

# THE ST. LOUIS REPUBLIC.

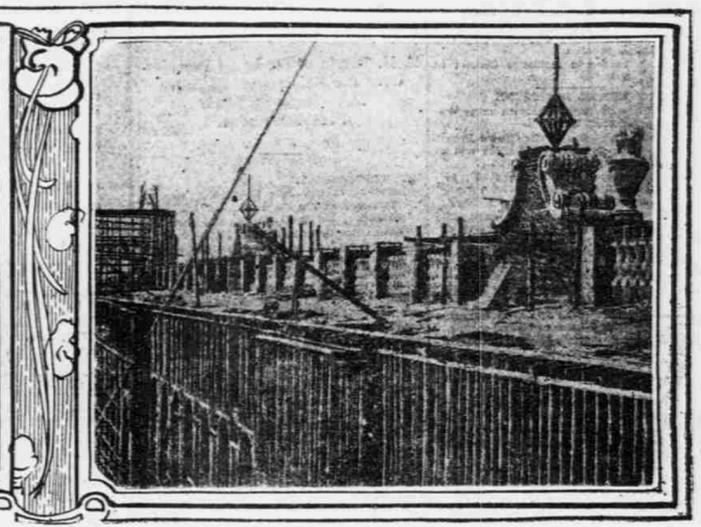

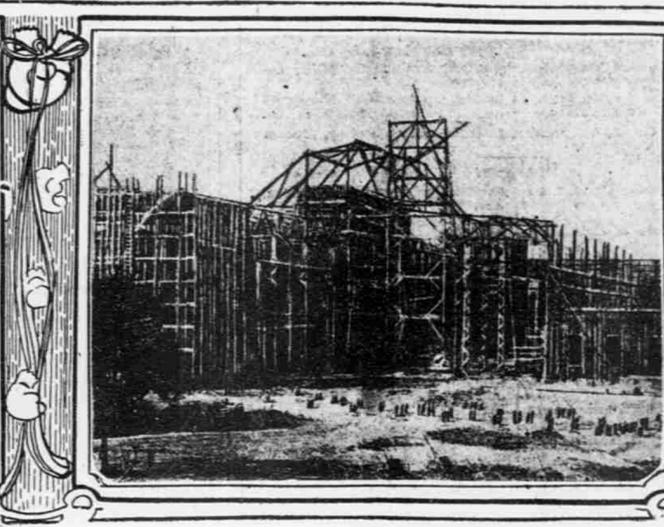

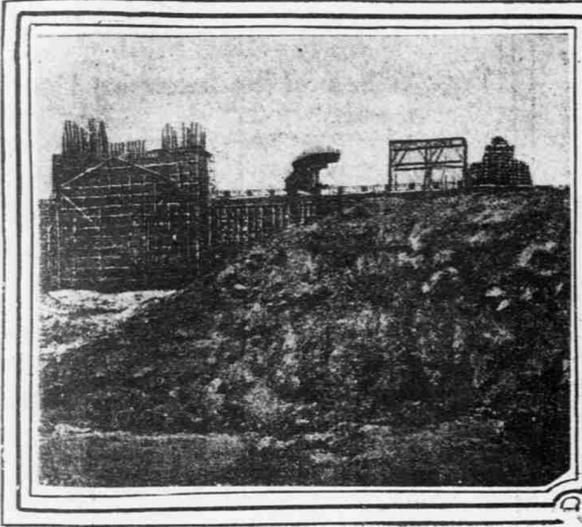

WORLD'S—1904—FAIR

NINETY-FIFTH YEAR.

ST. LOUIS, MO., MONDAY, JULY 14, 1902.

PRICE In St. Louis One Cent. Outside St. Louis, Three Cents.

## SKELETON AND STAFF WORK ON BUILDINGS AT THE WORLD'S FAIR SITE.

—By a Republic Photographer.  
Mound of rich, black loam in the foreground of the Palace of Varied Industries. The earth will be spread over that portion of the Grand Court where the Landscaping Gardeners will lay out the Sunken Gardens. The sky line of the east facade of the Varied Industries, along the court, appears behind the fertilizing mound.

—By a Republic Photographer.  
Roof trusses of the Palace of Textiles, as they appear set in place on the southwest corner of that building, ready for the covering to be laid by carpenters. The trusses are constructed of wood with steel braces. The "traveler" which lifts this construction from the floor is behind the roof structure.

