HUSBAND CHARGED WITH WIFE'S DEATH

Herbert Cromer, a Coal Miner, Alleged to Have Mistreated the Woman Bearing His Name.

Herbert Cromer, a coal miner of Marissa Ill., was arrested yesterday on a mittimus issued by Coroner McCracken holding him responsible for his wife's death by alleged mistreatment of her.

Much excitement was occasioned at Madison after the testimony brought out in the inquest was made public. Coroner McCracken issued the mittimus for Cromer's arrest and it was served by Sheriff Wash Thompson.

Cromer denies that he in any way injured his wife and declares that the charges against him have all been fabricated up and that he will be able to prove that they are without foundation.

Statements were made before the Coroner's jury by a sister of Mrs. Cromer that Cromer had on several occasions almost smothered his wife by placing pillows on her head and then sitting on top of her.

The alleged mistreatment, it was said, had been severe prior to the birth of a child six weeks ago and that she had never recovered from this alleged ill treatment.

PACKERS APPLY FOR INJUNCTION

Wish to Prevent City of Chicago From Interfering With Employes' Housing.

Chicago, Aug. 22.—The packers to-day asked for an injunction preventing the city of Chicago from interfering with their housing of employes in their plants during the continuance of the strike.

The injunction was asked in the name of the Hammond Packing Company, and insisted that the companies were violating no law and were acting entirely within their rights.

The attorneys for the city charged in their reply to the application for the injunction that the building of the Hammond Company does not contain the requisite number of fire walls, stairs or windows called for by the ordinances; that the second floor, with but one flight of stairs leading from it, contains 130 cots, and that the danger from fire is constant and immediate.

FILIPINOS RECEIVE CERTIFICATES.

State Document Attests That Antonio and Feunido Visited Roosevelt.

Chief Antonio of the Igorrotes and Datto Feunido of the Samal Morar have received the reward of virtue which came in yesterday morning's mail for them.

These were the certificates from Washington, D. C., signed by Colonel Clarence R. Edwards, chief of the Bureau of Insular Affairs, attested by Secretary of War Taft.

This state document bore witness to the fact that these two actions of Philippine nobility had visited their great and good friend, the President of the United States, at the executive mansion at his invitation and accompanied by the Secretary of War, and that the President had greeted them with the warmest and most cordial of welcomes.

Antonio and Feunido were properly pleased at this evidence to show incredulity on the islands of their visit to Washington, D. C., and their reception by the President, and greatly admired the blue ink and red wax seal of the War Department that ornamented the document.

Antonio was in great glee when he received his certificate. He promised that he would make a special journey to Washington, D. C., and that his reception by the President, and greatly admired the blue ink and red wax seal of the War Department that ornamented the document.
