

THE ROOT OF THE MATTER.

He Cured Himself of Serious Stomach Trouble by Getting Down to First Principles.

A man of large affairs in one of our prominent Eastern cities...

In his own words he says: "I consulted one physician after another, and each one tried to understand my case, but all the same they each failed to bring about the return of my former digestion, appetite and vigor."

"Friends had often advised me to try a well-known proprietary medicine, Stuart's Dyspepsia Tablets, and I had often purchased the newspaper advertisements of the remedy, but never took any stock in advertised medicines nor could believe a patent medicine would touch my case."

"To make a long story short, I finally bought a couple of packages at the nearest drug store, and took two or three tablets after each meal, and occasionally a tablet between meals when I felt any feeling of nausea or discomfort."

"I was surprised at the end of the first week to note a marked improvement in my appetite and general health, and before the two packages were gone I was convinced that Stuart's Dyspepsia Tablets was going to cure me completely, and they did not disappoint me. I can eat and sleep and enjoy my coffee and cigar, and no one would suppose I had ever known the horrors of dyspepsia."

"Out of curiosity I wrote to the proprietors of the remedy asking for information as to what the tablets contained, and they replied that the principal ingredients were aseptic pepsin (Government trademark), malt diastase and other natural digestives, which digest and regulate the condition of the stomach."

"The root of the matter is this, the digestive elements in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nervous and whole system receive the nourishment which can only come from food; stimulants and nerve tonics never give real strength; they give a fictitious strength, invariably followed by a more serious condition of blood, every nerve and tissue is manufactured from our daily food, and if you can insure its proper and complete digestion by the regular use of good and wholesome a remedy as Stuart's Dyspepsia Tablets, you will have no need of medicine and sanitariums."

Although Stuart's Dyspepsia Tablets have been in the market for many years, yet probably every druggist in the United States, Canada and Great Britain now sell them, and consider them the most popular and successful of any preparation for stomach trouble.

President Francis, in Addressing Association, Explains Why No Distinction Has Been Made.

Over 200 members of the Association of Collegiate Alumnae, representing colleges in every part of the United States, assembling for the twenty-third annual convention yesterday, were welcomed by Mrs. Philip H. Moore of St. Louis, the president of the organization, by President Francis of the Exposition, and by Mrs. William Trelease of St. Louis, president of the local branch.

The response to the greetings of Mrs. Moore and President Francis was made by Miss Florence M. Cushing of Boston, vice president of the association. At the conclusion of the introductory meeting of the convention the members adjourned to the Lady Managers' building, where they were entertained by the Board of Lady Managers at a reception given in their honor.

The session yesterday afternoon was devoted to routine business, and in the afternoon the members will discuss the question of "The Association and Its Branches."

Thomas Ryan, employed by the Laclede Gas Light Company, was seriously injured last night in a collision between a street car and a Pape avenue car at the corner of Pape avenue and Kings street.

Knox has Large Audience at Virden. Virden, Ill., Nov. 3.—Former State Attorney E. E. Knotts of Carlinville addressed a large audience at the opera-house here to-night on the Democratic issue.

Chief Swingley's ability to save the city money, not only in building engine-houses but in other matters as well, is not to be unwarmed and soon the tool and clang of an automobile will take the place of the pounding hoofs of his horses as he responds to a fire alarm.

JOINT CONFERENCE ON STRIKE TO-DAY

Operators, Engineers and Miners to Meet at Springfield to Adjust Differences.

MINERS RETURN TO WORK. Action of Board Meeting Yesterday Is Secret, but It Is Believed a Decision Was Reached.

REPUBLIC SPECIAL. Springfield, Ill., Nov. 3.—The operators, engineers and hostling engineers will hold a joint conference here to-morrow afternoon, which it is expected, will determine the future conduct of the existing strike of the engineers.

The call for the conference resulted from the meeting of the Executive Board of the United Mine Workers, with the seventy-six subdistrict presidents of the miners here to-day.

The conference was secret, and nothing was given out concerning it. However, it is known that the miners have a line of action along which they are working, and if they seem to hold the whip hand in the strike, probably will dictate the final termination of the engineers' struggle.

The miners' first contention is that the engineers affiliate with the United Mine Workers, and after that arbitrate their differences with the operators.

