

Next Tuesday will be St. John's day.

Entries to the baby show can be made next week.

A new walk has been put down in front of Fisher's hardware store.

A lot of railroads in prairie schooners came into the city last evening.

The Myer Bros. have been awarded the contract for painting the Getto block.

Wheat is filling very heavy, the heads resembling the large end of a base ball club.

D. W. Scott was fined \$5.00 in the police court yesterday for being disorderly, which he paid.

Douglas avenue now-days has the appearance of the main thoroughfares in large cities.

It is intimated that Major Joseph Ask will have charge of the twin department of the baby show.

A pair of white rabbits were yesterday shipped from this place to Robert Ravenscraft, of Eureka.

Root Bros. have put down a new plank cross walk on Market street, from their transfer stables west.

We are informed that nearly all of the horses in this county, said to be affected with glanders, are rapidly getting better.

The baby show, which will take place during the first week in July, promises to afford more fun than a whole box of monkeys.

Mr. David Hays is off for Cheyenne this morning to look after his large interests down there, and will probably be gone several days or maybe weeks.

Deluge hose company got together in great shape at the fire yesterday afternoon, being promptly on the ground only a few minutes after the alarm was given.

"Bona Dux" communication seems in objectionable, but as no name was sent with it we cannot publish it without violating the commonest rule of almost every printing office.

The ladies of the Presbyterian church wish to notify their friends and all sympathizers of a social time, that they will give an ice cream entertainment at the church next Monday evening the 23rd. All are cordially invited.

We thought that the farmers of this county were certainly all supplied with harvesters last year, but we are informed that upwards of one hundred and fifty harvesters and threshers went out of this city day before yesterday, one firm having sold upwards of two hundred this season.

C. F. Derby, who advertised a lost horse in the EAGLE yesterday, came up yesterday evening to say that everybody knew within an hour that he was out a horse and that before noon the horse itself was returned. The houses in this city in which the EAGLE does not light every morning before breakfast are getting fewer and fewer.

Mr. A. Wagner, the butcher, leaves in his office a roast from a 950 pound steer, with the information that he will dish up to his customers on Sunday morning another which will weigh upwards of 1,000 pounds net. These animals were corn fed and cost him \$152 each. Our family have discussed the roast and unanimously voted Wagner a success.

A bridge across the big river due south from the lower end of Lawrence avenue is again being agitated. It is estimated that a pile bridge could be put in for three or four thousand dollars. That it would prove a great convenience to a large territory and directly in the interest of Wichita we guess is understood by everybody at all conversant with the situation.

The contested land case which was brought here from Kingman, in which the United States was plaintiff and Johnson and Lambert defendants, was terminated in U. S. Commissioner Sherman's court yesterday. The defendants were charged with false swearing in proving up on some land. Judge Sherman found for defendants and they were discharged.

It is reported that a small wreck occurred on the Santa Fe Road near Peabody Wednesday night. As near as we can learn, a passenger coach broke down on the track, causing considerable delay to all trains, making it necessary to transfer express, etc., and as a consequence but little express matter reached here from the east Wednesday night, but a double dose came last evening.

The following are the real estate transfers recorded in the register of deeds' office June 19:

The Seventh Day Baptists have plucked a large tent at Valley Center, where this evening commences a series of Bible lectures, of which the prophetic books of Daniel and the Revelations will be elucidated and explained, showing where we are in this world's history, also the prophecies concerning the signs of the times. Elders Oscar Hill and C. W. Platz will be the principal speakers.

A large and handsome plat, showing the location, boundaries and divisions of the town site of the new village of Hatfield, located on section 16 in township 34 north of range 2 west, this county, was filed in the register of deeds' office yesterday.

The diagram shows fourteen blocks divided into lots, with a large park in the center which is 200x300 feet. J. W. Hartwell is president of the town company and B. J. Allen, secretary.

