

SOLDIER PLAYS "PEEPING TOM"

Fourth Cavalry Trooper Is Arrested by Carondelet Police.

The First District police held prisoner all day yesterday a young man who gave his name as Edward Bennett, and who said he was a member of Troop A, Fourth Cavalry, at Jefferson Barracks. He is believed to be a "peeping tom" as well as "Jack the Hunter."

The prisoner wore the uniform of a cavalryman. He was arrested at Minnesota and Robert avenues about 12:15 yesterday morning by Police Constables who were attracted to the scene by the firing of two shots.

Upon investigation Patrolman Maher learned that the Misses Margaret and Fannie Roach of No. 744 Michigan avenue caught a man in woman's uniform peeping in the window at them. They called their brother, William Roach, who fired two shots at the retreating figure, but, having just been arrested from his bed, could not follow him. The woman who was sister of Police Constable J. Roach, who lives at the same home.

The soldier had procured a ladder in the back yard and placed it against the side of the house, against the second-story window, into which he was peeping when discovered by the Misses Roach.

Police Constable Maher, upon further investigation, found that a soldier's uniform had been attempted to hug Mrs. Fannie Roach of 744 Michigan, who with her daughter, was on her way from a theater to the home of relatives at No. 816 Virginia avenue.

They were on the south side of Kruss street between Michigan and Virginia avenues at the time the woman was peeping. The man was only seen for a few moments before he disappeared. The woman who was peeping was caught a few minutes after a soldier playing "Peeping Tom" on the ladder at their home.

Misses Margaret and Fannie Roach and Mrs. Bennett and her daughter called at the First District police station yesterday morning and positively identified Bennett. They declined, however, to appear in court against him, stating that they wished to avoid notoriety.

Captain P. J. Bennett kept Bennett a prisoner until 5 o'clock last night. He was turned over to a guard from Jefferson Barracks, who took him to the guardhouse. The commander of the Barracks, assured Captain P. J. Bennett would be severely dealt with.

Bennett said he was drunk and says he does not remember having committed any of the offenses attributed to him.

MAKE YOUR MONEY WORK.

Do you realize that if your money is invested in the 6% Guaranteed Stock of the University Heights Realty & Development Co., with which you receive 25% in Common Stock free, your profits will be as follows:

First you would receive your money back with 6% interest. Then if it takes us two and a half years to work out our plans your profits would be from 200% to 300% per year. If it takes five years, you would get from 100% to 200% per year. If it takes ten years, you would still receive from 50% to 100% per year. Should it take us TWENTY years to carry out our plans, you would still receive from 25% to 50% per year, and not have a cent of your own money invested. If the price of fine residence property advances as we believe it will, these profits will be doubled. You cannot lose your money, as it is secured by the best security that you can have, a blanket mortgage on fifty city blocks of high-class residence property, at a valuation of \$10 per front foot, 200 feet deep.

The banks have already loaned us the same amount that we are asking you for, on this same piece of property, and would like to keep the loan. It is probably your money that they have loaned us anyway, and if you and we can get together, you can get the whole 6% instead of half of it, and have the same security that the banks now have. In addition to this the extra hundred thousand dollars is to be spent in improving the security. No one has questioned the Safety of the investment; the only question was whether we would do as we agreed to. We have removed that question by making the largest and strongest bank in the West, The National Bank of Commerce, Trustee for you and your money, to see to it that it is used only for the purposes of paying off the present mortgage and of making the land into the finest private residence park in the West.

Whether you have \$10 or \$10,000 to invest, you will never get another opportunity like this, as they do not happen often. If we had been rich enough ourselves to carry out the whole deal you would not get this chance. Money in a vault or old sock doesn't work for you. Money invested in this enterprise works night and day for you.

If you had invested in a tract of land west of King's highway ten years ago you could to-day sell it for as much per foot as you paid per acre. We expect to do better than that with University Heights. Six fine building lots have already been sold to prominent St. Louisans, who know this will be the finest residence site in the city, and who will build houses costing from \$15,000 to \$25,000 each the moment the improvements are complete. A large part of the stock has been subscribed—some of it by out-of-town bankers. Do not put it off or you will be just too late.

Call and see us and let's talk it over. You can invest one share or 100. It is \$10.00 per share, with 25% in Common Stock free.
