THE CHARLES GREEN REAL ESTATE CO.

BUYERS HAVE FLED FROM BOND MARKET.

Favorite Stocks Lose Life and Interest is Lacking Among Speculators. HOLDERS WANT A STIMULUS. New Securities Constantly Adding to Those Already on Hand, and a Stagnation is Threatened.

REPUBLICAN SPECIAL. New York, Jan. 12.—Stocks displayed much irregularity during the week, closing generally lower on a reduced volume of business.

The fact was made very apparent that public interest, so far as stocks are concerned, is entirely lacking, and that the market, if the January bull movement is to be developed, must be stimulated in some way.

Speculative Enthusiasm Chilled. A majority of the speculative contingent looked to the publication of the statement of earnings of the United States steel corporations on Tuesday to provide the necessary lever to lift prices.

It is believed that the steel market is still in a state of uncertainty, and that the market will remain flat until a more definite statement is made.

Stimulus Expected With Decision. Whether a favorable decision in the Northern Securities case will provide the stimulus which is much needed to attract the public into the market is a question which the market is waiting to see.

It is believed that the market will remain flat until a more definite statement is made.

It is believed that the market will remain flat until a more definite statement is made.

8538-LADIES' KIMONO DRESSING SACQUE WITH YOKE. 34, 38 and 42 inch bust.

FANCY DRESSING SACQUE.

It is Attractive, Durable and Comfortable. Ladies' Kimono Dressing Sacque With Yoke, No. 8538.

The mode illustrated affords ample opportunity for trimming in contrasting material which will be acceptable to the most discerning taste.

The mode is made of pale yellow cashmere, trimmed with velvet in a darker shade of the same color. The collar is made of white shoulder and underarm seams.

The fronts are trimmed with double bands of velvet, which roll gracefully at the neck forming the collar. They lap at the upper edge. Similar bands are used to finish the bottom of the sacque and sleeves.

The sleeves are shaped with inside seam only. They have comfortable fullness on the shoulders and flare widely at the wrists. The mode may be developed in figured silks of oriental design, and bands of plain silk for trimming should match the most prominent color. It is also appropriate for thin, serge, Henrietta or albatross.

To make the kimono in the medium size will require two and one-quarter yards of thirty-six-inch material, with one yard of contrasting material for trimming. The pattern, No. 8538, is out in sizes for a 34, 38 and 42 inch bust measure.

THE REPUBLIC PATTERN COUPON. LADIES' KIMONO DRESSING SACQUE, NO. 8538.

Be sure to give bust measure, name and address and mail with 10 cents to THE PATTERN DEPARTMENT OF THE REPUBLIC.

Large Increase in Ore Sales. Mining Industry in Southwest Missouri Again Flourishing.

REPUBLICAN SPECIAL. Joplin, Mo., Jan. 12.—The second week of the year followed the first week of the year in setting a precedent for the whole of the year in point of ore sales.

There was an increase of 292 tons over the preceding week, 771 tons over the second week of 1901, and 1,206 tons over the third week of 1901.

If these two first weeks of 1902 could be taken as a criterion for estimating the whole year it would place it far and away ahead of any year of record.

The average price for zinc ore for the past week, at an average of \$22.00 per ton, while this ore is sold at high prices in some districts, indicated that it is now selling at \$22 a year ago it sold at \$16 and two years ago at \$16 per ton.

The average price for lead ore for the week ending January 11, 1902, was \$19.99 in value larger than the average of the weekly values of 1901, and all comparisons with the two preceding years point out the probability that this year will exceed either in output and value.

The growth of the mining industry here that there was a sharp competition for the ore, and a practical monopoly of the ore, and a practical monopoly of the ore, and a practical monopoly of the ore.

Higher ore prices necessitates higher metal prices and with the large increase in consumption of steel, indicated by the returns of last year, the smeltermen can afford to sell show and demand better prices for their ore.

Following are the sales in pounds from the tracks of land owned or controlled by the week ending January 11, 1902.

BECAUSE SHE DID NOT LIKE TO WORK.

Emma Mann's Explanation for Her Mysterious Disappearance on New Year's Day.

Because she was compelled to do housework, Emma Mann, 27 years old, left the home of Archbishop Steyer, a restaurant keeper at No. 292 Easton avenue, New Year's Day, and her whereabouts were unknown to Mr. Steyer yesterday morning.

When the police, who had been called in seeking the child, reported her in the care of Mrs. Henry Smith of No. 209 Olive Street.

Mr. Smith said that he found the child in front of his home about 8 o'clock Thursday night and that she asked for employment and a home. The child told him, he said, that she had been with her mother, who did not want to go back because she did not like to work.

Mr. Smith then reported the matter to the police, and when Mr. Steyer asked them to look for her she was easily located.

Mr. Steyer went to the Smith home yesterday morning and asked Emma to return. She said she wanted to stay where she was, and he allowed her to do so.

Mr. Smith agreed to take care of her until after the first of February, when she would be returned to her mother. Mr. Steyer said that Emma could give no account of her whereabouts between New Year's Day and Thursday.

Mr. Steyer said that Emma would not help about the house and restaurant, and that she never had any work to do. "She was born and reared in a little town in Arkansas," said Mr. Steyer, "and never did anything but work for her mother, and when she came here she wanted to go to the high school. When she found out that she would have to go to the ordinary schools first she was greatly disappointed and refused to do so because she felt that she was too large to start in with the smaller children."

"The little girl is an orphan. Her parents died about two years ago and she went to the home of my sister, Mrs. Arthur Richter of Devo, Ark. She was a very good girl, and she was very fond of her mother. She was about two years old when she came to St. Louis, and she was very fond of her mother. She was very fond of her mother, and she was very fond of her mother."

"I am not the child's legal guardian, and I do not want her to go to any school. I want to take care of herself, and a home should be provided for her where she will be satisfied to remain. I have been advised to send her back to Arkansas, but there is no one there to whom she can go to present. My sister kept her as long as she could, and she has moved from the State since I returned to St. Louis. I am willing to care for the child, but I do not think she should be brought up in idleness. I would prefer to have her to school if she returns to my home."

ST. JOHNS, NEWFOUNDLAND.—The Colonial Legislature will meet February 12th at St. John's. The session of the present term received no request from the British Cabinet for the renewal of the franchise and the session which expired December 31, 1901.

PEORIA, ILL., Jan. 12.—The annual report of F. W. Arnold, grand secretary-treasurer of the Brotherhood of Locomotive Firemen, has been completed and is ready for publication. It shows a total membership of 72,000, and the net gain in membership over the year 1901 is 3,119.
