A NARROW ESCAPE.

On Tuesday last, Mr. HUGH BAKER, one of the owners of the Ferry at this place, crossed the river in a skiff, and on returning was carried down the river by the most solid mass of floating ice, until near the sand bar opposite town, when the boat was crushed, and rendered useless. Mr. Baker succeeded in reaching the sand bar where he called for help for two hours before any one heard him. As soon as discovered, every effort was made to rescue him as speedily as possible. But such was the difficulty, on account of the ice being stationary about 40 feet from shore out, but not sufficiently strong to bear up a person and boat—in launching another boat, and getting it to him, that he remained on the bar exposed to the beating storm for over five hours, and when reached, was near frozen to death. Great credit is due all those who knew of Mr. Baker's perilous situation, for their efforts to save him. A number had hands, feet, and ears frozen. A young man named TIDWELL, rather thickly clad, was so near frozen to death that he was carried home, and medical assistance rendered necessary. The boat was finally pushed into the floating ice, and manned by HENRY HOFFMAN and J. J. AKIN, at the risk of their lives, and to whom too much credit cannot be given. Mr. Baker was reached and brought safe on shore, about 8 o'clock at night. Taking into consideration the furious storm, the intense cold, and condition of the river, we regard the escape, not only of Mr. Baker, as a narrow one, but also that of Mr. Tidwell, Hoffman and Akin.

SCHOOL.

It is gratifying to know that we are to have a good school here this winter. Mr. H. S. THORNTON, a competent teacher, opened a school on Monday morning last. By another session we feel quite confident that circumstances will be such that we will be favored with a school the entire year. The subject of education is an important one, and we are proud to announce that notwithstanding the many other pressing wants of a new and rapidly filling up community, that our people are wide awake relative to this matter, and are determined that our children shall have the benefit of good schools.

PRESIDENTIAL ELECTION.

All the States except California are now heard from. It has been generally conceded that Fremont at least, had no chance of carrying California, but that the State would go for Buchanan. At all events, the result cannot be changed which ever way California may go. The following are the majorities in the several States, as we learn from our exchanges: Missouri, it is believed, has gone for Buchanan by at least ten thousand majority. Virginia, by 18,000 majority. Kentucky by about 8,000 majority. Louisiana by 2,000 majority. New York has given Fremont, it is believed, a majority of 25,000. Maine by an increased majority. New Hampshire 1,000 majority. Vermont large majority. Massachusetts 25,000 majority. Connecticut 6,000 majority. Ohio by 30,000 majority. Michigan large majority. Iowa 1,000 majority. Wisconsin 1,500 majority. Maryland 10,000 for Fillmore. This is the only State he has got.

THE TOWN.

The town is designed as the Depot grounds for the Burlington and Plattsmouth Railroad, and the Shares by the acre are selling at \$260. Many of the citizens of Glenwood are trembling in fear of the results of this town opposition. Considerable interest is felt here in relation to the opening of the Land Office at Omaha Nebraska. The railroad interest is still encouraging to holders of real estate, and permanent residents of Mills county. Chester, at the Salt Springs, and Pawcove, on the Platte in Nebraska, are still sought for as being towns of considerable importance, as their turn comes. A division of land in Plattsmouth, N. T. took place here, a few days since, which has created some stir in the town market, and lots are on the rise. Yesterday five hundred dollars were paid for a half lot, and that, by no means in the most desirable portion of the town. Good prices are also offered and sometimes taken in many other parts of the town. Glenwood appears to be rather dull, at present, although there are several lively stocks of goods in town which shows that there must at some time be considerable trade. The snow here is about three inches deep, which makes unpleasant walking. Solomon is elected to the Constitutional Convention in this State, by about 16 majority over Farmer.

THE WEATHER.

The past week we have had a touch of Nebraska Winter in earnest, Monday was cold and rainy, that night it blew up cold, froze up tight and commenced snowing; Tuesday a regular snow storm prevailed all day—rendering it one of the most unpleasant days we ever witnessed. We notice a great deal of stock without shelter. Such weather is killing on unprotected stock. The river at this point is entirely closed. Teams have crossed the Missouri on the ice at Nemaha Gap. None we believe has ventured here, yet it is thought to be perfectly safe. Snow is about ten inches on an average, but has in many places drifted as many feet deep.

