EAST SIDE NEWS.

ALL SOCIAL CLUBS TO PAY LICENSES

Internal Revenue Collector Powell Says Organizations Must Get Government Permission.

General William H. Powell, internal revenue collector at East St. Louis, yesterday notified social clubs and societies of Belleville that they would be expected to furnish him all information relative to the sale of spirituous liquors at entertainments held by these societies in the past, and that he would thereupon advise them as to their liability, if any, under the laws which prescribe the payment of a license, before liquors can be sold.

The letters have caused all sorts of excitement among the social clubs of Belleville, which have been in the habit of permitting or conducting the sale of liquors at their functions. This feature, it is said, is productive of more revenue than the sale of tickets.

General Powell quotes extracts from the internal revenue laws to the effect that a license of \$25 per annum is necessary before societies can sell or cause to be sold spirituous liquors at their entertainments, and further, that the borrowing of a stamp of license from a licensed dealer is not valid.

A reply in writing, which is requested to be specific on all points, is demanded. General Powell expects to demand of the societies who give these balls and entertainments to take out a license.

Stole From a Church.

Burglars entered the parochial residence of St. Mary's Church, Belleville, Friday night and stole several articles of small value. Father Sauer said yesterday that among the things stolen were two memorial cards which were the result of a collection, but which he valued very highly for their sentimental value. There is no view to their recovery.

LADY PASSENGER ROBBED OF JEWELRY

Mrs. N. W. Clayton of Salt Lake City Reported Loss of One Thousand Dollars in Valuables.

A woman who gave her name as Mrs. N. W. Clayton, and who said her home was at Salt Lake City, Utah, reported to the Alton police yesterday that she had been robbed of money and jewelry, amounting to \$1,000, on the Pacific State Express on the Chicago and Alton Railroad, while the train was running between Granite City and Alton.

A few minutes before the train pulled into the station at Alton Mrs. Clayton, who was going to Chicago, informed the trainmen that she had been robbed of a handbag, containing a diamond necklace, valued at \$800, gold watch and \$200. The woman claimed that she had the handbag as the train was pulling out of Granite City, but that was the last she had seen of it.

At Alton the train was held for several minutes while the woman went to the police station and made the complaint. Officer James Young boarded the train, and made a hurried search, and, not being able to find the missing articles, continued on to Springfield. Mrs. Clayton stated that she thought she had been robbed by pickpockets.

None of the passengers knew Mrs. Clayton, and she was not known to the train crew.

STARTS CAMPAIGN TO BEATIFY CITY

Civic Improvement League Elects Officers and Outlines Its Work.

GENERAL COMMITTEE NAMED.

Lectures and Literature to Be Used in Creating Sentiment—Municipal Reform to Be Urged Outside of Politics.

St. Louis will, in time, become a city to be proud of if the objects and aims of the St. Louis League for Civic Improvement materialize. This new league has been organized within the last month. The line of work it is taking up is similar to that followed in many Eastern cities where similar organizations exist.

Its aims and purposes are set forth in a pamphlet issued yesterday under the direction of the General Committee having the work in charge.

The St. Louis League for Civic Improvement is designed to unite the efforts of all citizens who want to make St. Louis a better place to live in. Its general purpose is to create a public sentiment in favor of better administration of municipal affairs, without in any way invading the domain of politics. The league will work for a strict enforcement of all the ordinances now existing that are designed to make the city clean, healthful and attractive. It will work for the enactment of such other ordinances as may be necessary to improve the city's appearance.

The league's purposes are not chiefly aesthetic, though they are in many respects. The general subject of city improvement, showing what has been, or is being, done in other cities, will be the subject of the work. The league will work for a strict enforcement of all the ordinances now existing that are designed to make the city clean, healthful and attractive. It will work for the enactment of such other ordinances as may be necessary to improve the city's appearance.
