**BUSINESS MEN WANT PASSPORT ABOLISHED**  
Section of International Chamber Calls for Action by Government.  
**OUTLINES ITS POLICIES**  
Proposes Money Stabilization and Trade as Questions for March Meeting.  
**RUSSIA ALSO PROBLEM**  
Meeting at Which A. C. Bedford Presides Lays Plans to Elect American at Rome.

The American section of the International Chamber of Commerce, meeting yesterday in the rooms of the Merchants Association in the Woolworth Building, with A. C. Bedford, vice-president of the International Chamber, as chairman, adopted resolutions urging the United States Government to take steps to obtain the simplification of the passport system throughout the world.

A committee was named to direct this work, with E. C. Miner, president of the Frazier Company of Rochester, as chairman.

The section also authorized Mr. Bedford and Julius H. Barnes, president of the United States Chamber of Commerce, to select a committee of seven to nominate an American as a candidate for the presidency of the International Chamber of Commerce at the meeting in Rome next March.

It was decided that American business men should put forward, as one of the subjects to be considered at Rome, the economic rehabilitation of and trade with Russia. Four other questions proposed for consideration at Rome were:

- "Essential conditions requisite for the stabilization of currencies.
- "Financial measures necessary for the restoration of international trade.
- "Restrictions on export and import trade.
- "Land and sea transportation."

**Resolutions on Passports.**  
The resolutions on the simplification of passports said:

"Resolved, That the American National Committee call upon the United States Government to take immediate steps through international agreement, so far as is compatible with public safety, to bring about arrangements so that—

- (1) Our citizens can enter most countries without a passport, our Government granting a reciprocal privilege to nationals of such countries;
- (2) If passports are still necessary in connection with travel between the United States and other countries views on those passports will be discontinued;
- (3) If visas and passports must be retained for a few countries all pro-

cedure in connection therewith be materially simplified;

"(4) All passport fees be reduced to cover the actual cost of the service; and be it further

"Resolved, That the American National Committee urge the Council of the International Chamber to call upon the various national committees to make representations to their respective governments, requesting the abolition, in mutual agreement with other nations, of unnecessary passport and visa requirements; and be it further

"Resolved, That a copy of these resolutions be transmitted to the Chamber of Commerce of the United States with an expression of willingness on the part of the American National Committee to cooperate with the chamber in efforts to induce the United States Government to take the initiative in bringing about the desired reforms."

**Section Members Attending.**  
Among the members of the American section at the meeting were:

George P. Blow, Willis H. Booth, Maurice Coster, O. K. Davis, John H. Fahey, Edward A. Filens, Elliott H. Goodwin, E. M. Herr, Edward N. Hurley, Noble F. Hogson, Herbert S. Houston, Harry A. Wheeler.

Also Frederick P. Keppel, Ivy L. Lee, Austin McLannahan, S. Cristy Mead, William Fellowes Morgan, Edwin B. Parker, Lewis E. Pierson, John J. Raskob, H. H. Raymond, William C. Goddard, Henry M. Robinson and Owen D. Young.

**BANK PARTY OF 6,000 INSPECTS WEST POINT**  
**Presents Bankers Trophy and Sees Cadet Review.**  
More than 6,000 bankers and their wives went to West Point yesterday for the last important social event of the forty-eighth annual convention of the American Bankers Association. Two boats, the Washington Irving and the Sandy Hook, left West Forty-second street at 10 o'clock in the morning and a special train left Grand Central Terminal with the overflow crowd.

Bands played on each boat and a buffet lunch also was served. At West Point the party visited the Military Academy and witnessed a special dress parade which had been ordered for their benefit by Secretary Weeks. The cadets also went through cavalry, infantry and artillery drills. Those who wished to visit with individual cadets were permitted to do so. At the end of the drill the academy received the bankers' trophy, to be used as a permanent prize for the company that excels in intercompany athletics.

The reception committee at West Point included Brig-Gen. Frederick W. Stodan, Col. R. C. Danford, Col. C. C. Carter, Col. Charles P. Echols, Col. W. Robinson, Col. L. Holt, Col. De Witt Wilcox, Major Edward Lewis and Major Robert L. Neyland. On the committee of bankers that had charge of the trip were Edwin A. Fish, Walter H. Bennett, Henry A. Patten and P. T. Walker.

