COUGH LOZENGES.

PETERS' COUGH LOZENGES are now rapidly superseding all other preparations for the relief of Coughs, Colds, Asthma, Whooping Cough, Tightness of the Chest, Bronchitis, and similar pulmonary affections.

CONSUMPTION CANNOT BE CURED! Those who say it can are impostors and quacks. Still it may be prevented or its progress stayed, by using Dr. Peters' Cough Lozenges.

THE GREAT OBJECT GAINED! Peters' Medicated Lozenges are the most valuable discovery of the 19th century.

PETERS' PILLS. It is admitted by all who have used them, (and who has not?) that Dr. Peters' Vegetable Pills are the most unrivaled medicine ever discovered by the ingenuity of man.

THE AGENT AT STRASBURG, Va., says he supplies families for 30 miles around with Peters' Pills, and they perform such remarkable cures that they are preferred to every other medicine.

WORM LOZENGES. Dr. Peters' Worm Lozenges are the surest and safest worm destroyer ever discovered.

CORDIAL LOZENGES. Peters' Cordial Lozenges are a specific for the relief of nervous or sick head ache, lowness of spirits, or melancholy languor and debility, either from pre-

PETERS' VEGETABLE SHILLING STRENGTHENING PLASTER. This is not only the cheapest, but the best, neatest and most comfortable plaster in existence.

CHARLES STOTT, General Agent for the District. Also for sale by the principal Druggists in the District.

LANGUAGES. Private and Class Instruction. PROFESSOR ALFRED SCHUCKING (late of New Orleans) would inform the ladies and gentlemen of Washington and its vicinity, who wish to acquire an accurate and practical knowledge of the French or German language in a manner as expeditious and pleasant as is consistent with a thorough study, that he has classes for instruction in the above languages.

A SUPERIOR FARM FOR SALE. The subscribers have for sale a very valuable Farm, about five miles north of the Capital, containing 157 acres, with a comfortable new dwelling house, barn, and all other necessary out buildings, the whole well enclosed and in cultivation under the most modern and approved system.

THOS. PURSELL. A SUPERIOR FARM FOR SALE. The subscribers have for sale a very valuable Farm, about five miles north of the Capital, containing 157 acres, with a comfortable new dwelling house, barn, and all other necessary out buildings, the whole well enclosed and in cultivation under the most modern and approved system.

AMERICAN CROWN WINDOW GLASS.

manufactured in the village of Redford, county of Clinton, and State of New York.

To the Redford Crown Glass has been awarded the first Premium of the American Institute in the city of New York for five successive years, and has received a gold medal in commemoration of its superior merits.

This Glass is made from white flint sand, obtained in the vicinity of the works, and is the only Crown glass made from that species of sand. It is capable of standing every change of climate, nor will it lose its lustre by age.

The Redford and Saranac Crown Window Glass are distinguished from ordinary Glass by the uncommon evenness and lightness of surface, the superior transparency, and beauty of color, the great thickness, and the general excellence of the materials which compose them. The surface not being polished after being blown, retains the enamel, brilliancy, and hardness, and is not subject to the objection so often applied to Plate Glass, of being easily defaced and permanently discolored by dust; being made of extra thickness, will, without injury, withstand violent winds, hail storms, jars of cannon &c. Its use, in the end, will prove more economical, independent of its adding so much to the beautiful appearance of buildings.

Specimens of this deservedly popular Glass, may be seen in the New York Exchange, No. 20, Broadway, Howard's Hotel, Bismarck's, No. 20, Broadway, Centre Market, and a great many private residences, and stores in various parts of the city; also, in the Exchange and Custom House, Boston; Girard College, Philadelphia; Exchange Hotel, Baltimore; in the public buildings at Washington city; the Capitol at Raleigh, North Carolina, and in many both public and private edifices.

It is used in a great number of State and railroad cars, and also in the most extensive and elegant of buildings.

It is believed that the above will suffice to prove that the Glass is not only the best, and that it justly merits the approbation of builders and consumers of Glass.

The Saranac Crown Glass is most used in stores and buildings of the second order, green houses, &c. where strength and clearness are particularly desired, and will range about 33 1/2 per cent. cheaper than the Redford. The double thickness is always used for light-houses, and is taken by the true economist for sky lights, steamboats, ships' cabin windows, &c.

Ground Glass for sky lights, churches, and artists' windows, furnished to any pattern or size. The Glass is carefully packed in stout boxes, nailed, and secured so as to be transported with safety to any part of the United States.

For the more complete satisfaction of persons at a distance, who may not have an opportunity to examine this beautiful article, the following testimonials are respectfully offered for consideration.

Extract from the report of the committee of the American Institute, October, 1837:

"For richness of lustre and brilliancy of surface, as well as thickness and strength, the Redford Glass is the most beautiful article of the kind that has ever fallen under our notice, either of domestic or foreign production; and it affords a good specimen of the skill and enterprise of American manufacturers."