ST. GEORGE.

This is the name of a new town recently laid off in this county, about six or seven miles immediately West of Brownville, on the Little Nemaha river. It is in the midst of a heavy settlement, and we doubt not will make a flourishing little town. We will take occasion to speak further of St. George when we are possessed of more information in relation to it.

GETTING THEIR MONEY BACK.

Our Omaha correspondent says the successful candidate in that region are getting repaid at least a portion of the Oysters and Champagne they "treated to" before the election, by now having spears given them by their friends.—Fortunate fellows.

WHAT I LOVE.

I love when the glad spring appears, And don't her breath of green— When beauty breathes in all around, And lingers on each sound To hear the wild-bird's notes of love, Upon the fragrant air, Float gently up to the Throne above In the grateful voice of prayer.

I love when the cheerful summer comes, And the flowers burst forth to life, To wander far in the forest deep, Away from the never ceasing strife Of the struggling, heartless world; A way from its sorrow, toil, and care— Where zephyrs sport through the anemone boughs, And peace reigns every where.

I love when the winter sweeps along, With its glittering wreath of snow; And the Frost King's setting handiwork, As he buildeth a gorgeous show Of crannies and trees, on the window pane, Or treads a cascade wild career, Or a picture of Heaven and Love!

But I love the friendly offering best, Of a true and noble heart, When it freely seems to flow from the soul. Pure Nature devoid of art. Oh! then I feel that the world to me Is more happy and pure and bright; And there seems to glow on the path of life, A clearer—far holier light!

FIXED TREE.—A number of young men, who had imbibed rather too freely—probably to keep warm on such a cold day—on Tuesday last kicked up a row, and all hands pitched in. "It was a free fight," and they all wanted to be "counted in." Result—taken before Judge BENNETT and fined various amounts, according to their offences, when they all wished to be "counted out," no doubt. Boys, such conduct won't do, and "those who dance must pay the fiddler."

RELIGIOUS NOTICE.

Religious Services will be held in Brownville, on each Lord's day, at 11 o'clock, and also every Thursday evening at early candle lighting.

Brownville Market.

CAREFULLY CORRECTED EACH WEEK BY HOBLITZELL & CO. DEALERS IN PRODUCE. BROWNVILLE, N. T.

GROWN under the personal supervision of the subscriber, warranted true genuine seeds—enough of which will be sent to supply a large family, on receipt of price prepaid. CALIFORNIA MEX. MELON—A beautiful and delicious fruit. (Aristotelin.)... 25 cents. ORANGE WATER MELON—Peach-like fruit, the seed of an orange—very fine glass... 20c. GLASS LEMON—A beautiful little melon for preserves when green... 25c. CUCUMBER—Annual, and equal to the common—easily raised... 20c. FIVE FEET CUCUMBER—Very large and early... 25c. MAMMOTH PEPPER—... 20c. Or the whole lot for \$1.00, sent by mail to any address. JOS. H. L. ASHBY, at-ift. Plattsmouth, Clinton Co., Mo.

THE NEW COUNTY COMMISSIONERS.

Their first Session in this place on Monday last. Not much business of importance was transacted. A tax of 8 mills on the dollar on the taxable property in the County was levied for County purposes.

W. R. FURNAS, Esq.

DEAR SIR—COL. PARKER has arrived with the books of the Land Office, which will be opened in a few days for the transaction of business. It is a matter of much interest to those who desire to file declaration of intention to pre-empt, as it will not only save the dollars, but also relieve the settler of that usual anxiety attendant upon the entry of land, and the uncertainty of their papers being filed.—Now is the time for the squatter sovereigns throughout the Territory to settle all their claim difficulties, and disagreements as to lines and quantity, preparatory to their attendance in a body at the land sales to take care of their respective interests.

