VOL. III. WASHINGTON CITY, SATURDAY EVENING, DECEMBER 16, 1843. NO. 618.

PICTORIAL HISTORY OF THE UNITED STATES.

FROM the discovery of America by the Northmen to the present time. By J. H. Jones, Professor of Belles Lettres of the High School of Philadelphia. Embellished by upwards of three hundred original cuts, designed by Croome expressly for this work. Now in progress of publication, and to be completed in twenty monthly numbers, at the unparalleled low price of twenty-five cents each; the whole forming four octavo volumes.

A full and copious History of the United States for families and libraries, has long been called for by the American people; the publisher has now the pleasure and satisfaction of presenting to the public such a work. It is the result of years of study and research by one of our ablest writers; and in order that the noble deeds and striking scenes connected with our history may be properly depicted, the publisher has engaged the services of a superior and distinguished artist.

In carrying out this undertaking, a great investment of capital has been required, and much mechanical skill employed to render it a work worthy of the admiration of every lover of his country; and one to which every patriot may point as an evidence of the great degree of perfection and refinement our liberal institutions have secured us.

The first number appears this day, (April 1st); the succeeding ones will appear promptly on the first of each month until the whole is completed. At the conclusion of each volume, a complete index and title page will be furnished.

The publisher pledges himself that the embellishments in the whole work shall exceed three hundred, and equal those in the first or specimen number in style and execution. The distribution of the pictures will of course be regulated by the subject, some chapters being much more susceptible than others to embellishments of this kind. The succeeding parts will contain the same number of pages as this.

Persons at a distance, who are desirous of obtaining this work direct from the publisher, will please remit five dollars, free of expense of postage. (Postmasters frank can always be obtained for remittance for the work.) The whole will be sent in Clubs, by a remittance of ten dollars, will receive three copies; by a remittance of fifteen, five copies. Postage of each number, under an hundred miles, four and one-half cents; upwards of an hundred miles, seven and one-half cents.

Individuals desirous of acting as agents for this work, are advised to make application to the publisher.

E. H. BUTLER, Publisher. PHILADELPHIA, April 1, 1843. mar28-5t

WILL be published, in the City of Washington, by the 20th of April, the first number of the weekly

"GERMAN NATIONAL GAZETTE," a newspaper devoted to the political, social, and literary interests of the German people in the United States. Terms: Per annum \$2 00, strictly in advance. A number of correspondents in Europe, among them some of the ablest German writers of the day, are engaged for the paper, which will also contain English articles.

In connection with the above is published the monthly

"GERMAN IN AMERICA," of mammoth size, now the largest paper in the Union. The eighth number will be issued on the 1st of May. Terms: \$1 50 per annum, in advance. Both papers sent to one address for \$3 00, in advance.

The "German in America" is a paper principally of a literary character, and intended to be an interesting medium between the literary genius of the Saxon and Anglo-Saxon race. It will exhibit some of the best literary productions, especially poetical, in each language, with parallel versions in the other. To those therefore of the English-American public, who are studying the German language, or wish to become familiar with German literature, this paper is strongly recommended. It contains a complete list of all the German periodicals published in Germany, and the American population of the German tongue, will find it greatly to their advantage to advertise in this paper. It has already acquired a circulation which extends over the whole Union, the contiguous South, Canada, and Germany, and by far exceeds that of any other German paper in the Union—its tenderness being not a local, but of a universal character. In this, the rates of advertising in both papers are exceedingly low, so as to be a noble every body to advertise who can be profited by it.

Publishers will oblige by early communication of new publications which will be critically examined, and if found to be of German public notice. We intend to furnish a German public with a complete review of all productions of the American press worthy of notice.

All communications must be addressed to P. A. SAGGE & Co., German Publishers, Washington, D. C.

German Publishers, Washington, D. C. Papers which will insert the names of the publishers, and entitle themselves to the thanks of the publishers, and exchange of courtesy. April 6-3t

ARMY AND NAVY REGISTER. JUST published and for sale at Stationers' Hall the official Army and Navy Register for 1843, by order of the Secretaries of the Army and Navy in compliance with a resolution of the Senate and House of Representatives. March 22-4t

CHEAP BOOKS. F. TAYLOR has on hand a large and valuable collection of Books in every branch of Literature, Science, and Art; Law; Medicine and Surgery; Theology; History; Botany and Agriculture; Classical Literature and Translations; Poetry and the Drama; Geography and Mineralogy; Chemistry, Mathematics, and all other of the Practical Sciences; and which he offers for sale at extreme low prices—many of them at cost, some of them at less than cost, and in every case at the lowest price at which the same can be purchased in any of the Northern cities.

Purchasers ordering from a distance may rely on finding them at the case. The advertiser purchases from the Northern booksellers, but chiefly at the trade sales, (wholesale auctions,) where they lay in their supplies, and at the same prices with them. He is able, therefore, to sell at as small an advance as any bookseller anywhere in the United States, and willing to do so. This is known to all those who have taken the trouble to ascertain the fact.

Foreign editions he imports direct from London and Paris, buying them for cash in advance in those cities, and he offers them for lower prices anywhere in the United States than in his establishments.

A good collection of French books will be found with the advertiser, in which additions are constantly made; and also of the best authors in the Spanish, Italian, and German languages, with the best books of instruction in each, while on the subjects of History, Naval and Military Science and Service, Geography, and Mineralogy, Currency, Finance and Legislation, and on Engineering, Architecture and Mechanic arts, in all their various branches, as good collections are kept for sale in the United States as those which may be found at his store.

Orders from a distance, it may be relied upon, will be promptly attended to, and upon the same terms as if the purchaser were upon the spot.

Books, Stationery and Periodicals, or any thing else, imported to order from London and Paris. July 8
