

### VICTORY FOR HAMPTON

Rival Peninsula High Schools Battle on Casino Gridiron.

### FAST AND HARD-FOUGHT GAME

Brittingham's 95 Yard Run for Touchdown Won the Game for Visitors By Score of Eleven to Six—Teams Evenly Matched.

In a fast and stubbornly contested battle, the football team of the Hampton High school defeated the local high school eleven on the Casino gridiron yesterday morning by a score of 11 to 6. The game was witnessed by more than 500 people numbered among whom were about a hundred of the fair pupils of the rival schools, who followed the match with their songs and school yells.

Both teams played good ball through out and several spectacular plays were pulled off. The locals opened the game by kicking off to Hampton and soon took the ball on downs well into the visitors' territory. By end runs and line smashes, the home team carried the ball to Hampton's five yard line, but there lost it on downs. Hampton kicked out and again the locals rushed the ball to the ten-yard line only to lose it on downs. On the first lineup after the leather went to Hampton, the visitors fumbled and Duvall Hudson grabbed up the oval and ran 15 yards for the first touchdown of the game. Murray missed the goal and the score was 5 to 0 in the locals' favor.

The score of the home team seemed to put new life and energy into the visitors and by end runs, line smashes and one or two forward passes they rushed the leather across the field to the five-yard line, where Seymour was pushed over for a touchdown, Brittingham kicking an easy goal, making the score 6 to 5 in favor of Hampton.

In the second half, after the locals had rushed the ball to Hampton's five-yard line and there lost it on downs, Brittingham, captain of the visiting team, made a spectacular run of 95 yards for the third touchdown of the game. He failed to kick the goal, and the score was 11 to 5. After that touchdown neither team was able to make very much progress and the game ended with the ball in the possession of the home team in the center of the field.

### LONGEST WAY SAVES TIME

Bolivian Minister to Brazil Traveling Home Half Around the World.

NEW YORK, Nov. 28.—It's a long way from Brazil to Bolivia. As the crow flies, across the South American continent, the distance between the capital of one country and the capital of the other is only about 1,500 miles. But there are mountain ranges and such things in the way, and the route is not practicable.

This was explained by Alberto Gutierrez, Bolivian minister to Brazil, who arrived yesterday on his way to his home from Rio Janeiro. The diplomat sailed from Rio Janeiro to Europe and there took ship to New York. From here he will sail to Colon, across the Isthmus to Panama, after which another sea voyage and a long railway trip will land him in the capital of his country.

According to the latest New Zealand and Parliamentary return there are in the State 274 unions of wage earners, with 34,978 members and 169 employers' unions with 3,337 members.

### THIS TRAMP'S SOLUTION OF LIFE'S PROBLEM A WINNER

Took Two Bold Chances in Getting Home for the Winter and Won Out on Both of Them

NEW YORK, Nov. 28.—John Walker solved a great problem today. He had no home and had two chances of gaining a desired rest on Blackwell's Island. He took them both. When he leaves the island the warm spring breeze will be blowing over the East river.

Walker went to the West Side police court to ask the magistrate to send him over to the island for the winter. He had to wait at the end of a long line. Suddenly he saw a purse. It belonged to Mrs. Mary Buckley, who sat next to him. Upon seeing him take it, she cried out. Walker was arrested. When arraigned, he told Magistrate Herrman that he took the purse for two reasons: If it contained enough money he wouldn't need to go to the island; if he was caught, he would go anyway, as he had wanted to. He was sent to the island and his object was attained.

### Awful Creature Was Ninety Feet Long

Recent Growsome Experience of a Chicago Man is Sample of a Series of Such Cases.

During L. T. Cooper's recent visit to Chicago, where his new preparation and theory created the usual sensation, many hundreds of people brought enormous internal parasites to the young man, which had left the system after taking his medicine.

Among these people were Mr. Emil Winkler, who brought to Cooper a tapeworm that proved to be over ninety feet in length. Mr. Winkler, who resides at 182 East Ohio street, Chicago, had this to say of his experience: "For five years I have been more or less complaining. I have had severe headaches, and any food that I would eat would nauseate me. I would have had dreams almost every night; these spells would compel me to quit work. Black spots would appear before my eyes, when stooping over and rising quickly. I would feel tired most of the time; in fact, I had no life in me to speak of for the last five years. I tried various treatments, and one physician in St. Louis was recommended to me, and I was under his

### JUDGE HINTS AT HIGHER LAW.

Only One Thing for Woman's Kinsmen to Do in Some Cases.

KANSAS CITY, MO., Nov. 28.—That he is, on certain occasions, in favor of the "unwritten law" is the interpretation given the words of Federal Judge Smith McPherson in a recent case.

George Phillips was sentenced last Friday to three years in the Federal prison for having written four objectionable letters to Lola Davis, in passing upon an application for reduction of this sentence, Judge McPherson said:

"In the event of a letter of this character being sent to a decent woman, there is but one recourse left to the father or brother, or husband—and that is a recourse no man likes to suggest."

Judge McPherson said he considered it as much of a crime to write such a letter to a woman in the "red light" district of a city as to a respectable woman.

### MAN OF BIG JOB FALLS DEAD.

James H. De Graff Built Chesapeake and Albemarle Canal.

BUFFALO, N. Y., Nov. 28.—James H. De Graff, seventy-three years old, dropped dead here today. Mr. De Graff was best known as a contractor on great public works.

He supervised the enlarging of the Erie Canal in 1851; built the Great Western Railroad between Chatham and Belle River in 1854; had charge of the construction of the Chesapeake and Albemarle Canal in Virginia in 1856, and was in control of important work on the Kanawha when the civil war broke out.

He came north in 1861, and has been in the lumber and banking business for half a century.

### THEATRICAL

A vaudeville aggregation headed by Leighton, "The Wizard," played to a small audience in the afternoon and a fairly large one in the evening at the Academy of Music yesterday. "The Wizard" was more successful with a few time-worn tricks than he was later when he assumed the role of electrician and essayed to manipulate a moving picture machine in giving what was billed as a "Faithful dramatic production of Pochontas, in beautiful animated scenes of Colonial Virginia." From an educational standpoint these moving pictures were marvelous; the audience learned from them, among other things, that Pocahontas was attired in black, tights when she went to the altar with John Rolfe.

Other features of the entertainment were the stunts of a young woman billed as "The Artist's Model," who dressed like a trapeze performer and looked the part, and a couple of Spanish singers and dancers who couldn't connect with the strains sent up by the orchestra.

"Under Southern Skies," will be the bill at the Academy of Music this afternoon and evening. This popular drama, the scenes of which are all laid in the South, was written by Lottie Blair Parker the author of "Way Down East," and during the past seven seasons has been almost as successful as its predecessor.

It is said that new scenery and costumes and a first class company have been provided for this season's production. The special matinee for ladies and children will begin at 3 o'clock this afternoon, and the curtain will go up this evening at 8:30 o'clock.

### IMMEDIATE RELIEF AND PERMANENT CURE

When quite young I was afflicted with some skin disease. It first showed upon my arm, which quickly became a mass of sores from my shoulder to my elbow. Finally it spread nearly all over me in patches and itched and matured in some parts. My parents tried every remedy they could hear of, but besides employing medical aid, but to no purpose until they, as a last resort, bought a box of Cuticura Ointment and some Cuticura Soap. In a day or two I began to feel better, the sores healed as quickly as they could, and after two months there were only the scars left to show where they had been. Ford E. French, Coos, N.H., Nov. 19 and 26, 1906."
