LONDON FEARS TROUBLE OVER GREEKS IN THRACE

Sees Difficult Problem Facing Allied Diplomacy.

LONDON, Sept. 24 (Associated Press).—The agreement of the Allies on the political side of the Near Eastern problem leaves the general situation much clearer and transfers the interest to the Dardanelles.

Two of the greatest difficulties presenting themselves at the present moment appear to be, first, that the Kemalists while disposed to accept the allied invitation to a conference, are likely to insist that Russia also shall be invited to sit in this conference, and, second, that they are not disposed to suspend hostilities during the conference, but, on the contrary, maintain their right to pursue the defeated Greeks into Thrace and protect the Moslems there from possible Greek reprisals.

With regard to the former condition it is pointed out that the Kemalists are bound by treaty with the Soviet to insist upon the presence of Russia in the conference. It is therefore evident that this question and the question of getting the Greeks out of Thrace still present difficult problems for allied diplomacy.

Soviet Planes Drop Warnings Also in Spassk, Near Vladivostok.

VLADIVOSTOK, Sept. 14 (Associated Press).—The population of Spassk is fleeing as a result of hostilities between Soviet and anti-Soviet forces. Three airplanes attached to the white forces are active in opposing the Soviet aviators, who, besides dropping bombs, scatter a number of proclamations declaring that if the White soldiers did not cease their opposition and join the Reds by October 15 they would be punished.

It has been expected that fighting between the Soviet and anti-Soviet forces would follow the withdrawal of Japanese troops from eastern Siberia. The Japanese withdrawal was promised by Japan by October 1, in execution of pledges given at the Washington arms conference.

DRYS INSIST ON DRY SHIPS FOR SUBSIDY

Begin Getting Pledges From Congressmen to End Liquor Traffic at Sea.

ATTACK FEDERAL BOARD

Prohibitionists Will Fight Harding Measure Unless It Bars Liquor Sales.

Special Dispatch to THE NEW YORK HERALD. Washington, D. C., Sept. 24.—The prohibitionists of the Anti-Saloon League and similar organizations have begun to obtain commitments from Senate and House members for legislation forbidding sale of intoxicating liquor aboard American ships.

The issue is being agitated anew in all Congressional districts in the hope that pledges may be obtained from members of Congress for such legislation when the ship subsidy question comes up at the extraordinary session of Congress November 15.

When the facts became known early last June that ships flying the American flag maintained bars, the only way Senators and Representatives could be approached was in Washington by the lobbyists of the prohibition organizations. Now it is the dry program to reach them at home.

The Board of Temperance, Prohibition and Public Morals of the Methodist Episcopal Church, with headquarters in Washington, is helping in the campaign and the weekly "clip sheet" of the organization contains an editorial headed "An Open Sore," which says: "If alcoholic liquor is still being sold on shipping board vessels as is commonly reported, the fact constitutes an open sore which should receive the immediate attention of the American people.

"The President should personally intervene and stop it as he could do so with the stroke of his pen. The contention that there is any doubt as to the meaning of the law is nothing but a cynical ruse. Either these ships are American territory or they are not. If they are not American territory, what territory are they?"

"To ask for a subsidy for these saloons is naive indeed. It is effrontery. It is insult added to injury. The Shipping Board has been out of sympathy with the American people on this question since the beginning. Certainly no efficiency would be lost by reconstituting the good men of the Board have had their hands tied. It has thrown away money by the hundreds of millions, practically giving away property paid for by the taxes of hard working American citizens. It should be shot to pieces now."

The programme of the dry organizations calls for fighting the President's ship subsidy measure unless it contains a provision that none of the ships to be provided shall sell intoxicants. This has been one of the reasons the measure has not passed Congress before but the issue will flare up again when the Administration throws its full weight behind the subsidy bill after election.