In this region of the Territory, the settlers contemplate appointing a Township or District bidder, to purchase the lands of individuals as they may be registered, in accordance with the club regulations in relation to the entry of claims. Court is yet in session, and much business has been done. The United States criminal, who has been under guard in this county for several months, cannot be tried in this District and it appears somewhat doubtful whether any of the Territorial Courts have jurisdiction in the case. Some think he should be court-martialed; others that he should be tried by Judge HARRIS; and others argue that he should be released for want of jurisdiction either by the Courts of the Territory or army.

A horse-thief had two indictments found against him, and he was sentenced to imprisonment in the Penitentiary for the term of one year, which is equivalent to putting the Sheriff in prison himself, for he will be compelled to keep him, as there is no prison in the Territory. This, it appears to me, will be a greater punishment to the officer than the criminal. Active preparations are being made for the assembling of the Legislature this winter.—The House is to meet in the third story of Root & Henry's brick block, and the Council in the second story, both of which will be sufficiently commodious to accommodate the respective Houses comfortably, and have sufficient room for a large lobby. Candidates are already making their bow to the several members of the Legislature, for posts in each House for the inferior offices. Before the election the candidates for the Legislature appeared to be anxious to relieve the wants of many of their constituency, in the way of oyster suppers and champagne. Now the programme is reversed, and they are taking a turn at snippers at the expense of others. Lively times are anticipated in the way of conflicting claims from different portions of the Territory.

The steamer Castle Garden, is now at the wharf discharging large quantities of freight for Omaha citizens. This, I learn, is the latest trip which has been made from below for several years. Produce of all kinds is on the rise. Corn selling readily at \$1 per bushel; potatoes \$1.25, flour \$6 to \$7 per hundred; beef at the market, 10 cents. I am off, and you will hear from me again at my first convenience, but from whence, I cannot tell at present.

THE INDIANS.

In a conversation this week with a Half-Breed, just from the North, we learn that the Sioux Indians were in Blackbird Hills and peaceful. The Pawnees had attacked a company of 27 returning Californians, killing 26, all but 1, and stole about 80 head of horses. The Omahas had just returned from their "Hunt," having had better success than ever before.

In offering the above Stock to our customers we beg to say it is superior in growth and quality to any heretofore offered, and persons wishing a supply can avail themselves of further information, by addressing the undersigned at St. Louis. Catalogues furnished to all post-paid applications. Respectfully, JOHN SIGERSON & BRO. St. Louis, Mo. v11n1-ly

Syracuse Nurseries.

THORP, SMITH & HANCHETT, PROPRIETORS.—Besides a general and extensive assortment of articles usually kept by Nurseries, we have on hand for the Spring trade, 100,000 Apple Trees, from 6 to 10 feet. 100,000 Dwarf Pear Trees, 2 years old. 50,000 Standard do from 2 to 4 years. 100,000 Cherry Trees, 1 to 2 years old, Dwarf and Standard. Peach, Plum, Apricot, and Nectarine Trees, in large numbers. 100,000 Raspberries, embracing every kind of any variety. All the popular as well as some kinds of other small fruit. Foreign and Native Evergreens—Norway Spruce, Pine, Cypress, Cedars, Ginkgo, Black Birch, White Spruce, Balsams, Hemlocks, etc., large, medium or small. Ornamental Trees, Roses, Shrubbery, Climbers, Hedge Plants, etc. Bulbous Roots, native and imported; Dahlias, Carnations, Knives, Chrysanthemums, Phloxes, all in great abundance, and of the most beautiful varieties. While we confidently claim for our productions in general an excellence not surpassed by any other Nursery, we particularly and emphatically designate our stock of Pear trees, both Dwarf and Standard, as unparalleled either in extent or quality, by any existing stock in America. The following notices refer to trees taken from lists of those now offered, when they were but one year old: From Thomas W. Field, Esq., an extensive dealer in and importer of Pear trees in New York: "The specimens are really splendid; the finest I believe I ever saw." From Robert Harrell, Esq., Mobile: "I have never seen finer trees." From Messrs. Deally & Brothers, Burlington, Iowa: "They are really the finest trees of their age we ever saw, and we have purchased a great many in the last week." As suggestive to persons about to purchase, we would remark that our trees were not subjected to the extreme cold during the last winter, which effected so extensive injury to Nurseries on the West, and that we have had no drought during the present summer by which the growth of our trees has been retarded. They will be relied upon, therefore, to be in prime health and vigor.

