

DRY ENFORCEMENT MADE MORE RIGID

Daugherty Orders Attorneys to Push Cases and Ask Big Sentences.

MAY USE INJUNCTION

Urges Also Nuisance Proceedings and Cooperation With Local Men.

Special Dispatch to THE NEW YORK HERALD. New York Herald Bureau, Washington, D. C., Nov. 29. A plan agreed upon by President Harding and his Cabinet to obtain stricter enforcement of the prohibition laws was outlined to-day by Attorney-General Daugherty in a letter of instructions sent to all United States Attorneys. The letter follows: "You are requested to give immediate attention to the condition of the enforcement of prohibition laws in your district, to analyze its problems, to examine the condition of your docket in respect thereto and to re-

port to the Department any suggestions you may have to make enforcement more effective.

"I urge upon you the necessity of adopting every means for clearing the docket and pushing prohibition cases to an early trial.

"Where possible and to whatever extent you can with propriety do so, we desire that you urge the court to give more severe sentences to violators of the liquor laws.

"Your attention is invited to the injunction features of the national prohibition act. Nuisance proceedings have been found to be an effective means of control and more frequently resort to them is desired. This Department is ready as it always has been to assist you by furnishing forms or briefs of authorities for instituting this practice in your district.

"We are sending to United States Attorneys in districts where breweries are located criminal information and bills for injunction for proceedings against individuals and companies unlawfully manufacturing cereal beverages. We desire that these be filed and tried promptly. The need for this is especially apparent in injunction proceedings as the court may be reluctant to grant restraining orders if the evidence shows the nuisance to have been committed at a remote period.

"Wherever there is an adequate local prohibition law, endeavor by every means at your command to stimulate enforcement of it by local officers. Seek to establish, as far as your office can, a spirit of cooperation between State and Federal enforcement agencies to the end that each discharge its just proportion of the obligation of enforcement."

Prohibition Commissioner Haynes and Acting Prohibition Director Yellowley of New York conferred with Secretary Mellon. Mr. Haynes will leave in a few days for the South.

HIDDEN RUM SEIZED ON GERMAN VESSEL

400 Thanksgiving and Christmas Bottles Have No Claimant Aboard.

RAIDS PRECEDE HOLIDAY

One Thompson Street Place Turns Up Seven Barrels and 15 Cases of Wine.

When the North German Lloyd steamship York docked at Hoboken yesterday a searching party of twelve men under Customs Inspector A. O. Hokonen seized 400 bottles of special Thanksgiving and Christmas liquor which the inspector says was intended for consumption in this city.

The bottles were hidden in tanks, compartments and in some instances panels were removed where liquor was found in the "skin of the ship." According to Deputy Surveyor William R. Sanders the North German Lloyd Line will be asked to pay a penalty for the value of the liquor, which it is alleged was intended to be smuggled into this country. No arrests were made, although 200 bottles were found in the quarters of crew. The men denied knowing anything about the wet goods. In an effort to stem the tide of holiday liquor flowing into New York, Zone

Chief John D. Appleby yesterday directed raids in which whiskey, gin, cordials and wines were seized in different parts of the city. The largest raid was made on the establishment of Vincenzo, 117 Thompson street, where seven barrels and fifteen cases of wines, ten cases of gin and a gallon of alcohol were confiscated. While agents were removing the liquor some persons in the crowd which had gathered escaped with two cases of gin through a rear window of the building.

The rum running craft Virginia, well known to the three mile limit, ran aground at Miller's Place near Port Jefferson, L. I., yesterday morning. The crew deserted and when prohibition agents arrived they found only three cases left on board. It was reported last night that residents in the vicinity will celebrate Thanksgiving Day as they did in pre-Protestant days, because the Virginia's cargo of 30 cases of liquor is in safe hands.

Frank and Chris Narkarano, brothers and owners of Rossi's Restaurant at 3 Bridge street, New Rochelle, were arrested late Wednesday night when they attempted to deliver two cases of whiskey from a baby carriage to six prohibition agents from New York.

