive in shallow water at Savin Rock. Frank Kane suffered a fracture of the spine in a similar manner a few hours earlier.

LIMITED quantities of robes that have proven our most successful models, during the past few months are offered at such a radical reduction that all sales must be considered as final—not subject to return and none sent C.O.D. We cannot fill mail orders. In this collection all are reduced to 5.00!

COURT SCORES METHODS OF NEW HAVEN STRIKERS

Says Intimidation Practiced Is Inconceivable.

NORWALK, Conn., Aug. 17.—Following a scathing arraignment of the alleged methods employed by striking shipmen, many of which he said were unconscionable "in a State that prides itself upon its law and order," Judge Edwin S. Thomas of the United States District Court in a hearing yesterday granted a temporary injunction to the New York, New Haven and Hartford Railroad Company joining all persons from interfering with the property, business and employees of the company.

In granting the injunction Judge Thomas quoted from some of the 100 affidavits submitted by the company and said that he had been astonished at their contents. In speaking of the charges of intimidation, violence and threats made in the affidavits he said:

"It is inconceivable that such things should be allowed to exist. These acts are deserving of the most intense condemnation.

"These men assemble not alone but in groups and lines, and they are men. This is an indication of cowardice. Fearful persuasion is always permissible, but strikers or other persons have no right to intimidate by assault, nasty or vulgar language or by insulting women, the wives of men who want to work. Any man has a right to go to work, and the striker has a right to stay away if he feels like it. No one is forcing him to go to work."

DYNAMITE SET OFF AT RAILWAY BRIDGE

Freight Train Escapes Disaster Near Olean, N. Y.

OLEAN, N. Y., Aug. 17.—That two attempts have been made to wreck Pennsylvania freight trains near here within forty-eight hours was charged in police court to-day by Allen J. Hastings, counsel for the railroad. He declared that an attempt was made to dynamite the Haskell bridge near Olean Tuesday night and that a switch just outside the town plugged in might have blown up a train. The dynamite exploded when the train went over, but did no damage. The plugged switch was detected when the slow moving train struck it, with no derailment.

WATERGOSSET, Ga., Aug. 17.—A machine gun detachment was on duty at the Atlantic Coast Line shops here to-day following two explosions and the firing of more than fifty shots into the place last night. No one was injured, but bullet holes in the fence surrounding the shops and in the walls inside the enclosure evidenced the severity of the attack.

SALISBURY, N. C., Aug. 17.—Gov. Morley, who came to Salisbury to-day to investigate the situation at the Southern Railway shops here and at Spencer as a result of disorders early this week, announced that he would lead a detachment of State troops to Spencer at present. Sheriff Kridler last night asked for such protection.

TAMPA, Fla., Aug. 17.—An alleged attempt to blow up the sleeping quarters of employees of the shops of the Atlantic Coast Line Railroad at Port Tampa last night prompted Sheriff Spencer to-day to announce that he would ask Gov. Hardee for State troops to protect the property of the railroad should any further depredations be attempted.

YORK BEACH, Me., Aug. 17.—Persons who entered the Boston and Maine roundhouse here last night damaged the locomotive and air brakes of the train which remains here each night.

BOSTON, Aug. 17.—The management of the Boston and Maine Railroad declared to-day that several air hoses on a small and express train leaving Portsmouth, N. H., this morning had been cut. Those on two passenger trains out of that city also were severed. Officials said that a log had been found across the track at 4 A. M.

SANTA FE TRAINS MOVING IN WEST No Further Delays Are Expected by Officials.

ALBUQUERQUE, N. M., Aug. 17.—Santa Fe officials this afternoon announced that all trains tied up here were being moved and that there would be no further delays. They said advice from Gallup reported the troubles there had been settled and trains were moving West, manned by regular crews.

SAN FRANCISCO, Aug. 17.—All Western Pacific Railroad Company trains that had been annulled on account of the strike of train crews at Oakland, Stockton and Croville were resumed to-day as a result of the settlement of the strike yesterday. The first overland train to be operated since last Friday got away at the regular time.

NEW HAVEN MEN GET BAISE. NEW HAVEN, Conn., Aug. 17.—An increase of 5 cents an hour for trackmen employed on the New York, New Haven and Hartford Railroad went into effect to-day.

FOUND NOTHING. If an eye it is advertised in the Lost and Found Columns of to-day's New York Herald.

ILLINOIS Attorney-General to Present Evidence.

MARION, Ill., Aug. 17.—Circuit Judge Harwell to-day issued a summons for a special grand jury to investigate the HERRIN mine massacre.

The grand jury is called at the request of Attorney General Brundage and will convene in Marion on August 28. The grand jury summons will be served by a special deputy instead of Sheriff Melvin Chaston. The sheriff is a member of the mine union.

Attorney General Brundage states that he will be here, if possible, but if not will send his ablest assistant to help States Attorney Purdy present the evidence to the grand jury.