—By a Republic Photographer.  
Staff ornamentation which is being placed along the cornice of the Palace of Varied Industries, by Alexander & White. The view is taken from the same height and shows the rear of the cornice with the broad wall inside of the staff balustrade, sixty-five feet from the ground.

### MINISTER WU IS RECALLED; YALE GRADUATE SUCCEEDS.

Sir Liang Chen Tung, Secretary to the Chinese Embassy at the Coronation of King Edward, Was Yesterday Appointed Chinese Minister to the United States—Wu Ting-fang Not Surprised, for the Reason That He Has Overstayed Usual Time Allowed to Chinese Minister.

Peking, July 12.—Sir Liang Chen Tung, secretary of the Chinese Embassy to the coronation of King Edward, was today appointed Chinese Minister to the United States. New Ministers to Russia, France and Italy have also been named. The selection for these posts show that the Dowager Empress continues to regard the diplomatic service as unimportant. None of the appointments is of higher than the fifth button rank, and none has held any important office. All of them except Liang Chen Tung are unknown to the foreign community. Liang Chen Tung's appointment pleases the Americans here. The newly appointed diplomat was educated in America. He is a graduate of Yale University and is able, dignified and honest. He is the first of the body of students sent to America in the '70s to receive recognition for their accomplishments. The Chinese officials having disliked them because of their progressive views.

**MINISTER WU WAS NOT SURPRISED BY NEWS.**  
Washington, July 12.—When The Republic's dispatch concerning the news of his recall was shown to Minister Wu to-night, he said he had already received a dispatch from a friend in China which stated as much, but that he had not yet received any official notice, nor did he know the particulars of the proposed change. "The whole matter is not news to me," he continued. "I have been here now five years, which is two years longer than the term Chinese diplomats serve, and it is now only proper that some one else should receive a chance." Minister Wu said he knew Sir Liang Chen Tung; that he had been a candidate for the Chinese mission in Washington for some time and was now first secretary to Prince Ching, who is the special representative of China appointed to attend the

### JOHNSTOWN VICTIMS NOW NUMBER 114

Day of Mourning in the City and Special Services in Every Church.  
Funeral of a Young Hero.  
Thousands Paid Tribute to the Memory of the Self-Sacrificing Youth Who Died That Others Might Live.

Johnstown, Pa., July 12.—After a consultation this evening with the four State mine inspectors summoned here to make a thorough inspection of the rolling mill mine of the Cambria Steel Company, James E. Roderick, chief of the State Bureau of Mining Inspection, dictated a notice to General Manager C. S. Price of the Cambria Company, granting formal permission to resume operations in all sections of the mine except the Klondike in the morning. The Klondike workings will likely be closed for several days, until perfect security is assured through the bracing of openings and repairs necessitated by the explosion. Two More Deaths.  
Two more deaths of rescued victims have occurred since last night. Early this morning John Sheer and Tessie Stibolla died at the Cambria General Hospital. These men were among the six living last brought out of the mine Friday afternoon, of which four others have died. These deaths raise the total fatalities to 114, although the company records have it one less. Much con-

### WILL NOT GIVE IN TO THE VATICAN

President and Secretary Root Decide to Insist That the Friars Must Go.

### MENACE TO GOOD GOVERNMENT

Reply to Pope, Which Will Be Transmitted Through Governor Taft, May Not Be Made Public Till Negotiations End.