The miners do not favor the present suspension at a busy season, and want to return to work. If the engineers will not affiliate and arbitrate, it is almost certain the miners will return to work, leaving the operators to hire new men to host the coal.

The only restriction will be from the State law, which provides for licensed engineers.

The operators say the State law will not trouble them in securing new men, because there are hundreds of licensed engineers who have not been able to secure engineering jobs, and these men will be willing to work, and will join the United Mine Workers.

President O. L. Garrison of the Illinois Operators' Association at once accepted the request for a conference. President Mack Taylor of Danville accepted the conference invitation for the engineers.

Chicago, Nov. 3.—Word reached Chicago to-day that 4,500 mine workers have returned to work in the soft coal mines at Minonk, Rutland and Marquette, engineers having been secured to take the places of the hostling engineers on strike at those points.

Three thousand men at Spring Valley are also reported to have been given employment. The engineers are said to have been recruited from the ranks of the United Mine Workers.

LITCHFIELD CONDITION SERIOUS. REPUBLIC SPECIAL. Litchfield, Ill., Nov. 3.—The effect of the hostling engineers' strike has reached an alarming point for the city of Litchfield.

It is estimated that it now amounts to a loss of \$1,000 per day in wages alone, to say nothing of the loss in profits and the inconvenience to coal users of soft coal.

The strike situation here remains unchanged, the contracting parties being no nearer a settlement than when the strike broke out. The third day of the strike sees the Pinesley & Spaulding boiler plant working at full capacity, and the city is well supplied, out of employment. The pay roll of this one factory amounts to \$1,800 per week.

Unless coal is rushed to the local plants every factory in the city will be shut down in a few days, it being said that not a factory here has enough coal on hand to run a week. The Litchfield Tile Works is on the verge of closing for the want of coal, it is said.

The miners claim that they are willing to go to work immediately if they had an engineer. But at present there is no likelihood of a resumption of work.

The operators say that they will be noticed when, out of the forty coal mines in this immediate section, but one, and that at a price, will be able to furnish locally not a bushel can be bought at any price.

SIGN TEMPORARY SCALE. REPUBLIC SPECIAL. Danville, Ill., Nov. 3.—Several of the local mines here have signed a temporary scale for their hostling engineers and are working to the full capacity. The operators have refused to meet the demands of their engineers. There is a strong feeling of ill-will between the two, though the miners are evidently not in sympathy with the strikers.

DOES NOT AFFECT EQUALITY. REPUBLIC SPECIAL. Equality, Ill., Nov. 3.—The hostling engineers' strike will not affect this field. All shipping operators have signed the scale.

PULLMAN COMPANY AIDS. Sends Check for \$600 to Families of Dead Detectives.

Mayer Wells received a check for \$600 from the Pullman Company of Chicago yesterday to add to the relief fund for the families of John J. Shea and Thomas Fwyer, the city detectives killed in the raid on bandits at No. 124 Pine street.

The explanatory letter also included the family of John A. McClusky, the other city detective, also killed in the same raid, but as the latter family has asked to be excluded from the benefits of the entire sum will go to the other two families.

The letter was signed by Robert Lincoln, attorney for the Pullman company.

Detective Lee Killian yesterday forwarded to Chief Kieley \$25, the proceeds of a benefit given at the West End club for the fund for the families of the detectives killed in the Pine street battle with train robbers, October 21, Charles B. Gerhart of No. 444 Forest Park boulevard yesterday sent a check for \$25 to Chief of Police Kieley to be applied to the same fund.

Lieutenant Struck by Car. Thomas Kieley, a lineman employed by the Transit Company, was struck by an Olive street car while crossing the street on Delmar avenue near the sheds last night and seriously injured. He was thrown to the street, sustaining a fracture of the skull. He is 26 years old and lives at No. 224 Lucas avenue.

Babe Found on Doorstep. An infant six weeks old, was found last night on the doorstep at No. 242 Pine street by the police. The babe was dressed in expensive clothing, and was with the letter in the patrol wagon called, and it was removed to St. Ann's hospital.

PITTMAN-McDONALD. Douglas, Ill., Nov. 3.—Mrs. H. Pittman, a contractor of Belleville, and Mrs. E. McDonald, one of the proprietors of the Central Hotel, were married here last night.