OUR CATALOGUES.

Will be sent post-paid to all who enclose for No. 1 a 10 cent stamp, and for the others a one cent stamp each. No. 1.—A general descriptive Catalogue of all our productions. No. 2.—A later edition of the Fruit Department of No. 1. No. 3.—A descriptive Catalogue of Ornamental Trees, Shrubs, etc. No. 4.—A descriptive Catalogue of Dahlias, Greenhouse and Bedding Plants. No. 5.—A wholesale Catalogue for Nurserymen and Dealers. Also a Supplementary Catalogue of the Ornamental and Greenhouse department. Also a circular on the Aquatic Rose. Syracuse, N. Y., Nov. 18, 1856.

CLAIM FOR SALE.

THE undersigned will offer for sale a fine Improved Claim, situated one mile west of Brownville, on the main road leading in that direction. The claim is nearly equal in size and value to the best timber. The improvements consist of a good double log house and twenty acres of corn under fence. A good barn and well as the premises in general, is determined to sell in order to go to California in the spring. For particulars call upon him at his residence on the above claim. J. W. BENNETT. Brownville, Nov. 22, 1856.-1v

NOTICE.

THE Partnership heretofore existing between I. G. W. Crow and J. M. Patterson, as Attorneys at Law, in the 12th Judicial Circuit, in the State of Missouri, was dissolved on the 29th day of July, by mutual consent. Those who have business entrusted to the firm, will have the joint attention of former firm to its completion, and those indebted to said firm, please call upon and settle with G. W. Crow, at his law office, west side of the public square, Oregon, Holt county, Missouri. J. M. PATTERSON. Oregon, Nov. 22, 1856.-5w

Catalogues furnished to all post-paid applications. Respectfully, JOHN SIGERSON & BRO. St. Louis, Mo. v11n1-ly

Syracuse Nurseries.

THORP, SMITH & HANCHETT, PROPRIETORS.—Besides a general and extensive assortment of articles usually kept by Nurseries, we have on hand for the Spring trade, 100,000 Apple Trees, from 6 to 10 feet. 100,000 Dwarf Pear Trees, 2 years old. 50,000 Standard do from 2 to 4 years. 100,000 Cherry Trees, 1 to 2 years old, Dwarf and Standard. Peach, Plum, Apricot, and Nectarine Trees, in large numbers. 100,000 Raspberries, embracing every kind of any variety. All the popular as well as some kinds of other small fruit. Foreign and Native Evergreens—Norway Spruce, Pine, Cypress, Cedars, Ginkgo, Black Birch, White Spruce, Balsams, Hemlocks, etc., large, medium or small. Ornamental Trees, Roses, Shrubbery, Climbers, Hedge Plants, etc. Bulbous Roots, native and imported; Dahlias, Carnations, Knives, Chrysanthemums, Phloxes, all in great abundance, and of the most beautiful varieties. While we confidently claim for our productions in general an excellence not surpassed by any other Nursery, we particularly and emphatically designate our stock of Pear trees, both Dwarf and Standard, as unparalleled either in extent or quality, by any existing stock in America. The following notices refer to trees taken from lists of those now offered, when they were but one year old: From Thomas W. Field, Esq., an extensive dealer in and importer of Pear trees in New York: "The specimens are really splendid; the finest I believe I ever saw." From Robert Harrell, Esq., Mobile: "I have never seen finer trees." From Messrs. Deally & Brothers, Burlington, Iowa: "They are really the finest trees of their age we ever saw, and we have purchased a great many in the last week." As suggestive to persons about to purchase, we would remark that our trees were not subjected to the extreme cold during the last winter, which effected so extensive injury to Nurseries on the West, and that we have had no drought during the present summer by which the growth