The executive council of the American Bankers' Association had a meeting on board the Washington Irving on the trip. Percy S. Johnston of the Chemical National Bank and George Woodruff of Chicago were reappointed members. New members include Seward Prosser of the Bankers Trust Company, Rome; Stephenson of South Bend, Ind., and E. O. Howard of Salt Lake City.

**SNOW AND RAIN PUT OUT FIRES IN MAINE**  
BANGOR, Me., Oct. 6.—Unlooked for aid in fighting the forest fires in the northern part of the State came to-day in a light fall of snow in several sections.

Rain is reported to have fallen in districts where there have been fires, and the situation is greatly improved. The Great Northern Paper Company reports that all the fires on its lands are either out or under control.

A new fire has started in the vicinity of Scragsly Brook, near Shih Pond, but this has not yet reached serious proportions.

**TO QUIZ MRS. HALL AND MILLS TO-DAY**  
Continued from First Page.  
or had other reasons for his action is not yet known.

Phillips, the watchman, in his examination to-day told again of seeing a woman alone, and dressed in a long coat of light color, enter the Hall home on the morning after the disappearance. He said he saw the woman some distance away, coming toward the Hall's side gate. He would not positively identify the woman as Mrs. Hall, but he was positive the woman he saw was alone. He saw no man about anywhere.

In addition, the prosecutors examined Mrs. Mary Vogt. She is the woman who says she saw two cars going at a high rate of speed along Easton avenue in the neighborhood of the Phillips Farm on the night of the murder. Her reexamination is significant because since the beginning of the inquiry great interest has been shown by the detectives in a green motor car. In the theory they have built the detectives regard as of highest importance the two cars, one of which was green.

**Parish Members Questioned.**  
Instead of bringing the members of the congregation to the court house, a house-to-house visiting program has been carried out by the members of the church and the State troopers. From the stories heard thus it appears that for two years many of those connected with the church had been noted, and with some disapproval, the marked friendship between the rector and Mrs. Mills. One church member asserted he had been in New York the last year and that "I saw them in a crowd at Broadway and Forty-second street. Dr. Hall and Mrs. Mills. They were walking alone, arm in arm, like bride and bridegroom, with eyes for nobody except themselves. No, I didn't speak to them. I was so astonished and shocked that I was fairly rooted to the sidewalk. Later, on my return, I spoke to the vestry about it and there were ructions for a while, but it was smoothed over and I was made to feel that I had done wrong in saying anything about it."

A former member of the vestry told the detectives "we had known about this for two years. On the Friday evening before we had met for choir practice, which was always attended by the rector and Mrs. Mills. They were not present and one of those there said, sarcastically: 'I suppose they are in New York purchasing Christmas music again.'"

Charlotte Mills, the sexton's daughter, has been a valiant defender of her mother, but has never denied the correspondence between her mother and Hall. She has told friends, however, that she did not know the two were meeting clandestinely until a boy in her class at school asked her some time ago: "What are your mother and Dr. Hill doing so often together up in the Sixth Ward?"

The Sixth Ward is that part of New

**Water Famine Menaces Resorts Near Cape May**  
Special Dispatch to THE NEW YORK HERALD.  
CAPE MAY, Oct. 6.—Richard Reeves, head of the Cape May Vocational Training School, said here to-day that unless rain falls in Cape May county within the next forty-eight hours the potato crop will be almost a failure, causing a loss of thousands of dollars.

Tomatoes and lettuce are dying, and potatoes in the ground literally are burning up. No rain had fallen for six weeks. Lakes, streams and ponds are almost dried up and sea-shore resorts fear a water famine. It is understood that William Steele, Game Warden, of Cape May Court House, will ask Gov. Edwards to issue a proclamation to gunners, when the game season opens, to keep out of the woods until after a drenching rain.

Brunswick in which lies Bueclough Park, beyond which is the Phillips Farm. Bueclough Park at night is like most public parks, including Central Park and Prospect Park, a resort for lovers seeking shaded nooks.

Mrs. Mills' letters contain, too, to throw light on the real attitude of the nation against national banks in States where State banks are allowed to have branches and competition therefore is keen. He does not feel that Congress would favor any policy that would strangle the national system.