A railroad from Wichita to San Antonio, Texas, is a possibility being now evolved from the pressure and demands of late developments. The proposed line is to run directly south through Atchison Springs to the Territory. The initial steps for a corporation were taken in March, at which time the names of prominent gentlemen of this city were suggested by the writer. We learned yesterday that these had been legally notified of the completion of the corporation.

Miss Frankie Stotler, eldest daughter of Hon. Jacob Stotler, accompanied her cousin, Miss Kate Murdock, home from Emporia night before last, where the latter had gone to witness the graduation of Miss Frankie, whose valediction was on "Kansas Poets and Kansas Poetry," and in which no allusion was made to the author of "The Nile of America." Miss Frankie is a charming young lady of many accomplishments, and no doubt will enjoy her visit to the "Forest City of Roses."

The alarm of fire sounded yesterday at 3:10 p. m., was from the residence of Col. B. H. Campbell. The colonel's family, as well as himself, were away from home, but we learn that a portion of the sleeping apartments are being occupied. No explanation can be given of the origin of the fire which occurred in a back and unoccupied sleeping room, the furniture and bedding in which was pretty badly charred. The fire did not do so much damage, but a large portion of the furniture was carried out, car-

FOUND AFTER THREE YEARS.

"Though the mills of the gods grind slowly, yet they grind exceedingly small,"

Major Proctor, who came to this city last January as the general agent of the sulky plow, has decided to locate at Clearwater in this county, and will send for his family, who reside at Grand Rapids, Michigan.

This valley with its present prosperity and future prospects offers too much to be described. Major P. is an old printer, and in his younger days peddled the Grand Rapids Eagle on its feet, a paper whose influence in the Northwest is second to no other paper outside of Chicago. After he gets settled down into business the readers of the EAGLE will learn from him.

Col. G. H. Blackwelder, a gentleman who has lately purchased large real estate interests in this county, and who bought the late home of J. C. Redfield, occupying one of the most elegant sites in the city, is having the old house moved off preparatory to the erection of a fine permanent residence. Our people have not yet had but little opportunity to become acquainted with Colonel B., who is a gentleman of large means and who would be an acquisition to any city in the state, but in all good time they will learn that he is a very entertaining gentleman and a valuable citizen.

This is the time of year when everybody is busy if there is any business in them. The demand for labor is good and wages are good. The mechanic, the farmer, the manufacturer and the banker, and even the lawyers are busy, and the doctors would be it if it weren't so distressingly healthy. These are the months in which there is no time for excess for loafing around the corners on dry goods boxes. The man who loaf now unless there lies back of him a business or a bank account, is a man who ought to be watched and if no one can be found who will be watching, then his conspicuousness should hinge upon his absence. Men don't live on air nor are loafers fed directly by manna from heaven. All must eat or die, and those who don't eat bread of their own earning must eat that earned by somebody else. Loafing about street corners day after day, and ranging through back streets and alleys by night is not up to the orthodox standard of honesty, and there is and has been too much of this thing in Wichita of late, and such ought to be able to catch on to this idea which simply means that those who can't leave off loafing had better leave town. The citizens of this place, by a large majority, are convinced that this is not a good season for dead beats.

AGAINST LYNCHING.

Again last evening there were rumors of an organized intention to mob the parties arrested and held for the murder of Harris. That the rumor was no more idle talk we are pretty well satisfied. While some men in this town have indulged in such threats there is in our judgment no real danger of such an outrage being perpetrated or carried out by citizens. If the attempt is made at all it will be by those lately in the employ and associated with the deceased as a railroad man. The thing should not be permitted, let the cost be what it might. The man and woman may be guilty, but that fact has no longer established by any means. While some who heard all the evidence adduced in the preliminary examination express the greatest doubts as to the guilt of the accused, and that to convict an entire different class and much stronger testimony would be necessary. But in any event we do not want the stigma of mob rule or violence, and we hope the sheriff will not allow himself to be taken by surprise.

NOTICE.

On and after Monday, June 23, I will receive freight for Wayne, in Ohio township, eleven miles southwest of Wichita, on the new extension of the St. L., Ft. Scott & Wichita railroad. AD. N. JOHNS, Agent.