### NEW CHINESE MINISTER EDUCATED IN AMERICA.

Washington, July 12.—Sir Liang Chen, the newly appointed Minister, is a comparatively young man, being only a little over 40 years of age. Like the present Minister, he is said to be a man of progressive ideas, whose opinions have been formed from his education, which was received partly in the United States, from his former connection with the Chinese Embassy here and from his contact with European civilization in the course of several special missions. Chen was one of the four parties of Chinese boys who were sent to the United States about twenty years ago for the purpose of completing their education. The idea of the Chinese Government was to have each of the boys spend fifteen years in this country, ten years in the preparatory schools and the remainder in the universities. Both Mr. Roosevelt and the Secretary of War deem it unwise that the friars should remain in the archipelago with the prestige they now possess. The attitude the friars assume is regarded not only as a menace to the peace of the islands, but also as a danger to the civilization of the inhabitants. Will Take a Strong Stand.  
No statement of the conclusion reached by the President and Secretary Root could be obtained at Sagamore Hill, but, unofficially, it is understood that a note is being drafted in response to that transmitted by the archbishop through Governor Taft to the administration. As Governor Taft stated in the negotiations, it is likely that the reply of this Government will be sent to the Vatican authorities through him. Ample assurance is given that the United States will take strong grounds in support of its contention that the friars must be eliminated from the Philippines. It is said that no official statement of any phase of the situation will be made public until the negotiations with the Vatican have been concluded, and that then the announcement will be made from Washington. Several handsome steam yachts from New York were in the bay to-day, among them the President's official yacht, the Mayflower, which came from the Brooklyn navy yard "under orders." Only her commander, Lieutenant Commander Albert Gleaves, and the President's knowledge definitely that those orders are. The vessel, which is one of the finest and most handsomely fitted in the naval service, has been undergoing repairs at the Brooklyn Navy Yard. These are not completed yet, and will not be for two weeks. It is said to-day that the officers and crew, numbering 141 men, were working on the repairs and improvements night and day. Miss Roosevelt Returns Home.  
Miss Alice Roosevelt arrived here this evening shortly before 6 o'clock. She has been enjoying a brief sojourn at Camp Sanger, on Newcomer Lake, in the Adirondacks, a few miles from the starting point of Mr. Roosevelt when he left the North Woods for Buffalo, after the death of President McKinley. Miss Roosevelt made the drive to the railroad from the camp, a distance of forty miles, in a hackboard, her driver being the same man who drove Mr. Roosevelt to that memorable midnight ride. SUN BATHS ALL THE RAGE.  
Bathers Lounge About on Hot Sand to Acquire Sunburn.  
REPUBLIC SPECIAL.  
Long Beach, L. I., July 12.—Sun baths have become all the rage here. Bathing suits are donned soon after 10 o'clock and in comfortable attire the bathers lounge about on the hot, white sand and acquire the highly prized sunburn, which so eloquently tells the story of the days spent by the seashore. Among those who enjoyed the beach to-day were E. F. Beach and J. Cady of St. Louis and J. K. Burnham of Kansas City.

### LEADING TOPICS —IN— TO-DAY'S REPUBLIC.

THE SUN RISES THIS MORNING AT 4:45 AND SETS THIS EVENING AT 7:25. THE MOON SETS TO-MORROW MORNING AT 12:28.

**WEATHER INDICATIONS.**

### WOMEN WORKING TO SECURE BETTER STREET-CAR SERVICE.

Are of the Opinion That the "Car Ahead" Imposition Is Confined to New York—Not to Be Discouraged.

REPUBLIC SPECIAL.  
New York, July 12.—Mrs. Catherine J. Wilson, president of the well known West End Women's Republican Association, who is one of the public spirited women engaged in the work for an improved surface-car system in this city, will propose at the next meeting of the Women's Committee that women delegates be sent to all the important cities of the United States to investigate the system in use in those cities, with a view to discovering some method whereby the crowded-car nuisance may be abolished in New York, and whether also the "car-ahead" imposition is not confined solely to New York, and in general to acquire information that may enable the women who have started the movement to offer authoritative suggestions to the Metropolitan Street Railway for the better accommodation of the public. The women are not at all discouraged because Orrin Root, an official of the Metropolitan Railroad, assured them that no improvement of the present conditions is possible, at a joint discussion of the subject, which he held with them recently. They are resolved not to let the matter drop with Mr. Root's discouraging statements. It is to remedy the lack of actual knowledge as to what is being done in other cities that Mrs. Wilson proposes the women shall do their own investigating. They are all women who have been engaged in philanthropic, educational or reform work for many years, and are accustomed to investigate and compile reports for presentation to the various societies and boards with which they are connected. Mrs. Mary Trautman, at whose house, No. 8 West Eighty-fifth street, the last meeting was held, will call another meeting within a week. The invitations are issued to presidents of the women's clubs.

### BIGGEST CIGAR IN THE WORLD.

Paymaster Bates of the Army Owns One Five Feet Long.

REPUBLIC SPECIAL.  
Washington, July 12.—Paymaster General Bates of the army possesses the largest cigar in the world. It is sixty-three inches long and as large around as a man's arm at the thickest section. Its composition includes twenty-two classes of Philippine tobacco. The huge cigar is the gift of Major W. H. Comings of the Pay Department, who sent it to the Paymaster General with this note: "I send you the largest cigar you have ever seen—at least the largest I have ever seen. It is made of a number of the finest brands of tobacco grown in the islands. This was manufactured at San Fernando de Union, in Union Province, P. I. The case is also a curiosity. It may be called a family cigar, as all smoke it, and the grandmother is supposed to finish it or the cigar to finish the grandmother."

