

STINNES WINS FIGHT WITH CHANCELLOR

Forces Wirth to Accept His Program to Settle Reparations.

AN INDUSTRIAL GAIN Manufacturers' Program Was Opposition to Control by Berlin Government.

ALTERNATIVE RUHR LOSS Victory Leaves Way Open for Private Business to Satisfy Claims.

Hugo Stinnes' victory over the Wirth Cabinet relative to reparations ended a long conflict between the Chancellor and the big industrialists.

Stinnes' hostility toward Chancellor Wirth was not so much a personal matter as opposition to the Government's efforts to control and regulate German business.

After Dr. Wirth failed to make good his promise to the Reparations Commission, Stinnes and the manufacturers intervened with a program leaving a wide range for private initiative.

Now the Industrial People's Party probably will enter the cabinet provided the socialist members abandoned and labor with German industry dominating.

One factor that will have a strong influence on any reconstruction of the Government is the expected reunion of the two socialist parties which have been in the field as separate organizations since 1915.

But now the two factions have come to realize that by combining they can be the strongest party in Germany with no less than 181 seats in the Reichstag.

In such an event it would mean that all other parties in Germany would have to combine in order to present a stronger front than the Socialists.

After his descent De Muxter's balloon broke loose again and it was not until a committee investigated the circumstances and consulted his instruments that the decision was rendered.

Brazil Flags Fly Here in To-day's Centenary

THE flag of Brazil will fly today over many of the hotels in this city to mark the centenary of Brazilian independence from Portugal.

BRAZIL WELCOMES SECRETARY HUGHES

President Pessoa Receives Envoys of 33 Nations to Centennial.

Rio Janeiro, Sept. 6 (Associated Press).—Secretary of State Charles E. Hughes and the other members of the United States mission to Brazil, who landed here yesterday afternoon, were among the special Ambassadors, envoys and delegates of thirty-three nations to the Brazilian Centennial who were received this afternoon by President Pessoa.

The Secretary's program includes attendance at the opening of the exposition on Thursday and two dinners, to be given by President Pessoa and the Brazilian Government to Mr. Hughes and the special Ambassadors of the other countries.

The exposition, the inauguration of which will take place tomorrow, is far from being ready. Of the thirteen nations which will have exhibition buildings only that of Japan is finished and filled with exhibits.

The United States Building for private exhibits will not be opened until December 4, so that its capacity can be doubled.

AMERICAN AVIATORS ON WAY TO BRAZIL

Descend in Nipe Bay to Get Weather Reports.

ANTILLA, Province of Oriente, Cuba, Sept. 6 (Associated Press).—The American seaplane Sampaio Correia, bound from Pernambuco for Rio Janeiro, came down in Nipe Bay, on the north coast of Cuba, near the eastern end of the island, after a flight from Calbarien, Province of Santa Clara, Cuba, 250 miles to the west.

Buenos Aires, Sept. 6.—The Argentine aviator Fels in the airplane Mitre, which is flying from Buenos Aires to Rio Janeiro, flew to-day from Pelotas, Uruguay, to Florianopolis, Brazil.

The Chilean aviator Capt. Aracena, who also is bound for Rio Janeiro from Santiago, Chile, flew to-day from Buenos Aires to Montevideo, Uruguay.

BELGIAN WINNER OF BALLOON RACE

Lieut. de Muxter Gets Cup; Capt. Honeywell Second.

GENEVA, Sept. 6 (Associated Press).—Lieut. Ernest de Muxter of Belgium was today officially declared the winner of the recent international balloon race for the James Gordon Bennett cup.

After his descent De Muxter's balloon broke loose again and it was not until a committee investigated the circumstances and consulted his instruments that the decision was rendered.

FRENCH APPROVE STINNES PROPOSAL

Give Full Support to Plan for Furnishing Building Material.

SAVING BY BOTH SIDES Germans Get Commission and French Purchasers Gain in Time.

MAY EXCHANGE COAL DUE Paris Government Not Directly Concerned, but Makes Certain Conditions.

