

GOVERN MOROS
FAMILY BY STRONG ARM

Captain Pershing Says Military Government Is Only Possible One for a Long Time.

SLAVERY A DELICATE SUBJECT.

Declares It Should Be Untouched Until It Is Better Understood—Has Been Successful Among Wild Tribes.

Washington, March 28.—Captain John J. Pershing, Fifteenth Infantry, who has been in command of the Moro country, has written a letter, under date of Camp Vickers, January 23, to a personal friend in the War Department, in which he gives in detail many interesting facts in connection with the disturbance in Mindanao and his own work for the Moros.

Captain Pershing says that, after he was placed in command of the Moro affairs by General Davis, because he (Pershing) apparently could get along with them, he worked on the theory that it is necessary to establish mutual confidence between the Moros and the United States, "if we are to govern them without a lot of trouble." He endeavored to demonstrate to them that the United States is their friend, having no desire to carry them off into slavery or to take anything belonging to them without paying for it. This, he writes, is all contrary to what they have been accustomed to in the past.

SPANISH METHODS.
The Spaniards and the Moros were not very jealous of their religion, and the Spaniards tried to civilize them by seizing and baptizing some of them. There were atrocities committed on both sides, as a result of these differences.

Captain Pershing says that the Moros do not realize any other kind of a government than a one-man government, and he has been able to keep all the promises he has made, which enabled him to be more successful in convincing them. They regard him as representing the President of America, and are somewhat uneasy as to what he is going to do.

The question of slavery is intimately connected with their religion, and is something of a vasallage or serfdom, and not as they know it in this country. He thinks it is a subject that should remain untouched until it is understood better.

The Moros, he writes, should have a government, which they can understand, and it should be the policy of the United States to let it alone, but to make each Sultan and Dato responsible for the acts of his people.

"We cannot afford," he says, "to tear down their established way of government without giving them something better, and I fear it will be a long time before this can be done."

ARE STaunch FRIENDS.
The Macia campaign has had a convincing effect as to the impossibility of any more escaping to the mountains, when they commit depredations. Captain Pershing says the Moros have some admirable traits of character. "Once a friend, they all go to the limit for you," they are industrious, and have splendid rice fields and other agricultural crops. The country capable of great things from an agricultural standpoint. The country is somewhat like Idaho. Valley and the whole district can be compared to that about Lake George.

Captain Pershing says that he believes the troops could march around the lake now and be received in a friendly spirit everywhere except the Moro country. A number of reliable secret-service Moros, who have informed him of the conditions and feeling among the Moros, are of the opinion that this is an achievement he would be proud of, and is almost ready to promise it, adding, "though we may encounter some old hard-headed savages, to whom we shall have to administer a severe lesson in order to teach him and others what we can do."

Chief Soto Is Said to Have Planned a Revolt Against the Mexican Republic.

REPUBLIC SPECIAL.
Phoenix, Ariz., March 28.—Leaders of the Yaqui Indians are attempting to incite another rebellion, which is to be more extensive than any previous Indian war in Mexico.

REPUBLIC SPECIAL.
Pittsburg, March 28.—A split is threatened in the Homewood Avenue Presbyterian Church, one of the richest in this city, over a boxing match that took place in the basement of the church, Thursday evening.

"Our people," he said, "have had a standing grievance against the Mexican Government for generations, but the Government has seldom committed an overt act which in itself would have provoked an uprising. Most of them have grown out of differences with American miners, which have been settled in the Mexican courts."

WOMAN'S WISDOM.

Experience is our best teacher, and it is only through experience that women generally gain a knowledge of themselves—from maidenhood to womanhood. The change involves the whole body and the future health, yet during these epochs many a woman is left without the necessary medical advice she should have. Dr. R. V. Pierce, a specialist in the diseases of women and the head of the famous Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., says that many a woman traces back a prolonged existence of invalidism to exposure and lack of care during the period of her early life. Too much brain work and little exercise out-of-doors also predispose to womanly disease.

The woman who neglects her health is neglecting the very foundation of all good fortune. For without health love loses its lustre and gold is but dross. Womanly health may be retained or regained by the use of Dr. Pierce's Favorite Prescription.
Sick women are invited to consult Dr. Pierce by letter free. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.
The proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Protrusion, or Falling of the Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.
"I am glad to be able to testify as to the merits of Dr. Pierce's Favorite Prescription for the many ills that women suffer with," writes Miss Gertrude Mitchell, President Young Ladies' Christian Endeavor Society, 43 Columbia Street, E. Detroit, Mich. "After many years of suffering and pain I took your medicine, and in a short time began to feel better. It became more regular, and didn't have the pains which had been my lot for so long. Continued its use until I
