THE RIPLEY ADVERTISER.

VOL. 38.

RIPLEY, MISS., SATURDAY, OCTOBER 27, 1883.

NO. 20.

THE RIPLEY ADVERTISER.

R. F. FORD, Editor and Publisher.

TERMS OF SUBSCRIPTION: One copy one year, \$1.50; one copy six months, 75; one copy three months, 40.

ADVERTISEMENTS: Inserted at one dollar per square (one inch) for the first insertion and fifty cents for each subsequent insertion.

The National Cotton Planters Association will meet in Vicksburg on the 21st of November. The Governor has been invited to name two delegates from each county to represent its interest in the meeting.

When you join this Independent party you join a side show. There are only two great national parties in this country, the Democratic and Republican parties. In 1884 you have to choose between the nominees of these two parties, so look before you act.

Injustice to Chalmers. People Starve.

Until last Saturday a great many people had done Gen. Chalmers the injustice to suppose that he was too big a man, being a Congressional eloquent, to dabble in county politics. But the Little Game Cock has hopped into the ring and the Reactionists will have to knock him out along his Greenback allies.

Under the Internal Revenue and the Tariff laws, revenues are collected beyond what is needed by the government. It is a serious question, what must be done with the surplus. The answer is plain; reduce taxes. Pay the public debt as fast as it matures. Close up the National Banks as rapidly as the bonds which constitute the basis of their currency, mature, and prevent contraction by the unlimited coinage of the precious metal and substituting gold and silver certificates for the notes of the banks.

FOREIGN JOURNALISM: A household magazine is Devereux's monthly, which for utility, variety, and artistic excellence, cannot be surpassed. The November number compares very favorably with its predecessors, and is replete with interesting and useful information.

ARTESIAN WELLS: The Artesian Wells in this vicinity has proven a great blessing to our people, during the long continued drought. Most of the wells in town have failed, either partially or completely, and the Artesian Wells have saved many persons from having to haul water a long distance.

THE DEMOCRATIC CANDIDATES: In their reports frequently find a man who says he is a Greenbacker. He says he joined that party from principle, and still is a Greenbacker, and not an independent, and that he will vote the Democratic ticket, because there is no Greenback ticket in the field, and the Democratic is nearest like his own.

It is useless, we presume to go into details as regards the aims and objects of this Association. To those who are not familiar with the organization it may be stated in general terms that its purpose is to advance the cause of education in our State. All teachers, as well as others, interested in this great work, are invited to attend and become members of the Association. An effort will be made in due time, to secure reduced rates on the different railroads leading to Jackson. It is believed also that hotels and boarding houses can be induced to reduce their terms to those in attendance.

J. A. SMITH, W. S. WEBB, L. T. FITZHUGH, EXECUTIVE COMMITTEE.

ARTESIAN WELLS.

The Artesian Wells in this vicinity has proven a great blessing to our people, during the long continued drought. Most of the wells in town have failed, either partially or completely, and the Artesian Wells have saved many persons from having to haul water a long distance, which would have been a serious trouble and expense.

The Democratic candidates in their reports frequently find a man who says he is a Greenbacker. He says he joined that party from principle, and still is a Greenbacker, and not an independent, and that he will vote the Democratic ticket, because there is no Greenback ticket in the field, and the Democratic is nearest like his own.

It was a sad day for the small bosses of the Independent party when they tried to disorganize the Greenback party in this county and drive the rank and file of that party into this Independent business by saying "they are the same." These little fellows are either densely ignorant themselves or they presume that Greenbackers were big enough fools to believe their little romance. However, Greenbackers could read and think for themselves, and when they compared the Independent and Greenback platforms, they found as much difference between them as any other two parties. They read the plank in their platform which said "free trade, and unalterable opposition to a protective tariff as first among Greenback principles," and then they read the Independent platform and saw it was dumb on the subject, while the great boss of that party was a protectionist. They saw that there was no similarity between the two and the little Independent bosses sentence, "they are the same" was too thin.

Three things teach—truth, industry and contentment.

IT WILL COST YOU NOTHING to get from Drs. Starkey and Palen, 1109 Girard Street, Philadelphia, an honest opinion in your case, if you are suffering from any chronic disease, Consumption, Catarrh, Neuralgia, Rheumatism, or nervous irritability and weakness. They are making wonderful cures with their new Compound Oxygen Treatment. Write to them and give a clear statement of your case. They will answer promptly as to the chances of a cure. THEY MAKE NO CHARGE FOR CONSULTATIONS. If, however, you do not wish to consult them at present, drop a postal card, asking for their treatise on Compound Oxygen, in which you will find a history of its discovery, nature, and action, and a large number of reports of difficult and desperate cases which they have treated successfully. It will be sent free.

Three things hate—cruelty, arrogance and ingratitude.

The color line has been settled by the courts of New York relating to public schools. A black girl applied for admission in a free public school, was denied and directed to attend a free colored school. She applied to the courts to compel admission to the white school. The case was carried through three courts, all of them denying admission to the white school on the ground that equal facilities for the education of children were offered in the colored schools and consequently there was no discrimination against her in assigning her to such school. This decision is one of general interest.

From various parts of the State, especially the Northern, we see in our exchanges encouraging items like the following:

Meat is reported not as good as usual in this section, but hogs are, nevertheless, in better condition than they were ever known to be at this time of year before.

The Methodist church in Canada has stricken the word "obey" from the marriage service, believing that the woman should not promise to be or do any more than the man does. They are equals, and should promise and live as equals do in all the relations of life. It is asking enough of a woman to promise to love and honor her husband, as he promises to love and honor her. If they both make it a daily duty to try and do that, lifelong happiness is sure to follow.

Three things contend for—honor, country and friends.