The biggest step in a practical solution of the Franco-German reparations dispute was taken to-day when the French Ministry for the Liberated Regions decided to give its full support to Marquis de Lubersac's recent accord with Hugo Stinnes for furnishing millions of francs in building material.

The agreement is extended to include the several devastated regions in France, but the Ministry believes that Stinnes's 5 per cent. commission, to be included in the contract, means a saving for French purchasers.

Instead of their being obliged to visit Germany individually in their quest for cheaper material, Stinnes, as the middleman, has come forward with a plan which enables orders to be filled promptly regardless of volume.

"In fact, so interested are we in carrying out this new practical application of the Wiesbaden accord that we are considering even consenting to sell to French companies dealing with Stinnes or any other German commissionaires large quantities of German coal at the prices prevailing at the German mines," a high official of the Ministry told The New York Herald correspondent at the close of the meeting in which the details of M. de Lubersac's agreement were carefully studied and approved with only minor changes.

French companies by reselling this coal at the same price to Stinnes will overcome German objections," he continued, "as the transport charges alone will represent a great saving for the German Government."

"We are convinced that there is no attempt by either M. de Lubersac or Herr Stinnes to obtain a monopoly on reparations payments in materials for any group of war victims will be authorized to subscribe to a parallel accord with any group of wholesalers in any part of Germany."

M. de Lubersac is now preparing the first list of orders to be forwarded to Stinnes, and it is expected to total at least 10,000,000 francs in tile, brick, stucco, cement and limestone, which French dealers find it difficult to obtain.

Incident with the approval of M. de Lubersac's effort, the German Government forwarded to M. Reibel to-day its first check for payment for machinery to be furnished the individual purchaser under the Wiesbaden agreement, negotiations having been concluded in less than three weeks.

PARIS, Sept. 6 (Associated Press).—"The Stinnes-Lubersac agreement is purely an arrangement between a group of war sufferers and certain German merchants for direct dealings, and the French Government is not called upon either to approve or disapprove of such an arrangement," said M. Reibel, Minister of Liberated Regions, to-night.

"Nevertheless," M. Reibel added, "the Government felt that it could not remain indifferent to the question of the return of coal."

Germany's Mark Record; 23,000,000,000 in Week

GERMANY last week printed 23,000,000,000 marks and has mobilized sufficient presses to print a minimum of 3,000,000,000 a day henceforth if required.

The negotiations between the Belgian delegates and the German Government on reparations took positive form this evening in a proposal by the latter that the payment this year consist of 250,000,000 marks gold, divided as follows: One hundred million in six months' German treasury bonds, 100,000,000 which the British Government has agreed to furnish to Germany, and 50,000,000 from the Reichsbank.

The conference between Messrs. Bebelmann and Delacroix representing Belgium, and Herr von Haniel of the Foreign Office got under way immediately after they had met at luncheon to-day.

Director Havenstein of the Reichsbank fought bitterly against the release of any part of the last millions of gold marks reserve which the bank still holds. He brought forward the argument that the Reichsbank was now a private company by virtue of the Allies' own decision.

The leading banks also have refused to endorse the Government's notes to the Allies. But the Reichsbank's objections were overruled, and officials believe that the proposal to furnish 250,000,000 gold marks constitutes a likely basis for an understanding with Belgium, whose representatives are negotiating independently of the Reparations Commission, as that nation has priority in all settlements by Germany.

MAY SHIFT REPARATIONS TO LEAGUE SHOULDERS

Lloyd George and Poincare Expected at Geneva.

GENEVA, Sept. 6 (Associated Press).—The expectation that Lord Robert Cecil would talk on the economic situation in central Europe, including the reparations question, was not fulfilled to-day's session of the assembly of the League of Nations. His failure to do so is said to-night to have been due to the fact that Premier Lloyd George is coming to Geneva.

In French circles it is understood that should Mr. Lloyd George come to Geneva Premier Poincare will also come and that the Premier would not oppose very strenuously a British proposal that the reparations question as a whole be referred to the League of Nations and taken out of the hands of the Reparations Commission.

Lord Robert Cecil spoke of the league taking up Austria's condition and said there was expert opinion to the effect that Germany would soon be in the same situation as Austria.