The following gentlemen, Architects, have permitted us to use their names in commendation of the above Glass:

Robert Mills, Architect of the Public Buildings, Washington.

Thomas U. Walter, Architect of the Girard College, Philadelphia.

Leahy, Architect, New York.

Blodgett, Architect, New York.

Calvin Pollard, Architect, New York.

Gambel King, Architect, New York.

Thomas Thomas, Architect, New York.

The subscribers have spared no pains to make this one of the best establishments in the United States. Orders from any part of the United States for any size, from 6 x 4 to 30 x 18, Redford or Saranac flint-dwelling houses, stores, light-houses, green houses, sky lights, &c. addressed to them or CHARLES STOTT, Agent, New York, or to any of their selling agents, will be executed with dispatch, and at the lowest rates.

L. LANE, CORNING, & SUYDAM, Troy, New York.

April 26—4

BLANK BOOKS. Of the most durable kind, made from the finest linen paper, and bound in a manner unequalled in this country for strength and durability.

Orders from public offices, institutions, and individuals, will be attended to with promptness, and at low rates.

No. 30 North 4th St. PHILADELPHIA.

may 28—1y

MISSOURI CURRENT-RIVER COPPER MINES.

SHANNON COUNTY, MISSOURI.

I WOULD now ask the attention of capitalists to the Missouri Copper Mines, rich in ore, yielding from 40 to 60 per cent of copper, with a small amount of smelting, is equal to the South American refined pig—so pronounced by Messrs McKim & Co., of Baltimore, to whom several shipments were made by the Mine at La Motte Mining Company. Situated near the junction of Jack's Fork and the Current river, within half a mile of each other, and near water power for all manufacturing purposes, and under a sunny climate, in the vicinity of agricultural land equal to the best in Missouri; surrounded by hills bearing inexhaustible forests, and rising to mountains where fine pure and never-failing springs, forming navigation six months in the year, and near a profuse hand, seems to have omitted but few facilities for manufacturing; and transporting the product of the copper mines. Believing this property, of all the vast and fertile Mississippi valley, may be made the most safe and profitable investment of capital, I will propose a disposition of a portion (by a deed or otherwise), on liberal terms, to which to consist the agency of capitalists, and make it productive.

Miners may obtain mining lots, by application to S. Chilton, at the mines.

Communications, addressed to me at Washington, D. C., will receive my attention.

J. EFES COWAN.

P. S. The above described mines, since the year 1837, have been held, in a measure, unproductive by conflicting claims. I first located confirmed Spanish grants to them, which James Whitcomb, then Commissioner, decided were not valid. I then acquired title under Mr. James Thompson, who held by floating pre-emption right; when "Joseph Slater, the agent and tool of an extensive company, proved a pre-emption by Josiah Berryman, one of said company; both of whom, base villains, are convicted, by the facts of history and geology, on which also was based their fraudulent claim. Again my claim was set at naught by Whitcomb, who was successful in the vile attempt to stifle an investigation of the right of title, until he went out of office; since which time, and change of Commissioners, an investigation was had, and the result, as reported by Colonel T. J. Allen, register of the land office, and the decision of the Hon. Mr. Blake, Commissioner of the General Land Office, as published in the Globe November 7th, 1842; also, decision of the Hon. Mr. Forward, Secretary of the Treasury, confirming the Commissioner's decision, and awarding the Confirmation of the Copper Mines on Current river to J. Efes Cowan.

TREASURY DEPARTMENT. February 23, 1843.

Sir: I return, herewith, the papers in relation to the conflicting claims of Joseph Slater and J. E. Cowan, assignee of James Thompson, to the northeast quarter of section 36, township 23 north, range 4 west. I concur with you in the opinion expressed in your letter of the 13th September, 1842, in relation to the conflicting claims in this case, addressed to the register and receiver at Jackson, Missouri; and my decision is in accordance therewith.

Very respectfully, J. EFES COWAN.

FORWARD, Secretary of the Treasury.

THOMAS H. BLAKE, Esq., Commissioner of the General Land Office, March 31—1aw6w

NEW MUSIC. JUST received the following pieces of New Music: At the old established store, two doors east of 12th street, Pennsylvania avenue, W. FISCHER.

Yes, I will share with you my love—by W. J. Leimere. My early home—by L. J. Goshawk. "I see thee sweetly smile"—by H. Throckmole. The mountaineer's return—by Mrs. C. C. Ely. The devoted—Tyrol—by F. M. Dalmer. The grave digger—by K. W. Adams. Tell me ye wind—by W. C. Corrie. When all around grew drear and dark—by G. F. Paige. Words a cab!—comic, dedicated to W. E. Burton, written by "Sirius." On strings a more—words by Lord Byron.

11—1