The Comptroller of the Currency has enabling powers and discretion on whether national banks may establish branches. Only Congress can rule otherwise.

**MOSCOW GREETED TCHITCHERIN.**  
Foreign Minister Returns After Six Months.  
Moscow, Oct. 6 (Associated Press).—A crowd of diplomats, civilians and soldiers greeted Foreign Minister Tchitcherin at the station to-day on his arrival here after a six months' absence abroad. During his stay outside of Russia the Soviet Foreign Minister represented his country at the Genoa conference and later carried on negotiations with other countries.

Soldiers were present with brass bands to honor the Foreign Office chief. He had long ago been elected an honorary member of the Red army as a private.

**HELD AS NEWARK THIEF.**  
James Lang of 340 East Eighteenth street, wanted in Newark for assault and robbery, was arrested at Broadway and Forty-sixth street last night by detectives of the pickpocket squad. He is charged with entering the home of Mrs. Hattie Hattick of 806 South Twelfth street, Newark, with two other men on May 26, 1920. Mrs. Hattick was beaten and tied and the thieves stole \$1,750 worth of jewelry.

can be." This was on the day before the bodies were found.

Col. Swartzkopf, superintendent of the State police, conferred with the prosecutors for a long time this afternoon. This is the second conference the two have had this week. Swartzkopf is really the clearing house for all the information the troopers are gathering, and they are busy in several parts of the State on the case. The force here has been increased from three to six men.

**HARDING INDORSES NATIONAL BRANCHES**  
Recognizes Great Competition by State Banks.  
Special Dispatch to THE NEW YORK HERALD.  
New York Herald Bureau, Washington, D. C., Oct. 6.  
President Harding, it was declared in his behalf to-day, is in favor of permitting national banks to establish branches and believes that the Comptroller of the Currency, Mr. Crissinger, is acting wisely in permitting such extension.

The view of the President was set forth by way of comment on the fight in the bankers' convention at New York, where branches were opposed for all banks.

The President supports the Comptroller of the Currency because he believes that otherwise there would be discrimination against national banks in States where State banks are allowed to have branches and competition therefore is keen. He does not feel that Congress would favor any policy that would strangle the national system.

The Comptroller of the Currency has enabling powers and discretion on whether national banks may establish branches. Only Congress can rule otherwise.

**Baker's Cocoa**  
is the ideal drink for growing children  
Not only does its delicious flavor and aroma appeal to the palate but it supplies the body with a considerable amount of pure, wholesome and nutritious food.

Children, owing to their almost ceaseless activity, frequently require as large an amount of nourishment as adults, and good cocoa is a valuable aid in the carefully arranged diet. But its quality must be good and no cocoa can quite so well meet the requirements of dietitian, physician, nurse or housekeeper as "BAKER'S"

Made only by

**Armstrong's Linoleum**  
for Every Floor in the House.

A pleasing floor effect in a group of upstairs rooms  
Hall and bedrooms grouped as a unit in a definite color scheme by a single appropriate linoleum floor

HERE is a simple suggestion in home decoration.  
Select a linoleum suitable in color and design and use it for the floor of your upstairs hall and all the bedrooms that open on the hall.  
If your walls and draperies are figured, choose a plain or Jaspé linoleum, in grey, brown, blue. Or a carpet or parquet pattern may be used effectively with plain rugs and hangings.  
When a floor of Armstrong's Linoleum is properly put down, it is permanent and remarkably easy to clean and keep looking well.  
The best way to lay linoleum over a wood floor is to cement it to a lining of builders' deadening felt, which is glued to the bare boards. A floor so laid is waterproof, smooth, and free from cracks and bulges.  
"Decorative Linoleum Floors" is the title of a booklet showing twenty-four color plates of Armstrong's Linoleum in decorative patterns. This book will be sent you on request.

**Armstrong's Linoleum Rugs**  
For people who live in apartments or who have houses on short leases and consequently do not wish to install permanent linoleum floors, Armstrong's Linoleum is also made in the form of bordered rugs. Thirty attractive patterns in four sizes from 6 x 9 feet to 9 x 12 feet.