Lord Robert was not confident that a reduction in armaments was possible in the near future. If material disarmament was impossible now it was nevertheless possible to obtain what he called "moral disarmament."

The assembly elected as its six Vice-Presidents the Earl of Balfour, England; Gabriel Hanotaux, France; Senhor Gomez, Portugal; Hjalmar Branting, Sweden; Amalio Gimeno y Cabanas, Spain, and Dr. Montehello Ninichich, Yugoslavia.

PARIS, Sept. 6 (Associated Press).—"The first check to be paid by the German Government direct to one of the war sufferers in the devastated areas under the terms of the Wiesbaden and Franco-German accords was received by the Ministry of Liberated Regions to-day. It covers the amount of the first order for building material sent to one of the German firms designated to make deliveries of merchandise to Frenchmen in occupied territory whose homes or property was destroyed during the German invasion.

It is anticipated that thousands of orders for materials soon will be filed under the terms of the understanding and that the rebuilding of homes and commercial buildings destroyed during the period of German occupation will be greatly accelerated.

GERMANY SETTLING BELGIAN PAYMENTS

Proposes to Give 250,000,000 Gold Marks This Year, Cash and Notes.

Special Cable to THE NEW YORK HERALD, Copyright, 1922, by THE NEW YORK HERALD. New York Herald Bureau, Berlin, Sept. 6.

The negotiations between the Belgian delegates and the German Government on reparations took positive form this evening in a proposal by the latter that the payment this year consist of 250,000,000 marks gold, divided as follows: One hundred million in six months' German treasury bonds, 100,000,000 which the British Government has agreed to furnish to Germany, and 50,000,000 from the Reichsbank.

The conference between Messrs. Bebelmann and Delacroix representing Belgium, and Herr von Haniel of the Foreign Office got under way immediately after they had met at luncheon to-day.

Director Havenstein of the Reichsbank fought bitterly against the release of any part of the last millions of gold marks reserve which the bank still holds. He brought forward the argument that the Reichsbank was now a private company by virtue of the Allies' own decision.

The leading banks also have refused to endorse the Government's notes to the Allies. But the Reichsbank's objections were overruled, and officials believe that the proposal to furnish 250,000,000 gold marks constitutes a likely basis for an understanding with Belgium, whose representatives are negotiating independently of the Reparations Commission, as that nation has priority in all settlements by Germany.

MME. SEMBAT A SUICIDE AFTER HUSBAND'S DEATH

Socialist's Fortune Reverts to Government He Fought.

CHAMONIX, France, Sept. 6 (Associated Press).—Mme. Marcel Sembat committed suicide here to-day, following the sudden death yesterday of her husband, the millionaire Socialist Deputy for Montmartre and former Minister of Public Works. M. Sembat was appointed Minister of Public Works in 1914, shortly after the outbreak of the war, and served as such in the Cabinets of Viviani and Briand. He was a large employer of labor, but nevertheless was a strong supporter of the Socialist movement.

Mme. Sembat committed suicide by shooting. "It is twelve hours now since he went," she wrote Mme. Sembat before firing a bullet into her throat.

LONDON, Sept. 6.—A group of London bankers has agreed to offer Austria a loan of between £20,000,000 and £30,000,000, according to the Daily Express. The loan, which would require the approval of the Reparations Commission, would be secured by Austria's import revenues and would be granted only on condition that Austria be given a moratorium of five years on her war indemnity payments.

WASHINGTON, Sept. 6.—Impressed by the gravity of the Austrian financial crisis, the Italian Government has taken steps to extend monetary assistance in advance of the other Powers which are said to be considering similar action.

SEIPEL SAYS AUSTRIA MAY SEEK ALLIANCE

Chancellor Tells League She Will Not Sacrifice Her Sovereignty.

GENEVA, Sept. 6 (Associated Press).—Chancellor Seipel Austria warned the Council of the League of Nations to-day that Austria would take measures to break the economic ties around her unless the league was able to do something for her. Austria, he declared, was ready to accept such control of her finances as would not affect her sovereignty, but rather than sacrifice her sovereignty she might prefer to merge herself into a larger economic entity. This assertion was regarded by some as an appeal for permission to unite with Germany.