Visitors to the World's Fair

Are most cordially invited to visit this store. In no way can you spend a more profitable or pleasant hour. Barr's is the largest department store west of the Mississippi.

On four streets—Sixth, Seventh, Olive and Locust. All cars transfer direct to our doors.

\$40,000 Worth of Fine Furs Bought by BARR'S At 60c on the Dollar. Sale Starts This Morning.

MINERS TO MEET OPERATORS TO-DAY

Conference of Engineers and Illinois Association at Springfield May Settle Coal Strike.

THIRTY COMPANIES RESUME. Work of Independent Mines. Strikers Believe, Will Force Employers' Organization to Sign Wage Scale Demanded.

Word was received in Belleville last night that a conference will be held at Springfield, Ill., this afternoon between the Executive Board members of the Illinois Operators' Association and the Executive Board members of the National Brotherhood of Coal-Hostling Engineers of Illinois.

The receipt of the news was the cause of much pleasure on the part of the striking engineers and the coal miners who have been out of work as a result.

According to prominent engineers of the Belleville division, they believe that the conference will end in an accession to their demands by the Operators' Association.

They point to the fact that they are receiving news daily of the members of the Operators' Association who have signed the scale and who are now working their mines. They say that only some of the operators are holding out, and they believe that they will be able to convince the holdouts for the scale.

According to reports at engineers' headquarters in Belleville yesterday, thirty-eight out of seventy-five engineers in St. Clair County are at work, which they say indicates that the coal production of the county is nearing its normal stage.

Several of the members of the Operators' Association signed the scale yesterday. Almost all of the independent mines are at work and the mines owned by members of the Operators' Association which have signed up and are at work are Fairman, Belleville, Lenz and O'Fallon, Superior, Valley, L. D. Jones's Marissa and the Oak Hill mines.

A total of twenty-two companies are working their mines. There are thirty mines now at work.

News from Cottleville yesterday was to the effect that nine out of sixteen of the engineers there are at work and at Collinsville all of the mines are idle. These are the big association mines.

Although considerable coal comes into the market at East St. Louis yesterday, it was taken up as quick as it arrived at the local dealers at a price of \$2.50 a ton on track, and several retail orders in East St. Louis were filled by local dealers at 14 cents a bushel. Dealers advised their customers to hold off, as they do not think that the strike will continue for any length of time, and believe that, even if it does, the production of coal from the independent mines and those of the Operators' Association which have signed the scale will cause the price to decline.

Lieutenant Struck by Car. Thomas Kieley, a lineman employed by the Transit Company, was struck by an Olive street car while crossing the street on Delmar avenue near the sheds last night and seriously injured. He was thrown to the street, sustaining a fracture of the skull. He is 26 years old and lives at No. 224 Lucas avenue.

Babe Found on Doorstep. An infant six weeks old, was found last night on the doorstep at No. 242 Pine street by the police. The babe was dressed in expensive clothing, and was with the letter in the patrol wagon called, and it was removed to St. Ann's hospital.

PITTMAN-McDONALD. Douglas, Ill., Nov. 3.—Mrs. H. Pittman, a contractor of Belleville, and Mrs. E. McDonald, one of the proprietors of the Central Hotel, were married here last night.

PARKER ASSAILS STANDARD OIL

Says That Trust Is Doing Its Utmost for Republican Success.

REPUBLIC SPECIAL. Hartford, Conn., Nov. 3.—Connecticut's welcome to Judge Parker reached an impressive climax to-night in a tremendous meeting that packed the Hartford Opera-house from pit to dome. An hour before 8 every seat in the auditorium was occupied.

But the throng kept pressing in until the aisles, the galleries and every vantage point available for shouting room was filled. Then the doors were closed, and hundreds went away unable to get inside.

There were 8,000 persons within sound of Judge Parker's voice when he addressed himself to the Democracy of Hartford. It was a brilliant culmination of a day which had begun amid cloudy skies, with a somewhat chill reception in Bridgeport, which had warmed up perceptibly at New Haven, where the sun came out, dispelling the clouds of the morning, and which in a five-minute address at Meriden from the rear of the train, had been made memorable by a single declaration.

