

OWNERS WOULD CUT PURSES AT KINLOCH. Horsemen Offer to Subscribe Money to Pay Prizes in the Fifth Race.

TO CONTINUE \$400 PURSES. President Lucas Says the Plant is in Good Condition and Will Be Operated on Its Present Basis—Racing Results.

It was stated yesterday by horsemen at present operating their stables at Kinloch Park that they had been approached by Secretary of the racing association with a proposition which, if accepted, would oblige the winners of the four first races to subscribe by donation the \$400 purses in the fifth race.

To this the horsemen agreed, provided that such agreement and action should be taken under their own auspices with the Western Turf Commission, which governs racing in the West. This point has not yet been satisfactorily settled. Hence the matter will remain in abeyance for the present. The bookmakers always prorate the purse of the fifth race.

This means which impelled the track officials to request the winning horsemen to donate the purse for the fifth race are said to be the natural result of unprofitable operation. Since the Kinloch meeting opened it has been said by interested parties that it was not "making a barrel," judging by the operations of the Fair Association it could be seen that the new track could hardly make a great deal of money.

Just as it opened a new Turf Congress race, compelling race tracks in cities which issued a population of \$50,000 or upwards to pay \$400 purses, went into operation. This rule obtained for the first time in the first four races contribute \$30 each to the purse of the fifth race, the winner of which also contributing the fifth share of \$40 to make it \$100. The representatives of the horsemen told us that they spoke for every horse owner on the grounds, that they did not stand by a rule which would take away from the purse of the fifth race a sum of money which they felt they should properly stand part of any law. They proposed to have the money which they had contributed to the purses of the first four races stand as a fund for the benefit of the fifth race.

Mr. Lucas's statement. "Certain of our friends among the horsemen," said Mr. Lucas, "came to us and said that they felt that we were not making any too much money and that they felt they should properly stand part of any law. They proposed to have the money which they had contributed to the purses of the first four races stand as a fund for the benefit of the fifth race. We were naturally much pleased when asked what we would do in the event of such a proposition. We naturally replied that we would be glad to have the money which they had contributed to the purses of the first four races stand as a fund for the benefit of the fifth race.
