The Family Madisonian.

VOL. II. WASHINGTON CITY, THURSDAY EVENING, MAY 25, 1843. NO. 444.

PICTORIAL HISTORY OF THE UNITED STATES.

FROM the discovery of America by the Northmen to the present time. By J. F. Wallcut, Professor of Beloit College, and of the High School of Philadelphia—Embellished by upwards of three hundred original cuts, designed by Croome expressly for this work.

A full and copious History of the United States for families and libraries, has long been called for by the American people: the publisher has now the pleasure and satisfaction of presenting to the public such a work.

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill employed to render it a work worthy of the attention of every lover of his country; and in order that every patriot may possess an evidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the first of each month until the whole is perfected. At the conclusion of each volume, a complete index and title page will be furnished.

The publisher pledges himself that the embellishments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures will of course be regulated by the subject, some chapters being more susceptible of rich pictorial embellishments than others.

Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please remit five dollars, free of expense of postage. (Postmasters' franks can always be obtained for reprints for periodicals,) and the whole will be sent by express, at a remittance of ten dollars, with three copies; by a remittance of fifteen, five copies. Postage of each number, under an hundred miles, four and one-half cents; upwards of an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to make application to

E. H. BUTLER, Publisher, No. 25—5t PHILADELPHIA, April 1, 1843.

WILL be published, in the City of Washington, on the 30th of April, the first number of the weekly

"GERMAN NATIONAL GAZETTE," a newspaper devoted to the political, social, and literary interests of the day. Terms: Per annum \$2 00, strictly in advance. A number of correspondents in Europe, amongst them some of the ablest German writers of the day, are engaged for the paper, which will also contain English articles.

In connection with the above is published the monthly

"GERMAN IN AMERICA," of mammoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: \$1 50 per annum, in advance. Both papers sent to an address for \$3 00, in advance.

The "German in America" is a paper principally of literary character, and intended to be an interesting medium between the literary genius of the Saxon and Anglo-Saxon race. It will exhibit some of the best literary productions, especially poetical, in each language, with parallel versions in the other.

To those therefore of the English-American public, who are desirous of furnishing the German language, or wish to become familiar with German literature, this paper is strongly recommended. It contains a complete list of all books, periodicals, etc. published in Germany. Business men who deal, or wish to deal, with the American population of German tongue, will find it greatly to their advantage to advertise in this paper. It has already acquired a circulation which extends over the whole Union, the contiguous South, Canada, and Germany, and by far exceeds that of any other German paper in the Union.

Advertisements in this paper are of a universal character, being not of a local, but of a universal character. Besides this, the rates of advertising in both papers are exceedingly low, so as to enable every body to advertise who can be profited by it.

Publishers will oblige by early communicating copies of new publications which will be critically reviewed, and sent gratis to the German public notice. Papers who intend to furnish the German public with a complete review of all productions of the American press worthy of notice.

All communications must be addressed to

F. A. SAGE & Co., German Publishers, Washington, D. C. Papers who will insert the above, will entitle themselves to the thanks of the publishers, and exchange of courtesy. April 6—3t

COUGH LOZENGES.

PETERS' COUGH LOZENGES are now rapidly superseding all other preparations for the relief of Coughs, Colds, Asthma, Whooping cough, Tightness of the Chest, Bronchitis, and similar pulmonary affections.

CONSUMPTION CANNOT BE CURED! Those who say it can are impostors and quacks. Still it may be prevented or its progress stayed, by using Dr. Peters' Cough Lozenges. Begin in season. Do not neglect a slight cough until consumption has commenced its ravages. A delay of a few days of prompt relief, from 25 cents per box.

Peters' Cough Lozenges have performed some of the most remarkable cures on record. One trial of them is more satisfactory than a column of certificates.

THE GREAT OBJECT GAINED! Peters' Medicated Lozenges are the most valuable discovery of the 19th century. They are entirely pleasant to the taste, and more efficient than any other medicine. These Lozenges are the result of long continued and patient investigation and experiment, conducted in concert by some of the most distinguished physicians in the Union, who believing that some of the best known remedies might be prepared in a palatable form, have directed their labors to that end, till they have produced preparations in the popular form of Lozenges for nearly every disease incident to the human system.

To parents we would say, do not be without these Lozenges at any time—attend to these suggestions as you value the lives of your children.

PETERS' PILLS. TO THE WHOLE WORLD. It is admitted by all who have used them, (and who are not bigoted to the "Vegetable Pills") that they are the most unrivaled medicine ever discovered by the ingenuity of man. They are a sovereign cure for the following complaints:—Yellow and bilious fever and ague, cramp, liver complaint, sick headache, jaundice, asthma, dropsy, rheumatism, enlargement of the spleen, piles, colic, female obstructions, heartburn, flatulency, indigestion, distention of the stomach