In that declaration Judge Parker explicitly named the Standard Oil Trust as one of those which are doing their utmost for Republican party success. In view of widely published reports of the Standard Oil Company's sympathy with Judge Parker's cause, this utterance caused a distinct sensation. It was made in the course of a speech which was entirely extemporaneous.

At Meriden Judge Parker, for the first time in Connecticut, had discarded the use of manuscript. His delivery there was so forceful that many who heard him wondered why he had not launched out more independently of written notes heretofore.

CROWD PACKS EVEN STREETS. When Judge Parker arrived at the opera-house from dinner at the Hartford Club the vast audience had been patiently waiting for an hour and a half while a band discoursed popular music. Outside the building the candidate's arrival at the opera-house was greeted by a throng of seven minutes past 8 Judge Parker walked upon the stage. With one impulse the audience arose, waving flags and handkerchiefs. The tribute became overwhelming. Continuous cheering had lasted just ten minutes when the band broke in with "Dixie." The cheering was renewed while Judge Parker stood bowing and smiling, and at last quiet prevailed. It was four minutes after the candidate's arrival when Park Commissioner Charles F. Gross, chairman of the meeting, was permitted to introduce Judge Parker. This time the audience contented itself with three ringing cheers.

STEVENS ON SPEAKS IN INDIANA. Hundreds Are Unable to Hear Former Vice President.

REPUBLIC SPECIAL. Princeton, Ind., Nov. 3.—Former Vice President Adlai E. Stevenson delivered a great speech here to-night in the Odd Fellows temple. Hundreds failed to gain admission to the big hall.

Democrats and Republicans came from all parts of Southern Indiana to hear him. This is the second speech he has made since his campaign.

CODY OUTLAW GAIN ADVANTAGE

Robbers Reach the Bad Lands, and May Secure Reinforcements.

Cody, Wyo., Nov. 3.—A telephone message from Basin, the county seat, says that Sheriff Fenton and posse are in the Bad Lands over near Thermopolis, a long distance from telephone.

This forenoon Fenton sent a man back to the nearest telephone station to report to Basin that he and party had the outlaws located, and expected to get them to-day.

The bandits are getting among friends and it is thought that the Sheriff's party will have some hard fighting on their hands.

It is reported that a large force of the bandits' friends are coming to their assistance from the Hole-in-the-Wall country, and several men have left here to re-inforce the pursuers.

UNITED STATES TROOPS HELD IN READINESS FOR OUTLAWS. Lander, Wyo., Nov. 3.—Preparations are being made by the military authorities at Fort Washakie to have the two troops of the Tenth Cavalry stationed there take the field at a moment's notice in pursuit of the two Cody outlaws. The bandits are within a few miles of the boundary of the Wind River Reservation, and if they succeed in eluding their pursuers will cross over into the Indian reservation onto Government land. In this event, the colored troopers from this post will join in the man hunt.

DAVIS SAYS ALL TRUSTS WORK FOR THE REPUBLICANS. Keyser, W. Va., Nov. 3.—When Candidate Davis reached Ridgely to-day the West Virginia Central machine shops were closed down for twenty minutes that the men might hear him. Mr. Davis said when President Roosevelt came into power times were prosperous, but ever since then times are growing worse, very much worse. Under McKinley, he said, there was an overvalued treasury, containing a surplus of fifty-four million dollars. Now there is a deficit of forty-two million dollars, and the amount is growing larger. In speaking here to an audience which filled the Music Hall, Mr. Davis said the trusts were all kept up by the tariff.

"Although," said he, "as you know, I am not a free-trader, I think the tariff on special things that foster the trusts should be decided to remove the Methodist Orphan's Home from Water Valley to Jackson, Mo., the indentment for removal was a bonus of \$50,000, offered by the people of Jackson. The home was burned down July 11, 1894."

Decide to Remove Orphan's Home. REPUBLIC SPECIAL. Memphis, Tenn., Nov. 3.—After a secret session of eight hours the Board of Control decided to remove the Methodist Orphan's Home from Water Valley to Jackson, Mo., the indentment for removal was a bonus of \$50,000, offered by the people of Jackson. The home was burned down July 11, 1894.