A jury in the United States District Court returned a verdict of guilty yesterday against seven men, including two suspended Federal prohibition agents, whom Judge Julian W. Mack will sentence on Tuesday.

The men convicted are William F. Walsh and Harry E. Meade, until recently prohibition agents, Ray A. Robinson, a customs broker, John Aquara, Morris Sender, Henry Eagan and George Robinson, truckmen. The indictment charged that the men on April 11 last engaged in a plot by delivering to the Ward Line at Pier 13 East River, 100 barrels containing bottles of ginger ale in place of 100 barrels of Canadian whiskey which had been entered at the customs house for shipment to Havana.

HALF MILLION DRY RECRUITS EXPECTED

Anderson Tells Canadians of League for Law and Order.

Toronto, Ontario, Nov. 28.—At the closing session to-night of the World's League Against Alcoholism William H. Anderson, superintendent of the State of New York, told the delegates that 350,000 members had been enrolled in the Allied Citizens League of New York State and that he expected a membership of half a million soon.

This organization, he explained, has for its purpose "community enrollment for law and order and the creation of sentiment favorable to the enforcement of the Eighteenth Amendment." The convention voted to send a cablegram to New Zealand urging that country to vote "dry" in the election on December 7.

DENBY NAMES INQUIRY BOARD

Four Members Will Investigate Midshipmen's Drinking.

WASHINGTON, Nov. 28.—Secretary Denby announced to-day the personnel

of the board of investigation "to determine and fix the responsibility for the lack of supervision over the midshipmen at the midshipmen's ball in Philadelphia last Saturday evening after the annual Army-Navy football game." Rear Admiral Ashley H. Robertson is senior member. The others are Rear Admiral S. S. Robinson and Capt. Sinclair Gannon and John T. Tompkins, the latter an recorder.

The board is ordered to convene at the Naval Academy next Friday or as soon thereafter as practicable.

SEES DRY ACT CAUSING CONTEMPT FOR LAW

Having in mind the Mullan-Gage State prohibition law, Judge Otto A. Rosalby, in General Sessions, in discharging the November Grand Jury yesterday with the thanks of the court, commented on the "contempt for law which seriously affects the maintenance of order."

"We should remember," he said, "it has taken many centuries to build the present structure of the law and that the ablest minds, who have at heart the public interest, were engaged in its development. If there are laws which do not meet appreciation the remedy is by appeal."

HUGHES DENIES LETTER ON PALESTINE OIL LAND

Special Dispatch to THE NEW YORK HERALD. New York Herald Bureau, Washington, D. C., Nov. 29.

The State Department to-day denied that it had issued a letter expressing an opinion concerning the oil regions in Palestine which had influenced Samuel Samuel of the Dutch Shell Company to give up one-quarter of his interests in this holding. The statement was in reply to an interview in New York by Henry Morgenthau, former Minister to Turkey. The Department's statement follows:

"The attention of the Department of State was called to a statement by Mr. Morgenthau published in a New York paper that he had been told by Mr. Samuel, president of the Dutch Shell Company, that he had been approached by the Standard Oil Company and asked to give up certain interests in oil in Palestine, stating that this person was armed with a letter from the State Department at Washington and that Mr. Samuel did give up one-quarter of those interests. "The implication in this statement was vigorously denied by the Department. It was believed that either Mr. Morgenthau had been inaccurately reported or had been misinformed. It was stated at the Department of State that

the only action taken by the Department which could possibly be referred to was its mandate notes asking for equal opportunity for American enterprise in mandate territories, an attitude which this Administration had taken, as well as the prior Administration. With respect to Palestine, separately, the only action taken there was to obtain from the British Government the recognition of the legal rights already acquired by the Standard Oil Company in Palestine through permits which had been issued to that company and the Department did no more than it does for any American citizen in supporting its legally acquired rights."