The council appointed a committee of members of the interested States, which will begin to-morrow a study of the Austrian question.

That French and British capital, just as all arrangements were completed by the Austrian bank of issue to prevent further depreciation of Austrian currency, compromised the situation and prevented the Austrians themselves from extricating their country from its financial difficulties, was the charge made by Chancellor Seipel. He said:

"The former Austrian banks, which and now controlled by French and British capital, caused difficulties for our country. They confused our efforts to save ourselves by our own means on the question of obtaining for Austria some foreign credits. This act obliged us to appeal to the London conference and that body sent us to the League of Nations."

"How can Austria buy coal, sugar, wheat and articles which are absolutely necessary to sustain life? These commodities are now on the market and the Allies are generously providing them, but no Austrian can find enough money to buy them."

Chancellor Seipel said that in Austria a shirt which cost six crowns before the war now costs 200,000 crowns. Taxes were raised, he asserted, but not fast enough to keep up with the depreciation.

LONDON, Sept. 6.—A group of London bankers has agreed to offer Austria a loan of between £20,000,000 and £30,000,000, according to the Daily Express. The loan, which would require the approval of the Reparations Commission, would be secured by Austria's import revenues and would be granted only on condition that Austria be given a moratorium of five years on her war indemnity payments.

WASHINGTON, Sept. 6.—Impressed by the gravity of the Austrian financial crisis, the Italian Government has taken steps to extend monetary assistance in advance of the other Powers which are said to be considering similar action.

France to Eat Less Bread, Wheat Crop Third Off

PARIS, Sept. 6.—The Minister of Agriculture has warned the people that it is imperative that France should eat no more wheat than this country is able to produce, with exchange so much against her.

PARIS, Sept. 6.—The Minister of Agriculture has warned the people that it is imperative that France should eat no more wheat than this country is able to produce, with exchange so much against her. Louis Michael, known in France as the wheat king, informed a gathering of agriculturists that the crop this year was only three-sevenths of that of last year in the Department of Meurthe-et-Moselle. Other departments had done better, but the national production of wheat, generally was only two-thirds of the production a year ago.

MYSTERY IN KILLING OF YOUNG PARIS GIRL

Shot Dead While Walking With Fiance on River Bank.

Special Cable to THE NEW YORK HERALD, Copyright, 1922, by THE NEW YORK HERALD. New York Herald Bureau, Paris, Sept. 6.

The killing of Suzanne Freon, a young Parisian typist, near the village of Nogent-le-Rotrou six months ago, is still puzzling the police.

Mlle. Freon was walking along the edge of the Marne with Eugene Denoual, her fiance, when according to Denoual there was a volley of shots from a clump of bushes near by and the girl fell dead. Her companion was wounded in the shoulder.

The young man has been in jail for five months on account of discrepancies in his story, but was released when detectives testified that he could not have fired the fatal shots.

Eighty-six Cement Manufacturers Unite to Serve You

The Portland Cement Association means this: that valuable scientific, advisory and educational work which no one cement manufacturer could reasonably undertake alone is at your disposal. This means that you can be absolutely sure of yourself in using Concrete.

You can be sure in the first place of the cement you buy. Any manufacturer of Portland cement may join the Association, and no manufacturer has to belong to it. But Association By-Laws require that members' products shall measure up to the high standard of specifications of the United States Government and the American Society for Testing Materials. Cement bought from a member of the Association is therefore dependable.

You can be equally sure of the way to use it. If you want information about its usefulness under certain conditions, or about how to mix it or place it to get the best results most economically, you can get it from any one of our 24 offices, one of which is near you.

Supplying dependable information without charge, by booklet, or by personal correspondence or by conference when necessary, is the work of the Association. To supply it authoritatively, the Association maintains a large research laboratory and a staff of more than two hundred engineers.

The Association is, in effect, the joint research and educational foundation of 86 manufacturers of cement in the United States, Canada, Mexico, Cuba and South America. You are invited to use it freely. Suggestions as to how our work may be made more useful to you are invited.