### GRAIN OF CORN CAUSED DEATH.

It Had Been in Little Girl's Throat Several Days.  
REPUBLIC SPECIAL.  
Carbondale, Ill., July 12.—Addie, the 5-year-old daughter of O. P. Steed, residing in Hawthorne Township, in White County, was strangled to death by a grain of corn. "The child in play several days ago caught grains of corn in her mouth. As a consequence a physician was called to relieve her. No further uneasiness was felt by her family. Saturday she had a spell of coughing and died before medical aid could reach her. A post-mortem examination by Doctors Parker, Crockett and Allen showed that a grain of corn lodged in the larynx caused death by strangulation.

### CORONER'S VERDICT IS EXPECTED TO-DAY.

Secret Inquiry Into Manner and Cause of Rhodes Clay's Death at Mexico, Mo.

### INQUEST LIMITED IN SCOPE.

Barnes's Attorneys Not Permitted to Be Present—Thought of Asking for Mandamus, but Abandoned This Course.

### REPUBLIC SPECIAL.

Mexico, Mo., July 12.—The inquest over the body of State Representative Rhodes Clay, who was shot at this place Thursday by Clarence A. Barnes, a well-known young attorney, will be ended in the morning. Though proceedings were private, it is understood that the scope of the inquest was limited to the manner and means by which Clay came to his death. This means simply a verdict to the effect that death was caused by pistol shots fired by Clarence A. Barnes. The limitations set about the inquest by Coroner E. McD. Bridgford even prevented Attorney George Robertson and F. R. Jesse, who represent Barnes, from attending in the interest of their client. This method of procedure caused some criticism here, since feeling runs high in regard to the case, and every succeeding development is eagerly discussed. Attorney Robertson was at first prepared to protest against the Coroner's action, and to attempt by mandamus proceedings to insure his presence and that of Mr. Jesse at the proceedings. He said to-night, however, that while his protest had been drawn up he had decided not to file it, as he was assured by the Coroner of the limited range of the inquest. WILL NOT GO INTO MERITS OF CASE.  
Doctor Bridgford, when seen at his residence to-night, stated positively that he had no intention of probing the merits of the case to ascertain where lies the blame. The witnesses thus far examined are said to have spoken of medical matters altogether, the nature of the wounds and as to whether they were sufficient to cause death. To-morrow one or two witnesses will be asked whether they saw Clay fire, and that will conclude matters. Prosecutors Attorney H. L. Bickley has returned from Colorado and further steps will be in his hands. Attorney W. W. Fry will also be identified with the prosecution. Barnes still confined to his house with his wounds. He is under arrest, and guarded, but it is stated that he will not be able to appear in court for the preliminary hearing for several days. This will delay the progress of the case that length of time.

### WELL-KNOWN WRITER DEAD.

Mrs. Ada Eugenie Vrooman Leslie Dies in New York.  
New York, July 12.—Mrs. Ada Eugenie Vrooman Leslie, died to-day at her home in this city, after a lingering illness. She was born in 1846, and when only 15 years old was widely known by her contributions in prose and verse to the leading periodicals. She married Alfred Leslie, a son of Frank Leslie, after his death. Mrs. Leslie edited the "Lady's Bazaar" and a number of other periodicals. In recent years she assisted her son, Arthur and Frank, in organizing the Leslie syndicate.

### PREMIER SALISBURY RESIGNS; BALFOUR APPOINTED SUCCESSOR

Advancing Years and Ill-Health Given as the Cause for Retirement—New Prime Minister Is Salisbury's Nephew and Leader of the House of Commons, Which Post He Will Retain.

### RELATIONS WITH AMERICA MAY REMAIN UNCHANGED.

RIGHT HONORABLE ARTHUR J. BALFOUR.

### MAY NOT AFFECT AMERICAN RELATIONS.

Washington, July 12.—The appointment of Mr. Balfour to the English premiership will not result in any change in the existing relations between Great Britain and the United States. This is the opinion of the State Department officials, who express the opinion that Mr. Balfour will be as much disposed as was his predecessor, Lord Salisbury, to continue the friendly relations between the two countries.

### ADVANCING YEARS AND FALLING HEALTH.

On Friday last Lord Salisbury paid a private visit to the King and tendered his resignation, his advancing years and falling health being the reasons assigned. These began to take more definite shape a few months ago, the end of the war or the consummation of the coronation being mentioned as the probable time of resignation. At the same time the announcement which came as a surprise to the Unionist party, who did not expect it till late in the autumn. Advancing Years and Falling Health.
