DEEP INQUIRY INTO CHARGES OF CRUELTY

Several Official Investigations Are in Progress in the Philippine Islands.

GEN. MILES HEARS COMPLAINTS

Commanding Officer Also Asks General Bell to Explain Statements in a Circular Making Charges Against Natives.

Manila, Dec. 21.—Several official inquiries into charges of alleged cruelty to natives by soldiers are in progress throughout the islands. Some of these cases have been investigated previously.

When General Miles was at Lina, in the Province of Batangas, Luzon, certain natives laid charges before him that, during the campaign of reconcentration, American soldiers had committed acts of cruelty and violence.

General Miles referred the matters to General Davis, and the latter detailed Colonel Morris C. Post of the Twenty-ninth Infantry to investigate. Colonel Post found the charges of violence to be untrue, but it is believed he found in some cases that the water cure had been administered. His report will be sent to Washington.

Major Hunter said that native officials of the Philippine Islands had been charged with two of whom died from the effects of this treatment. At the time of this alleged occurrence, Major Hunter was serving in La Laguna; he reported the matter in a letter to Governor Taft, who informed General Miles.

An investigation was ordered and the deaths of the two prisoners who died were examined. In their report the investigators held Captain Hunter responsible for the deaths.

After leaving Manila General Miles sent a telegram to General Bell directing him to report what cases of alleged cruelty to natives he had seen in the Philippines. General Miles also directed him to report on the equipment and supplies of the troops in the Philippines.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits.

ASKS NEW EQUIPMENT FOR ILLINOIS MILITIA.

Adjutant General Makes Many Suggestions in His Annual Report to Governor Yates.

Springfield, Ill., Dec. 21.—The biennial report of Adjutant General Smith has been submitted to Governor Yates. It gives a detailed statement of the strength of the Illinois National Guard, its equipment, and makes recommendations which Adjutant General Smith believes will add to the efficiency of the service.

After detailing the various branches of the service and speaking in a general way of the equipment of each, the Adjutant General calls attention to the fact that while the arms with which the troops are equipped are of the latest make, the equipment, and especially the uniforms, are badly worn with long service and should be replaced, and new suits are badly needed.

Some of the troops have drilled and attended encampments in the same suits for three years, and the Adjutant General thinks the men should have new suits at once. In the same connection he expressed the opinion that the uniforms of the militia should be replaced.

Members of the National Guard uniform themselves at their own expense, and as many of them cannot afford to replace their uniforms, the Adjutant General suggests that the State should purchase uniforms for the militia.

The Adjutant General also suggested that the State should purchase uniforms for the militia. The Adjutant General also suggested that the State should purchase uniforms for the militia.
